GoPro
Be a HERO. ■■■■GOPRO® FETCH DOG HARNESS MOUNT **NEW**

- Capture the world from your dogs perspective, from running and jumping, to sniffing, digging and more
- Mounting locations on the back and chest enable a variety of POVs
- Fully adjustable to fit small, medium and large breed dogs from 15 to 120 lbs.
- Chest mount can be removed to accommodate smaller sized dogs
- Padded at all adjustment points to ensure your pets comfort at all times
- Holds up to swimming, splashing, mud and more
- Machine or hand wash to keep it clean
- Quick release bases make attaching and removing the cameras quick and easy
- Includes a camera tether to further secure your GoPro to the mount to help prevent camera loss

Note: Not intended for walking or restraining dog. Never leave dog unattended wearing Fetch.

424195 59.99

GOPRO® THE SPORTSMAN MOUNT **NEW**

- Mount your GoPro to gun barrels, fishing rod grip or bow components
- Can be used with most shotguns, rifles, revolvers, airsoft guns, paintball guns and pellet guns
- Fits 0.4" to 0.9" (10mm to 23mm) diameter fishing rod grips and bow components
- Mount one or two cameras to capture footage looking forward, backwards or both directions simultaneously
- When used with a gun or fishing rod, cameras can be mounted below or to the side of the barrel or rod
- Specially designed mounting backdoors help stabilize the camera during recoil
- Matte black finish ensures low visibility and reduces light reflection

Note: Not compatible with most double barrel shotguns.

424192 69.99

GOPRO® THREE WAY GRIP ARM TRIPOD **NEW**

- Can be used as a camera grip, extension arm or tripod for ultra versatility and a variety of shots
- Ideal for capturing POV footage and selfies, follow cam, static tripod shots and more
- The folding arm features three way adjustability enabling a variety of camera angles
- The handle can be detached from the arm and used as a lightweight camera grip
- A small tripod, located in the handle, can be removed and used on its own or combined with the handle
- Waterproof, can be used in and out of the water
- Measures 20" when fully extended, collapses down to 7-1/2"

424193 69.99

GOPRO® THE HANDLER

- Helps you capture steadier footage compared to holding the camera by hand
- Keeps your GoPro afloat so you can shoot in and around the water
- Floats your GoPro camera with an LCD Touch BacPac or Battery BacPac attached
- Soft, non-slip material makes it comfortable to hold and provides a more secure grip
- Makes it easier to aim your camera and capture a variety of angles
- Capture immersive POV footage while surfing, kayaking, wakeboarding, boating and more
- Waterproof to 33 ft.
- Comes with The Tool, a GoPro thumb screw wrench that doubles as a bottle opener
- Includes an adjustable wrist strap for greater security of your camera

424116

29.99

GOPRO® BLACK OUT HOUSING

- Matte black finish ensures low visibility and reduces light reflection for low profile shooting
- Waterproof to 131 ft. to protect your camera in wet, dirty environments and extreme conditions
- Flat glass lens delivers maximum image sharpness above and below water
- Includes LCD concealment stickers to eliminate light reflection from the housings LCD window
- Includes the Standard Backdoor which offers waterproof protection to 131 ft., the Skeleton Backdoor which provides enhanced audio capture in clean, dry environments and the Touch Backdoor that allows you to access an LCD Touch BacPac, or HERO4 Silvers built in touch display

424114

49.99

GOPRO® LCD TOUCH BACPAC

- Removable touch display that seamlessly attaches to the back of your GoPro for added convenience and control
- Instantly view the videos and photos you have captured, including audio and instant slow motion playback
- See what your camera sees to frame your shots with confidence
- Touch control for all camera settings. Navigating menus and selecting options is easier than ever
- Features a built in speaker with volume control, plus a 3.5mm headphone jack
- The brightness of the display can be adjusted to customize viewing and conserve battery life
- Low profile design keeps your GoPro as small and light as possible
- The included BacPac Backdoors allow you to use the LCD Touch BacPac with your Standard Housing
- Includes the Standard Backdoor which offers waterproof protection to 131 ft., the Skeleton Backdoor which provides enhanced audio capture in clean, dry environments and the Touch Backdoor that allows you to access the LCD Touch BacPac touch functionality while inside the housing

OPTRIX XD SERIES

Transform your iPhone® 4/4S/5 into a waterproof mountable action sports camera. It's obsessively engineered to be slim, lightweight and waterproof. Optrix's proprietary 175° wide-angle housing makes action video stunning and simple. Just snap your phone into the included sled, seal it into the housing and shoot your video or photo!

Toughest iPhone® housing ever built?

The XD Series uses the same unibody technology to protect your iPhone as Formula 1 does to protect its drivers: a "monocoque." Because of this, the XD5 is lighter and vastly stronger than "clam-shell" style cases on the market. Optrix's ultra-rugged housing means your iPhone is nearly indestructible.

OPTRIX

XD4

- Enhances the stunning 1080p HD video of the iPhone® 4 by adding an all glass, three element, 175° wide-angle lens
- Military grade case. Bump, bash, crash, and splash with your phone safely housed in Optrix's polycarbonate shell and rubberized inner iPhone case
- Waterproof to a depth of 33 feet, XD4 can go out and play in the rain, get dropped in a puddle or film any sport that might get messy
- Optrix XD is designed to withstand very high levels of impact, up to height of 30 feet
- Protective touchscreen membrane, you get all the protection of Optrix and all the versatility of your apps. Optrix 0.5mm thick touchscreen membrane allows you to fully operate your iPhone while in the case

| Description | P/N | Retail |

XD5

From white-water rafting to splashing in the waves, Optrix XD5 is ready to go wherever your adventures take you. Keep your phone safe and dry while you get wet.

- Waterproof to a depth of 33 ft.
- Touch through membrane
- Interchangeable lens and rail mounting system
- Operate touch screen while inside of the housing
- Optrix VideoSport and VideoPro Apps
- Bottom access door
- Optrix XD is designed to withstand very high levels of impact, up to height of 30 ft.
- Benefits:
- Take phone calls, watch, edit, share video in any environment
- Easy to capture 1080p HD video using your iPhone's onboard camera. No reason to buy a second device
- Focus lock and image stabilization prevents wavy and shaky video (Search Optrix in the App store)
- Charge and interact with your iPhone without removing it from the case or mounting position

RAM MOUNTS® MOUNTING SYSTEMS

Utilizes a patented rubber ball and socket design which isolates and dampens shock and vibration allowing you to mount just about anything, anywhere on your motorcycle, ATV or UTV. RAM is made of marine grade aluminum with a powder-coated finish, stainless steel hardware and Nitrile rubber balls. All backed by a lifetime manufacturer's warranty.

Ram Mounts® Complete Kits

| Description | Mfg/N | P/N | Retail |
|---|--------------------|--------|--------|
| Universal Rugged Finger-Grip™ holder for cell phones (3.5" wide and 6" tall max) with a brake/clutch reservoir and U-Bolt mount (0.5" to 1.25" in diameter) | RAM-B-174-UN4U | 219000 | 61.99 |
| Device specific cradle for the Garmin eTrex Legend, Summit, Venture & Vista connected to a double socket arm with 1" diameter rubber balls and can be mounted to a rail that is 0.5" to 1.25" in diameter | RAM-B-174-GA5U | 219008 | 47.99 |
| Self leveling drink cup holder and koozie with a brake/clutch reservoir and U-Bolt mount (0.5" to 1.25" in diameter) | RAM-B-174-132 | 219017 | 43.99 |
| Universal Rugged Finger-Grip™ holds devices up to 3.5" wide, is connected to a double socket arm with 1" diameter rubber balls and comes with hardware for mounting in to fork stems that are 0.5" up to 1.10" in diameter | RAM-B-176-UN4U | 219033 | 57.99 |
| Bracket will attach to most hand gun holsters with a belt loop attachment and then connects to 1" diameter rubber balls and can be mounted to a rail that is 0.5" to 1.25" in diameter | RAM-B-149Z-GUN1U | 219084 | 53.99 |
| Consists of a double socket arm, double u-bolt base that will fit pipes from 0.5" to 1.25" in diameter and a back rest pad for ATVs | RAM-101U-235Z-BR1 | 219085 | 99.99 |
| Spotlight uses a 1" diameter rubber ball which is connected to an adjusting arm and then a rail base that will fit any bar that is 0.5" to 1.25" in diameter | RAM-B-152R | 219086 | 84.99 |
| Handlebar rail mount for bars 0.5" to 1.25" in diameter, with zinc coated U-Bolt base, self-leveling cup holder and koozie | RAM-B-132RU | 219091 | 38.99 |
| Motorcycle brake/clutch master cylinder reservoir U-Bolt mount with rugged spot light | RAM-B-174-152U | 219092 | 83.99 |
| Universal X-Grip™ holds devices up to 3.25" wide, is connected to a double socket arm with 1" diameter rubber balls and comes with hardware for mounting to both brake/clutch reservoirs and rails that are 0.5" to 1.25" in diameter | RAM-B-174-UN7U | 219127 | 54.99 |
| Consists of a custom GoPro® Hero adapter, double socket arm with 1" diameter balls and a steel strap base to fit rails 0.5" to 3.15" in diameter | RAM-B-149Z-2-GOP1U | 219129 | 39.99 |

Description

Consists of a custom GoPro® Hero adapter, SHORT size double socket arm with 1" diameter balls and 2.5" diameter round base with the universal AMPS hole pattern

Consists of a custom GoPro® Hero adapter, SHORT size double socket arm with 1" diameter balls, and 3.25" twist lock suction cup base

Consists of a custom GoPro® Hero adapter, SHORT size double socket arm with 1" diameter rubber balls and can be mounted to a rail that is 0.5" to 1.25" in diameter

Consists of a custom GoPro® Hero adapter, double socket arm with 1" diameter rubber balls and can be mounted to a rail that is 0.5" to 1.25" in diameter

Weather proof box with clear screen that holds smart phones up to 4.58"(H) X 2.46"(W) X 0.47"(D) (depth will flex), Lanyard, Button, Belt Clip & Cradle, and dual 1" rubber ball and socket mount with rail base that will attach to rails 0.5" to 1.25" in diameter

Weather proof box with clear screen that holds smart phones up to 5.38"(H) X 2.8"(W) X 0.55"(D) (depth will flex), Lanyard, Button, Belt Clip & Cradle, and dual 1" rubber ball and socket mount with rail base that will attach to rails 0.5" to 1.25" in diameter

