### **PULSTAR® PULSE PLUGS**

Electrical energy from the engine's ignition coil is stored in the built-in capacitor. At the exact moment needed, that energy is released in an amazingly powerful and quick (two nanosecond) high-energy pulse. The improved combustion efficiency burns fuel sooner and more effectively, which equals improved mpg, less CO2 based emissions and better overall drivability.

## Tested benefits:

- Up to 12% more horsepower and torque
- More precise and efficient combustion with fine-wire electrode
- Better throttle response
- Sold in pairs in a handy reuseable plastic sleeve

| Mtg/N   | P/N    | Retail |
|---------|--------|--------|
| HE1HT9  | 220155 | 34.99  |
| BE1HT10 | 220156 | 34.99  |
| BE2HT8  | 220157 | 34.99  |

## **ACCEL® SPARK PLUG INDEXER**

Allows for specifying the location of the ground electrode for maximum flame front generation.

- Soft copper spark plug washers are used to align ground electrode as well as adjust plug to piston clearance (washers sold separately)
- Can be hand-held or vise-mounted
- Designed for 14mm spark plugs

| 211692 | 27 00  |

## **DYNATEK PLUG WIRE**

Grey silicone, 8 mm plug wire. Supplied with finished spark plug boot ends and loose coil terminals to allow the final length to be determined by the user.

| P/N    | Retail |
|--------|--------|
| 217638 | 19.99  |

## STREET THUNDER 8 MM PLUG WIRE SETS

8 mm black silicone and synthetic jacketing resist heat, oil, and abrasion. 500-Ohm/ft resistance delivering greater spark energy, while improving power, idle and fuel efficiency. A combination Kevlar Helically Spiral Wound Core conductor for greater strength and durability that suppresses Electro Magnetic and Radio Frequency Interference. Matching black silicone boots protect against high exhaust temperatures. Double spring locking terminals for secure vibration proof connections.

### **TAYLOR/SUMAX FIRE POWER FOR V-TWIN**

Pack some heat with black 9mm wires with silver metallic 9 mm gun boots. All wires fire intermittently no matter what coil or ignition you may have. That is why you see carbon on your plugs. 9 mm wires provide a solid stream of fire power resulting in more horsepower, more torque and better mileage. Your bike will start and run better than ever before.

- Compatible with all H-D ignition systems
- Sold as a set of two wires

## **TAYLOR 8 MM UNIVERSAL WIRE SETS**

Silicone boots with grips make it easy and safe to check or change spark plugs. Straight coil boots with brass terminals. Boots feature double spring locking terminals. Highest voltage capacity and doubleinterlocking plug connectors. Ferro-magnetic inner core provides ten times the fire power of a carbon core.

- Spiro Pro core for electronic or points ignitions
- Metallic core for points and magnetos
- Resistance factor of 350-Ohm/foot
- 600° heat protection
- Includes two 24 in. lead wires and two black boots with brass terminals
- Order by the set

## **THUNDERVOLT 50 BY TAYLOR 8.2 MM HIGH-PERFORMANCE WIRES**

All plug wires, except for Thundervolts, fire intermittently causing plugs to build-up carbon. With Thundervolt High Performance Wires, your plugs are being cleaned as your bike idles.

• Ferrite spiral wound core with a blend of copper/nickel alloy is bonded by a conductive acrylic cover

Pro boots feature vibration proof double spring locking spark plug terminals

## **ACCEL® 8.0 S/S SPIRAL CORE PLUG WIRES**

Delivers up to five times more energy to the spark plugs than even the Screaming Eagle wire sets. Fully compatible with the Delphi fuel injection systems. ACCEL's advance technology spark plug wire construction and low resistance Ferro-Spiral delivers maximum energy while not tripping the check engine light like most other wire sets. The high temperature boots and wire can withstand over 500° and not miss a beat.

## **ACCEL® S/S FERRO-SPIRAL CORE SPARK PLUG WIRES** FOR DELPHI FUEL INJECTED EQUIPPED ENGINES

Same features as the 300+ Series such as an extra thick 8mm silicone jacket and silicone insulation eliminates electrical "leakage" or RFI interference that interrupts electronic ignitions. Delivers up to five times more peak energy than Screaming Eagle® wire sets even at high temperatures over 500° F. Ultra—strong Aramid core and fiberglass braiding provide resistance to vibration and "wire stretch" making the wire set more durable and reliable. Low 500 ohms/ft. resistance Ferro— Spiral core delivers maximum spark without diminishing or suppressing the spark energy. Available in custom fit sets that are pre-terminated and ready for quick and easy installation.

Récommended for use on all carbureted and fuel—injected motorcycles

## **ACCEL® THUNDERSPORT 5 MM IGNITION WIRE**

A radical departure from anything ever offered for the custom motorcycle builder. Half the diameter of stock wire and extremely flexible. Easy to run through cylinder heads, rocker covers and frame tubes for a totally hidden look. 150 ohms per foot Ferro-Spiral wound alloy conductor delivers super performance.

