NATIONAL CYCLE® WAVE QR WINDSHIELD FOR INDIAN

Have the hottest bike around with National Cycle's Wave QR® — the fairing that defines performance on the edge. The Wave's sculpted polycarbonate body captures the spirit of your Indian® Scout motorcycle. Its jet-streamed looks come from National Cycle's attention to aerodynamics and precision forming. It's removable in just seconds, without tools — thanks to National Cycle's Quick Release Mount Kit®, rake adjustable. The highly regarded Quick Release Mount Kit is the same for our SwitchBlade® and Spartan® Windshields, so you not only have a choice between riding with or without a windshield — you also have a choice between completely different styles of quick release shields.

KURYAKYN

KURYAKYN® WINDSHIELDS FOR VICTORY

Kuryakyn® is fired up to offer this top-quality, custom windshield for Victory Cross Country and Magnum models. This high-end windshield is custom-formed from premium materials using a proprietary process. Manufactured from quality, hard-coated polycarbonate that will not crack or shatter upon impact unlike acrylic. Choose between the Catacomb, Tribal and Zombie designs that are screen-printed with proprietary ink, making the images unbelievably sharp and durable. The center air scoop has been enlarged to reduce turbulent airflow and matches the sharp lines of the fairing. Themed graphics are printed behind a light smoke material and fill the bottom portion of the windshield, leaving the top clear for an unobstructed view.

- Windshield is 10 in. tall

NATIONAL CYCLE® VSTREAM WINDSCREEN FOR VICTORY

The revolutionary VStream® Windscreen gets its name from the unique shape and dimensional contours designed and engineered into the windscreen. The patented "V" profile helps push the turbulent wind out and away from the side of the rider's head, producing a quieter and more comfortable riding experience for both the rider and the passenger. Designed specifically for each model bike to ensure optimum performance and perfect fit using the O.E.M. mounting hardware. 4.5mm polycarbonate for outstanding impact strength 20X greater than acrylic. Coated with National Cycle's Quantum™ hard coating or FMR hard coating, depending on windscreen shape, for unbeatable scratch resistance. Dark 89% tint reduces glare in bright sun.

- 40% thicker than stock
- Patent No. 7387328
- All FLTR VStream® Windscreens include metal compression limiters that spread the load for long life and durability
- Three-year manufacturer's warranty against breakage
- Made in USA
- Removal of additional windshield support brackets required in Tour models and models with tall windshield kit P/N 278528.

MUSTANG™ SOLO SEAT FOR INDIAN SCOUT

Mustang® Touring solos and passenger seats for the Indian Scout offer you and your companion support and comfort for the entire journey. Seats feature Mustang's proprietary foam, precisely molded to the shapes and angles needed for optimal cruising comfort. The 13 in. wide solo and 8.5 in. wide passenger seat provide ample room for comfort without compromising the look of the bike. The marine-grade fiberglass seat pan is designed for a secure install and long-term durability. The cover designs are brand-new concepts developed by our designers just for the Scout. This solo features olive brown vinyl with brown leather inserts and a clean, vintage look.

- Made in USA

KURYAKYN®

NEW!

KURYAKYN® PLUG-N-GO BACKREST FOR INDIAN

The adjustable Plug-N-Go Driver Backrest for Indian models offers enhanced comfort for long hauls and custom styling at a price that can't be beat. The pad's contoured design provides the perfect amount of lower back support that can be dialed in to suit the needs of virtually any rider. Adjust the height by simply pulling up or down to mate the coordinated notches with the included steel mounting bracket that mounts to the frame beneath the rider's seat. Front and rear adjustability can also be set up upon installation to provide support exactly where it's needed. Premium synthetic leather outer construction complements the factory saddle.

- Made from durable welded and stamped steel with black or tan premium synthetic leather backrest pad
- Includes steel mounting bracket
- Pad measures 7" tall x 10" wide

NEW!

