GENERAL**BRAKE ROTORS**

- Front rotors provide better braking, improved brake alignment, no rotor distortion, reduced chance of rotor cracking and stylish looks
- Unique low carbon rotors feature polished carriers (unless noted)
- Front rotors for some applications available in wide band or narrow band style (see chart)
- Wide band style rotors are for use with OEM-style brake calipers
- Narrow band style rotors are for use with smaller aftermarket calipers
- All front rotors are solid mount unless noted in chart
- All rear rotors are solid mount (non-floating)
- Available in standard 11.5" diameter which bolt on with no modifications and utilize standard H-D calipers

Caliper adapter

BIG BRAKE FLOATING ROTOR KITS

- Provides up to 30% more stopping power than factory or factory-sized brake rotors
- Upgrades not only performance, but improves the style of your factory wheel
- Each Big Brake Rotor kit includes an oversized 14" or 15" floating rotor, brake caliper adapter bracket and necessary chrome hardware
- Rotors are constructed from high quality stainless steel, brake caliper brackets are machined from billet aluminum
- 14" kits are designed for 00-up FLT touring models with 17" larger front wheels, available in spoke or hub mounted applications
- 15" kits are designed for Dyna, Softail and Sportster models with 19" or larger front wheels, available in spoke or hub mounted applications

NOTE: Designed to work with factory fork legs. Will not work with Arlen Ness Hot Legs fork legs.

ONE-PIECE FRONT BRAKE ROTORS

- These high-performance rotors are CNC-machined from an aluminum-ceramic composite material
- When used with LRB's Red or Gold Plus brake pads, it provides the longest service life, and runs cleaner and quieter than any other braking system
- Not to be used with sintered pads
- Sold each
- Made in the U.S.A.

LUG-DRIVE BRAKE ROTORS

- These high-performance rotors use an ultra-light friction ring CNC-machined from an aluminum-ceramic composite material
- The Lug Drive System is used to fit the ring flush with a 6061 T-6 billet aluminum carrier
- The assembly locks together with a 302 stainless spiral retaining clip in the back, giving the clean, uninterrupted look of a solid rotor with the performance expected from a high-performance fully floating rotor by Lyndall Brakes
- When used with LRB's Red or Gold Plus brake pads, it provides the longest service life, and runs cleaner and quieter than any other braking system
- The entire rotor weighs 1.6 lb.
- Phoenix 8 Spoke rotors complement the stock wheel pattern commonly found on Dyna and FXR models
- Made in the U.S.A.

PRO POLISH STAINLESS STEEL BRAKE ROTORS

- Highly rust-resistant 420 stainless steel
- Features the E.F.S.™ process that produces a mirror-like finish
- Disc flatness held to one lightband (.0000116") and finished to within one micro inch or less for zero runout
- Five-shot design
- Made in the U.S.A.

STAINLESS STEEL BRAKE ROTORS

- Available in standard or floating designs that deliver optimum braking efficiency with maximum heat dissipation
- Floating design features a bright, flash-plated carrier
- Manufactured from SVS420JZ, a highly rust-resistant stainless steel material compatible with all types of disc brake pads (including sintered pads)
- High-frequency induction hardening, o.d. truing and tempering prior to final surface grinding
- Computer-controlled process guarantees quality control and precise dimensions

**FRONT AND REAR BRAKE ROTORS**

- Superior materials provide unmatched friction, feel and heat dissipation
- Extensive racing experience combined with cutting-edge technology provides superior brake systems
- CAD/CAM laser process produces exceptionally light and stress-free rotors
- Heat-treated according to its mass, thickness and targeted use
- Diamond surface finish is applied for perfect symmetry, flatness and balance
- Provide maximum stopping power while remaining perfectly flat
- Design is covered by an international license
- Sold each

FRONT FOUR-PISTON CALIPERS FOR 300MM ROTORS

- Smaller-volume calipers for use with stock brake master cylinder with 15mm piston on listed models
- Precision-machined from billet aluminum with a chrome, Black Ops™ or Contrast Cut™ finish
- Contrast Cut™ finish starts with a polished caliper that has been black anodized, then recut to open up the design
- Black Ops™ is a gloss black finish on top of a contrasting textured black finish for outstanding toughness and design
- Designed for 11.8" front disc applications with or without ABS
- Made in the U.S.A.