Consists of a custom GoPro® Hero adapter, double socket arm with 1" diameter rubber balls, SHORT size double socket arm and 2.5" diameter round base with the universal AMPS hole pattern

Self Leveling Drink Cup holder and koozie, connects to your handlebar clutch/brake clamp, left or right side

Universal X-grip for iPhone 6 plus and other Phablets up to 4.5" wide, double socket arm and hardware to mount to rails .5" to 1.25" diameter

Universal X-grip for iPhone 6 plus and other Phablets up to 4.5" wide, double socket arm and Tough Claw clamp for rails up to 1.5" diameter

Universal X-grip for iPhone 6 and other Phablets up to 3.25" wide, double socket arm and Ubolt base to mount to rails .5" to 1.25" diameter

XGrip With Tough Claw

EZ Mount Rail Strap, mounts to shapes .5" - 2.58" diameter, max width 3.25", depth .875"

Cup Holder with Tough Claw, clamping range .625" - 1.5"

Mounts

Description

Consists of hardware for mounting to rails that are 0.5" to 1.25" in diameter, 1" diameter rubber balls, double socket arm, and a diamond base (RAM-B-238U) for connecting to most cradles

Consists of hardware for mounting to rails that are 0.5" to 1.25" in diameter, 1" diameter rubber balls, double socket arm, and a diamond base (RAM-B-238U) for connecting to most cradles, chrome finish

Consists of hardware for mounting to both the brake/clutch reservoirs and rails that are 0.5" to 1.25" in diameter, 1" diameter rubber balls, double socket arm, and a diamond base (RAM-B-238U) for connecting to most cradles

Consists of a fork stem motorcycle base that fits 0.5" to 1.10" diameter holes, double socket arm with 1" diameter rubber balls, and diamond base (RAM-B-238U) adapter

Offset brake/clutch reservoir cover mount, with 1" diameter balls, double socket arm and a diamond base (RAM-B-238U) to connect to cradles

New hardware replaces most M8 size bolts and provides a 1" diameter ball, double socket arm and diamond base (RAM-B-238U) for connecting to cradles

Description

Zinc coated U-Bolt rail base that fits 0.5" to 1.25" diameter rails and consists of the 1" diameter ball and double socket arm with a 2.5" diameter base with 1/4"-20 threaded stud

Attaches to handlebars, tubing, or railing that is 0.5" to 1.25" in diameter and comes with a 2.5" round AMPS base

Motorcycle brake/clutch reservoir U-bolt mount or rails that are .5" -1-1/4" in diameter, arm and base

Attaches to the brake/clutch master cylinder reservoir or the handlebar via a U-Bolt and comes with a 2.5" round 1/4-20" studded base

Universal camera and base, consisting of a 1" diameter rubber ball, connected to a round plate with 1/4"-20 camera thread, double socket arm and a steel strap base to fit rails 0.5" to 3.15" in diameter

Chrome Brake/Clutch Reservoir U-Bolt Motorcycle Mount

Mounts to both the brake/clutch reservoir or any round rail that is 0.5" to 1.25" in diameter and comes with a 2.5" round AMPS base, all in chrome

Consists of a 1/4"-20 X .25" camera thread, connected to a 1" diameter rubber ball, SHORT socket arm with 1" diameter balls and a steel strap base to fit rails 0.5" to 3.15" in diameter

Consists of a 1/4"-20 X .25" camera thread, connected to a 1" diameter rubber ball, short socket arm with 1" diameter balls and a 3.25" twist lock suction cup base

TomTom Rider 2 GPS Mount - Includes U-bolt base, arm and GPS mount

Garmin Zumo 400, 450, 500, 550, 660 GPS mount, U-bolt base, and arm

RAM MOUNTS® CRADLES

Description

Universal X-Grip™ cell phone cradle with 1" diameter rubber ball. Works with devices that are up to 3.25" wide

Universal spring tensioned cradle that holds devices from 2.25" - 3.25" wide and 4.75" - 6.25" tall

Device specific cradle for the Garmin Astro 220, GPS 60, GPSMAP 60, 60C, 60CSx and 60Cx

Device specific cradle for the Garmin GPSMAP 76C, 76CS, 76CSx, 76Cx, 96 and 96C

Device Specific Cradle for the Garmin Legend C, Legend Cx, Venture Cx, Vista C, Vista Cx and Vista HCx

Device specific cradle for the Garmin nuvi 300, 310, 350, 360 and 370

Device specific cradle for the Garmin nuvi 600, 610, 650, 660, 670, and 680

Device specific cradle for the Garmin nuvi 200W, 205W, 250W, 255W, 260W, 265W, 265WT, 285WT and 465T

Device specific cradle for the Garmin nuvi 710, 750, 755T, 760, 765T, 770, 775T, 780 and 785T

Device specific cradle for the Garmin Approach G5, Oregon, 200, 300, 400C, 400i, 400t, 450, 450t, 550 and 550t

Device specific cradle for the Garmin Nuvi 220, 500, 510, 550 and Zumo 220

Device specific cradle for the Garmin nuvi 1100, 1100LM, 1200, 1240, 1245, 1250 & 1260T

Device specific cradle for the Garmin nuvi 1440, 1450 and 1490T

Device specific cradle for the TomTom ONE (2nd Edition), ONE (3rd Edition), V2 and V3

Device specific cradle for the TomTom ONE XL and XLS Series

Device specific cradle for the TomTom GO 520, 520T, 630, 720, 720T, 730, 920 and 920T

Device specific cradle for the TomTom ONE 125, 130 and 130S

Description

Universal cradle designed to hold a large amount of cell phones and electronic devices up to 3.5" wide and 6" tall. The holder comes with (3 sets) of four flexible rubber coated fingers

Weather proof box with clear screen that holds devices up to Width=2.88", Height=5.75", Depth=1.188"

Weather proof box with clear screen that holds devices up to Width=2.38", Height=4.63", Depth=1.13"

Weather proof box with clear screen that holds devices up to Width=6", Height=4", Depth=1.75"

Device specific cradle for the Approach, Garmin Dakota 10 and Dakota 20

Device specific cradle for the SPOT IS™ Satellite GPS

Device specific cradle for the Apple iPhone (1st Generation)

Device specific cradle for the Apple iPod touch (4th Generation)

Device specific cradle for the Apple iPod Nano 3G (3rd Generation)

Device specific cradle for the Apple iPhone 3G and 3GS

Device specific cradle for the Apple iPod touch (2nd and 3rd Generation)

Model Specific Cradle for the Apple iPhone 4 and iPhone 4S

Device specific cradle for the Garmin nuvi 3450, 3450LM, 3490LMT, 3750, 3760T, 3760LMT, 3790T and 3790LMT

Device specific cradle for the Garmin GPSMAP 78, 78s and 78sc

Device specific cradle for the TomTom GO 740

Device specific cradle for the Garmin nuvi 1690

Device specific cradle for the TomTom XL 325, 325•S, 325 SE, 330, 330•S, 335•S, 340, 340•S, 340•S LIVE and 350

Weather proof box with clear screen that holds smart phones up to 5.38"(H) x 2.8"(D) x 0.55"(D) (depth will flex). Comes with lanyard, button, belt clip and cradle.

Weather proof box with clear screen that holds smart phones up to 4.58"(H) X 2.46"(W) X 0.47"(D) (depth will flex). Comes with lanyard, button, belt clip and cradle.

Weather proof box with clear screen that holds iPhone 5, 5C and 5S with case. Comes with lanyard, button, belt clip and cradle

Device Specific Cradle for the Astro 320, GPSMAP 62, 62s, 62sc, 62st and 62stc

Device specific cradle for the Magellan eXplorist 510, 610 and 710

Device specific cradle for the Apple iPod touch (4th Generation)

Device specific cradle for Garmin Nuvi 800, 850, 855, 860, 880 and 885T

Device specific cradle for the Garmin nuvi 1300, 1310T, 1350, 1350T, 1370T, 1390, 1390T, 2455LT, 2455LMT, 2475LT and 2495LMT

Universal X-Grip™ smartphone/tablet cradle with 1" diameter rubber ball. Works with devices that are up to 4.5" wide

Device specific cradle for the SPOT gen 3 satellite GPS

Device specific cradle for the Garmin Astro 320, GPSMAP 62, 62s, 62sc, 62st and 62stc

Device specific cradle for the Apple iPhone (5th Generation)

Device specific cradle for the Garmin nuvi 200, 205, 250, 255, 260, 265T and 270

BASES

Bases

Description

| Description | Mfg/N | P/N | Retail |
|--|-----------------|--------|--------|
| Consists of a 1" diameter rubber ball, connected to a custom Virb® adaptor. Adaptor attaches directly to the under-side of the camera, replacing the factory mounting bracket | RAM-B-202U-GA63 | 219161 | 9.25 |
| Consists of a 1" diameter rubber ball connected to a 2.5" diameter base. This mount has pre-drilled holes, including the universal AMPS hole pattern. | RAM-B-202U | 219100 | 7.99 |
| Consists of a 1" diameter rubber ball connected to a 2.43" x 1.31" diamond base. USE THIS BASE WHEN ATTACHING TO GPS CRADLES. | RAM-B-238U | 219105 | 7.99 |
| Universal camera and camcorder base, consists of a 1" diameter rubber ball, connected to a 2.5" diameter round plate with 1/4"-20 camera thread. | RAM-B-202AU | 219124 | 10.99 |
| Motorcycle brake/clutch reservoir cover base (centered 1" rubber ball) | RAM-B-345U | 219026 | 24.99 |
| Consists of a 1" diameter rubber ball, connected to a 1/4"-20 camera thread. | RAM-B-237U | 219032 | 8.99 |
| Connects to your handlebar clutch/brake clamp, left or right side, and holds two of the 1" diameter mounting balls. The ball that is connected between the hole centers is removable. | RAM-B-309-2U | 219077 | 23.99 |
| Chrome and connects to your handlebar clutch/brake clamp, left or right side, and holds one 1" diameter mounting ball. | RAM-B-309-1CHU | 219078 | 39.99 |
| Includes a M10 x 1.25 pitch male thread connected to a 1" rubber ball. | RAM-B-349U | 219079 | 9.99 |
| Motorcycle handlebar base designed to mount on rails that are 0.5" to 1.25" in Diameter and provides a 1" diameter rubber ball to mount from, chrome finish | RAM-B-231CHU | 219080 | 30.99 |
| Motorcycle handlebar base designed to mount on rails that are 0.5" to 1.25" in Diameter and provides a 1" diameter rubber ball to mount from. Also mounts to brake/clutch reservoirs | RAM-B-309-7U | 219089 | 17.99 |
| Consists of a fork stem motorcycle base that fits 0.5" to 1.10" diameter holes and provides a 1" diameter rubber ball. | RAM-B-342U | 219090 | 17.99 |
| Connects to your handlebar clutch/brake clamp, left or right side, and provides one 1" diameter rubber ball. U-bolt not included. | RAM-B-309-1U | 219094 | 12.99 |
| Consists of a 1" diameter rubber ball, connected to a 1/4"-20 camera thread. 2.25" x 0.875" base with 11mm hole provides a universal platform to mount on using a 1" diameter rubber ball. | RAM-B-252U | 219095 | 12.99 |
| Consists of a 1" diameter rubber ball and base with 9mm hole. | RAM-B-272U | 219096 | 12.99 |

BASES

219102

219142

219031

**Description**

Consists of a steel strap base to fit rails 0.5" to 3.15" in diameter, 1" diameter rubber ball, double socket arm and a 2.5" diameter base with the AMPS hole pattern, optional U-bolt to fit rails from 3/4" - 1" diameter included

Mfg/N**P/N****Retail**

RAM-B-231-2

219101**24.99**

Brake/clutch reservoir cover base fits cleanly over your existing reservoir cover with the 1" ball offset. Made of die-cast aluminum with a 1" rubber ball.