High-gloss 5mm silicone jacket is rated for over 550° F and 60KV

Packed with two 5 ft. leads with 90° spark plug ends finished

| P/N    | Retail |

## **ACCEL® 300+ IGNITION WIRE SETS**

Black, 300+ wires provide peak ignition output for race or street bikes. Ultra strong Aramid core and fiberglass braiding provide resistance to vibration and "wire stretch". Low 150 ohms/ft. resistance Ferro—Spiro™ core delivers maximum spark without diminishing or suppressing the spark energy.Custom fit sets

- Fits models listed without Delphi FI

## **COLONY SPARK PLUG CABLE NUT KIT**

Kit includes a pair of each of the following-nuts, washers, bolts and packing.

| P/N    | Retail |
|--------|--------|
| 044182 | 17.99  |

## STANDARD® XXX COPPER CORE 8 MM PLUG WIRES

Bikes with magneto or points type ignitions should use copper core wire sets.

- Rated at SEA CLASS E J2031 with a continuous operating temperature of 450°
- Fits terminal nut spark plug
- End boot angle is 90 degrees
- Made in USA

| P/N    | Retail |
|--------|--------|
| 210665 | 23.23  |

## **DAYTONA TWIN TEC SPARK PLUG WIRE SETS**

7.0 mm Wire Set:

7.0 mm black silicone insulation with low resistance 50 ohm/ft spiral core correctly fits special Twin Cam 88<sup>™</sup> coil terminal. While most competitors force fit incorrect 8.0 mm wire, we use the right wire size. 8.5 mm Wire Set:

8.5 mm black silicone insulation with ultra-low resistance 50 ohm/ft spiral core includes both 90° and 115° spark plug boots and assorted coil boots and terminals

| Size   | P/N    | Retail |
|--------|--------|--------|
| 7.0 mm | 496625 | 24.00  |
| 8.5 mm | 496629 | 28.00  |

## **COMPU-FIRE® 2 WIRE SET**

The Compu-Fire spark plug wire sets are 8 mm high temperature black silicone jacketed cable with a spiral wound reactive core conductor.

- Universal fit design and are supplied with brass coil terminals and boots
- Available in 2-or 4-wire sets for all coil configurations

P/N Retail 603280 16.99

## KURYAKYN® SCORPION SPARK PLUG AND HEAD BOLT COVERS

Chrome-plated covers are held in position with set screws, insuring rattle-free performance. Spark plugs can be removed without taking the covers off.

## **S&S® HI-4N IGNITIONS**

One piece machined aluminum housing reduces vibration and improves heat dissipation and reliability. Improved kick start algorithm designed to start as easily as points. BCD switches with solid detent and legible marking allow easy and repeatable adjustments of mode, advance rate, and rev limit. Single-fire and dual-fire function built into a single module. Flexible wiring harness makes installation easier.

- Initial timing marks allow precise adjustment and reinstallation
- Sensor covers integrated into housing to provide protection during installation
- Three year warranty

## **DAYTONA TWIN TEC TC88 PLUG-IN IGNITION MODULE**

Wide timing advance adjustment range accommodates stock to highly modified engines. Digitally set RPM limit (100 RPM steps). Selectable multi-spark mode for quick starting and smooth cruise. Coil outputs protected against short circuits. Optional USB interface and software for downloading built-in data logging and programming custom advance curves (P/N 498715) sold separately.

- · Billet aluminum housing with black anodized finish
- Easy plug-in installation
- Supports all sensors including theft/security module

## **DYNATEK 2000I SINGLE FIRE IGNITION AND MINI COIL KIT**

2000i Mini Coil has no exposed laminations to rust and degrade performance. High voltage and primary terminals machined from brass. Ultrasonically welded and sealed against moisture. Eight selectable advance curves from stock to high-performance. Adjustable rev limiter from 6000-7500 RPM. Completely self contained, installed under cam cover. Compact size fits easily under stock covers.

- Kit includes Dyna 2000i ignition and Twin Fire II miniature coil 200i Mini Coil
- · Peak gap current in excess of 50mA
- High impact thermoplastic housing
- Over 40,000 volts per output
- Accepts 7 to 8.8mm wires
- One-year manufacturer's warranty 2000i Ignition
- All metal construction, no plastic
- Cross wire installation protection
- One-year manufacturer's warranty
- 70-82 H-D® models require (H-D®#32402-83)

## **DYNATEK TC88-3**

Dyna TC88-3 is a single fire, fully programmed performance ignition with 16 programmable advance curves and eight rev limiter settings. All functions feature full digital accuracy and full J1850 compatibility with all stock devices. Coil compatibility from stock to performance (less than 1 ohm resistance). Coil current constantly monitored to provide constant full spark energy. Utilizes all stock sensors, stock O.E. connectors and the stock O.E. mounting. Reverse battery and spike protection are also built-in.