MUSTANG™ ONE-PIECE TOURING SEAT FOR VICTORY

Mustang's new one-piece touring seat widened the bucket radius of both the front and rear seating areas while slightly lowering them as well. Not only does Mustang's more comfortable design let the driver sit back into the 17.5 in. wide seat but the front nose area has been designed to eliminate that "crowded" feeling. The lower nose area also helps ensure that one's boots more securely reach the ground. The passenger is fully supported in a 15.5 in. wide bucket that is contoured for comfort. Mustang has also incorporated heating components for high/low dual control by the driver and passenger. The new seat was designed with detailed stitching accents to further enhance the Vision's striking lines. Perfectly matches the stock passenger backrest on the trunk. For all day riding support for the driver, there is a driver backrest (included) that is easily removable, fully adjustable, folds for storage and quickly installs in the receiver which is built into Mustang's seat baseplate.

- Made in USA

Note: Will not fit with the Vision Street Trunk Panel installed in place of the trunk.

MUSTANG™ VINTAGE SEATS FOR VICTORY

The built-in driver backrest offers more features than any other backrest on the market.

One-Piece, One-Piece w/DBR:

- The deeply pocketed 15.5 in. wide driver seats sits you at the ideal cruising angle while sitting the driver 1/4 in. lower than stock
- The 12 in. wide passenger seat utilizes unique internal steel support wings

Daytripper™:

- Ride low and look cool and still be comfortable
- The detailed stitch work in the highly durable, synthetic glove-leather cover makes the DayTripper™ a real show winner
- Seat sits the driver 1/2 in. lower than stock
- Front width is 11.5 in. wide, back width is 10 in. wide
- Made in USA
- This seat is designed to fit with stock saddlebags and crash bars. If the seat makes contact with either of these, the saddlebag position can be adjusted on the mounts or by adding a washer to the front mount

NATIONAL CYCLE® CRUISELINER HARD SADDLEBAGS FOR INDIAN AND VICTORY

Hard bags, though practical, need to look good on your cruiser. National Cycle achieves a tight fit with good looks in the styling of Cruiseline™ Saddlebags. Easy-to-use, quarter-turn fasteners for no-tool removal of the saddlebags from the frame. Permanently attached lids are hinged in the front and swing forward for easy access to the interior. 1-1/4 in. tight-fitting seals conform to the shape of the lid to keep the elements out. A keyed push-button lock is recessed into the lid. National Cycle saddlebags are custom engineered for each motorcycle to exact specifications and are guaranteed to fit.

- For cruisers with no turn signal interference: Smooth Back Saddlebags
- With recessed pockets for stock turn signals: Pocket Back Saddlebags
- Cruiseliner™ are painted gloss black and ready to mount or custom paint
- Bags and mount kits sold separately
- Mount kits include saddlebag mount frames, hardware and instructions

NEW!

NATIONAL CYCLE® PALADIN QUICKSET KITS FOR INDIAN

Convert your Scout from a solo cruiser to a 2-up tourer – and back again – in under five seconds, with no tools! National Cycle's Paladin® QuickSet™ Mount Kit uses an innovative, key-lockable mounting system that's designed for an optimal fit on each specific make and model. All moving components are made from stainless steel for years of reliable, smooth operation, and all visible metal components are either polished stainless steel or finished in bright, show-quality chrome.

The Mount Kit is designed to complete the Back Rest/Luggage Rack assembly into one complete unit.

After unlocking, just lift the levers on the bottom of the Back Rest's side plates and pull up to remove the complete assembly from the motorcycle. Now that's easy!

Note: When using Cruiserliner™ Saddlebags with the QuickSet back rest and luggage rack system, you must purchase an additional hardware bag.

NATIONAL CYCLE® SOLO FENDER RACK FOR SCOUT

The solo Scout rider gets something special that we've never done before — a cool fender-mounted solo luggage rack that looks like it's fresh off of a 1942 Indian Sport Scout. Simply remove the passenger pillion and use the supplied hardware to mount the rack to the stock passenger seat mount points. It's a quick and simple job that pays back big style points — as well as added luggage carrying capacity.

KURYAKYN® SADDLEBAG TOP ACCENTS FOR VICTORY

These elegant accents attach down the top center of the saddlebags to flawlessly enhance the bike's contours. Mount either directly centered on top of the saddlebags, or slightly to the rear and coordinate with our Saddlebag Front Kick Accents, Mfg/N 7692 sold separately.

