**eCADDY™ GARMIN NUVI GPS BALL MOUNT**

- The simple, classy way to mount a Garmin Nuvi GPS
- All parts are made to last - machined aluminum with chrome plating and stainless steel; no plastic parts
- Will not scratch bars
- Faceted lug on the stem provides six mounting options to choose from
- 17mm ball (same size ball as a car mount) utilizes a stock Nuvi cradle or the socket-mounting hole on the back of the unit; just snap the cradle or unit directly into the ball mount
- Kit includes: mounting stem with 17mm ball and mounting bracket with UltraSecurity feature
- Holders fit left side or right side of most 1" bars, or a mount for most 96-16 Harley-Davidson handlebar control clamps with 1 1/2" screw spacing
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0603-0438	For 1" bars	\$59.95
0603-0441	For 96-16 H-D controls	54.95

**GPS WINDSHIELD MOUNT**

- Easy to install - just remove the stud on your windshield and screw it on
- Flats on two sides make it easy to use a wrench for tightening
- Total length is 2 3/8" (perfect for clearing the windshield "arc")
- On the GPS end, the 17mm ball (same size ball as a car mount) utilizes your stock GPS cradle or the socket-mounting hole on the back of your unit and rotates/tilts just as it does in your car
- Available with 1/4"-20 stud threading as used on most non-H-D windshields
- Fitment includes many Garmin Nuvi and Magellan Roadmate GPS
- Made of stainless steel
- Made in the U.S.A.

NOTE: Your GPS must accept the 17mm size to use this kit; often that means an extra piece that came in your GPS kit (or that can be purchased separately) that "clips" onto the GPS.