RAM-B-346U

219102**24.99**

Base is able to be pivoted or angled in the middle to maximize flexibility. Provides a 1" diameter rubber ball to mount from. Comes with the following hardware M10 x 1.25 x 20mm, M10 x 1.25 x 40mm, M8 x 1.25 x 20mm, M8 x 1.25 x 40mm.

RAM-B-360U

219104**22.99**

Consists of a 1" diameter rubber ball, connected to a custom GoPro® adaptor. The adaptor attaches directly to the under-side of the camera, replacing the factory mounting bracket.

RAP-B-202U-GOP1

219142**7.99**

New hardware replaces most M8 size bolts and provides a 1" diameter ball to mount from. Comes with the following bolts, M8 x 55 bolt (1.25 thread pitch), M8 x 60 bolt (1.25 thread pitch), M8 x 65 bolt (1.25 thread pitch)

RAM-B-367U

219081**11.99**

Universal camera and camcorder base, consists of a 1" diameter rubber ball, connected to a round plate with 1/4"-20 camera thread

RAP-B-366U

219031**9.99**

Motorcycle handlebar base designed to mount on rails that are 0.5" to 1.25" in diameter and provides a 1" diameter rubber ball to mount from.

RAM-B-231ZU

219093**15.99**

2" x 1.7" base with 1" rubber ball that contains the universal AMPS hole pattern for the Garmin Zumo, TOMTOM Rider and Urban Rider

RAM-B-347U

219137**7.99**

CARDIO SCALA RIDER® G9X™

- Bike-to-Bike intercom range of up to one mile
- "One+8" Intercom — toggle between nine riders
- Four way full duplex intercom conference mode
- Voice Recognition and Voice Command technology for true hands-free operation
- "Flash Pairing" — simply 'bump' two G9s together and you're ready to hit the road!
- Click-to-Link® for spontaneous intercom with Scala Riders nearby with no need for pre-pairing
- Music-Sharing: Rider and Passenger can listen to the same stereo music (via A2DP)
- Android App for individual Scala Rider customization (first of its kind!)
- Cardo Community® online social platform allows you to invite friends on a ride, personalize your unit's settings and access software updates
- Group Signal: Send an audio alert to up to eight other riders in your group simultaneously
- Hot-Dial number (customizable)
- Dual Handsfree profile to connect two Bluetooth-enabled mobile phones
- Mobile Phone Conference Mode (rider, passenger, outside caller)
- Stereo Bluetooth (A2DP) enabled MP3 player/iPod® or smartphone to stream wireless music
- Non-Bluetooth audio player (via MP3 cord)
- Receive in-the-ear navigation instructions from Bluetooth enabled GPS (must support HS profile)
- Intercom connectivity to all other compatible Scala Rider models
- Built-in FM radio with RDS, six programmable station presets and smart auto scan
- AGC technology: Self-adjusting speaker volume according to speed and ambient noise (pat. pend. individual adjustability)
- VOX activation: Make and answer phone and intercom calls without taking your hands off the handlebars
- Interchangeable hybrid and corded microphones in the same package to suit any helmet
- Replaceable plug-in speakers (3.5mm connection)
- Up to 13 hours talk time, one week standby
- Waterproof and dustproof unit

Note: Results may vary according to terrain. Reduced operational range when connected to certain Scala Rider models

CARDO SCALA RIDER® PACKTALK™

- DMC-Dynamic Meshwork Communication (patent pending) technology for large group intercom (at least 10 riders) over a dynamic, auto-adaptive mesh
- Seamless group communication remains unaffected by members leaving or joining the group
- Voice-controlled speed dial
- Automatic call transfer from intercom to mobile phone when intercom range is exceeded
- Mobile phone conference call with outside caller and/or intercom partners
- Customizable Hot-Dial number
- GPS instructions, FM radio, MP3 music continue in background during intercom calls
- Rider and passenger can listen to the same stereo music via A2DP
- FM Radio with RDS and six station built-in presets
- Advanced voice recognition technology for true hands-free operation, now with additional multilingual voice commands
- Intuitive manual operation through Cardo's novel roller-wheel interface (patent pending)
- Multilingual operation and spoken status announcements
- Cardo SmartSet™ App for Android and iOS devices enables the use of a smartphone as remote control on the handlebar and customization of devices
- Cardo Community® platform for social features, device customization and software upgrades (range dependent on riding environment)
- Best-in-class noise-cancellation algorithms
- Multilingual spoken status announcements
- Self-adjusting volume according to riding speed and ambient noise
- Voice-control for mobile and intercom calls
- Unique roller-wheel interface and control panel for intuitive operation (winter gloves tested)
- Interchangeable hybrid and corded microphones
- Superb audio quality with high-definition replaceable 3.5mm speakers
- Up to 13 hours talk time and one week stand by
- Waterproof and dustproof

CARDIO SCALA RIDER® Q3®

- Bike-to-Bike Intercom between four bikers (toggling) within a range of up to 1,100 yards in full duplex
- Rider-to-Passenger intercom in full duplex
- Music Sharing™: Rider and passenger can enjoy listening to the same stereo music (via A2DP)
- Detachable Speakers: Users can plug in their own speakers (3.5mm jack)
- Large, intuitive control buttons
- Click-to-Link® spontaneous intercom with no need for pairing
- Interchangeable hybrid and corded microphones included to fit virtually all helmets
- Unique online platform allows you to customize settings and receive software updates via your computer
- Hot-Dial number can be programmed for use in any country or region
- AGC technology: Self-adjusting speaker volume according to speed and ambient noise
- VOX activation: Make and answer phone and intercom calls without taking your hands off the handlebars
- Built-in FM radio with RDS, six programmable station presets and smart auto scan
- Spoken Status Announcements so you always know to which devices your Scala Rider is connected
- Up to eight hours talk-time/one week standby (recharging from wall outlet or USB connection)
- Noise cancelling microphone
- Certified waterproof and dust proof
- Multiple Connectivity options:
 - Dual HS profile for connection to two Bluetooth-enabled mobile phones simultaneously
 - Stereo Bluetooth (A2DP) enabled MP3 player/iPod® or smartphone to stream wireless music
 - Non-Bluetooth audio player (via MP3 cord)
 - Bluetooth-enabled GPS unit for in-helmet navigation instructions (GPS must support HS profile)
 - Other Scala Rider models for intercom conversation

Note: Results may vary according to terrain. Reduced operational range when connected to some Scala Rider models.

UCLEAR®

HELMET COMMUNICATIONS

UCLEAR® HBC100 PLUS & HBC100 PLUS DUAL

The HBC100 Plus and HBC100 Plus Dual offers the absolute best in small group intercom between up to four people, delivering over a one mile range at an affordable price. Full-duplex intercom system allows four riders to communicate at a distance of up to 500 meters each, while our Multi-Hop Technology® extends the range up to 1.2 miles with four riders connected. The boomless microphone and patented beam forming technology isolates the voice and eliminates background noise, so you can be heard even in the most extreme environment. Voice-activated pick up allows hands-free operation. Free firmware updates keep your units up to date with the latest features

HBC100 Plus Single

- One HBC100 Plus control unit
- One stereo speaker set with embedded microphones
- One USB charging cable
- Two permanent helmet mounts
- Two Velcro® speaker mounts

211220 159.95

HBC100 Plus Dual

- Two HBC100 Plus control units
- One stereo speaker set with embedded microphones
- One USB charging cable
- Two permanent helmet mounts
- Two Velcro® speaker mounts
- One AC wall charger

211221 319.95

UCLEAR® HBC200 & HBC200D FORCE

The HBC200 isn't just an intercom, it's a Super Group Intercom with Multi-Hop Technology® and no boom microphone. The HBC200 offers patented ABF® Technology and a ground breaking, full duplex intercom system that expands connection availability to an unlimited number of riders. UCLEAR's boomless microphone and patented beam forming technology isolates the voice and eliminates background noise, so users can be heard even in the most extreme environment. Voice-activated pick up allows hands-free operation. Water and temperature resistant so you can ride in any weather. Easily installs into most helmets. Free firmware updates keep your units up to date with the latest features

UCLEAR® HBC200 Force

- One HBC200 control unit
- One stereo speaker set with embedded microphones
- One USB charging cable and wall charger
- One permanent helmet mount
- One temporary helmet mount and anti-slip rubber patch
- Two Velcro® speaker mounts

UCLEAR®
HELMET COMMUNICATIONS

211224

UCLEAR® HBC200 HD & HBC200 HDD **NEW**

The HBC200 HD is UCLEAR's custom package for the half helmet rider. It includes the HBC200, a set of long earbuds designed for half helmet use, and Pro Microphones for use in any helmet, allowing riders great sound quality, connectivity and no boom microphone. The HBC200 HD is the ultimate system, providing riders with two options for delivering noise cancellation and outstanding stereo sound in any challenging audio environment. The HBC200 HD has patented ABF® Technology and a ground breaking, full duplex intercom system designed to expand the reach, range and quality of group communications (10 or more riders) by up to 700 meters (.43 miles) between each HBC200 HD unit. Now half helmet riders have the freedom to wear what they want, listen to what they want and connect to what they want.

