

MADE IN

THE USA

California law generally prohibits the sale and installation of aftermarket exhaust products UNLESS such products are installed on vehicles that did not come originally equipped with catalytic converters or are used only for racing and are never used upon a California highway. Before selling or purchasing in California, see page 1986.

NEW!

VANCE & HINES 30+ HORSEPOWER KIT

From the development team that builds 400 horsepower Pro Stock engines, the Vance & Hines Raceshop introduces the 30+ HP Kit for Harley-Davidson® Touring models. Injecting white-knuckle performance across the entire powerband, the 30+ HP Kit is the result of assembling the best selection of bolt-on components. And the Fuelpak FP3, the brains of the 30+ HP Kit, is what enables these components to get the most out of your motor.

- Oversized 450 (chrome or black) slip-ons with carbon fiber end caps, exclusive to 30+ HP Kit
- Carbon fiber VO2 air intake kit
- Fuelpak FP3 with raceshop mapping
- Power dual head pipes
- 575 camshaft set
- Adjustable pushrods
- Vance & Hines inscribed chrome or black timing cover

VANCE & HINES COMPETITION SERIES SLIP-ON FOR V-TWIN

Vance & Hines introduces the Competition Series slip-on muffler in matte black for the Harley-Davidson® Street 750 and 500 models, the newest additions to the Motor Company's Dark Custom line. The angular design of the Competition Series slip-on captures the minimalist and raw attitude of the street. Formed in lightweight stainless steel and coated in high-temperature ceramic with laser-etched Vance & Hines logo, the Competition Series slip-on also features a machined billet end cap finished in matte chrome. With an aggressive deep tone thanks to its fiberglass wrapped baffle, the Competition Series slip-on gives the Street the roar of a Big Twin bike, and also includes a removable insert to adjust the sound level to the rider's preference.

- Lightweight stainless steel construction
- Slip-fit to O.E.M. head pipe
- Available in matte black finish
- Upswept design

NEW!

ROLAND SANDS DESIGN® TRACKER 2:1 FOR V-TWIN

Inspired by an exhaust you might find on a high-speed, wide-open flat track racer, these lightweight pipes give you unparalleled Vance & Hines performance and breathe some life into your Softail or Sportster. You might still wake up the neighbors, but you won't blow out your eardrums.

- Hand TIG welded head pipes
- Race-quality, high-temperature black ceramic coating
- Drilled-chrome heat shields with V&H logo stamp
- Chrome billet drilled exhaust tip with RSD Logo Stamp
- Made in USA

PERFORMANCE MACHINE EXHAUST TIPS

PM has taken a simple, billet piece of aluminum and turned it into works of art. Five cutting edge designs. 3.5 or 4.0 in. for the most popular applications. Machined cuts and grooves, giving each round depth and dimension inside and out.

Before selling or purchasing in California, see page 1986.

EXCLUSIVE

RUSH™ STANDARD 2:1 FULL SYSTEMS FOR DRESSER AND ROAD KING

Dyno Tested: significant increases in low- and mid-range torque as well as top end horsepower. Available in show-quality chrome or black high-temperature double baked powder coated. Head pipes are silver ceramic coated on both the inside and outside of the head pipes; improving exhaust flow and reducing ambient heat up 300°; lower pipe temperatures are more comfortable for the rider and passenger. Heavy-duty, 16-gauge steel, which has 30% more steel than the 18 gauge used by other manufacturers; thicker steel means longer life and better sound. A spiral, louver-packed baffle contributes to the sound and additional power.

- Includes full-coverage heat shields to cover the head pipes and collector; offered in chrome or black
- Includes an end cap, constructed of aircraft-grade billet aluminum; chrome system: silver cap, black system: black cap
- All mounting hardware is included
- One-year manufacturer's warranty
- Made in USA

EXHAUST

California law generally prohibits the sale and installation of aftermarket exhaust products UNLESS such products are installed on vehicles that did not come originally equipped with catalytic converters or are used only for racing and are never used upon a California highway. Before selling or purchasing in California, see page 1986.