· One-year manufacturer's warranty

## **S&S® INTELLIGENT SPARKING SYSTEM**

The S&S® Intelligent Spark Technology ECU module automatically adjusts ignition timing. When detonation is detected by the exclusive knock sensor, the ECU retards the ignition timing to prevent engine damage. When detonation is not present, ignition timing is advanced for maximum power and economy. The system remembers the conditions that cause the engine to knock and automatically adjusts ignition timing to prevent it when those conditions reoccur.

If a different camshaft is installed or if cylinder head modifications are made, the S&S® Intelligent Spark Technology ignition system will automatically optimize the ignition timing for the new configuration. If major engine modifications are made, such as the installation of a stroker or big bore kit, the system will adjust to the ignition requirements of the

- No timing adjustments: the system adjusts timing automatically
- 7000 rpm rev limiter
- Single fire operation requires two coils or dual coil package
- Short circuit and reverse polarity protected
- Made in USA

## **DAYTONA TWIN TEC VT-I V-TWIN ELECTRONIC IGNITION SYSTEM**

RPM and reduced current draw at low RPM. Compatible with most original equipment and aftermarket dual fire ignition coils (3-5 ohms primary resistance). Easy installation: simple two wire hookup to coil. Hall effect sensor detects teeth on special trigger rotor and provides very stable spark timing. Operates down to below six volts for reliable starting under all conditions, including kick start. Fully encapsulated construction using surface mount electronics. Ultra reliable dual fire electronic ignition system. Includes special trigger rotor for use with traditional mechanical advance mechanism (supplied by customer). Precise digitally set RPM limiter (200 RPM steps from 5,200 to 7,000 RPM)

Status LED for easy static timing. Electronic dwell control for maximum ignition energy at high. Waterproof and highly resistant to vibration and shock.

- Over-temperature protection. Rated to operate at 125°C (260°F)
- Fits all Carb H-D models (exc. early Magneto)
- Made in USA

| P/N    | Retail |
|--------|--------|
| 496715 | 151.00 |

## **DAYTONA TWIN TEC MODEL 1005 INTERNAL IGNITION**

Two advance curve families with adjustable advance slope accommodate stock to highly modified engines. Digitally set RPM limit (100 RPM steps). Selectable single or dual fire mode. Selectable multi-spark mode for quick starting and smooth cruise. Coil outputs protected against short circuits.

- Optional USB interface and software for downloading built-in data logging and programming custom advance curves (BC#498715) sold separately
- Ignition for 98-02 Sportster includes mating Deutsch plug and harness for single fire conversion
- Billet aluminum housing

Note: Not legal for sale or use on pollution-controlled vehicles.

| USB Interface and Software | 498715 | 94.00  |

## **Dual Fire**

Stock replacement type ignition system is self-contained and fits under the stock timer cover. Unique half-effect sensors are impervious to dirt and oil. Spark scatter is almost eliminated. Timing changes less than 3° from 0-8000 RPM. Eliminates maintenance and extends spark plug life.

## **Single Fire**

Increases power and reduces vibration, backfiring and intake reversion, especially on engines with radical cam timing. Front and rear cylinder timing may be set individually. Perfect for hot dual-plugged engines.

- One-year manufacturer's warranty

Note: 80 and later models require conversion to centrifugal advance mechanism. Must be used with 5 ohm coils for street operation.

## **COMPU-FIRE® 20100 DUAL-FIRE IGNITION MODULE**

Mechanical advance, dual fire, single plug. Uses blue rotor (included). Use to convert points ignition to Compu-Fire® electronic ignition. Mechanical advance, single fire, single or dual plug. O.E.M. on numerous engine manufacturer and custom motorcycle builders. Quality electronics that deliver top notch performance and dependability.

- Converts outdated points system to an accurate electronic ignition
- Utilizes the mechanical advance
- 1980 and later electronic conversions require a mechanical advance
- Includes rotor with kit
- Made in USA
- O.E.M. on numerous engine manufacturer and custom motorcycle builders
- Quality electronics that deliver top notch performance and dependability
- Fits entirely in the nose cone and alleviates the need for the black box
- Tunes easily without the need of any tools
- Thorough, easy-to-read instructions
- Proven maintenance-free electronics
- LED indicates TDC to ensure proper timing
- Proprietary software aids starting and helps eliminate kick-back
- 100% immune to RFI and enables solid wire and non-resistor spark plug use
- Improved throttle response and performance
- 1980 and later electronic conversions require mechanical advance P/N 215533 and HD®#32517-70.