HBC200 HD Force

- One HBC200 control unit
- One stereo speaker set with embedded microphones
- One long earbuds set
- One USB charging cable
- One permanent helmet mount
- One temporary helmet mount and anti-slip rubber patch
- Two Velcro® speaker mounts
- One AC wall charger

211224**269.95**

HBC200 HDD Force

- Two HBC200 control units
- Two stereo speaker sets with embedded microphones
- Two long earbud sets
- Two USB charging cables
- Two permanent helmet mounts
- Two temporary helmet mounts and anti-slip rubber patches
- Four Velcro® speaker mounts
- One AC wall charger

UCLEAR® UNIVERSAL ACCESSORIES

Everything you need to use your HBC200 series controller with a second helmet. The UAP200 includes an extra set of high fidelity speakers with embedded microphones and a wide range of mounting hardware to fit just about any type of helmet or to strap on your goggles. Please note that it does not include a second control unit.

Universal Accessory Pack

- Extra set of speakers allows music, calls, GPS and UCLEAR control unit
- Extreme noise cancellation (when used with UCLEAR controller)
- Hi-Fi audio
- Stereo/Mono: L/R Stereo
- Speakers: Hi-Fi audio
- ABF Technology: Yes, requires UCLEAR control unit

Includes:

- Hi-Fidelity stereo speakers with embedded microphones
- Four mounting brackets for motorcycle, snow helmets and goggles
- Permanent helmet attachment clip
- Removable helmet attachment clip
- Goggle attachment clip
- Side mounted helmet strap clip
- 18 in. extension cord to move controller to clothing
- Two velcro speaker attachments
- Microphone alignment insert (stencil)
- USB charging cable
- USB 12v car charger adaptor

211230 59.99

Pro Microphone and Speaker Set

Pro Microphones were designed for use in helmets that have acoustic challenges and require a high quality of audio performance. From higher speeds to louder pipes, Pro Microphones can be used in any helmet and allow for even greater performance for those who demand more from life.

- Extended microphones allow precision placement for maximum clarity
- Extreme noise cancellation (when used with UCLEAR controller)
- Hi-Fi audio performance
- Speaker diameter is 40mm
- Weighs 40 grams

Includes: One set of PRO Microphone Speakers

NOLAN
 HELMETS

**NOLAN N-COM® BASIC KIT 2,
E-BOX BLUETOOTH KIT 3 SYSTEM**
Basic Kit 2

- The Basic Kit 2 is required for utilizing the Bluetooth® Kit 3, Bluetooth® Kit 2.1, Bluetooth® Kit 2 this kit fits the N103, N90, N85 and N43 (all versions)
- Basic Kit 2 includes the speakers, microphone, connecting plates and wires
- As the basis of the system, it is necessary for Bluetooth® Kit 3, Bluetooth® Kit 2.1, Bluetooth® Kit 2 N-Com applications
- Can be used with a Bluetooth® E-Box for wireless connection with a passenger or with other devices such as a phone, GPS, etc.
- In the Basic Kit 2, the upgraded speakers make listening to music an enjoyable experience and the rider can choose not to install the microphone if he does not plan to communicate Bluetooth® Kit 3
- Includes E-box Bluetooth® Kit 3, PC connection cable, Multimedia Wire2, battery and battery charger
- It is used for wireless connection from helmet to helmet or between a helmet and other Bluetooth® equipped devices such as a phone, GPS, etc.
- The Bluetooth® Kit 3 is stereo for music when used with the Basic Kit 2 and the rider can control his music source from the helmet (skip song, mute, etc.)
- Thanks to its multiple circuits, it allows two helmets to be paired together for rider and passenger communication and for a cellular phone to be paired to each helmet at the same time
- Bike to bike communication between two Bluetooth® Kit 3 systems up to a distance of 550 yards; this distance will vary with the environment becoming longer on flat, straight, empty roads and becoming shorter on mountain roads, in cities and on busy roads
- Motorcycle Audio Wires for Basic Kit connect Basic Kit 2 and E-Box to the motorcycle audio system

Basic Kits (Needs E-Box)

NOLAN N-COM® B1 ENTRY LEVEL BLUETOOTH COMMUNICATION SYSTEM

The B1 system is an entry-level Bluetooth® communication kit, which includes both the headset and the Bluetooth® unit in one easy-to-install system for one or two helmets. It is optimized for one rider or for a couple riding on one motorcycle, as the distance for helmet to helmet communication is limited to 150 ft.

- Rider to passenger communication via Bluetooth®
- Other devices can be connected to the B1: Music players and other devices using a standard headphone jack can be connected via a MultiMedia Wire (not included) and other Bluetooth-enabled devices such as a cell-phone and a GPS can be paired through the Bluetooth® connection
- Firmware updates can be done by connecting the B1 to a computer via the USB cable (included) with the N-Com Wizard program

393442

NOLAN N-COM® COMPLETE BLUETOOTH® B4 PLUS SYSTEM

B4 Plus Designed for the Nolan N104, N44 and N40 helmets. Specifically designed for simple, seamless installation in the N104 modular helmet. The installation takes just a few minutes thanks to the new configuration: the electronics and the slimmer battery fit like a cartridge behind the lower trim in the back of the helmet. The keypad mounts on the left side and is easy to operate with gloved fingers thanks to its raised rubber buttons. The Bluetooth® B4 allows for wireless communications between your helmet and another Bluetooth® device such as your cellular phone, passenger's helmet or a GPS.

Universal Intercom

- N-Com system can be connected to other brand communication systems as a mobile phone
- N-Com system can simultaneously connect to the other brands of communication systems and to a mobile phone
- The bike to bike communication range depends on the bike to bike range of both systems
- The feature will be available on all B4 and Bluetooth® Kit 3 systems thanks to the new firmware version 4.04 (download from N-Com Wizard)

Voice Prompt

- A voice announces:
- The N-Com Menu that has been selected by the user
- The connection to the telephone
- The low battery status
- A function permits users to communicate with four additional riders equipped with their own B4, one at a time
- FM Radio with RDS function (to stay tuned to the same radio station for the entire ride), with six pre-settings for your favorite radio stations
- Firmware updates as well as presetting of the radio stations, volume controls, etc. can be done by connecting the B4 to a computer via the USB cable (included) with the N-Com Wizard program from their website
- The feature will be available on all B4 and Bluetooth® Kit 3 systems thanks to the new firmware version 4.04 (download from N-Com Wizard)
- Dynamic noise reduction during intercom connection with another helmet
- The DSP technology decreases the background noise captured by the microphone of helmet one and heard in helmet two during intercom communication switching off the amplifiers
- If N-Com system is connected only to the mobile phone and there are no other audio sources active, N-Com system automatically switches off the amplifiers
- Reduces power consumption = more battery time
- Reduces white noise of the speaker
- Reduces noise of Bluetooth® data package transmission

Note: Due to variability of the network signal, there may be some interference in the wire connections that are not caused by the N-Com system of the wire used. Functions of the Bluetooth® communication system depend on the model of the mobile phone used. The functionality of the intercom system with the mobile phone depends on the type of telephone used and the software version installed on it.

**J&M® ELITE 787 SERIES HELMET HEADSET**

- New high intensity helmet speaker design combines a better frequency response curve with higher volume levels to provide distortion free sound, even at highway speeds
- Speakers are available in both 40mm ultra-slim and 45mm large diameter custom, for installation into most motorcycle helmets
- New extra high output AeroMike® VI provides the very best combination of wind and ambient noise cancellation with an even stronger output signal in the human voice frequency range, when compared to previous versions of J&M's AeroMike® microphones
- AeroMike® IV makes it easier to find an optimum intercom vox/mute sensitivity setting point for a smoother and more accurate transition between vox intercom and music
- Z-series connection cords are molded using the highest grade copper wire available, together with all stainless steel pins, to provide five to ten year durability

Note: Upper section cord only, is included with all Elite 787 headsets, allowing the rider to choose the correct lower section hook-up cord applicable to their particular motorcycle audio system

J&M® HS-BCD279 HELMET HEADSETS

- These headsets provide the industry's best combination of wind and ambient noise reduction with J&M's standard and high-output AeroMike® III miniature microphones (HO AeroMike® for use with Harley-Davidson® and Victory® audio systems only)
- Superior audio fidelity has been achieved with J&M's new large diameter DynaPort®, non-ported and Ultra-slim helmet speakers
- The versatility of J&M's P-series 2-piece cord system allows these headsets to be connected to any factory installed motorcycle audio system ever built, just by interchanging the lower-section hook-up cord

Note: Proper acoustical installation is required, exact type will vary depending on application.

J&M® BLUETOOTH CELL PHONE/GPS/RADAR INTEGRATION SYSTEM

- Integrates a cell phone, smart phone, Bluetooth enabled GPS unit and/or specific radar detectors with the driver's (only) J&M® or Harley-Davidson® brand corded helmet headset
- While using the normal audio system functions on the Harley Ultra of stereo music, intercom and/or CB radio, if the cell phone receives an incoming call and the call is accepted by depressing the handlebar mounted multifunction button, (or onscreen thru a Garmin Zumo) complete connection of the driver's headset to the cell phone is automatically initiated for totally hands-free operation
- Voice command dialing can be activated by depressing the handlebar mounted multifunction button, which will also initiate complete connection of the driver's headset to the cell phone, for totally hands-free operation
- If the Bluetooth® enabled and linked GPS unit emits any navigation commands, or the radar detector emits any beeps or braps, regardless of what else might be being heard in the headset, they will momentarily be heard in the driver's corded helmet headset
- Once linked the first time, the Bluetooth® enabled cell phone will automatically connect/disconnect from the system, when the Harley Ultra ignition is turned on or off
- Plug and play Bluetooth cell phone integration solution for 98-13 Ultra models
- Kit includes the plug-in integration module, handlebar-mounted control switch assembly and complete installation/operation manual

Note: Specific radar-detector adapter harnesses are available at extra cost. (Please back up to the previous page to purchase these items)