FOUR-PISTON DIFFERENTIAL-BORE BRAKE CALIPERS

- Feature differential bore pistons (1.125" and 1.375") that apply a different force at both the leading edge and the trailing edge of the pads for superior braking
- Available for 11.5" and 11.8"/300mm disc applications
- Dual-disc application require separate purchase of left and right calipers
- Available in Contrast Cut™, Black Ops™, Machine Ops™ and chrome finishes
- Includes DP brake pads, bleeder screw, 3/8"-24 banjo bolt and sealing washers and shim kit
- Made in the U.S.A.

NOTE: Calipers listed for 00-03 XL models will fit 04-13 XL models if used with a 9/16" bore master cylinder.

NOTE: Will not fit FXD, FXR or XL models with spoke wheels.

SIX-PISTON DIFFERENTIAL-BORE FRONT CALIPERS

- Designed for 11.5" or 13" rotors
- Dual-disc applications require a left and right caliper
- Work with OEM-style or Performance Machine rotors
- Chrome calipers are highly polished then chrome-plated
- Contrast Cut™ finish starts with a polished caliper that has been black anodized, then recut to open the design
- Black Ops™ is a gloss black finish on top of a contrasting textured black finish for outstanding toughness and design
- Include brake pads, bleeder screw and 3/8"-24 banjo bolt
- Made in the U.S.A.

NOTE: Will fit 08-17 FLHT/FLHR/FLTR/FLHX, 08-13 FL H-D Trike (w/ 13" rotors only) and 04-13 XL/XLH models, but will require an 11/16" bore master cylinder for dual-disc applications and a 9/16" bore master cylinder for single-disc applications.

NOTE: Will not fit FXD/FXR/XL models with wire spoke wheels.

FOR USE WITH 11.5" ROTORS (112 X 6B CALIPERS)

FOUR-PISTON DIFFERENTIAL-BORE CALIPERS

- Feature differential bore pistons that apply a different force at both the leading edge and the trailing edge of the pads to ensure superior braking
- Dual-disc applications require the separate purchase of a left and right front caliper
- Available in chrome, polished, Contrast Cut™ and Black Ops™ finishes
- Contrast Cut finish starts with a polished caliper that has been black anodized, then recut to open the design
- Black Ops is a gloss black finish on top of a contrasting textured black finish for outstanding toughness and design
- Include brake pads, bleeder screw and 3/8"-24 banjo bolt
- Made in the U.S.A.

NOTE: Calipers listed for 00-03 XL models will fit 04-13 XL models if used with a 9/16" bore master cylinder.

NOTE: Will not fit FXD, FXR, XL models with spoke wheels.

All part numbers in **BLUE** are new for 2017.

VINTAGE CALIPERS/CALIPERS BRACKETS

- Get their braking power from Performance Machine's proven four-piston internals, but have taken their styling cues from our Dual-Action Cast caliper
- The reminiscent, CNC-machined fins give the caliper its vintage style while keeping the caliper cool and providing optimal braking power with no flex
- The precision-machined Performance Machine logo around the accent bolt and centrally located banjo are the finishing touches to a true classic
- Available in chrome, Black Ops™, Machine Ops™ and black finishes
- Black Ops is a gloss black finish on top of a contrasting textured black finish for outstanding toughness and design
- Machine Ops is a fusion of textured natural aluminum and detailed machining that exposes the true beauty of their aluminum alloy, and then they dip the fresh machined parts in a slick clear anodize to protect the surface while keeping its raw aesthetic protected
- Calipers and brackets sold separately
- Made in the U.S.A.