EXCLUSIVE

RUSH™ ECO-FRIENDLY 2:1:2 HEADER FOR DRESSER AND ROAD KING

This eco-friendly Touring 2:1:2 designed to be used in conjunction with O.E.M. heat shields and crossover pipe.

- Chrome pipes
- Saving the environment one heatshield at a time by recycling O.E.M. components
- Made in USAs

HARLEY-DAVIDSON	Year	P/N	Retail
FLH, FLT	09-16	625009	319.95

EXCLUSIVE

RUSH™ TRUE DUAL HEAD PIPES FOR TOURING AND TRIKE

Available in show-quality chrome or black high-temp double baked powder-coated. Head pipes are silver ceramic-coated on both the inside and outside of the head pipes; improving exhaust flow and reducing ambient heat up to 300°; lower pipe temperatures are more comfortable for the rider and passenger. Heavy-duty, 16-gauge steel, which has 30% more steel than the 18-gauge used by other manufacturers; thicker steel means longer life and better sound.

- Head pipes are 1-3/4" in diameter
- Includes full coverage heat shields to cover the head pipes; offered in chrome or black
- All mounting hardware is included
- One-year manufacturer's warranty
- 100% Made in the USA

Note: To install this system on a trike, you will need to purchase P/N 623546.

EXCLUSIVE

RUSH™ 4" BIG LOUIE MUFFLERS FOR DRESSER AND ROAD KING

For performance, quality and sound there is nothing else like a Rush Performance Slip-On Muffler. These mufflers have been engineered through thousand of hours of development, real world application and independently dyno-tested in order to guarantee you the best performance and sound in the market. Rush mufflers feature baffles that are wrapped in a high-tech mat designed to disperse heat and retain sound. State of the art chroming process allows Rush to offer a one-year limited manufacturer's warranty against manufacturers defects on Rush chrome products. Rush mufflers will give you up to a 5hp increase straight out of the box.

- Made in USA

Note: Tip compatible mufflers do not come with tips, must be ordered separately.

NEW! **EXCLUSIVE**

RUSH™ 4" BIG LOUIE SLIP-ONS

The Rush Big Louie 4 in. muffler is a top choice for Harley-Davidson® Touring Riders, four different sizes means you can order the sound that suits you best. Baffle sizes are measurements of the baffle's diameter. That means the larger the baffle, the louder the pipe! The SB2 kit includes 2.50 in. right baffle and a 3.00 in. left baffle to keep the muffler from bluing due to high heat from the catalytic converter.

- Made in USA

Note: Clamps not included.

EXCLUSIVE

RUSH™ FULL SYSTEMS FOR SPORTSTER

Available in show-quality chrome or black high-temperature, double-baked powder-coated. Head pipes are silver ceramic-coated on both the inside and outside of the head pipes; improving exhaust flow and reducing ambient heat up to 300°; lower pipe temperatures are more comfortable for the rider and passenger. Heavy-duty, 16-gauge steel, which has 30% more steel than the 18-gauge used by other manufacturers; thicker steel means longer life and better sound. Includes full-coverage heat shields to cover the head pipes; offered in black or chrome. A spiral, louver-packed baffle contributes to the sound and additional power.

Short Series:

These pipes feature a 1-3/4 in. head pipe with a 2-1/4 in. heat shield and are assembled with a 1-1/2 in. baffle. They have the aggressive look of a shorty pipe while offering the back pressure and volume of a baffled system. Heat shields are available in either the slash down or straight cut variety.

- All mounting hardware is included
- One-year manufacturer's warranty
- Made in USA

NEW!
COBRA® NEIGHBOR HATER MUFFLERS

Aggressive slip-ons for those who think loud just isn't loud enough. The Neighbor Haters start as 4 in. round tubes, then bell out to 4-1/2 in. and finally a belled exit for an aggressive and classic design. The muffler tip is rolled to give them a clean, finished look. A loud bark is a product of a short 8 in. perforated internal that leads to a trumpet shaped inner tip.