## **COMPU-FIRE® 20200 SINGLE FIRE IGNITION MODULE**

Mechanical advance, single fire, single or dual plug. O.E.M. on numerous engine manufacturer and custom motorcycle builders

Quality electronics that deliver top notch performance and dependability. Converts outdated points system to an accurate electronic ignition

- system
- Utilizes the mechanical advance
- 1980 and later electronic conversions require a mechanical advance
- Includes red rotor with kit
- Made in USA
- Fits entirely in the nose cone and alleviates the need for the black box
- Tunes easily without the need of any tools
- Thorough, easy-to-read instructions
- Proven maintenance-free electronics
- LED indicates TDC to ensure proper timing
- Proprietary software aids starting and helps eliminate kick-back
- 100% immune to RFI and enables solid wire and non-resistor spark
- Improved throttle response and performance
- This system requires tach adaptor P/N 603295 or tach will read half speed.

## **COMPU-FIRE® 21835 IGNITION MODULES**

Tunes easily without the need of any tools with eight selectable ignition curves to ensure max performance with your combination. Works on both single and dual fire applications with RPM limiter selectable from 6000 to 7500 RPM in 250 RPM increments.

- Selectable electronic advance curves and RPM limiter
- Single- or dual-fire application
- Built in timing light, rpm limiter and VOES diagnostics
- Extended temperature and low voltage operation increases performance and reliability
- Soft-start circuitry allows easy starting under low battery conditions
- RFI immunity allows solid wire and non resistor plugs
- Tunable VOES
- Use P/N 603295 tach adaptor or tach will read half speed.

| P/N    | Retail |
|--------|--------|
| 603294 | 287.99 |

## **COMPU-FIRE® 21835KS IGNITION MODULE**

Tunes easily without the need of any tools with eight selectable ignition curves to ensure max performance with your combination. Works on both single and dual fire applications with RPM limiter selectable from 6000 to 7500 RPM in 250 RPM increments.

- Eight selectable electronic advance curves and RPM limits
- Single- or dual-fire application
- Extended temperature and low voltage operation increases performance and reliability
- Soft start circuitry allows easy starting under low battery conditions
- RFI immunity allows solid wire and non resistor plugs
- Use P/N 603295 tach adaptor for single fire.

Retail 603297 287.99

## **COMPU-FIRE® 21860 IGNITION MODULE**

Tunes easily without the need of any tools with eight selectable ignition curves to ensure max performance with your combination. Works on both single and dual fire applications with RPM limiter selectable from 6000 to 7500 RPM in 250 RPM increments.

- Selectable electronic advance curves and rpm limit retard for nitrous and high gear
- Single/dual fire and/or single/dual plug
- No VOES

P/N Retail 603298 287.99 Products on this page may not be legal for sale or use in California or in other localities due to state and/or federal anti-tampering laws. Before purchasing, see page 1986.

## **COMPU-FIRE® 20600 IGNITION MODULE**

Tunes easily without the need of any tools with eight selectable ignition curves to ensure max performance with your combination. Works on both single and dual fire applications with RPM limiter selectable from 6000 to 7500 RPM in 250 RPM increments.

- · Selectable electronic advance curves and RPM limiter
- Single/dual fire and/or single/dual plug
- Eliminates points and mechanical advance
- 1980 and later eliminates O.E.M. electronics
- Tunable VOES
- Use P/N 603295 tach adaptor or tach will read half speed.

## TWIN POWER NEEDLE BEARING ADVANCE KIT

A complete advance unit kit updated with needle bearings for long life. The Twin Power Needle Bearing Advance Kit is a top quality advance unit with needle bearings at the advance weight pivot. It provides long term advance unit reliability. It can also be used to replace electronic ignition on 79-03 XL and L78-99 Big Twin.

Kit includes advance unit, point plate, points and condenser, wiring harness and all mounting hardware (with clearance stand offs)

## **UNILITE® BREAKERLESS IGNITION WITH UNILITE MODULE**

Provides a simple conversion from breaker points in Big Twin and Sportster models to "breakerless" trouble-free precision timing. Dual fire system. No moving parts to wear out. Points are replaced by the Unilite® module. Requires use of stock or high performance advance weight setup. Recommended coils to be used are 2.0 and 3.0 ohms for racing applications and 3.5-5.0 ohms for street and highway use.

Easy three wire connection

## TWIN POWER IGNITION COILS

Twin Power coils are high-quality direct fit with at least 20% more voltage than stock. High-quality, molded-epoxy coils for 12-Volt H-D® ignition systems increases peak spark voltage by 20% or more! In a late O.E.M.-style molded case, these ignition coils improve starting, stops high-speed misfires, increases mileage and overall performance. They are available in black and chrome, and come with a one-year manufacturer's warranty.

## **DAYTONA TWIN TEC HIGH OUTPUT COIL FOR TWIN CAM 88 EFI**

High Output coil with 0.40 ohm primary that mounts in stock location and meets or exceeds O.E.M. specifications.