JAYBRAKE

**J-SIX ULTRA SIX PISTON
FRONT BRAKE CALIPERS**

- Machined from billet aluminum and feature smooth face with bevel cut edges
- Six progressively sized pistons (three per side) provide optimal heat distribution and pad wear
- Provides optimal lever feel and braking response
- Dual piston seal design incorporates a wiper seal for a long, problem-free life of pads and rotors
- Direct bolt-on design
- Made in the U.S.A. with domestic materials

1701-0423

1721-1237

WITH 11.5" ROTOR

PART #	DESCRIPTION	SUG. RETAIL
FOR 00-14 FLS/FLST/FXST/FXS (EXCEPT SPRINGERS), 00-17 FXD, 00-07 FLHR/FLHT/FLHX/FLTR, 00-03 XL		
1701-0422	Left hand, chrome	\$529.95

REPLACEMENT COMPONENTS FOR J-FOUR 4-PISTON BRAKE CALIPERS

- Made in the U.S.A. with domestic materials

PART #	DESCRIPTION	SUG. RETAIL
1721-0888	Repl. brake pads (pr.)	\$75.95
1702-0056	Caliper rebuild kit	68.95

All part numbers in **BLUE** are new for 2017.

4- AND 6-PISTON BRAKE CALIPERS

- Precision CNC-machined billet aluminum construction
- Chrome finish (unless noted)
- Feature stainless steel pistons and chrome hardware
- Quick-change design for easy pad maintenance
- Dual, hidden bleeders for easy bleeding
- Differential bore technology
- Billet aluminum brackets are included where required
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
6-PISTON SINGLE-DISC FRONT CALIPERS		
1701-0287	For 08-17 FLHT/FLHR/FLHX/FLTR and 09-13 H-D FL Trike (w/ or w/o ABS)	\$439.95
1701-0585	For 08-16 FLHT/FLHR/FLHX/FLTR and 09-13 H-D FL Trike (w/ or w/o ABS) (black anodized)	439.95
1701-0589	For all 00-17 models w/ 13" brake rotor (except Springer models) (w/ or w/o ABS) (black anodized)	479.95
DS325892	For all 00-14 models (except 08-14 Dressers, H-D FL Trike, Springers, 04-14 XL, FXD/XL w/ spoke wheel, 06-14 Dyna Glide)	439.95
6-PISTON DUAL-DISC FRONT CALIPERS (PR.)		
1701-0288	For 08-17 FLHT/FLHR/FLHX/FLTR and 09-13 H-D FL Trike (w/ or w/o ABS)	877.95
DS325897	For 00-07 FLHT/FLHR/FLTR and FXD, 00-03 XL w/ mag wheel	877.95
4-PISTON SINGLE-DISC FRONT CALIPERS		
1701-0002	For 00-14 FXST/FLST/FXS/FLS/FXDWG/FXD, 00-03 XL, 00-05 V-Rod	378.95
1701-0001	For 84-99 FXST/FLST/FXDWG/FXD and XL w/ front mag wheel (except Springers)	378.95
1701-0164	For 84-99 FXST/FLST/FXDWG/FXD and XL w/ front mag wheel (except Springers and narrow glide spoked wheels) (black anodized)	378.95

PART #	DESCRIPTION	SUG. RETAIL
4-PISTON SINGLE-DISC FRONT CALIPERS (CONT)		
DS325925¹	For 88-06 FXSTS	\$549.95
1701-0111	For 97-07 FLSTS, 08-11 FLSTSB	378.95
4-PISTON DUAL-DISC FRONT CALIPERS (PR.)

1210-0328

SPROCKET-4-PISTON BRAKE CALIPER KITS

- 4-piston caliper with integral mount for 3/4" or 1" axle and weld-on mounting tab
- Stainless steel heat treated, ground and polished 51-tooth sprocket with mounting hardware
- Matching front rotors are available separately; see page 1344
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
CUSTOM 530 CHAIN DRIVE APPLICATIONS		
1210-0111	Left side rear kit, chrome	\$744.95
1210-0112	Right side rear kit, chrome	744.95
1210-0328	Left side rear kit, black	744.95
1210-0329	Right side rear kit, black	744.95
1720-0036	Brake pad set	44.95

DRIVESIDE BRAKE CALIPER KITS

- Feature 4-piston standard-bore stainless steel pistons, CNC-machined to exact tolerances
- Caliper bodies are billet aluminum construction with a chrome finish
- Kits include necessary chrome brackets, weld-on mounting tabs, hardware and instructions
- For use with 1" or 3/4" axles
- Will work with up to a 1 1/2" belt
- Made in the U.S.A.