- Like all Cobra H-D® exhausts, these come with Cobra's limited lifetime warranty

COBRA® TRUE DUAL HEAD PIPES

One-piece, full-length, 2-1/2 in. diameter heat shields cover the pipes from the exhaust ports to the chromed, muffler bodies. Heat shields are a larger diameter than most other offerings on the market and the one-piece shields, especially on the rear pipe, are singular in their design and effectiveness. Pipes are designed to deliver optimal torque and power while increasing the stock bike's rideability right in the sweet spot of the torque curve. 1-3/4 in. diameter head pipe ensures the stock mufflers and most aftermarket mufflers will fit. System is equipped with oxygen sensor bungs to take advantage of the motorcycle's closed-loop technology.

- Consists of head pipes and heat shields and all of the mounting hardware needed to complete the installation
- Does not include the muffler
- Manufacturer's limited lifetime warranty
- Made in USA

Before selling or purchasing in California, see page 1986.

COBRA® RACE PRO SLIP-ON MUFFLERS FOR DRESSER

These novel 4 in. muffler bodies feature advanced acoustical tuning technologies for a deep rumbling sounds. The 4 in. round muffler front expands just after the steel clam shell clamp to 4-1/2 in. diameter. The gloss black finish on the aluminum tip is matched with the gloss black finish on the laser-cut steel strap that tightly encircles the muffler and has built-in mounting points. With its unique strap the Race Pro looks like a radical departure from the norm, when in fact, the Race Pro mounts the same way as nearly every slip-on muffler from Cobra. The strap clamps tightly around the muffler and bolts to the bike's hanger mounts located beneath the saddlebags. PEM® fasteners in the wrap make mounting a simple task of threading in a bolt from the upper bracket into the Cobra strap. The mufflers come with 3 in. cores encased in proprietary Cobra sound tuning materials with specific acoustical dampening and thermal insulation properties.

The basso profundo notes are made possible because of class-leading resonance absorption and prevention. The frequency and location of the perforation patterns in the high-flo cores creates significant sound scattering in the mid-frequencies, which helps to enhance the low frequency tones. The high-flo core itself is a massive 3 in. in diameter which gives the muffler an aggressive look without the objectionable sound levels. Like all Cobra exhausts the Race Pro slip-on mufflers are made in the U.S. and come with a limited lifetime warranty that even covers discoloration. They use precision, laser-cut mounting brackets and stainless steel clamps to mount to the stock headpipes or to Cobra's PowrPort Dual headpipes.

COBRA® 4" RPT SLIP-ON SERIES

Our award winning slip-ons for Harley Baggers are beloved by editors and real-world riders alike. That's because Cobra Slip-ons provide increased horsepower and torque with a deeper, more aggressive exhaust note. The 4 in. muffler body has proprietary technology to prevent bluing. With the louvers located further back in the muffler, super-heated gasses get a chance to cool before exiting the silencer core making Cobra Dresser mufflers virtually blue proof. The Billet tip is offered with a matte black coating, as well as seven, 12-point PEM and reg fasteners for an aircraft grade look.

COBRA® TRI-FLO SLIP-ON MUFFLERS FOR V-TWIN

The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid frequencies, which helps to enhance the low frequency tones. Tri-oval-shaped muffler rear seamlessly transforms into 4 in. round front. 5 in. wide, 4 in. tall thin-line aluminum tip. 3 in. high-flow core for superior performance. Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention. Uses proprietary materials with specific acoustical dampening and thermal insulation properties.

COBRA® TRI-OVAL II SLIP-ON MUFFLERS

These Tri-Oval II mufflers enhance the sound and boost performance to out deliver the stock motorcycle's exhaust system. The styling is unique in a world of aftermarket mufflers that all look the same.