One-year manufacturer's warranty

| HARLEY-DAVIDSON           | Year  | O.E.M.   | P/N    | Retail |
|---------------------------|-------|----------|--------|--------|
| FLH. FLT. FXST. FLST. FXD | 00-06 | 31743-01 | 496733 | 113.00 |

## **DAYTONA TWIN TEC MINI COIL**

- 3 ohm primary resistance
- Compatible with most aftermarket single fire ignitions and Daytona Twin Tec models 1005-1007

Note: Street legal ARB E.O. No. D-641-2. Sold Individually (2 required).

| P/N    | Retail |
|--------|--------|
| 496703 | 67.00  |

## **DAYTONA TWIN TEC MINI COIL KIT**

- 3 ohm primary resistance
- Compatible with most aftermarket single fire ignitions and Daytona Twin Tec models 1005-1007
- Includes two coils and universal spark plug wires

Note: Street legal ARB E.O. No. D-641-2.

| P/N    | Ketaii |
|--------|--------|
| 496704 | 134.00 |

### **DAYTONA TWIN TEC HIGH OUTPUT COIL FOR TWIN-CAM 88**

Greater than 50 mJ and 40,000V output for demanding performance applications.

- For optimal performance use P/N 498745 or 496622 plug-in ignition modules and stock Twin Cam ignitions
- Fits most 1999 and later carburetor models same size as stock coil H-D®#31655-99 will not fit in place of H-D®#31639-99)

| HARLEY-DAVIDSON           | Year  | P/N     | Retail |

## **ACCEL® STEALTH SUPERCOILS**

Eliminates the need for ignition wires forever by mounting the coil directly to the spark plug. All wiring is hidden in the fins of the head for a clean and custom look. Beautiful cast aluminum cover holds the coil in place and acts as a functional heat sink to pull heat away from the cylinder head. Proven automotive technology for your air cooled Twin Cam. Maximum spark energy to the plugs.

Charging Systems
for American V-Twins
Top Quality Made In U.S.A

498420

80 Series kits produce 32 amps @ 1000RPM and 50 amps 2500RPM. These kits offer an incredible increase in charging power when upgrading from a 32 or 38-

| amp system and better durability than the stock 48-amp system. |       |                     |                  |                        |                     |                       | 49     | 8416                  |              |                        |        |

## **CYCLE ELECTRIC 60 SERIES 38 AMP 3-PHASE CHARGING KITS**

Produces incredible low speed out put and an ultra smooth charge to ensure maximum battery life. Delivers up to 20 Amps at 1000 RPM and 38 Amps at 2500 RPM. Excellent choice for 84-96 Dressers to keep the volt meter from taking a dive at an idle and keep the blinkers flashing at stop lights.

<sup>1</sup> Not recommended for use with oil coolers that mount in front of regulator

## CYCLE ELECTRIC ALTERNATOR KITS

- Kits include stator, rotor, regulator and mounting hardware
- Designed for low-speed output and smoother charging to the battery

1 With 38 Amp Charging System

## THUNDER HEART CHARGING KIT

Converts an original single-phase system to a 3-phase system on any EVO and S&S EVO. Digitally calibrated for optimum charging level over a wide temperature range

Rugged, billet aluminum regulator housing is highly polished for a custom look. Regulator operation is self-temperature compensated to control heat and optimize service life. Over-temperature protection prevents catastrophic heat failure under severe operating conditions. Highly efficient power conversion means more charging current is available at lower speeds for maximum battery life and easier starting.

 System reaches full charge at 550-650 RPM! (factory system reaches full charge at 1000 RPM)

## 603340

## **COMPU-FIRE® 3 PHASE CHARGING SYSTEM**

- 40 Amp three Phase charging systems provide 25 Amps at idle and 40 Amps continuously above 2800 RPM
- Unique narrow rotor and stator combination fits Softail and Dyna primary cases
- Voltage regulator bolts on without any frame modifications
- Precision balanced vented rotor keeps the stator cooler in closed primary systems to maintain maximum output under all high current draw conditions
- Large flanged seal spacer provides maximum support for the rotor and the voltage regulator output is calibrated to 14.25 Volts from idle on up

## **CYCLE ELECTRIC RECTIFYING REGULATORS**

Block current to control voltage. Reduces stator current. Lowers temperature and less drag on motor. Creates more efficient operation. Smoother charge to the battery. Less battery maintenance and longer battery life.

Note: Use with Cycle Electric stators for manufacturer's two-year warranty.

## **CYCLE ELECTRIC GENERATOR WITH REGULATOR**

Complete charging system for generator bikes that features simplified wiring, higher output, longer service life. Works with or without a battery. 12-Volt, two brush generator will deliver more amps when cold for faster recharging.

O.A.L. 7.58 in. from gasket surface to fins

- Made in USA

Note: When replacing three brush generator (36-57) use H-D#31035-58 oil deflector, discard spring and old deflector. Check for clearance on foot clutch models. When converting 6-Volt to 12-Volt use 5.5-Amp battery or small kick start battery.

