ROLAND SANDS DESIGN® SOFTAIL FORWARD CONTROLS

RSD forward controls have been a long time in the making. We borrowed some style and function from our rear sets and applied that thought process to the RSD forward controls. The end result is a product that's at home on a high-performance custom as well as any style of bike. An aggressive, yet simple, design means the RSD controls don't take over the look of your machine but do exactly what they're supposed to do, keep you connected to your bike.

- Race-styled. Bolt-on forward controls
- Integrated 11/16 in. bore master cylinder included
- Hard-anodized piston for increased performance and increased wear resistance
- Billet aluminum construction
- Folding footpegs, shifter and brake toe pegs included
- Stainless steel hardware included
- Kickstand bracket included
- Made in USA

Note: May require custom brake line for proper fit.

07-Up models require use of 00-06 kickstand assembly

Black Ops

ROLAND SANDS DESIGN® REAR SETS FOR SPORTSTERS

Our racetrack driven RSD Rear Sets for Sportsters are the ultimate improvement for an aggressive foot position. These Rear Sets have RSD's high-quality finish and feature footpegs with race-style pivots allowing for a higher lean angle. The mega knurl on our pegs ensure your feet stay planted and your focus remains on the road ahead. High-quality fasteners and pivots ensure smooth operation with little effort.

Eliminates bulky, heavy O.E.M. cast steel footpeg brackets, bell crank brake rod and master cylinder bracket. Black Ops has both textured black and a gloss black finish on one part; it's aggressive, yet subtle.

- Completes the RSD Café Sportster package of products
- Moves foot position approximately 2 in. up, 13 in. back and 1.5 in. narrower per side for increased ground clearance when cornering
- Aggressive rider position
- Utilizes O.E.M. rear master cylinder
- Designed to fit seamlessly with RSD Slant 2-into-1 exhaust system
- Made in USA

Note: May require custom brake line for proper fit

ROLAND SANDS DESIGN® PASSENGER PEG AND MOUNT

- Designed to match seamlessly with the RSD Sportster Mid-Controls, this kit allows you to add footpegs for your passenger
- Passenger pegs and mounts to match Sportster Mid-Controls and Traction Grips and Peg
- Compact bolt-on solution to replace bulky O.E.M. mount
- Hardware included
- RSD Contrast Cut product starts with a finely machined polished and black anodized part which is re-machined to bring out the design highlights. Close attention is paid to machine pattern and quality to ensure the best and cleanest machine work
- Black Ops has both textured black and a gloss black finish on one part. It's aggressive, yet subtle

JAYBRAKE

JAYBRAKE J-FL FORWARD CONTROLS

J-FL forward controls are designed to mount to FLH touring models. These controls will meet the needs of everyone who likes the feel and mobility of forward controls, but demands the luxury of their bagger. Machined from a combination of steel and billet aluminum, these controls utilize existing Harley-Davidson® mounts and pivot points as well as the stock master cylinder. The J-FL forward controls can be mounted to your touring bike with or without the use of the crash bar. The stock kickstand will mount onto the controls with the mounting block provided.

- All steel components are powder-coated black and the billet parts are available in either chrome or black anodized

ROLAND SANDS DESIGN® BILLET TRACTION FOOTPEGS

A little goes a long way with the new RSD Traction Footpegs and matching Grips. Grips feature knurled rubber for more comfort and an ergonomically friendly shape to keep you in control.

- CNC-machine billet aluminum
- Road Race styled knurling
- Footpegs have been shortened for more ground clearance
- Made in USA
- Sold in pairs

ARLEN NESS FUSION FOOTPEGS AND SHIFTER/BRAKE PEGS

Designed to match the Fusion line of grips. Footpegs are machined from billet aluminum and wrapped in diamond knurled or linear style rubber for excellent foot traction. Shifter pegs are constructed from machined billet aluminum and high traction rubber. Knurled style is constructed from molded rubber with integrated mounting stud and billet aluminum accents. Each foot and shift peg features intricate machining for a great look. Knurled style footpegs are made from forged steel and diamond knurled rubber with integrated billet aluminum end cap. Knurled and slot track shift peg is constructed from molded rubber and features an integrated mounting stud and billet aluminum end cap. Several styles to choose from in chrome or black anodize finish.

KURYAKYN

NEW!

KURYAKYN® HEAVY INDUSTRY FOOTPEGS

Heavy Industry Pegs provide sturdy, solid support for any type of rider. Sized to offer ideal surface area for confident control, with splined adaptors that allow the footpeg angle to be dialed in for optimum comfort. Premium rubber reduces harsh road vibrations and surrounds a knurled aluminum center for overall improved traction. Rugged, industrial styling coordinates with the entire Heavy Industry collection of products. Cast from quality aluminum with premium rubber compound.