- These slip-on mufflers produce an awesome, thundering bass rumble, yet they are quiet enough to pass the cranky neighbor Sunday morning sound test
- With their Tri-Oval design, with full-size, machined aluminum V-tips with dual exhaust ports these mufflers look like nothing else on the market
- The round front seamlessly morphs to triangular shape at the rear, but it's the fluted tip that gets the most attention
- These mufflers also deliver increased performance gains over the stock mufflers, with a bump up especially in the low and mid-range thanks to good back pressure
- The installation is simple, as the mufflers mount to stock head pipes or to Cobra's new Power Port head pipes as well as Cobra's True Dual head pipes for pre-2009 Baggers
- Made in USA

COBRA® FREEWHEELER MUFFLERS

This slip-on muffler setup was designed specifically for the new Harley-Davidson® Freewheeler™ model. Although it is based on the Tri-Glide platform, the Freewheeler is at least 3 in. shorter, causing regular bagger mufflers to stick out 3 to 4 in. behind the rear panels. So we made a set of mufflers just for the Freewheeler that fit much like the stockers. In fact, the Freewheeler specific fitment has approximately the same end point as the stock mufflers.

When used with the stock head pipes, the mufflers are a simple bolt on. We built chromed 3.5 in. muffler bodies that bell out at the end to 4 in. They are capped off with black powder-coated, machined aluminum Race Pro Tips, and each is held in place with seven, 12-point bolts, which match perfectly with the aggressive styling of the Freewheeler. The internal construction of the muffler bodies consists of 2.5 in. perforated constant velocity cores, wrapped in woven fiberglass that is protected by a fiberglass wrap. This provides outstanding performance with a deep thundering bass note.

- Made in USA

FLHTCUTG	09-16	630024	689.95

COBRA® POWRPRO RPT 2-INTO-1 EXHAUST

The classic 2-into-2 exhaust system is at the top of the class. Real world performance gains matched by the perfect deep throaty rumble you expect from the Harley-Davidson® V-Twin power plant, the classic 2-into-2 exhaust system is at the top of the class. And it looks as good as it sounds with its 220° heat shields and our unique collector heat shield that covers the collector area. The 4.5 in. muffler body is capped off with a matte black RPT billet tip. We construct the muffler body in such a way that it will not discolor. In fact, the entire system is guaranteed not to turn blue for the life of the product so with a bit of care it will still look like new for years later.

COBRA® POWERPRO HP 2-INTO-1 EXHAUST FOR V-TWIN

Shines with triple-chromed, full-length heat shields, and has a unique and stunning collector heat shield so there are no visible welds in this collector area. Megaphone uses exclusive technology inside it to eliminate the chances of the muffler ever turning blue. PowerPro HP 2-into-1 produces class-leading horsepower from the moment you install it and roll on the throttle. Also uses a 3-3/4 in. muffler body with a chromed billet aluminum tip. Increased horsepower and torque are matched with the PowerPro's elegant design.

COBRA® 3" SLIP-ON MUFFLER WITH RACE PRO TIPS

The RPT slip-ons make use of all of the high-tech features of our regular three-inch slip-on mufflers, including 2 in. constant velocity cores for exceptional sound and performance, as well as the bonded e-glass and stainless steel mesh. The RPT designation comes from adapting the design from our Race-Pro 4 in. muffler into this 3 in. size.

- The bodies begin as 3 in. at the front until they expand to 3-1/2 in. at the rear
- The black tip is also the Race-Pro machined design that's held in place with 12-point bolts
- Made in USA

COBRA® TRUE DUALS FOR V-TWIN

Cobra has once again designed a timeless exhaust system that is both stylish and functional. This particular system features 1.75 in. head pipes and mufflers, which is the largest available for a duals design. The 222° heat shields are a whopping 2.5 in. diameter, giving you a much more desirable and masculine look. The billet tip has a classic and unique design that sets itself apart from others in the market place. Limited lifetime warranty, covering any discoloration, and any other manufacturer defects.