VICTORY	Year	Mfg/N	P/N	Retail
Cross Country	10-17	7695	419830	79.99
Cross Country Tour	10-17	7695	419830	79.99

Cross Roads	10-14	7695	419830	79.99

KURYAKYN® SADDLEBAG KICK ACCENTS

Prevent those unsightly saddlebag scuffs and scratches or cover up ones that are already there. Not only do these offer protection, but also look great by offering just the right amount of contrast with black rubber inlaid with brilliant chrome. Installation is hassle free, just peel and stick.

- Fits all Cross Country, Cross Country Tour and Hardball Models

Note: Will also fit Cross Roads with O.E.M. Hard Saddlebags.

NEW!
HOPNEL™ SADDLEBAG LID BRA SET FOR VICTORY

With the strong acceptance last month of Saddlebag Lid Bras for the Harley FLH models, Hopnel™ now has an attractive and functional pair of Saddlebag Lid Bras for the Victory Cross Country and Cross Road models. Saddlebag Lid Bras stop scratches and cover those that are already there. Hopnel™'s Black Classic Lid Bra Set fits the 2010 to current Victory Cross Country and Cross Road hard saddlebags. A tapered design leaves the saddlebag lids artfully exposed while protecting and covering the front portion from marring. Secured in place with hook and loop to the inside top of the saddlebag lid in four locations for a secure fit. Removes easily for cleaning and waxing.

HARDBAGGER™ LOC-EZY SADDLEBAG THEFT DETERRENT KIT FOR VICTORY

Loc-Ezy is a simple do-it-yourself kit that securely mounts to the Harley® saddlebag on your bike frame, replacing the small factory 1/4 turn Dzus fasteners and thin wire U-Clips with steel threaded studs and heavy-duty mating threaded U-clips. A simple 15 minute installation and a small investment will protect both your bags and their contents. It also ensures that your saddlebag does not fall off your bike.

XTREME MACHINE FORGED WHEELS FOR INDIAN

Every wheel that rolls out are made with intelligence and pride. Choose from four best selling designs and learn for yourself why Xtreme Machine's wheels are some of the most sought-after wheels for riders around the world. Design matched components for a complete custom look. XM's innovative Xquisite finish is taken to the next level by polishing the exposed aluminum surface to a mirror like finish. Two-piece stainless steel rotors with replaceable outer bands. Designed, engineered and manufactured right here in the USA.

- All front wheel packages are dual disc
- Each wheel is CNC-machined from the highest quality aluminum and put through rigorous testing

METZELER ME 888 MARATHON ULTRA

- Focused on mileage improvement, and overall wet and dry handling these new tires feature new profiles, structure, tread pattern and compounds
- New Compound technology offers improvement in two important areas: material and process. The compounds offer better abrasion resistance, thus providing more mileage, but at the same time the choice of new resins improve the level of chemical grip on wet surfaces
- New tread design not only gives increased mileage vs. ME 880, it also has better water drainage, resulting in more resistance to aquaplaning
- Tire's profile modifies the shape and dimensions of the footprint. The contact patch is 5% shorter and 15% wider vs. ME 880. This profile has been chosen to improve the wear of the compound under footprint. A shorter and wider profile helps by better distributing the force necessary to transfer the engine torque to the ground
- The ME 888 focus is on uncompromised mileage, but without sacrificing the key Metzeler philosophy of stability, handling and wet and dry traction
- All sizes in the ME 888 range benefited from mileage increase and wear regularity upgrades, placing ME 888 on the top of the category in mileage and handling, stability, and comfort—until the end of its life
- Tubeless

BRAKES

EBC Organic Pads for Indian and Victory
The EBC Aramid Fiber series has now been renamed NAO series or Non Asbestos Organic. Typical organic "feel" which many riders prefer. Ideal for general use with low rotor damage characteristics.

- Environmentally friendly; free of asbestos, lead and other toxic materials

EBC Semi-Sintered V-Pads for Indian and Victory
New semi-sintered construction containing 30% copper by weight built within an organic matrix. Combines the long life of a sintered pad with the great feel of an organic pad. No rotor damage, normally only found using organic brake pads. Excellent for use in larger, heavier applications where long life may be an issue.