- Available with included male mount adapters for direct replacement on most H-D® models
- Pegs without adapters are for non-H-D applications and require model-specific adapters (sold separately) for fitment on a wide range of makes and models

KURYAKYN® RIGHT ANGLE CRUISE MOUNT AND PEGS

The answer for motorcycles with an engine guard that does not allow the installation of a traditional style highway peg. Most highway pegs position the peg perpendicular to tubing to which they are mounted, thereby limiting their use on engine guards that run vertically. The Right Angle Mount overcomes this limitation and will allow you to position the peg horizontally regardless of the orientation of the engine guard or frame tube.

- Buy just the mounts, or the mounts with ISO-Pegs

KURYAKYN® ADJUSTABLE PASSENGER PEGS WITH O.E. AND AFTERMARKET PASSENGER BOARD MOUNTS

This kit gives you the ability to move your feet up or down and best of all when the driver has his or her feet on the highway pegs you can stretch your legs by laying your calves on the footrests. A bolt action locking device on the swingarm adds two intermediate positions. A revised mounting system allows easier installation and improved fit on newer models. Does not interfere with footboard operation.

- Sold in pairs

Note: Check clearance when using aftermarket exhaust systems.

Mfg/N	P/N	Retail
7943	419541	8.99

KURYAKYN® ADJUSTABLE PEG END MALE MOUNT

We have modified our standard Male Footpeg Adaptors with an adjustable stop, which now makes it possible to install conventional clamp-on highway pegs on an engine guard that would normally cause the pegs to angle down toward the ground.

- We have added a small set screw to the "heel" of the adaptor
- By adjusting the position of the set screw, the angle of the footpeg can be adjusted
- Best suited for use with Kuryakyn Footpegs with Clevis and Magnum Quick Clamps

ARLEN NESS FUSION SERIES ADJUSTABLE FLOORBOARDS

Perfect fusion of billet and rubber to provide the best in comfort and style. Each Fusion Series floorboard is machined from 6061-T6 billet aluminum and features knurled or linear rubber inserts for excellent foot traction. Each driver floorboard has three different mounting locations giving 3 in. of adjustability. Allowing you to adjust the floorboard forward and back to obtain your preferred riding position. Matching passenger floorboards are available for each style (available separately). Designed to match the Arlen Ness Fusion Grip and Foot and Shift Pegs (available separately).

- Driver floorboards measure: 13-4/5" L x 5" W
- Passenger floorboards measure: 10" L x 4" W

KURYAKYN® PREMIUM AND RIBBED BOARDS FOR DRIVER OR PASSENGER FOR V-TWIN

Switching to floorboards just got easier and with five thoughtfully placed splined mounts, these boards can be fine tuned just right for the rider or passenger. Available in two versions: Ribbed featuring a wrinkle black finished base and Premium featuring a brilliant chrome finished base with chrome inlays in the foot pad rubber.

- Mounting component sold separately. Installation on other models in place of a male mount footpeg requires P/N 419174 (Mfg/N 8333). When used with retractable passenger pegs (Mfg/N 4352) no adaptors are required
- Dimensions: 4-1/2" W x 8-1/2" L
- Sold in pairs

Note: Boards should not be installed in place of a footpeg on a peg mount secured with a single fastener and no anti-rotation mechanism. The boards will apply too much force and loosen the mount from the bike.

Note: Must purchase P/N 496934 (male end Mfg/N 8881).

P/N	Retail
497923	219.99

KURYAKYN® ANTI-ROTATION PASSENGER FLOORBOARD MOUNTS

Now you can add floorboards to your Softail without the chance of them rotating or coming loose down the road. Interlocking teeth make adjustments simple and precise. Not only will your passenger have a solid and sturdy platform, they'll gain an alternate foot position 4-1/2 in. higher and 5-1/2 in. farther forward than stock by way of retractable cruise arms. Fits passenger peg locations.

- Replacement for H-D male mount footpeg

Note: Mounting components sold separately. Installation on Softail models requires passenger mounts shown below. Installation in place of male mount footpeg requires #419174. Boards should not be installed in place of a footpeg on a peg mount secured with a single fastener and no anti-vibration mechanism. The board will apply too much force and loosen the mount from the bike.