J&M® DIGITAL STEREO MUSIC/iPOD®/BLUETOOTH CONTROLLER

- Exciting music streaming features will work with an iPhone®, Android, Blackberry, Samsung or almost any Smartphone available in the marketplace today that incorporates Bluetooth
- Digital music controller will also connect to a standard iPod® by wire and direct the stereo music into the H-D® audio system aux input, using the iPod's own onscreen controls, while at the same time keeping the iPod® fully charged
- Configures the input signal levels from the new controller to the H-D® radio so that the system volume levels available on the highway and overall sound quality through the entire system is significantly better than what is available when using H-D® iPod® adaptor, XM satellite radio module or built-in FM stereo
- H-D® radio control menu selections of bass, treble, front/rear fader, auto volume control, driver/passenger intercom, bike-to-bike CB radio and handlebar volume control, (if activated) all remain unchanged when using J&M's Bluetooth® digital music controller
- When mounted on a H-D® ultra with the optional J&M® microphone signal integration component and linked by Bluetooth to a cell phone, the driver can actually talk on the phone thru his or her J&M® or H-D® brand helmet headset, without affecting the driver/passenger intercom or CB functions of the audio system (phone calls are accepted or initiated onscreen)
- A Garmin Zumo can also be linked by Bluetooth® to the J&M music controller while an iPod® is simultaneously connected by wire and when a navigation command or cell phone call is received through the Zumo, it will automatically interrupt the iPod® music signal into the system
- Actual installation is pretty simple once you remove the fairing, everything is plug and play, but placement of the music controller is somewhat critical so that you don't block or interfere with the internally mounted 2.4 ghz Bluetooth® antenna
- Includes all direct plug and play harnesses for the H-D® bagger audio system, wired extension cable for iPod®, lightning plug adapter for iPhone 5, 3.5 mm aux extension cable, metal mounting bracket, preglummed Velcro mounting strips and a complete installation, operation and easy to use Bluetooth® linking instruction manual

J&M® JMCB-2003B CB/STEREO/INTERCOM AUDIO SYSTEM

- Features a 40 channel CB radio, NOAA weather band, rider/passenger intercom
- Stereo music amplification from any Walkman®-type music device
- Mount it to your left handlebar with the proper bracket kit
- The complete system is on your handlebar
- The unit is water resistant so you won't have to worry about getting caught out in the rain
- Audio performance is superb, even at high speeds and that is most impressive considering it's compact size

Note: The JMCB-2003 is a J&M® six pin audio system that requires the pre-amplified microphone signal provided by dual mode (ECD/ICD/BCD/CD prefixed) helmet headsets along with the #HC-ZJM or #HC-PJM lower-section hookup cord.

J&M ROKKER® SERIES XX 6.65 IN. REAR TRUNK POD SPEAKER UPGRADE

- Designed as exact size component/replacements for the stock 6.5" Harley-Davidson® rear trunk-pod speakers as installed on the 14-15 Ultra or Ultra Ltd.
- Spec'd at 2 ohms impedance and an impressive 217 watts maximum input (156w RMS continuous-92db sensitivity) providing the ultimate in raw audio power and include the silk-dome tweeter bridge as part of this custom design
- Lightweight waterproof one-piece woven-fiber driver cone
- High-output silk-dome tweeter
- Super high-density lightweight Neodymium magnet structure for improved cooling when operating at high volume levels for extended periods
- Custom max-flow speaker grills for crystal clear sound at highway speeds
- Mounting hole pattern and spade electrical connections are exactly the same as the factory specification, this is a total plug-and-play no-modification solution complete with easy to follow installation instructions
- These speakers will perform extremely well when used with a medium to high-powered accessory amplifier

J&M ROKKER® SERIES XX 5X7 IN. SPEAKER UPGRADE KIT FOR SADDLEBAG SPEAKER LIDS

- Designed as exact size component/replacements for the 06-13 Harley-Davidson® 5" x 7" Boom Saddlebag lid speakers
- Spec'd at 2 ohms impedance and an impressive 217 watts maximum input (156w RMS continuous 92db sensitivity), these speakers provide the ultimate in raw audio power and include the silk-dome tweeter bridge as part of this custom design
- Lightweight waterproof one-piece woven-fiber driver cone
- Super high-density lightweight Neodymium magnet structure, specially coated to maintain flux-strength integrity even at extreme operating temperatures
- High efficiency vented voice-coil and magnet structure for improved cooling when operating at high volume levels for extended periods
- Easy plug-n-play installation in place of the factory Boom speakers

Note: Stock saddlebag lid grill and underside protector housing are retained without modifications

J&M ROKKER® XX 5X7 SADDLEBAG LID SPEAKER KIT WITH LIDS

- Designed to provide maximum output power, fidelity and durability in the motorcycle audio environment
- 2 ohms impedance and an impressive 217 watts maximum input (156w RMS continuous - 92db sensitivity)
- Includes the silk-dome tweeter bridge
- Lightweight, waterproof one-piece woven fiber driver cone

| Description | P/N | Retail |
|---------------|--------|--------|
| 98-13 Baggers | 217895 | 849.99 |
| 14-15 Baggers | 217896 | 849.99 |

J&M ROKKER® FAIRING 360W SPEAKER AMPLIFIER KIT

- Designed specifically for use in the 98-13 Harley-Davidson® StreetGlide, Ultra and ElectraGlide classic fairing with the new Jensen HD1BT radio installed
- Full range class D amplifier and is spec'd at 90 watts RMS per channel (360 watts total), driven continuous into a 2 ohm load at 14.4 vdc
- Mounts to the top of the custom made stainless steel bracket system, with amplifier gain controls set specifically for the Jensen JD1BT radio
- Custom made plug-n-play wiring harnesses are included, top quality heavy gauge power/ground wires are used for the fused battery connection, direct RCA-RCA input adaptors, along with all necessary mounting hardware and complete installation/operation instructions

Note: Will not fit the 98-13 RoadGlide fairing

217219 499.99

J&M ROKKER® SERIES XT-P 250 WATT 2-CHANNEL AMPLIFIER KIT

- Designed specifically for use on the 14-15 Harley-Davidson® StreetGlide and Ultra with stock radio
- Full range class G digital amplifier and is spec'd at 125 watts RMS per channel (250 watt total), driven continuous into a 2 ohm load at 14.4 vdc
- Mounts to custom made stainless steel two-piece bracket system, to provide solid and secure mounting, in addition to blocking amplifier heat from being transferred to the radio
- Fully programmable through the internal digital signal processor, and come out of the box already dialed in for this specific StreetGlide/Ultra speaker configuration
- Custom made plug-n-play wiring harnesses are included, top quality heavy gauge power/ground wires are used for the fused battery connection, along with all necessary mounting hardware and complete installation/operation instructions
- Amplifier measures 7-1/4" x 4-3/4" x 1-3/4"

Note: Should you wish to alter settings (as when adding additional speakers to the system, or changing the impedance of the speakers), J&M will be offering all of our specific custom pre-loaded amplifier programs as a consumer download from the J&M website (www.jmcorp.com)

217216 599.99

ROKKER®

J&M ROKKER® **NEW** SERIES XX 6.65 IN. LOWER FAIRING SPEAKERS

- Designed as exact size component/replacements for the standard 6.5" Harley-Davidson® Boom lower fairing speakers as installed on the 06-13 StreetGlide and Ultra vented lowers, including the 11-13 CVO StreetGlide
- Spec'd at 2 ohms impedance and an impressive 217 watts maximum input (156 watts RMS continuous 95db sensitivity)
- Lightweight waterproof one-piece woven fiber driver cone
- Super high density lightweight Neodymium magnet structure for improved cooling when operating at high volume levels for extended periods
- Plug-n-play installation in place of the factory Boom 6.5" lower fairing speakers, with the stock grills retained during reinstallation

217212 389.99

J&M ROKKER® **NEW** XX FAIRING SPEAKER IN-SERIES WIRING HARNESS

- Used when connecting the upper fairing speakers together with the lower fairing speakers, to the front two channels of a J&M in-fairing mounted two or four channel amplifier, on the 14-15 StreetGlide, Ultra and RoadGlide
- Completely plug-n-play and compatible with the stock Harley-Davidson® in-fairing audio system wiring and plugs
- Complete with connection schematic diagram

217210 329.99

217217

217218

J&M ROKKER® **NEW** FAIRING 180W SPEAKER AMPLIFIER KIT

- Designed specifically for use in the 98-13 Harley-Davidson® StreetGlide, Ultra, ElectroGlide. The 14-15 StreetGlide and Ultra classic fairing with the new Jensen HD1BT radio installed.
- Full range class D amplifier and is spec'd at 90 watts RMS per channel (180 watts total), driven continuous into a 2 ohm load at 14.4 vdc
- Mounts to the top of the custom made stainless steel bracket system, with amplifier gain controls set specifically for the Jensen HD1BT radio
- Custom made plug-n-play wiring harnesses are included, top quality heavy gauge power/ground wires are used for the fused battery connection, direct RCA-RCA input adaptors, along with all necessary mounting hardware and complete installation/operation instructions
- Amplifier measures 6-1/2" x 4-3/4" x 1-3/4"

J&M® PERF SERIES AUDIO KITS

- Includes pair of 7-1/4" round driver, the largest diameter speakers that can be installed into the Harley® RoadGlide style fairing and vented lower fairings, with cone volume and mass comparable to a 6"x9" speaker
- Includes pair of 5-1/4" round drivers, the largest and most efficient speakers you can install into the rear trunk pod position on the Harley® RoadGlide Ultra
- Both spec'd at 2 ohms impedance and 140/120+ watts max power, these new speakers provide the ultimate in bass response, extended mid/high frequency range and raw audio power
- Features a waterproof injection-molded polycarbonate woofer cone, high-flux strength but lightweight dual-donut Neodymium magnet, high efficiency voice coil, the latest design grillwork with mounted tweeter and midrange, (plain grills only for lower fairing speakers) and top-quality adaptor rings/bracket hardware for secure and clean mounting
- Full range class D amplifier and is spec'd at 90 watts RMS per channel X four channels, (360W total) driven continuous into a 2 ohm load at 14.4vdc. Amplifier mounts inside the fairing using the custom made stainless steel bracket system
- Custom made plug and play wiring harnesses are included with this amplifier kit, top quality heavy gauge power/ground wires are used for the fused battery connection, along with all necessary mounting hardware and complete installation/operation instructions
- Road Glide Ultra and Ultra Classic has a four channel, 360 watt amplifier kit, that measures 7-1/4" x 4-3/4" x 1-3/4"
- Road Glide and Street Glide has a two channel, 180 watt amplifier kit, that measures 6-1/2" x 4-3/4" x 1-3/4"
- Includes all hardware, connections and mounting brackets