EBC Double-H Sintered Pads for Victory and Indian
Made in the U.S.A., the "Double-H" sintered pads have set the levels by which all other pads are now judged. These pads have the highest "HH" friction rating.

- HH rated — Highest friction rating
- High mileage lifetime
- Consistent performance throughout pad life

GALFER BRAKE LINE KITS FOR INDIAN AND VICTORY

Galfer's standard brake line kits are anything but standard. Starting off by using high quality machined banjo fittings and bolts. Kits are bike specific and are tailored to each bike for perfect fit and finish. Unlike many other manufacturers, Galfer pre-position the banjo fittings for an out-of-the-box fit. If you do need to adjust the orientation of the fittings, you are able to do so.

- Proprietary Heavy Duty Fittings with thick neck for durability
- Crush Washer Relief Channel to ensure a proper double seal
- PTFE Dupont 64 Teflon® hose
- R&D and engineered in the USA
- Custom Modification Available
- Lifetime Warranty
- Galfer USA controls the manufacturing process ensuring the highest level of quality control
- Made in USA

GOODRIDGE CHIEFTAIN CLEAR COAT/CHROME ENDS

The highest quality Harley-Davidson® brake line kits anywhere provide phenomenal performance and superior looks. Features stainless steel braided hose and beautifully finished hardware. Hose features include a PTFE inner liner, PVC hose coating and stainless steel armor braid. PTFE inner liner is an inert material that is compatible with all hydraulic and brake fluids, has a heat range of -158° to 500° and shields brake systems from moisture, unlike other materials like nylon. The PVC hose coating adds great looks, abrasion protection to expensive parts and resistance to damaging UV rays. The stainless steel braided armor is superior in pressure rating, flame resistance and volumetric expansion to all other materials, including other stainless braided hoses and Kevlar®, resulting in unmatched stopping power.

- Made in USA

NEW!
GOODRIDGE CHIEFTAIN BLACK HOSE/Z1 PLATED HARDWARE

Contemporary black-on-black look offers the latest in cool and high performance. Available to fit all common non-ABS Harley-Davidson® models. Hose features black PVC coating, PTFE inner liner and premium stainless steel braided armor. PVC hose coating adds great looks, abrasion protection to expensive parts and resistance to damaging UV rays. PTFE liner is an inert material, compatible with all hydraulic and brake fluids, has a heat range of -158° to 500° and shields brake systems from moisture, unlike other materials like nylon. Stainless steel braid is superior in pressure rating, flame resistance and volumetric expansion to all other materials, including Kevlar®, resulting in unmatched stopping power. All hardware is zinc-plated mild steel with a 96-hour salt spray rating.

- Packaged in attractive eco-friendly boxes with bolts and washers

PROGRESSIVE
suspension

NEW!

PROGRESSIVE SUSPENSION® FORK SPRING KIT FOR INDIANS

The 'Original' Progressive Rate Fork Springs soak up the small road bumps, yet are firm enough to absorb the molar-rattling ones. Spring rates have been chosen to reduce front end dive during braking, yet still provide excellent ride comfort. Better yet, we warranty our fork springs for life! Progressive Rate Fork Springs have several advantages over straight rate springs. A Progressive Rate Spring has the advantage of a rising rate resistance to compression. The benefit of this is that the spring can be soft enough at the start of the travel to offer a plush ride, yet be firm enough at the end of the travel to soak up the big bumps. Some applications are offered in Heavy-Duty and Standard Versions.

ARLEN NESS

NEW!

ARLEN NESS ADJUSTABLE HEIGHT PERFORMANCE SHOCK FOR INDIAN

The proper way to lower your Indian® while improving ride quality. Shock is preset to 310 mm length which lowers the bike 38 mm (1-1/2") and spring rate is adjusted for a 200 lb. rider.

- Both shock height and preload are adjustable
- Height is adjustable from factory height to 1-1/2 in. lower
- Preload adjustability allows the rider to set the spring preload to their individual weight
- Lowered position: Retains factory suspension geometry and provides improved ride quality even though bike is lowered. Unlike lowering links, which reduce ride quality by messing up the engineering of the rear suspension

CRUSHER

CRUSHER™ MAVERICK SLIP-ONS FOR INDIAN AND VICTORY

Shed pounds and gain a 5% increase in horsepower without intake or header upgrades. The slim 2.5 in. muffler diameter matches the stock headers to preserve the lean profile of traditional staggered dual exhausts. Featuring aggressively-styled billet aluminum tips with high-temp, black-ceramic coating and brushed stainless steel banding with the Crusher™ emblem. High-flow baffles produce a throaty exhaust note when cracking the throttle.