KURYAKYN

KURYAKYN® FLIP BLADES FOR V-TWIN

Adding the comfort of highway pegs to your ride doesn't have to mean extra clutter. These stealthy highway pegs simply bolt in place on the bottom of the Traditional or Swept Wing H-D floorboard. When deployed, they fold out and lock into place, much like a pocketknife blade. A release lever allows them to return to their original, almost invisible position when not in use. A hinge allows them to fold up and back if cornering touch-down occurs.

- Flip Blades not recommended for use with fairing lowers

PINGEL® HEEL/TOE SHIFTER ELIMINATOR FOR V-TWIN

Quit snagging your heel on the shifter.

- Fits Dresser, Road King, Road Glide, Street Glide models

P/N	Retail
030609	37.95

KURYAKYN

KURYAKYN® CRUISE ARM MARK III FOR V-TWIN

Easy installation by simply drilling mounting holes in the steel footboard base for the adjustable mount and full length reinforcing plate.

- Entire assembly mounts to the footboard
- Stock footboard pads remain unaffected
- Arms are fully adjustable front to back
- Adjustment is limited when installed on motorcycles with engine guards

Note: 84-08 Dresser, Road King models require support kit. Cruise Arm Mark III is not compatible with fairing lowers.

KURYAKYN® RELOCATOR BRACKETS FOR DRIVER BOARDS FOR V-TWIN

Repositions driver boards out 1 in. and forward 1 in. from stock location. Makes a noticeable difference in comfort; thighs aren't as tight against the tank, right knee is not as tight against the air cleaner and legs get to stretch out a little bit more.

- Compatible with Kuryakyn® ISO-Boards as well as H-D Tradition or swept wing shaped boards

Note: Not compatible with Kuryakyn's® Cruise Mark III or standard-length version or Cruise Mark IV.

PINGEL® SHIFT PEG EXTENDER FOR V-TWIN

Having a hard time accessing your shift peg? H-D wide gas tanks create a problem, especially for short inseam riders. This shift peg extender solves it by extending the shift peg out 1-1/2".

- Manufactured from billet stainless steel and highly polished

P/N	Retail
030514	56.95

NEW!

KURYAKYN® HEEL SHIFT LEVER ELIMINATOR

These premium quality accessories quickly and easily allow you to remove the heel shift lever on Dressers, Road Kings, or any FL Softail Models. Unique design keeps the shift shaft in perfect alignment to avoid premature shaft wear, a problem common to similar products. The Delrin® lining eliminates rattles and keeps your bike shifting as smoothly as ever.

ARLEN NESS

ARLEN NESS BRAKE ARM KITS

CNC machined from billet 6061-T6 billet aluminum. Every brake arm is splined at the mounting point to allow the rider to adjust the angle of the arm to their preferred position. Available in standard and E-Z reach lengths. Standard length is 1 in. longer than stock brake arms whereas E-Z Reach length is 1 in. shorter than stock to accommodate shorter riders.

- Matching shift arms, floorboards, pegs and more are available

ROLAND SANDS DESIGN® SHIFT RODS

Shift rods are a simple addition and a finishing touch for your machine. We've taken RSD styling and applied them to three new designs to finish the left side of your motor with enough steelo to make you feel good.

- CNC machined billet aluminum
- Stainless steel rod ends included
- Hardware included
- RSD Contrast Cut product starts with a finely machined polished and black anodized part which is re-machined to bring out the design highlights. Close attention is paid to machine pattern and quality to ensure the best and cleanest machine work
- Black Ops has both textured black and a gloss black finish on one part. It's aggressive, yet subtle
- Adjustable from 12" - 13" Center to Center

JIMS® SHIFT PEDAL SHAFT BUSHING TOOL

The gear shift foot lever/pedal bushings on 5 and 6 speed Harley-Davidson® touring models often have a typical service life of 20,000 miles or less. Bushing wear results in an annoying rattle from the loose shifter, the linkage parts and accelerated wear of all related parts. JIMS® has tackled this problem with another one of Hiro's new time saving tools that easily removes both worn bushings at the same time and quickly installs the new bushings to proper location without removing the inner primary. Using this tool can remove and install the bushings in approximately 20 minutes.

KURYAKYN® EXTENDED BRAKE PEDALS

A unique clamshell design assures simple, quick installation. One inch wider than stock, this great looking pad helps to keep the rear brake control more accessible

- Chrome-plated
- Easily installed
- Relocates brake pedal position forward and down
- These are compatible with engine-guard-mounted cruise pegs

Note: On 02-07 models, the extended brake pedals provide only slightly more extension than stock but the brake pedal pad is slightly lower and flatter, making the transition from board to brake more natural.