ROKKER®

J&M ROKKER® SERIES TWEETER KIT

- Designed specifically for use on the 98-13 Ultra-Classic (BatWing) or Road Glide style fairing
- 25mm diameter high-output dome tweeters designed to bring extra high-frequency definition to your bagger audio system
- Tweeters are exact dimensional and wire connection substitutes for H-D# 77036-11A
- Tweeters are spec'd at 2 ohms nominal impedance and will work with any radio or amplifier designed to operate at a 2, 4, 6 or 8-ohm load
- Rated at 300W peak power (150W RMS), 3,000 - 21kHz frequency range and 94db sensitivity at 1W, 1M, these tweeters can easily replace two of the stock H-D® gauges on the inside fairing panel
- Connects direct to the midrange output jack on the back of the J&M Rokker series speaker crossover network or to the factory H-D® wiring harness on certain CVO Street Glide and Road Glide fairings or to the front speaker spade connections inside the fairing using the custom made plug-n-play wiring harnesses included
- Kit includes two tweeters, alternate connection wire assemblies, along with all necessary mounting hardware and complete installation instructions

217865

149.99

J&M ROKKER® SERIES AUDIO COMPONENTS FOR HARLEY-DAVIDSON® BAGGERS

- Rokker™ series high-tech speaker kits are designed from the ground up to provide maximum performance and durability for your Harley-Davidson® Bagger
- The component amplifier kits provide the highest per-channel RMS power output available, in a small compact package, to allow no-hassle plug-n-play mounting inside your stock fairing

217885

217889

J&M® SERIES XT 7-1/4 IN. FAIRING SPEAKER UPGRADE KIT

- 7.25" round subs are the largest diameter speakers that can be installed into the Harley-Davidson® bagger style fairing
- Three way high performance speaker set has been designed specifically for the bagger fairing — 217 watts

Features included:

- Waterproof injection molded polycarbonate woofer cone
- High-flux strength but lightweight dual donut Neodymium magnet
- High efficiency vented voice-coil for improved cooling when operating at high volume levels for extended periods
- Specially-tuned speaker-mounted passive crossover network for improved fidelity and frequency response
- Top-quality adapter rings/brackets hardware for secure and clean mounting into the fairing
- Mounting hole pattern and spade electrical connections are exactly the same as the factory specifications

J&M® ROKKER™ SADDLEBAG LIDS WITH 7-1/4 IN. SPEAKERS

- 7-1/4" round subs are the largest diameter speakers that can be installed into the Bagger saddlebag lids, with cone volume and mass comparable to a 6" x 9" speaker
- Three way high-performance speaker/lid set has been designed specifically for the 98-13 H-D bagger style saddlebags
- 2 ohms impedance and 217 watts max power, these speakers provide the ultimate raw audio power
- Waterproof injection-molded polycarbonate woofer cone
- High-flux strength but lightweight dual-donut Neodymium magnet
- High efficiency vented voice-coil for improved cooling when operating at high volume levels for extended periods
- Saddlebag lids are finished in primer black color, ready for the custom color of your choice
- Top quality hardware, custom plug and play wiring harness and complete installation instructions are included
- Fits 98-13 bagger style saddlebags

217891

749.99

J&M® ROKKER® XT DUAL 7-1/4 IN. SUB-WOOFER SPEAKER KIT FOR STOCK H-D SADDLEBAGS

- 7-1/4" round sub-woofers are large diameter dedicated low-frequency speakers, with cone volume and mass comparable to a 6" x 9" speaker
- 2 ohms impedance, 40-3khz frequency response and 200 watts max power, provide the ultimate in bass response and low-frequency audio power
- This custom kit allows speakers to be mounted down into the rear portion of the stock Harley-Davidson® saddlebags, while leaving more than 75% of the saddlebag storage area
- Waterproof mylar/polycarbonate woofer cone
- High-flux strength but lightweight dual-donut Neodymium magnet
- High efficiency vented voice-coil for improved cooling when operating at high volume levels for extended periods
- Custom designed grillwork for mounting in the rear saddlebag position, with mounting spacers, weatherproof gasket seals and protective rear luggage cowl
- Designed to be connected to the rear channels of the 500w four channel Rokker™ amplifier, which is then switched into low-freq mode, with proper cross-over frequency and gain adjustments

217955

349.99

ROKKER®

J&M ROKKER® SERIES XT 5-1/4 IN. REAR SPEAKER UPGRADE KIT

- Three way high performance speaker set has been designed specifically for the rear pod position
- 2 ohms impedance and 170+ watts max power
- Provides superior bass response along with an extended mid/high frequency range
- Features include: a waterproof injection molded polycarbonate woofer cone, high-flux strength but lightweight Neodymium magnet, high efficiency vented voice coil and the latest design grill work with mounted titanium-color tweeter and midrange drivers

| HARLEY-DAVIDSON | Year | P/N | Retail |

ROKKER®

J&M ROKKER® SERIES XT LOWER FAIRING SPEAKER KIT

- 7.25" round subs are the largest diameter speakers that can be installed into the Harley-Davidson® lower fairing shells, with cone volume and mass comparable to a 6" x 9" speaker
- 2 ohms impedance, 140+ and 217 watts max power, these speakers provide the ultimate in raw audio power
- Waterproof injection molded polycarbonate woofer cone, high-flux strength but lightweight dual donut Neodymium magnet
- High efficiency vented voice-coil for improved cooling when operating at high volume levels for extended periods
- Custom designed grill work with high-output titanium-colored tweeter and midrange drivers
- Specially-tuned speaker-mounted passive crossover network for improved fidelity and frequency response
- Top quality lower fairing housing inserts, to hold the J&M® Rokker™ series 7.25" speaker and custom grill with mounted high-output tweeter and midrange
- These high-impact quality molded speaker inserts are textured in a matte finish and can be painted to match the color of your bagger
- All necessary mounting hardware and complete installation/operating instructions included
- This in-series wiring harness kit is to be used when connecting the J&M® Rokker™ series 7.25" lower fairing speakers, together with the J&M® 7.25" upper fairing speakers, to a J&M® in-fairing mounted two channel amplifier, (four speakers total on the motorcycle) or the front two channels of a J&M® in-fairing four channel amplifier (six speakers total on the motorcycle)
- Wiring kit is complete with amplifier gain adjustment guidelines, replacement amplifier cooling fan splash cover (to be used after performing amplifier gain control adjustments) and complete connection schematic diagram

ROKKER®

**J&M ROKKER® SERIES LED LIGHT RINGS**

- Designed to be used with the J&M® brand speakers with grill mounted midrange and/or tweeter
- LED light rings are made with top-quality high-intensity LEDs, mounted on high-strength PCB board material with total reverse-polarity/over-voltage protection as part of their design and are completely sealed for absolute moisture resistance to provide many years of service
- Featured LED colors are red, blue, green, orange and amber and they are controlled by individual PCB mounted DIP switches to allow you to turn on one color at a time or a combination of colors to help match to the color of your dash mounted gauges and/or radio lights
- Kit includes two LED light rings, power/ground wiring harness and complete installation/operation instructions
- Fits Street Glide, Ultra, Road Glide, Electra Glide fairings

J&M® HI-PERFORMANCE FAIRING/REAR SPEAKER UPGRADES

- If you want to make the most dramatic change possible to the music quality and audio power from your fairing-mounted or rear speakers, then replace the stock units with a set of J&M's high performance models
- Designed specifically for each model year/application
- Significant improvements in bass response, midrange clarity, audio power and overall fidelity
- Their impedance rating, mounting hole pattern and spade electrical connections are exactly the same as the factory specification, making replacement a snap for all years

Note: Sold in pairs.**J&M® 7.25 IN. SPEAKER UPGRADE KIT**

- Three way hi-performance speaker
- 140 watts max power
- Waterproof injection molded polycarbonate cone
- Mounted tweeter and mid range
- Adaptor rings and bracket
- O.E.M. mounting holes
- Speakers will handle amplified sound

ROCKFORD FOSGATE 2 CHANNEL AMP & SPEAKER KIT

The Prime R1-HD2-9813 is a 2-channel 140 Watt speaker system designed specifically for motorcycles. "Closed loop" design precisely matches amplifier with speaker for optimized output and reliability

- Complete motorcycle kit
- Fits 1998-2013 Harley-Davidson™ factory 2-speaker system
- Optimized EQ, crossover and gain
- Three position output level control
- Pass-thru output for future system expansion
- Extruded aluminum heat-sink
- Short circuit protection
- Thermal protection
- Multiple mounting options
- Includes all harnesses and hardware for full installation
- One year warranty

900590 299.99

ROCKFORD FOSGATE UNIVERSAL BLUETOOTH ADAPTOR

The RFBTAUX allows streaming audio using a Bluetooth™ enabled device through a factory Aux input

- Bluetooth™ streaming receiver
- Plugs into 12V dash outlet (cigarette lighter)
- 1/8" (3.5mm) stereo audio output
- 5VDC USB charging output (USB cable not included)
- Simple one button pairing (illuminated Diamond-R logo)
- Auto connect after initial pairing
- Class two output power
- Bluetooth™ V3.0+EDR
- 5' (1.5m) coiled cable with 1/8" (3.5mm) audio jack included
- Compatible with Apple and Android Bluetooth™

900592 49.99

4-Channel Speaker Kit

ROCKFORD FOSGATE 4 CHANNEL AMP & SPEAKER KIT

The Prime R1-HD4-9813 is a 4-channel 160 Watt speaker system designed specifically for motorcycles. "Closed loop" design precisely matches amplifier with speaker for optimized output and reliability

- Complete motorcycle kit
- Fits 1998-2013 Harley-Davidson™ factory 4-speaker systems
- Optimized EQ crossover and gain
- Three position output level control
- Pass-thru output for future system expansion
- 2/4 channel input switch
- Extruded aluminum heat-sink
- Fan cooled
- Short circuit protection
- Thermal protection
- Multiple mounting options
- Includes all harnesses and hardware for full installation
- One year warranty

ROCKFORD FOSGATE®

PUNCH 300 WATT FULL-RANGE AMPLIFIER

The Punch is a 300 watt amplifier with Boosted Rail Technology, allowing it to be compact and efficient while providing big power. This amp is great for smaller stealth installations, motorcycles and recreational vehicles.