## **CYCLE ELECTRIC UPDATED END PLATE**

Complete with bearing and seal Fits all XL generators and Big Twin generators with "updated" end plate (4 holes). Updated" end plate has an extra set of mounting holes to align the fins on the regulator level with the engine. To make the fins parallel to the ground, an updated end plate is required (or a Cycle Electric generator, available separately).

Made in USA

## **CYCLE ELECTRIC GENERATORS**

High quality replacement generator that meets or exceeds O.E.M. specifications.

1700 2017 BIKER'S CHOICE CATALOG BIKER'S + CHOICE

#### **COMPU-FIRE® EZ FIT STARTER MOTOR**

This motor takes the confusion out of selling starters for 65-88 Big Twin models equipped with Prestolite and Hitachi starters. Bolts on to all three versions of the starter gear cases making this an easy installation. Natural aluminum finish. Output of 1.6kW by using permanent magnet field design technology.

Made in USA

| HARLEY-DAVIDSON          | Year  | P/N    | Retail |
|--------------------------|-------|--------|--------|
| FLH, FXST, FLST, FXR, FX | 65-88 | 603345 | 386.99 |

# **COMPU-FIRE® PINION SHAFT FOR BDL 3 IN. OPEN DRIVES**

Use when fitting Gen III starter to BDL 3 in. open belt drives.

Made in USA

| P/N    | Retail |
|--------|--------|
| 603267 | 100.99 |

#### **COMPU-FIRE® GEN III STARTER**

Easily starts any Twin Cam and Evolution style motor big or small from 1990 on with ease. Extra power is gained by the use of Neodymium Rare Earth Magnets. Ultra strong clutch design to handle the heaviest of loads. Smooth polished billet and chrome finish. Compact lightweight design to fit both Dyna and Softail models. Only starter available with true center shaft alignment, through the use of three planetary gears. No need to switch to a larger battery because it only draws 175 Amps.

Torque 6:1 gear ratio

Made in the USA

# **KURYAKYN® TRI-LINE IGNITION SWITCH COVERS**

The Tri-Line Ignition Switch Cover offers an instant and easy custom enhancement to the lower inner fairing. Made from quality chrome-plated or gloss black die-cast aluminum, installation does not require removal of the stock cover. The clean styling and scalloped chrome design is the perfect complement to our Tri-Line Deluxe Stereo Trim and Tri-Line Gauge Trim, both sold separately.

# KURYAKYN®

# **KURYAKYN® ZOMBIE INFINITY HORN COVER**

The amazing infinity effect uses multi-color LEDs to give the chrome skull's eyes and nose endless depth. Seven Color LED technology operates in three modes including single color steady illumination, single color flashing illumination with rheostat adjusted variable rate and paint mode, where all lights in unison continuously cycle through all 7 colors (red, lime, ice blue, sky blue, dark blue, purple, green) with an adjustable variable rate.

- Use the included controller or connect to other Infinity or Lizard Light accessories
- Fits 92-17 H-D models with stock cowbell horn cover
- U.S. Patent 7,029,152

#### **BIKEMASTER® DUAL USB POWER ADAPTOR**

Equipped with a water- and weather-resistant cap, the Dual USB Power Adaptor is perfect to use with the BikeMaster® 12-Volt power adaptor P/N 266184. It has a DC 12-Volt input with a DC 5-Volt/2-Amp output and LED indicator light.

P/N Retail 152234 14.95

EXCLUSIVE

# BIKEMASTER® 12-VOLT/15-AMP STANDARD CIGARETTE LIGHTER SOCKET FOR POWER SUPPLY

A hard-to-find item, this power supply is perfect for vehicles that don't come with factory power outlets and is especially configured for motorcycles. The BikeMaster® 15-Amp Standard Cigarette Lighter Socket for Power Supply can be mounted either through a hole drilled into the body of your bike or with a bracket (not included). The power supply does come with a ground wire, so it does not need to be mounted to anything if you don't want to mar the body of your ride. Water-resistant, the power-in cables have rubber grommets while the power-out has a tight fitting rubber cap.

P/N Retail 151668 8.45

**EXCLUSIVE** 

# BATTERY TENDER® CIGARETTE LIGHTER ADAPTOR

Jump start your bike using your car battery. Charge your battery by hooking it up to your car.

Connects to Battery Tender Pigtails P/N 212108

P/N Retail 212126 8.95

EXCLUSIVE

# BIKEMASTER® 12-VOLT/15-AMP MALE PLUG CIGARETTE ADAPTOR

The BikeMaster® 2-Volt/15-Amp Male Plug Cigarette Adaptor features a male DIN plug, popular on European motorcycles, to a US female cigarette lighter outlet, allowing you to use your US cigarette male plugs on any European bike you may ride.

| P/N    | Retail |

#### **THUNDER HEART** PERFORMANCE MICRO HARNESS CONTROLLER

- Compact design is easily hidden on custom motorcycles
- Performs all fuse, relay and signal canceling functions in one simple
- Provides multiple flasher combinations (signal canceling, hazard lights and tri-state indicators), running lights, brake lights and turn signal from one bulb
- Reduces size, weight and overall complexity of the electrical system
- Utilizes relays to distribute all power functions, eliminating the need to run large wires to all the switches
- Small size of controller housing allows multiple mounting location, both visible and hidden
- Weather resistant connections for trouble-free use in extreme environments
- Comprehensive installation and troubleshooting manual to minimize

### NAMZ EFI COMPLETE BUILDERS KIT

Assortment of plugs, wire seals and terminals for a variety of applications.