COBRA® POWERPRO 4 IN. RPT 2-INTO-1 EXHAUST

PowerPro 2-into-1 exhaust system for Sportsters increases power and torque; the 4-in. muffler body produces a deep rumble. This classic 2-into-1 exhaust system is at the top of the class. Real world performance gains matched by the perfect deep throaty rumble you expect from the Harley-Davidson® V-Twin power plant. And it looks as good as it sounds with its 222° heat shields and our unique collector heat shield that covers the collector area. The 4 in. muffler body is capped off with a machined aluminum RPT tip in matte black. We construct the muffler body in such a way that it will not discolor. The entire system is guaranteed not to turn blue for the life of the product so with a bit of care it will still look like new years later.

CRUSHER™ MUFFLERS FOR TOURING MODELS

Integrate a unique crossover for increased horsepower and torque. The crossover is hidden by a clean looking, stylized heat shield. With Crusher Duals™, heat is drastically reduced for the passenger. Much like the stock 2009 design, the left pipe is no longer routed above the left footrest. It runs beneath the motorcycle, well away from the passenger's feet and legs.

- Includes heat shields, mounting hardware and are fitted with oxygen sensor ports; choose Crusher mufflers to complete your high-performance package

Note: Crusher™ makes no warranty regarding discoloration of chrome exhaust products. Discoloration is a result of heat and is not a manufacturing defect.

California law generally prohibits the sale and installation of aftermarket exhaust products UNLESS such products are installed on vehicles that did not come originally equipped with catalytic converters or are used only for racing and are never used upon a California highway. Before selling or purchasing in California, see page 1986.

CRUSHER™

CRUSHER™ MARKSMAN SLIP-ONS FOR TOURING MODELS

Tactfully designed with the precision of a deadeye. Visible stainless steel inserts covertly expose laser-cut Crusher™ emblems spanning the top perimeter of the tips. High-flow baffles with shallow-cut louvers create less turbulence inside the mufflers for improved performance throughout the RPM range. An aggressive bark at full throttle eases into a deep, low rumble at cruising speeds.

- Premium chrome-plated or black ceramic-coated steel
- 4 in. muffler diameter
- High-flow louvered baffle design with no packing to blow out over time
- Aggressive exhaust tone when accelerating, with a low, deep rumble at cruising speed
- Made in USA

FLH, FLT	95-16	Black	411502	659.99

CRUSHER™ CRUSADER SLIP-ONS FOR TOURING MODELS

Climb the ranks of style and performance. The sleek tips feature a laser-engraved Crusher™ emblem above the opening, with laser-cut accents on the outer perimeter enhanced by a visible stainless steel insert.

High-flow baffles with shallow-cut louvers create less turbulence inside the mufflers.

The result is improved performance throughout the RPM range and a commanding exhaust tone at wide-open throttle.

- Premium chrome-plated or high-temp black ceramic-coated steel
- 4 in. muffler diameter
- Brushed stainless steel band for added styling
- High-flow louvered baffle design with no packing to blow out over time
- Made in USA

CRUSHER™ MELLOW MUFFLERS

Same great performance and looks as our original Crusher™ Mufflers but without the renowned bark at high-throttle openings. Retains a deep mellow tone at cruise and even during spirited riding. For an even mellow sound with crushing performance, combine with the Crusher™ Duals with Power Cells P/N 419233 or 419237.

- Sold in pairs

EXHAUST

California law generally prohibits the sale and installation of aftermarket exhaust products UNLESS such products are installed on vehicles that did not come originally equipped with catalytic converters or are used only for racing and are never used upon a California highway. Before selling or purchasing in California, see page 1986.