- Made in USA from premium chrome-plated steel
- Simple bolt-on installation with included bracket and hardware
- Approximately 14 lbs. lighter than stock mufflers

RF CUSTOM PARTS BOOSTERS SLIP-ONS FOR VICTORY OCTANE

Give your bike a boost with the new RF Octane Boosters. These slip-ons look great, sound awesome and will increase your horsepower without remapping. They give you a deeper, throaty sound and are half the weight of stock exhausts. Easy-to-install using O.E.M. mounting points, the Boosters are American made, come in matte black and give your bike an old school look. Designed for the 2017 Victory Octane, they are for closed course competition only.

- Made in USA

PERFORMANCE MACHINE AIR CLEANERS FOR INDIAN

The MAX HP Air Cleaner isn't just another pretty bolt-on accessory that lacks substance. The newest addition to our air cleaner line-up features an innovative, conical shape for dramatically improved knee clearance, an internal power cone design for smooth, laminar air flow, plus a high flow reusable air filter to give it life. Lightweight aluminum design, and easy installation all support the MAX HP's stunning good looks. And, it's made right here in the USA in Chrome, and Contrast Cut finishes with gaskets and hardware included.

ARLEN NESS 90 DEGREE AIR CLEANER KITS FOR INDIAN

The 90 degree intake kit features industry leading patented Big Sucker hidden breather technology and more filter surface area than any other kit known on the market for maximum performance. Ness hidden breathers are o-ringed at the heads and exist out the mouth of the injector/carb to provide efficient engine breathing, eliminating the need for any external hoses or hardware. The inverted 90 degree style filter features a built in inverted top to pull in air not only from all sides of the filter but also the front, which results more performance gaining airflow. Each filter is constructed from synthetic material that is water resistant, which in most cases eliminates the need for a rain sock. Filters are re-usable and do not require oil, just rinse and re-use. Kits are available with or without Arlen Ness forged billet covers, covers styles available in: Deep Cut, 10-Gauge or Beveled styles.

LLOYDZ MOTOR WORKZ AIR CLEANER FOR INDIAN

LLOYDZ Performance Air Cleaner is for the rider that wants to utilize the stock Thunderstroke cover but get more performance. This air cleaner design has 170% more filtering area than stock, and boasts 16% more horsepower and 14% more torque over stock when used in conjunction with LLOYDZ Performance Slip-On Mufflers and a PC-V Power Commander. What makes this filter unique is that it has filter media on face of the filter directly in front of the throttle body allowing it to not only pull air in from the sides of the filter, but also directly in front of the throttle body. The cover remains in the stock location so it doesn't interfere with your leg like some other aftermarket filters.

NEW!

COBRA® FI2000R POWRPRO TUNER FOR VICTORY

With patented technology unlike any other auto tune system on the market, it tunes to exactly what air-fuel mixture creates the maximum power 80 times per second (does not tune to some arbitrary AFR someone has picked). It creates that adjustment to maximum power on every squirt of the injector. It's like having the best custom map writing, dyno operator tuning your fuel every time you crank the throttle. Tunes every gear, every roll on, every environmental change, every engine modification, lugging the engine, winding it out to redline: it reacts, verifies and adjusts.

- No dyno needed
- No external adjustments needed
- Does not require wide band oxygen sensors
- No additional components needed
- Provides perfect fuel settings in any condition, with any exhaust system with any engine modifications

DYNATEK FUSION EFI FUEL AND IGNITION CONTROLLER

Dynatek announces the new Fusion EFI and Ignition Controller. The Dynatek Fusion EFI is an ignition and fuel injection control module that plugs in-line with the bike's stock ECM. The Dynatek Fusion EFI uses O.E.M. style connectors so no splicing or cutting of the stock harness is required.