P/N Retail 486314 300.99

# NAMZ THROTTLE POSITION SENSOR CONNECTOR

3-position TPS sensor found on 2006 models.

P/N Retail 486249 7.50

### NAMZ IGNITION COIL. IDLE SENSOR, FUEL PUMP CONNECTOR

4-position connector found on 2006 models at the Idle Speed Sensor, Ignition Coil and Fuel Pump.

| P/N    | Retail |  |
|--------|--------|--|
| 486078 | 5.50   |  |

#### NAMZ O.E.M. 3-POSITION MATING CONNECTOR

3-position mating connector can be found on 2006-Up model's transmission sensor and alarm siren.

- Mates with H-D#72064-06
- Includes wire seal and male open barrel crimp terminals

| P/N    | Retail |  |
|--------|--------|--|
| 486276 | 5.50   |  |

# NAMZ O.E.M. MAP SENSOR CONNECTOR

3-Position Delphi connector found on 1998-Up models connected to the Map Sensor.

Includes connector, terminals and wire seals

| P/N    | Retail |  |
|--------|--------|--|
| 486264 | 8 99   |  |

# NAMZ O.E.M. ACTIVE EXHAUST SENSOR CONNECTOR

5-position connector.

| P/N    | Retail |  |
|--------|--------|--|
| 486334 | 10 50  |  |

# NAMZ O.E.M. ENGINE TEMP CONNECTOR WITH TERMINAL

| P/N    | Retail |  |
|--------|--------|--|
| 486341 | 4.50   |  |

# NAMZ 1-POSITION FEMALE CONNECTOR WITH SEAL AND TERM

BCM Power Connector.

| P/N    | Retail |  |
|--------|--------|--|
| 486328 | 9.99   |  |

#### NAMZ O.E.M. 4-POSITION MATING CONNECTOR

4-position connector can be found on 2006 models at the Idle Speed Sensor, Ignition Coil and Fuel Pump.

• Mates with H-D#72066-06

| P/N    | Retail |
|--------|--------|
| 486090 | 5.40   |

## NAMZ FUEL PUMP/SENDER ASSEMBLY CONNECTOR KIT

| P/N    | Retail |  |
|--------|--------|--|
| 482067 | 9.50   |  |

# NAMZ FRONT/REAR FUEL INJECTION CONNECTOR WITH TERMINAL

2-position Delphi connectors.

| 196262 | 13 99  |

# NAMZ 23-POSITION PLUG. HARLEY-DAVIDSON RADIO HARNESS

O.E.M. replacement for all fairing radios.

| P/N    | Retail |
|--------|--------|
| 486238 | 17.99  |

# **NAMZ AMP 23-PIN RADIO MALE HARDWARE**

P/N Retail 486335 10.99

# NAMZ AMP .187" FEMALE SOCKET HOUSING

Sold in packs of 20.

P/N Retail 10.99 486316

#### NAMZ .25" FEMALE OUICK DISC 18-22

Sold in packs of 25.

P/N Retail 486279 8.99

# **NAMZ .25" QUICK DISC 14-16**

Sold in packs of 25.

| Description | P/N    | Retail |
|-------------|--------|--------|
| Female      | 486280 | 8.50   |
| Male        | 486298 | 8.99   |

#### NAMZ REPLACEMENT HEADLIGHT SOCKET **AND TERMINAL KIT**

Replace your 4.5", 5.75" and 7" headlight socket.

Comes with female spade "U-barrel" crimp terminals

#### NAMZ O.E.M. LED HEADLAMP HARNESS

| P/N    | Retail |  |
|--------|--------|--|
| 486343 | 18.99  |  |

# NAMZ FEMALE CRIMP TERMINALS

· Sold in packs of 50.

P/N Retail 12.50 486218

#### NAMZ AMP .25" FEMALE SOCKET HOUSING

· Sold in packs of 20.

P/N Retail 486317 10.99

# NAMZ .25" FEMALE FLAG TERMINAL

Flag terminal used in rear brake switches.

- Řequires crimp tool
- Sold in packs of ten.

Retail 486273 8.00

# NAMZ 1-POSITION FEMALE CONNECTOR AND TERMINAL

Found on all H-D models to connect a wire to the starter solenoid.