CRUSHER™

CRUSHER™ TRUE DUALS FOR TOURING MODELS

Combines performance, sound and great looks into one package. With Crusher™ True Duals, each cylinder breathes through its own head pipe and muffler, greatly improving flow and making the bike much easier to tune. Power is increased as heat is reduced. 95-08 left side pipes tuck in close for passenger comfort. 09-10 bikes runs the left pipe beneath the motorcycle; well away from the passenger's feet and legs.

- Includes heat shields and mounting hardware; choose Crusher® mufflers to complete your high-performance package

CRUSHER™ POWER CELL STAGGERED DUALS

Most of the staggered style exhausts on the market perform very poorly. Crusher™ Power Cell Staggered Duals have a crossed flow cell that makes this pipe perform like a two into one but look like a unique staggered dual with an awesome deep sound. Tuned performance with a deep powerful sound. Stunning looks you'd expect from Kuryakyn®. Full heat shields from end to end.

EXHAUST

California law generally prohibits the sale and installation of aftermarket exhaust products UNLESS such products are installed on vehicles that did not come originally equipped with catalytic converters or are used only for racing and are never used upon a California highway. Before selling or purchasing in California, see page 1986.

NEW!

SUPERTRAPP SLASH SLIP-ON MUFFLERS

The new Supertrapp® Slash slip-on is now available for the 2017 Touring Models. Just like the Stout, it features a high-flow 2.5 in. core that is completely rebuildable. The muffler body is finished with a slash down 45 degree cut. A mellow sound while cruising turns into a deep, strong growl when accelerating.

- No tuning required
- Available in show chrome
- Made in USA

HARLEY-DAVIDSON	Year	P/N	Retail
FLH, FLT	2017	624508	499.00

EXHAUST

KERKER® STOUT SLIP-ON MUFFLERS

Four inch chrome bodied units feature a billet aluminum end cap (pre-installed), newly shaped inlets that flow better into the O.E.M. Head Pipe (as well as SuperTrapp® True Dual Head Pipes). Measures 95.6db (per J2825 standard-stock is 93.2). The Kerker units utilize a slightly more standard core that targets a slightly higher spread of power, more mid-range RPM up through Redline (+9.6 HP and +8.9 TQ); they are also slightly louder than the SuperTrapp® version, measuring 97db (per J2825 standard.)

- Made in USA

623387

SUPERTRAPP® SE (SUPER ELITE) SERIES SLIP-ON MUFFLERS

Expertly finished and chrome-plated, race-proven mechanical baffle that offers SuperTrapp's® trademark increase in horsepower and torque. Left and right hand bodies give riders a personal option to display or hide the script SuperTrapp® logo. A key feature unique to the SE Series design is an internal baffle heat shield. This heat shield completely eliminates body bluing.

- Adding less than 3dB (SAE J1287) to the stock sound level while still providing a deep rich tone
- SE Series Slip-On fits all of the Kerker® series chrome end caps
- Made in USA

Note: End caps are sold separately.

SUPERTRAPP® MEAN MOTHERS

Mean Mothers provide the ultimate in durability, and strength at high-temperatures and corrosion resistance with its stainless steel headpipe constructions. One-piece heat shield protects the rider and enables easy installation. Standard chrome end caps are included and a variety of other end caps are also compatible with the entire Mean Mothers line. Mean Mothers offer 7-1/2 lbs. or 33% weight savings and an 8% hp gain over stock.

High-temperature, ceramic-coated. Durable stainless steel offers improved high-temperature strength and corrosion resistance. Pipes come fully assembled with heat shields and core installed. Core is removable. The heat shields can be replaced if damaged. Powder-coated bracket; durable, corrosion resistant. Easy-to-install because it is pre-assembled. O2 ports for fuel injection models.