NOTE: Requires a minimum 18" x 5 1/2" wide billet wheel, or 18" x 8 1/2" spoke wheel.

NOTE: Requires a custom brake line.

NOTE: Wheels designed for use with driveside brake caliper kits that do not require the use of a rotor hat.

GENERAL**4-PISTON FRONT BRAKE CALIPERS**

- CNC-machined in-house to exact tolerances for superior performance and function
- Stylish finish that really sets your bike apart
- Direct bolt-on design
- Available with a chrome finish
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1701-0488	For 08-17 FLHT/FLHR/FLTR/FLHX and 09-13 H-D FL Trike	\$756.95

**MILLENNIUM SERIES 4-PISTON CALIPERS**

- 6061 T-6S aluminum construction with a smooth or classic design
- Billet aluminum design with a choice of chrome or black contrast finish
- For use with 11.5" rotors
- Made in the U.S.A.

FRONT CALIPERS FOR 00-07 MODELS (EXCEPT SPRINGERS, 04-07 XL) (M-CALIPER)

PART #	DESCRIPTION	SUG. RETAIL
FRONT SINGLE DISC CALIPER		
1701-0277	Smooth black	\$323.95
1701-0278	Smooth chrome	\$379.95

1701-0283	Smooth black	\$338.95
1701-0284	Smooth chrome	394.95

PART #	DESCRIPTION	SUG. RETAIL
REAR CALIPERS FOR L87-99 FXST (M-CALIPER)		
1701-0499	Smooth chrome	\$394.95
1701-0500	Smooth black	\$38.95

2-PISTON FRONT BRAKE CALIPERS

- Billet aluminum with a smooth or classic "fin" design in a choice of three finishes: clear anodized, chrome or black contrast
- All single-disc applications require a 5/8" bore master cylinder
- All front dual-disc applications require the factory 11/16" bore (84 and later) or the GMA 3/4" handlebar master cylinder
- Brake pads included
- Made in the U.S.A.

NOTE: Not recommended for use with imported stainless steel rotors.

NOTE: When installing new calipers, always check spoke-to-caliper clearance.

PART #	DESCRIPTION	SUG. RETAIL
FOR 88-06 FXSTS (EXCEPT FXSTSB) (SINGLE DISC) (B-CALIPER)		
1701-0243	Classic clear anodized	\$298.95

2-PISTON CUSTOM REAR CALIPERS

- Billet aluminum with classic "fin" or smooth designs
- Choice of three finishes: clear anodized, chrome or black contrast
- Raw metal on black contrast calipers is anodized for a long-lasting high-quality finish
- Two piston designs for various H-D models (including rigid frames)
- Hanger brackets and brake pads included
- For use with 11.5" rotors
- Made in the U.S.A.

NOTE: The OLD-STYLE Wagner and Kelsey-Hayes (die-cast aluminum OEM) on rear applications have a 3/4" bore master cylinder and WILL NOT WORK CORRECTLY.

NOTE: Not recommended for use with imported stainless steel rotors.

NOTE: Requires use of 5/8" bore master cylinder.

PART #	DESCRIPTION	SUG. RETAIL

**RADIAL FRONT BRAKE
CALIPER MOUNTS**

- Brackets allow use of modern radial brake calipers for ultimate braking performance without high costs
- Brackets have a 108mm caliper mounting hole spread and will work with most radial-mount calipers (some spacing and shimming may be required)
- Tokico calipers from 04-09 Suzuki GSX-R600/750 models will work the easiest with these brackets (OEM Suzuki part #5 (right side) 59100-29600-999, 59100-41600-999, or 59100-41630-999 and (left side) 59300-29600-999, 59300-41600-999, 59300-41630)
- Available with a black or polished finish for 11.5", 11.8" and 13" brake discs
- Include shims
- Made in the U.S.A.