• Sold in 5-packs with terminals

P/N Retail 486112 5.99

# NAMZ O.E.M. LED HEADLAMP ADAPTOR HARNESS

Daymaker harness.

P/N Retail 486342 28.99

#### **NAMZ HEADLIGHT HARNESS**

Designed to fit all factory and aftermarket headlights. Includes: 20" length of 3-conductor, 16-gauge, jacketed wiring harness that has been braided in stainless covered with crystal clear heat shrink and three butt connectors.

| P/N    | Retail |

# **JIMS® IGNITION ALIGNMENT KEY**

Fiddling with screwdrivers and coat hangers does not cut it! Our alignment tool is the perfect solution; correct alignment is quickly and easily achieved. The professional technician needs fast and accurate alignment of the ignition switch cover. This tool is for 2014 and later touring models and based on our proven design for earlier models. Legendary Jims quality allows us to give a lifetime guarantee on this made in the USA tool.

# JIMS® IGNITION SWITCH/FORK LOCK TOOL

Designed to make removing and installing the Dyna ignition switch and fork lock simple. Used on the ignition switch face nut that holds the switch in place on the frame, letting you remove or install the switch correctly.

- 3/8" drive access hole incorporated into the design for ease of use
- Use on 06-17 Dyna models

| P/N    | Retail |
|--------|--------|
| 461011 | 53.95  |

#### **JIMS® INLINE SPARK TESTER**

Quick and easy visual check of the ignition system.

- Works on all ignition systems including distributorless ignitions
- Made in USA

# **BIKEMASTER® MULTI-TESTER**

Bike won't start... is it the battery? Or the starter? Or the charging system? Find out with this easy-to-use Multi-Tester. With the BikeMaster® Multi-Tester, you can test the battery voltage, starter and charging system quickly and easily all with one tool. As soon as you hook it up to your bike, you will know the voltage and charge percentage of your battery. When you fire up the engine, you will get a read out of the cranking capacity of the battery as well as the charging system voltage.

#### NAMZ DEUTSCH SOLID TERMINAL CRIMP TOOL

The perfect fit for your needs.

P/N Retail 486315 416.00

# NAMZ UNIVERSAL U-BARREL TERMINAL CRIMP TOOL

The perfect fit for your needs.

Retail 486252 49.99

#### **BIKEMASTER® MULTI-CRIMP LEVER PLIERS**

Our professional crimpers come with the perfect jaw for each type of connector. Made from hardened tool steel to last a lifetime, it comes with a manufacturer's lifetime warranty.

P/N Retail 151660 64.95

# **BIKEMASTER® CRIMPING TOOL**

It's essential when you crimp connectors that they are accurate and permanent. The Crimping Tool from BikeMaster® gives you precision crimping gaps that are maintained and correctly sized.

P/N Retail 151687 12.95

#### NAMZ DEUTSCH STAMPED TERMINAL CRIMP TOOL

The perfect fit for your needs.

P/N Retail 486340 361.50

# NAMZ UNIVERSAL MINI U-BARREL CRIMP TOOL

The perfect fit for your needs.

P/N Retail 486339 91.50

#### **BIKEMASTER® QUICK WIRE STRIPPER**

Easy-to-use, the Quick Wire Stripper perfectly strips multiple size wires and makes short work of wire harness customizing or adding wired accessories. It has an ergonomic comfort grip. It features built-in wire cutters and blade pressure adjuster as well as clamping jaws that have a reference scale for precise length stripping.

P/N Retail 152215 11.95

# **BIKEMASTER® WIRE STRIPPERS**

With automatic clamping and length gauge facility to ensure uniformly stripped ends, this tool comes with a manufacturer's lifetime warranty. • Strips four insulation or wire diameters: 1.0, 1.6, 2.0 and 2.6mm

NAMZ MALE TERMINAL REMOVAL TOOL

P/N Retail 486307 37.50

#### **GREENLIGHT TRIGGERS**

Makes the vehicle more "visible" to traffic signal detectors. Works on motorcycles, scooters, mopeds and bicycles. Simple, safe, legal and effective.

- Installs in seconds with no wiring
- Installation instructions included
- Bright finish nickel 1" x 2" x 3/8"

P/N Retail 653999 34.99

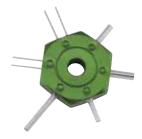

#### THEXTON DEUTSCH TERMINAL TOOL KIT

Made of steel and designed especially for the professional technician.

- Packaged in a custom pouch and includes three tools for different sized wire and contacts:
- 14-16 AWG and size 14 contacts
- 16-18 AWG and size 18 contacts
- 20-24 AWG and size 20 contacts

P/N Retail 150307 59.99

#### **BIKEMASTER® TERMINAL TOOL**

Compact design for convenient storage, the Terminal Tool allows easy wire removal from terminal blocks and connectors. It helps prevent damage to wires and terminal blocks during use and can fit most common sizes of terminal blocks.