Ignition Timing Control: Significant horsepower can often be made by making timing adjustments as well as being able to correct detonation problems that may occur—you can advance or retard your stock timing curve by +/- 10° using the included Control Center software.

Fuel Control: The Fusion EFI allows for very specific fuel adjustment of the entire range of throttle openings and RPM combinations—adjustments can also be based on additional inputs such as cylinder head temp or gear position.

Increased Rev Limit: The rev limiter is raised to 6200 RPM.

- Compatible with the DynaTune Auto Tuning Kit

Note: Not for sale or use in California.

FLO® OIL FILTERS FOR VICTORY

The most technically advanced oil filters you can buy. The filter element is made from medical grade, type 304 stainless steel micronic filter cloth to provide unmatched protection against oil contamination that results in engine damage. Super strength nickel-plated neodymium rare earth magnet is installed in the top of the element for magnetic pre-filtering of the oil. A sophisticated bypass is engineered for proper differential pressures and consistent operation, delivering a greater percentage of filtered oil while being very easy to clean. The twist lock design assures positive filter element placement and allows for easy disassembly, inspection and cleaning. A quad-ring gasket doubles the seal between the filter and the engine. The filter housing is made out of a beautiful polished or black anodized aluminum, which not only looks trick but aids in dissipating heat.

- Anti-slip crimper jaws

1. Consistent filtering across the entire surface and a flow rate nearly 7 times greater than paper filters
2. Magnetic Pre-filtering
3. Billet aluminum filter case doubles as an oil cooler
4. Progressive rate bypass combined with high flow characteristics of the filter media avoids unfiltered oil bypassing the filter during cold startup and high rpm
5. Drilled wrench nut allows for easy removal and safety wire required at most race tracks

ARLEN NESS

NEW!

ARLEN NESS OIL FILTER HOUSING FOR VICTORY

Arlen Ness combines sculpted billet aluminum with cutting edge filter technology used in Formula 1, NASCAR, and the aerospace industry. Each oil filter element is made from laser cut 304 stainless-steel and medical grade micronic cloth.

- Filters down to 35 microns, which is three times better than traditional filters
- Filters maintain consistent flow under all conditions including extreme heat, presence of water, and cold startups. Most traditional paper filters can flow so poorly under extreme conditions that they often cause oil bypass valves to open and allow unfiltered oil into the engine
- Simple filter cleaning and service

KURYAKYN

NEW!

KURYAKYN® OIL PANEL ACCENTS FOR INDIAN

The Rear Oil Panel Accent for Indian is a classic chrome cover that surrounds the oil filler cap and covers the wrinkle black base of the motor with gleaming chrome.

- Made from quality die-cast aluminum
- Can be installed by itself, but is styled for a cohesive look with the addition of the Inner Primary Cover (Mfg/N 5643) or Starter End Cover (Mfg/N 5642), both sold separately
- Easy installation using high-strength 3M® VHB™ adhesive

KURYAKYN® RADIATOR ACCENTS FOR INDIAN

Recognized as "The Risk Taker," John Shope of Dirty Bird Concepts knows a thing or two about pushing the limits of style. The new Sprint Signature Series line is no exception. Transform your Indian Scout into a badass race-inspired custom that radiates boldness. Just like the Dirty Bird himself.

Provides an instant transformation of the blank frame surrounding the radiator.

- Stamped from 6061 aluminum and easy to install using high-strength adhesive
- Satin, black mesh design features visible rivets for contrasting custom style and an attention-grabbing appearance

EXCLUSIVE

LLOYD'S MOTOR WORKZ PRECISION TIMING SYSTEM

Precision Timing System allows for six° retard and eight° of advance timing adjustments. Gives your bike quicker throttle response at lower rpms, can also be used to help eliminate pre-detonation (pinging) on some motors.

- Works with any combination of parts and offerws power increases across the board with the most benefit under the 2500 rpm range
- Power Commander 5 can only make timing adjustments over 2500 rpms so this product can compliment the PCV and other fuel controllers

BARNETT CLUTCH KITS

Barnett has added a new clutch kit to their long line of clutch applications and this time it's for the Indian Chief/Chieftain. The complete clutch kit features Barnett's exclusive carbon fiber-segmented friction plates, which provide better oil flow for cooler clutch temps and smoother, more consistent performance. Completing the kit is a set of tempered-steel plates and a set of heat-treated, heavy-duty coil springs.