- MOSFET output stage
- High level inputs
- Ultra compact chassis
- Variable 4-6 volt hi level DC offset voltage input turn-on control
- One year manufacturer's standard warranty

| Description | P/N | Retail |

HAWG WIRED SIX PACK

Stage 3 Systems take it to the max. Optimized with the highest performing equipment and technology, these systems bring on the crowds and bragging rights in large numbers. Stage 3 Systems can be configured in multiple ways and can result in an eight channel @ 400 watts each, competition level power house.

- Chiseled into perfection and the perfect solution for someone who wants all the performance they can get now and still add more later
- Two Ohm stable and linkable
- Regulated Class-D makes efficient power, low heat
- Clean audio power without taxing charging system
- Standard interfaces for universal applications
- Built-in crossovers for complete customization
- RC-Link remote control and linking compatible
- Two ounce copper clad circuit boards, gold immersion
- Conformal coated against corrosion and moisture
- Professional wiring makes installation a breeze
- Two year manufacturer's warranty
- Includes: 1-RS Series 400W (2x100/2x150) Amplifier
- 2-ZX Series 6.5" Component Speakers
- 2-6.5" Adaptor Rings
- 1-CS/RS Series Amplifier Install Kit

049004

699.95

HAWG WIRED DCS AMP & DX 5.25" SPEAKER KIT

- DCS/DX
- Following in its little brother's footsteps, this DCS combo offers the same big power found in the DCS/SX package, but speaks through a set of our top of the line 5.25" component speakers
- The DX speakers offer a larger magnet and larger woofer cone to allow a bit more bass
- Regulated Class-D makes efficient power, low heat
- Clean audio power without taxing charging system
- Direct Connect Harness for plug and play installation
- Built-in crossovers for complete customization
- 2 oz copper clad circuit boards, gold immersion
- Conformal coated against corrosion and moisture
- One year warranty
- Kit includes one DCS Series 120W (2x60) Amplifier and two DX Series 4 Ohm 5.25" component speakers

Note: The DCS120 is only four ohm stable and designed to power only two four ohm speakers. Multiple speakers should not be connected to this amplifier. The DCS120 is not linkable

049966

529.90

HAWG WIRED DOUBLE SHOT KIT

Stage 2 Systems are built around the tried and true CS Series amplifier design, formerly known as the PSC Series. This linkable platform is a bullet solution for just about any application. The Stage 2 Systems range from two to four speakers, but you can mix and match them at will. All provide clean, clear and loud results that are non-invasive and built specifically for your bike.

- Powered by the best 300W amplifier yet
- Equipped with two DX Series 5.25" component speakers and you can add more later
- The CS Series amplifiers are linkable and two ohm stable
- Regulated Class-D makes efficient power, low heat
- Clean audio power without taxing charging system
- Standard interfaces for universal applications
- Built-in crossovers for complete customization
- RC-Link remote control and linking compatible
- Two ounce copper clad circuit boards, gold immersion
- Conformal coated against corrosion and moisture
- Professional wiring makes installation a breeze
- One year manufacturer's warranty
- Includes: 1-CS Series 300W (2x75/2x150) Amplifier
- 2-DX Series four Ohm component speakers
- 1-CS/RS Series Amplifier Install Kit

049005

579.95

HAWG WIRED CVO AMP BYPASS PLUG H-K

- Quality high strand count 18 AWG wire
- Factory correct 16 pin Molex connector
- Terminated to reconnect speaker in/out wiring
- Simple plug and play
- Kit includes one CVO amplifier by-pass plug

Note: This wiring plug is intended for use on CVO bikes that came from the factory with two channel amplifiers. It is not useful on stock non-CVO bikes.

BIKER'S CHOICE® EXCLUSIVE!**HAWG WIRED AMPLIFIERS & SPEAKER KITS**

High fidelity audio has been in the blood of the people at Hawk Wired forever, and so has their love of the ride. Bringing the two together just seemed natural. With over 50 years combined engineering experience in the electronics industry, they set out to fill the gap between today's leading technology, and the constraining difficult environment of motorcycles as a platform for audio high-fidelity. After a few well intentioned, yet doomed car stereo installations on bikes of their own, their decision was clear; let's build what doesn't exist, and get it right the first time.

**HAWG WIRED
DCS DIRECT CONNECT AMP SYSTEM**

This system is the epitome of plug and play and they dish out performance in large quantities. Equipped with a direct connect harness that utilizes the bike's existing wiring as source to the amplifier. The DCS harness is built using the same connectors as the factory allowing for a record fast install that requires essentially no thinking.

- Class-D design makes efficient power with low heat
- Clean, raw power without taxing the charging system
- Direct connect harness for plug and play simplified installation
- Standard interfaces for universal compatibility
- Built-in crossovers for maximum loudspeaker performance
- Conformal coated for corrosion and water protection
- One year manufacturer's warranty
- Kit includes one DCS Series 120W (2x60) amplifier and two SX Series four Ohm 6-1/2" component speakers

Note: The included amplifier is not expandable. No additional channels can be added to this system.

| Description | P/N | Retail |
|---|--------|--------|
| DCS 6-1/2" Kit, Fits 98-13 Touring Models | 049981 | 599.95 |

HAWG WIRED SX SERIES COMPONENT SPEAKERS

The next step toward high fidelity is to separate the highs from the lows properly, and that's where component speakers come into play. With the tweeter bridge-mounted over the midrange cone, you don't have to give up gauge holes to achieve crystal clear quality sound that only component speakers can deliver. The performance of component at coaxial prices!

- 2 or 4 ohm impedance for 2006–newer H-D
- 1.25" PEI dome bridge-mounted tweeter
- 5.25" polypropylene mid-range cone
- 10 oz magnet with rubber boot
- 1/4" thick foam gasket on mounting surface
- Recommended as replacements for 4 ohm amplifiers and aftermarket source units only. Stock 98-up H-D radios use 2 or 8 ohm speaker output (excluding some CVO models). Due to 4 ohm coils in these speakers, they should not be connected directly to the stock radios

Note: Sold in pairs.

| HARLEY-DAVIDSON | Year | P/N | Retail |
|---|------|---------------------|--------|
| SX Series 4 Ohm, Fits All Models Equipped with Hawg Wired or other Aftermarket Amplifiers | All | 049984 ¹ | 149.95 |

¹ Not for use in factory rear Tour-Pak speaker pods

HAWG WIRED DASH TWEETER KIT

- Each kit consists of two modules that fit in the small recess of your inner fairing under your windshield and follows the Batwing fairings natural lines perfectly
- Rated at 50 watts RMS and compatible with stock or aftermarket radios and amps
- 100% plug and play and weather resistant
- Housing is matte finish to match the stock fairing, but can be painted
- Fits all 96–13 FLHT, FLHX models

Note: Some drilling required.

049986 179.95

HAWG WIRED ZX SERIES 6.5 IN. COMPONENT SPEAKERS

- Hawg Wired's highest performing speaker period, these ZX series 6.5" components reproduce a full spectrum of frequencies with precision
- Rated @ 100 watts RMS
- 4 ohm impedance for amplifier systems
- 1.25" bridge-mounted tweeter
- 6.50" solid polypropylene cone
- 12 oz. magnet with rubber boot
- Rubber woofer surround
- Two way plug and play passive crossovers (12 dB/octave)

Note: Sold in pairs.

049996 199.95

HAWG WIRED TWEETER GRILLS

- High performance tweeter and crossover setup, these grills offer superb performance and looks that directly replace stock grills with no modifications
- Plug and play connections
- 100% weather resistant
- Precision molding offers perfect fit
- Fits 98–13 FLTR

Note: Designed for 5.25" speaker openings in Sharknose fairings. Not for use on Batwing fairings or Tour-Pak speaker pods.

HAWG WIRED GAUGE TWEETER KIT

- Designed to snap directly into the stock gauge holes with no modifications
- Made to mount directly into the factory gauge hole
- Each kit comes complete with performance tweeters, crossovers and necessary instructions
- 100% plug-and-play and weather resistant
- Fits 96-13 FLHT, FLTR style fairings

049985

139.95

HAWG WIRED UNIVERSAL RADIO INSTALL KITS

- Hawk Wired has combined all three of their DIN radio installation products into one kit
- Allows you to install a Sony, Pioneer, Alpine, Kenwood, JVC, or Clarion single DIN/MP3/XM radio upgrade and still be able to use your O.E.M. hand controls
- Includes everything needed to install supported radios in your factory fairing
- Kit includes: universal radio controller, aluminum radio bezel and formed steel mounting cradle
- 100% plug and play and weather resistant

Note: See Hawk Wired website or instructions for stereo specifications before selecting a stereo to insure you get a supported unit. Requires stereo that supports O.E.M. steering wheel controls.

049987

249.95

HAWG WIRED RC-LINK DEALER INSTALL KIT

- Use for installing the RC-Link connection port for CS/RS amplifiers
- Kit includes one each 2 ft. RC-link communication cable, RC-link RJ communication coupler, RC-link coupler bracket, two each 8 in. black zip ties

049958

25.95

HAWG WIRED REAR SPEAKER WIRING KITS

- Used when installing speakers to saddlebags, lids or Tour-Pak®
- Pre-installed two pin connectors per side
- Quality high strand count 18 AWG automotive wire
- 10 ft. total length

049956

59.95

HAWG WIRED UNIVERSAL RADIO CONTROLLER

- Supports Sony, Pioneer, Alpine, Kenwood, JVC and Clarion
- Integrated H-D audio harness connector
- Wired remote/handlebar control interface connectors
- Fully enclosed durable plastic and epoxy resin
- Kit includes H-D to universal adaptor

049953

149.95

HAWG WIRED CS/RS SERIES AMPLIFIER INSTALL KITS

- All you need to install a CS/RS series amplifier
- Quality high strand count power and ground wire
- O.E.M. compatible connections
- Kit includes one each 6 foot 10AWG power wire with black sleeve, 6 foot 10AWG ground wire, 36" remote turn-on wire, 30 Amp ATC fuse, dielectric grease pack, six 8" black zip ties, 18" RCA low level cable
- Fits H-D and Victory Cross country models

049954

49.95

HAWG WIRED RC-LINK AMP EXPANSION KIT

- Links an additional amplifier to the RC-link connection port and audio daisy-chain for CS/RS amplifiers
- Kit includes one each 2 ft. RC-Link communication cable and audio daisy-chain cable

049957

12.95

HAWG WIRED HARMAN-KARDON DUMMY MODULE

- Use this bracket if you're installing an amplifier kit in an 06-13 Batwing fairing with only one CB, iPod or XM module
- This bracket acts as a dummy module to give the amplifier a level surface on top of the factory radio

049992 22.95

HAWG WIRED REAR SPEAKER BREAKOUT HARNESS FOR HARMON-KARDON RADIOS

- Use this harness to gain access to the rear output channels of all Harman-Kardon radios
- Factory correct 35 pin AMPSeal connector
- For use with CR/RS Hawg Wired amplifier

Note: May require radio to be re-flashed for four channel output.