- Single stepped 2:2 design
- Short, standard, long and staggered versions
- 1-3/4 in. stainless steel head pipes and 2-1/4 in. stainless expansion chamber
- 2-1/2 in. diameter one-piece black ceramic heat shield
- Comes with standard rolled ring end caps
- Turn down and slash cut end caps are optional and sold separately

SUPERTRAPP® FATSHOTS SLIP-ONS

SuperTrapp's® new FatShots Slip-Ons set the standard for adjustable performance. 3-1/2 in. diameter, fully chrome-plated muffler bodies flare out to a 4 in., slash cut end with a straight through 2 in. diameter, pillow-pack wrapped performance core that is capped off with the legendary SuperTrapp® 4 in. discs and polished trim ring. By adjusting the number of discs, these slip-ons have the ability to be the quietest performance muffler out there with a richer stock level sound, but enhanced performance; it performs better than stock in a sound compliant configuration. Comes complete with twenty-four 4 in. discs and all of the necessary hardware and mounting instructions.

KHROME WERKS® 2-2 HEADERS

Update your early Twin Cam bike and enjoy the late model look. This cleaner looking system reduces heat transmission to the rider and passenger by routing the exhaust under the frame instead of under the seat. Significant increases in horsepower and torque over O.E.M.

Upgrade your model to a true 'True Dual' look; lighter and better looking. Features a 1-3/4 in. 16-gauge mandrel bent, interconnected headers and 220° full coverage heat shields. Front pipe crosses over to the left side and is securely mounted to the transmission oil pan. Crossover pipe is formed from 1-7/8 in. tubing for increased ground clearance and no cross sectional area loss. True Dual look with a hidden inter-connect for maximum top end horsepower, improved low-end torque and sound damping as well as balanced flow and sound.

- Includes two 18mm O2 sensor ports and plugs
- Includes all mounting hardware
- Mufflers not included
- Header system accepts any 95 and later O.E.M.-style dresser mufflers
- Made in USA

EVOLUTION INDUSTRIES EXHAUST FLANGE KIT FOR V-TWIN

Cut from solid billet 316 stainless steel. Show polished.

- Includes retaining snap-rings
- Made in USA
- Available in three options of ARP hardware: polished 12 points, polished hex flange nuts or black oxide hex flange nuts

Note: Due to various exhaust manufacturers and exhaust styles and binds, the 12 Point Hardware might interfere with socket drive due to tight exhaust bends around the flange.

THERMO-TEC® EXHAUST WRAP

The original exhaust wrap was developed over 25 years ago by Thermo-Tec®. Exhaust Insulating Wrap is an innovative way to create more horsepower and reduce temperatures. Wrapping pipes with Thermo-Tec Wrap maintains hotter exhaust gases that exit the system faster through decreased density. Increased exhaust scavenging is produced, along with lower intake temperatures; withstands continuous heat up to 2,000°F, and contains no asbestos. Thermo-Tec exhaust wrap will not over insulate a system when properly installed due to a proprietary coating.

- The Generation II copper wrap improves heat resistance up to 20% more.
- Available in three finishes, 1 or 2 in. wide and 50 ft. rolls with a low profile 1/16 in. thickness
- Recommend using Thermo-Tec® Wrap Spray Coating

NEW!

DESIGN ENGINEERING, INC.™ EXTREME HEAT BARRIER

Designed to provide the best possible heat protection in areas where high-temperatures are always present and problematic. At only 3/16 in. thick, this product can be shaped and trimmed for a custom fit and is ideal for minimal clearance areas, our most robust thermal protection. Constructed with an embossed 10 mil. aluminum face bonded to 1/8 in. composite glass-fiber mat core and backed with a high-temperature, pressure sensitive backing, its improved multifaceted modern aluminum surface offers improved reflectivity and rigidity and allows for ease of installation. DEI Extreme Heat Barrier is the easiest, most cost effective way to control thermal transfer while protecting expensive components and vehicle occupants from extreme heat situations and sound.

P/N	Retail
531674	25.95

HELIX RACING® EXHAUST INSULATING WRAP