- Made in USA

BARNETT CLUTCH PLATE KITS FOR VICTORY

Made with Kevlar® or Barnett's exclusive Carbon Fiber friction plates. Friction plates feature a "segmented" design which increases oil flow and allows the plates to run cooler for longer life and smoother, more consistent performance. Carbon Fiber friction material has a very high tolerance for heat making it an ideal choice for street or track. Drive plates are made from tempered steel and quality checked for flatness. All complete clutch kits are pre-measured to for proper stack height to ensure smooth, reliable performance right out of the box.

AVON GRIPS TOURING GRIPS FOR INDIAN

Manufactured with a special core bar that creates air pockets inside the grip body which dampen vibrations, help eliminate the tingle in your hands and soften the overall feel of the ride. The soft serrated texture on the grip surface helps you hold on to your bike with no-slip confidence. The grips are finished off with only the best 6061 billet aluminum end caps and collars.

KURYAKYN

KURYAKYN® SPEAR GRIPS

Spear Grips combine style that's true to Indian Motorcycle heritage with modern technology that provides unrivaled comfort and vibration reduction. Proprietary EPDM rubber inserts are embedded into the housing to create the traditional spear design that's guaranteed to turn heads when you're not twisting the throttle. Grip housings are made from quality chrome-plated cast aluminum.

- Embedded soft EPDM rubber inserts provide a sure grip in wet or dry riding conditions, reduce vibration and allow airflow
- Matching aluminum end caps with machined arrowhead designs
- Styling coordinates with the entire Spear lineup of foot controls for Indian Motorcycle

KURYAKYN® PEG ADAPTORS FOR INDIAN

Kuryakyn® footpegs are a two-part system for convenience and easy installation. Simply select the footpegs you desire and the appropriate motorcycle specific adaptor for your bike. The new serrated adaptors bite right into your footpegs for a secure attachment, so make sure they are at the desired angle before you tighten them down. This convenient two-part system also allows you to change your pegs without purchasing new adaptors. If you have a new bike, simply switch your pegs by purchasing new adaptors.

- Splined Adaptors required to mount Kuryakyn® Footpegs sold without adaptors

NEW!

KURYAKYN® DRIVING LIGHTS FOR VICTORY

Victory owners finally have additional lighting options that enhance visibility and style! Kuryakyn® Driving Lights for Victory feature uniquely contoured bezels and streamlined housings that form a cohesive appearance with the stock headlamp. Easy and clean bolt-on mounting keeps the lights nice and tight with the sharp contours on Victory fairings. 3-inch driving lamps with DOT-compliant H3 bulbs for extremely bright light output.

- Mounting bracket mounts inconspicuously inside the fairing to provide support for the additional weight of the driving lights
- Mounting bracket relocates factory turn signals to a position similar to stock
- Housings are made from quality die-cast aluminum, available in Chrome or Satin Black finishes
- Requires a Kuryakyn® Wiring Relay Kit (Mfg/N 2202 or 2328, sold separately) for proper installation

NEW! SHOW CHROME® DRIVING LIGHT KITS FOR VICTORY

For a more compact driving light kit for 2010 and newer Victory Cross Country, Cross Tour and Magnum models, Show Chrome offers 2-3/8 in. and 3-1/2 in. kits in both halogen and LED. The 2-3/8 in. light is 3-3/4 in. long. The 3-1/2 in. lights are positioned inline with the headlight for a true driving light experience. The non-dimmable LED works great with all non-RF broadcasts such as SiriusXM® and Bluetooth®. Driving lights are die cast and have a visor shaped bezel. Kits come complete with wiring and custom switch for the Victory fairing. The available 3-1/2 in. mounts provide a clean look by attaching to the existing turn signal mounts.

- Available in 50 Watt halogen or 400 Lumen/4000K LED
- Fits Cross Country, Cross Country Tour and Magnum (10-16)

PULSTAR® PULSE PLUGS

Electrical energy from the engine's ignition coil is stored in the built-in capacitor. At the exact moment needed, that energy is released in an amazingly powerful and quick (two nanosecond) high-energy pulse. The improved combustion efficiency burns fuel sooner and more effectively, which equals improved mpg, less CO2 based emissions and better overall drivability.