**FOR ALL 00-17 MODELS (EXCEPT XG500/XG750 AND NARROW GLIDE SPOKED WHEELS)**

1703-0083	For 04-17 XL; repl. OEM #42840-04	1.95

All part numbers in **BLUE** are new for 2017.

**12-POINT CALIPER BOLT COVERS**

- Quality chrome-plated steel bolt covers
- Polished and buffed to a mirror-like finish
- Sold in four-pack
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2402-0072	For 00-07 Big Twin models w/ stock calipers	\$28.95

**KURYAKYN****BRAKE BLEEDER SCREW COVERS**

- Chrome-plated covers hide the unsightly bleeder screws
- Complement the banjo bolt cover PART #DS-324802
- Fit stock bleeder screws found on most 84-17 calipers (except 08-17 FLHT/FLHR/FLTR/FLHX and H-D FL Trike)
- Sold in pairs

PART #	DESCRIPTION	SUG. RETAIL
DS-324801	Brake bleeder screw cover (pr.)	\$19.99

**SPEED BLEEDERS**

- The fastest way to bleed your brakes
- Easy, one-man operation
- 40525 fits JayBrake 2- and 6-piston, Performance Machine 4- and 6-piston and CCI Rev Tech 2-piston calipers; replaces OEM #44179-58
- 40526 fits front and rear on 91-17 Dyna Glide, 84-07 FLT/FLHT models, 85-17 FX models, 86-03 XL models, JayBrake 4-piston, Performance Machine 4-piston, Arlen Ness 4-piston, Chrome Specialties 4-piston and all GMA calipers; replaces OEM #44146-77, 44146-82 and 44048-83
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL	PART #	DESCRIPTION	SUG. RETAIL
40525	1/4"-28	\$14.95	40526	3/8"-24	\$14.95

**BRAKE BLEEDER CAPS**

- Replace missing or cracked bleeder caps
- Keep mud and dust out of your brake lines
- High-temp resistant materials and universal fitment make these caps a convenient replacement
- Sold in packs of two
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1731-0073	Brake bleeder caps (2-pk.)	\$5.95

**CALIPER INSERT**

- Chrome caliper insert with continuous spherical radius
- Special foam adhesive means easy installation
- Sold individually

PART #	DESCRIPTION	SUG. RETAIL
DS-325193	For all 00-17 models front and rear (except Springer front, 08-17 Dressers, 06-17 V-Rod, 04-17 XL)	\$7.95

**KURYAKYN****CLUTCH CABLE FERRULE/ BANJO BOLT COVER KIT**

- Kit includes chrome covers for clutch cable ferrule and master cylinder banjo bolt
- Banjo bolt cover also can be used on caliper banjo bolts
- Covers can be purchased separately

PART #	DESCRIPTION	SUG. RETAIL
FOR 84-17 BIG TWIN AND XL MODELS (EXCEPT 08-17 DRESSER AND H-D FL TRIKES)		
DS-324804	Clutch cable ferrule cover and banjo bolt cover combo kit	\$25.99
0660-0001	Clutch cable ferrule cover (ea.)	15.99

PREMIUM SINTERED METAL BRAKE PADS

- Premium sintered metal brake pads designed for H-D motorcycles
 - More durable than the stock brake pads
 - Pad backing plate features a high-tech ceramic heat shield that keeps heat away from the caliper piston and brake fluid
 - No brake dust, noise or brake fade
- NOTE: Not to be used with plated rotors.**

Sintered metal

Semi-metallic

**BRAKE PADS**

- Sintered metal brake pads are the OEM-type replacement pads for most bikes from the late 1970s to the present
- Sintered metal brake pads are proudly made in the U.S.A.; second-to-none in their stopping abilities and wear characteristics while still providing excellent reduction in noise and dust
- Organic Kevlar® pads are OEM type replacement brake pads for 1970s and earlier models
- Organic Kevlar® pads are the perfect choice for polished or chromed rotors and Billet Steel Rotors
- Semi-metallic brake pads offer a pad in between both the sintered and organic brake pads
- All three compounds of Drag Specialties brake pads are asbestos, nickel, and lead free

NOTE: If you are using aftermarket billet steel rotors it is recommended you use our Organic-Kevlar® brake pads to avoid damage to them. Sintered pads are not recommended for billet steel rotors as the pad material is too aggressive for those rotors.

