NEW!

KRAFT/TECH TOURING FRAME FOR 23" AND 26" TIRES

This line of double down tube frames demonstrates KRAFT/TECH's commitment to quality and affordability without compromise. This new frame features a tubular backbone for flexibility on the down tube and backbone. It also has dual down tube rails with seven bends, one continuous curve for quality and strength.

seven bends, one continuous curve for quality and strength.

• 30° Rake, 1-1/8" Up Stretch, 1-1/2" Backbone stretch for 23" and 26" front tire

 Accepts Twin Cam 88 and Evolution engines with matching Touring rubber-mounted model transmissions

 Accepts all stock sheet metal, forks and suspension from the various Road King models made from 1994 thru 2006

 The Main frame rails are 1 in. thick wall from DOM steel tubing with 2 in. on the backbone

 All frames are hand crafted using the highest quality CNC and laser cut components

TIG-MIG welded for quality and strength of the frame

CUSTOM CYCLES ENGINEERINGWWW SWINGARM RETROFIT KIT

The conversion over to spherical bearings in the early models dramatically changes the handling and tracking of all the FLT and FXR models; this allows for the swingarm to react quicker to any harsh road conditions keeping the wheel in contact with the road; the use of spherical bearings also helps negate any lateral and torsional movement in the swingarm by the shear dynamics of a spherical bearing

- Replaces stock Cleveblock-style swingarm bushings with spherical bearings
- Two versions available: with or without replacement axle Note: Along with the installation of the Swingarm Conversion Kit, Custom Cycle Engineering recommends the replacement of the old rubber mount isolators (H-D®#47564-86B).

RIVERA PRIMO STIFFEY KIT

Helps solve instability in 80-08 FL rubber mounted H-D® models.

- Minimal installation time
- Manufacturer's limited lifetime warranty
- · Made in USA

PROGRESSIVE SUSPENSION® TOURING LINK CHASSIS STABILIZER

Finally an inexpensive and easy-to-install solution to the handling challenges faced by most Touring models. Does not hang below the frame or impede ground clearance. Keeps motor/swingarm assembly aligned with chassis without introducing unnecessary vibration to the rider.

- Stabilizes chassis
- Does not reduce ground clearance, may interfere with stock exhaust
- Simple to install

NEW!

CUSTOM CYCLE ENGINEERING DYNA MOTOR MOUNTS

Introducing a far superior motor mount system for all Dynas that replaces the inadequate stock motor mounts. We pulled out all the stops to make these mounts the best on the market. Manufactured in the US and made with the quality you've come to expect from Custom Cycle Engineering.

- Borrows proven technology from early FXR ISO rubber mounts
- Adjustable stabilizing link added from the motor mount to the frame to further control stability

- Utilizes two proprietary damper bushings aligned on top of each other and clamped in aluminum housing which enhances both lateral and torsional movement of the swingarm
- Made in USA

KURYAKYN

KURYAKYN® MUSTACHE BAR

Kuryakyn has taken its tried and trued Mustache Bar and brought it into the 21st Century. The great function of the mustache bar has stayed the same, adding the extra peg positions you need on those cramp-inducing hauls. The difference between old and new lies within the ability to be adjusted to fit virtually any rider. Due to its cleverly designed clamp system, this mustache bar can be moved up or down the downtubes and the bar can be rotated to provide multiple fore and aft adjustments; ride on in comfort.

Accepts any typical male mount cruise pegs, sold separately

HARLEY-DAVIDSON	Year	Mfg/N	P/N	Retail
FXST, FLST	86-16	7502	412419	189.99

¹ With Standard Engine Guard

KURYAKYN® ERGO™ PLUS ENGINE GUARD

Combining a stylish engine guard with built-in highway pegs, the Ergo™ Plus engine guard brings innovative design. Use the highway pegs folded in or flip them out for an optional foot positioning. Designed with an ergonomic pull back, your feet will feel secure with less outward leg pressure no matter what position you have them in. Bolts directly to existing mounts on the frame and does not use any universal clamps.

BIKER'S CHOICE® SIDE COVER SET

Chrome-plated side cover set. H-D®#66351-82A

ARLEN NESS CUSTOM SIDE COVER SETS

Provides a smooth flowing transition between tank and saddlebags. Radius shape helps improve aerodynamics by better directing wind at high speeds; wind flows off the radius shape of side covers instead of hitting the flat face of the saddlebag.

- Made of perfectly formed ABS plastic
- Covers are designed to mount to factory rear side panels
- · Made in USA

HARLEY-DAVIDSON	Year	P/N	Retail
FLH, FLT	09-13	261999 ¹	199.95
FLH, FLT	97-08	261998 ¹	199.95

1 Without crash bars

ARLEN NESS SIDE COVERS

Designed to replace O.E.M. covers for a clean custom look. Manufactured from paintable, high-impact plastic.

- Spacers and instructions included
- Made in USA

PROFI LASER B.A.T BIKE ALIGNMENT TOOL

Controls the alignment of a motorcycle in less than two minutes. Easy to handle and fully portable, it is not necessary to dismount any parts from the bike, nor does the tool need any set-up time. Since point of reference is exactly aligned rim of the rear wheel, the measurement is the most precise way to check a motorcycle. Helps to increase performance.

- Used bike evaluation and cost estimates
- Quiz checks before/after repairs
- Customizing, transformation and bike design
- Safety checks as customer service
- Offers a new source of service and income
- Includes a Profi C.A.T. storage case and batteries

Note: Drop-shipped from vendor to dealer.