- Tested benefits:
- Up to 12% more horsepower and torque
- More precise and efficient combustion with fine-wire electrode
- Better throttle response
- Sold in pairs in a handy reusable plastic sleeve

TWIN POWER LITHIUM-ION BATTERIES FOR INDIAN AND VICTORY

Advanced technology, lightweight, high-CCA and direct fit make these the best direct fit Lithium-Ion Batteries for Victory® applications. The most advanced high-power Lithium-Ion Phosphate battery technology from Twin Power offers you ultra-high cranking amps from a super-lightweight battery, weighing in at 1/3 of a lead acid battery. You will still get high performance even when stored up to one year and it will keep performing even in low-temperature environments. These batteries have no corrosive liquids or toxic heavy metals, making it very environmentally friendly. With a two-year warranty, it will service you more than twice as long as your old battery.

BIKEMASTER® BATTERIES FOR INDIAN & VICTORY

High Performance Maintenance Free Batteries

Additional plates inside battery provide up to 30% more power (cranking amps) than the conventional battery

- Once activated, requires charging during prolonged storage periods; never needs refilling
- High level of power (cranking amps) for today's big bikes
- One-year manufacturer's warranty

Note: Dealer fills the battery from included acid tubes to create a sealed, spill-proof battery.

Maintenance Free VRLA Batteries

- Never needs refilling but may need periodic charging
- Once activated, requires charging during prolonged storage periods
- Comes with pre-measured acid tubes that dealers can easily empty into battery
- Includes a seal to place across the top of battery to create a sealed, spill-proof battery
- One-year manufacturer's warranty

YUASA BATTERIES

GYZ Series

- AGM (Absorbed Glass Mat) separators with superior grid and component designs
- Improved charge recovery capability from a deeply discharged condition
- Longer shelf life
- Improved life cycle performance
- Extreme vibration resistance
- Supplied Factory Activated (filled, sealed and charged at the factory)
- Heavy-duty, flush mounted terminals. Patent pending embedded brass nut
- Upgrade for customized motorcycles requiring the best performance
- One-year manufacturer's warranty

High-Performance Maintenance Free

- All the features of a standard maintenance free battery plus increased power
- YTZ Series: Small size, lightweight, huge power
- One-year manufacturer's warranty

Maintenance Free VRLA

- Valve Regulated Lead Acid (VRLA) spill-proof design
- Absorbed Glass Mat (AGM) Separators – an advanced battery technology that eliminates the need to ever add water
- Totally sealed and spill proof – all acid is absorbed in special plates and AGM separators
- Advanced lead-calcium technology – holds its specific gravity more than three times longer than conventional lead antimony batteries
- Available factory activated or dry with an acid pack
- H Series: Increased power - up to 30% more cranking amps
- One-year manufacturer's warranty

Yumicron Conventional

- Special thin separators allow two extra plates per cell to be installed, for a 30% improvement in cranking performance
- Sulfate stop to reduce battery sulfation
- Engineered to protect against corrosion, withstand vibration, and deliver high cranking power
- One-year manufacturer's warranty

Note: Yuasa® Conventional and Yuasa® Yumicron/Conventional batteries do not include acid.

JIMS FLYWHEEL PULLER TOOL FOR INDIAN SCOUT

Factory tools are some of the best tools you can buy. Similar to the OEM tool, the JIMS® tool incorporates a design change to ensure good and solid engagement when using the puller. This subtle change might eliminate potential damage to the flywheel when used in this application.

INDIAN	Year	P/N	Retail
Scout	15-17	467976	76.00

NEW!
JIMS WATER PUMP SEAL INSTALLER FOR INDIAN SCOUT

There is a water pump seal on the new Indian® Scout located in the engine case that requires a tool for installation. In testing, we discovered an additional seal "hidden below". JIMS® has taken the time to develop a seal installer that installs BOTH seals to the proper location and depth. Coolant filled engines might be new for some of us, but JIMS® takes the time to do it right the first time.