049959 34.95

HAWG WIRED 6.5 SPEAKER ADAPTOR BRACES FOR FLHT

- Retains factory fairing braces on your FLHT fairing when installing Hawg Wired's adaptor rings and 049996 speakers
- Mounting relocater braces allow you to keep your O.E.M. fairing braces in place, per H-D recommendation

Note: Not compatible with 049960 bracket.

049963 14.95

HAWG WIRED 6.5 IN. SPEAKER ADAPTOR RINGS

- Designed to attach directly to stock 5-1/4" speaker locations
- Rings are compatible with stock or aftermarket replacement grills
- No modifications required; retains correct factory speaker angle
- Sold in pairs
- Fits 98-13 FLHT, FLTR models

049993 49.95

HAWG WIRED 96-97 RADIO ADAPTOR HARNESS

- Retro-fits 96-97 radio harnesses from the eight pin and twelve pin Deutsch connectors to the 98-13 style 23 pin AMP connector
- Can be used to install a newer style H-D radio (Radiosound and Harman-Kardon), or an aftermarket source unit using Hawg Wired's universal radio install kit

049991 99.95

049962

049961

KURYAKYN® SADDLEBAG LID SPEAKER PODS WITH 5-1/4 IN. KICKER® SPEAKERS

- By utilizing the factory saddlebag lids, these speakers will transform your bags into the ultimate sound system
- Kicker's powerful KPS5250 2 ohm or 4 ohm speakers are wrapped in high quality chrome and are angled towards the rider and feature a water-proof design for optimum sound quality and durability
- Kicker® amplifier and wiring harness (419424) required for installation (sold separately)
- Fits saddlebags lids on 06-13 Electra Glide, Road Glide, Street Glide (excludes 06-09 FLHT standard; 11-12 FLHXSE; 2011 FLTRUSE; 12-13 FLTRXSE; 06-13 FLHTCUSE)
- Sold in pairs

Note: Requires cutting speaker hole in saddlebag lid, storage space is not compromised. May work with other amplifier and speaker combinations with additional wiring (not available from Biker's Choice®).

| Description | P/N | Retail |
|-------------------|--------|--------|
| 2 ohm (Mfg/N 872) | 419401 | 289.99 |
| 4 ohm (Mfg/N 868) | 419400 | 289.99 |

KURYAKYN® SOUND OF CHROME™ SPEAKER KIT

- New 2nd Generation version
- 3 in. main speakers with additional tweeters for full bodied sound
- The weatherproof bullet housing has a powerful built-in true 50 watt amplifier and includes a volume and on/off control switch
- Convenient swivel adjustment gives you the freedom to position speakers in any direction you choose
- Includes a full plug-n-play wiring harness, noise purifier and standard 3.5 mm jack, simply connect your iPod®, MP3 player, satellite radio, personal CD player, etc.
- Original 3.5mm connector

Note: Not suggested for use with FM/AM radio.

KICKER® AUDIO AMP

- Kuryakyn® and Kicker® have created the ultimate five channel motorcycle audio amplifier
- Four channels of full range power plus 100W of subwoofer power
- DSP allows the amp to be tuned exactly to the riding environment with equalization, frequency response, and compression all set precisely for rocking on the road
- High power combined with low current draw delivers powerful efficient performance without sucking your charging system dry
- Featuring an ultra slim, compact design, the amp connects to and mounts inside your fairing
- You get to keep the factory radio and its handlebar controls; no need to change out radios
- Specially designed and optimized for Kicker® Speakers
- Power output: 46 W/ch. X 4 at 2 ohms, + 100W at 1 ohm
- Max current draw: 26 Amps at 13.8 Vdc
- Typical continuous current draw
- Plug and play wiring included to accommodate for speakers in stock locations
- All other Kuryakyn speaker kits have wiring to adapt to the 871 harness kits
- Mfg/N 871
- Fits 06-13 Road Glide, Street Glide, Electra Glide; 09-13 Trikes (excludes 11-12 FLHXSE; 2011 FLTRUSE; 12-13 FLTRXSE; 06-13 FLHTCUSE)

Note: Will not work with medallion gauges on Batwing fairing bikes.

419424 499.99

KURYAKYN® REAR SPEAKER ACCENT

- These bright chrome trim rings install easily on top of the stock black rear speaker rings
- Includes polished stainless hardware
- Mfg/N 3792
- Fits 98-13 FLHTCU; 10-13 FLHTK; 11-13 FLTRU; 08-11 FLHTCUSE; 09-13 FLHTCUTG

Note: Will also fit 98-11 FLHTC if equipped with accessory rear speaker kit. Sold in pairs.

419052 29.99

**CYCLE
SOUNDS**
SOUNDS FOR YOUR BIKE!

CYCLE SOUNDS DEVICE HOLDERS/CRADLES

iPhone® & iPod® Touch Holders

- With this holder there is no need for velcro as it holds your iPhone in place while riding
- Will need bracket P/N 218270 (bracket is included with all Cycle Sounds Audio Kits) to mount this holder to the switch housing which bolts onto the bike to secure the holder

| Description | P/N | Retail |
|---|--------|--------|
| iPod 4th and 5th Generation Nano Holder | 218199 | 29.95 |
| iPhone 1st Generation Holder | 218261 | 29.95 |
| iPhone 3G Holder | 218262 | 29.95 |
| iPhone 4G Holder | 218271 | 29.95 |
| iPod Touch 1st - 3rd Generation Holder | 218263 | 29.95 |
| iPod Touch 4th Generation holder | 218306 | 29.95 |

Blackberry® Bold™ & Storm Holders

- Quick release design allows for easy removal
- Attaches to amps hole pattern on the universal mp3 mount that comes in all our kits
- Hardware and slide lock adaptor included

CYCLE SOUNDS ROCK BOX ALL-IN-ONE AUDIO SOURCE

- Industry's smallest all-in-one audio source allowing you to listen to your favorite FM radio stations and mp3/mp4s, tell time and check temperature with ease
- Features six radio station presets, home and away functions, USB port, easy to access volume controls and function buttons and an auxiliary input to connect a separate music device
- Powered USB port allows for mp3 playback via a thumb drive and also doubles as a charging system for most any USB device
- Low-profile unit provides hassle-free mounting and storage
- Eliminates the need for an external mp3 player, radio head unit or satellite radio
- Excellent companion to Cycle Sounds or any speaker system
- Dimensions: 4.5" x 2.75" x 1"

| Description | P/N | Retail |

CYCLE SOUNDS 6.5 IN. COAXIAL SPEAKERS WITH ADAPTOR RINGS

- Kevlar woven matrix fiber cone and silk dome tweeter
- Upgrade an audio system with Cycle Sounds premium quality speakers designed to provide maximum performance at 2 ohm or 4 ohm loads
- Quality injection-molded adaptors retain the use of factory side support brackets
- Conical shape design aids in sound efficiency, unlike flat surfaces used by other manufacturers
- Fits 96—current H-D Touring models
- Speakers work with:
- 2 ohm or 4 ohm systems
- Harley-Davidson® 00–05 (4 ohm); 06–11 (2 ohm)

Specifications:

- 300W max power
- 1 in. silk dome tweeter impregnated for water resistance
- Audio grade crossover for superior sound and performance
- Completely waterproof

218308 195.95

CYCLE SOUNDS BAGGER AUDIO™ POWER PUCKS SPEAKER AMPS

- Mounts directly to the stock speaker magnets; this is truly plug and play installation that will double your radio's amp output, giving you three times more sound from your stock speakers
- Greater clarity and volume at highway speeds
- Features turbo boost technology that allows the rider to easily gain an additional 25% of power with the push of a button for maximum output at highway speeds
- Comes equipped with an onboard 3.5mm audio input jack to connect an iPod® or MP3 player directly to the speaker amp without the use of a radio head unit
- Works great on touring bikes with stock speakers or with police bikes and standard Harley-Davidson® models that lack a radio head unit

Specifications:

- 45W RMS/95W peak
- Doubles radio amp output
- Three times louder than O.E.M. systems
- Gain and tone adjustments
- Turbo boost technology with distortion protection
- Works with 2 ohm or 4 ohm systems
- 3.5mm audio input
- Material: aluminum
- 3" D x 1.5" H
- Fits 00–14 touring models with stock 2 or 4 ohm speakers

218272 249.95

CYCLE SOUNDS ROCK BOX ULTRA KIT FOR H-D FAIRINGS

- Includes both the Rock Box wired for H-D controller integration and the slick new H-D fairing radio din bezel that is form fitted for the Rock Box
- Perfect for anyone wanting the ultimate audio source solution for an H-D fairing bike
- Fits through 2013 H-D touring models

218316 399.95

**CYCLE
SOUNDS**
SOUNDS FOR YOUR BIKE!

CYCLE SOUNDS BAGGER AUDIO™ POWER PUCK & 5.25 IN. SPEAKER COMBO

- Completely transform your O.E.M. audio system by simply swapping out your factory speakers for our all-in-one amplified speakers
- Without swapping any other components, the amplified speaker upgrade will double your radio's amp output, giving you three times more sound than a standard speaker
- Speaker specifications:
- 3.2 ohm impedance
- 5.25"=200 watts max power
- Kevlar® woven matrix fiber cone
- 1 in. silk dome tweeter impregnated for water resistance
- UV stable butyl rubber surround
- Pure copper voice coil laminated for durability and weather resistance
- Audio grade crossover for superior sound and performance
- Neodymium rare earth magnet for efficiency and lightweight design
- Fits 00–14 Touring models with fairing

218273 379.95

CYCLE SOUNDS ROCK BOX WIRED FOR H-D STEERING CONTROLS

- Have the option to integrate the Rock Box directly with Harley-Davidson® audio steering controls and operate it just like having a stock radio on your non-fairing based bike
- Integration can be done on most any H-D models by installing the lower switch housings with audio control switches that are available from your H-D dealer as an optional add-on
- Comes equipped with the extra wiring, as part of the Rock Box harness, for splicing into the H-D audio controller harness
- Also included is a complete wiring diagram outlining how to correctly route the Rock Box controller wires to the H-D steering control switches