DP BRAKES SINTERED METAL BRAKE PADS

- Give your bike peak braking performance with DP Brakes brake pads
- Pads have a quick break-in period so you get peak braking performance fast
- DP Brakes design and materials ensure consistent, hard stops and fade-free performance
- Pads give long pad life —, sintered metal compounds outlast conventional organic or Kevlar® pads
- Made with DP Brakes' proven sintered metal pad material
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Excellent initial bite and feel in both wet and dry conditions
- GG friction rated
- Quiet and non-abusive to most rotors; no brake dust or brake fade
- OEM pads for Performance Machine calipers

SDP Sport HH+

SDP SPORT HH+ SINTERED METAL BRAKE PADS

- Feature the industry-high, HH+ friction rating
- Provide superior stopping power with no mileage penalty
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Quick pad break-in time so you get maximum stopping power fast
- Quiet and dust-free

DP Sintered

RDP Race

RDP RACING SINTERED METAL BRAKE PADS

- Developed with the aid of top works teams to give your bike maximum stopping power
- Gray-colored aluminum oxide-based ceramic material on backplate of pad keeps heat away from caliper piston and fluid in extreme conditions for fade-free performance
- Designed to give maximum initial power, with fingertip control throughout the stop
- Quiet and dust-free

NOTE: DP Brakes brake pads are not for use with polished rotors.

"THE SQUEALERS" REAR BRAKE PADS

- Made from organic Kevlar® aramid fibers for low-abrasion
- Feature a unique squealing sound to let you know that it's time to replace your pads, which prevents damage that can occur when pads are worn
- Provide excellent stopping power without noise and rotor galling, even on polished rotors
- Fingertip control and strong, predictable brake response
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1720-0074	For L87-99 Big Twin and XL models (exc. Touring models); repl. OEM #44209-87C	\$59.95

HIGH-PERFORMANCE BRAKE PADS

FRONT CM55 COMPOUND

- Designed for high-performance sportbikes and competition use
- HH-rated pads are made using grade C685 friction material for instant, powerful braking power
- Strong, fade-resistant brake
- Pads are gentle on all rotors
- Sold in pairs

REAR CM56 COMPOUND

- Sintered metal compound that is a great OEM upgrade
- Offers a powerful initial bite and also a longer pad life
- Specifically designed for rear street applications – great pads for more aggressive riding styles and/or track days
- Sold in pairs

REAR SM15 COMPOUND

- Delivers dependable, rugged performance certain to satisfy the most demanding sport riders, commuters and touring enthusiasts
- Superior performance in wet or dry conditions
- SM15 pads are fade-free, noise-free and dust-free
- Smoothness, consistency and responsiveness from the lowest to highest possible temperatures
- Designed for stainless steel rotors; also excellent on cast iron rotors
- Gentle on all rotors
- Sold in pairs

SBS BRAKE PADS

The pads formerly known as Drag Specialties by SBS deliver unmatched performance and quality. You can find the right pad and compound for your application from SBS – proudly made in Denmark

STREET CERAMIC ORGANIC BRAKE PADS

- OE replacement pads with less noise and dust
- Designed for general purpose street use
- Ceramic compound gives long life to the brake pad and rotor
- Excellent, consistent performance in wet or dry conditions
- Very easy on OEM rotors and a great choice to use with aftermarket calipers
- NUCAP bonding ensures the highest possible performance and quality

Street Ceramic
CARBON TECH HIGH-PERFORMANCE BRAKE PADS

- Upgraded performance Ceramic Carbon performance pad
- HH-rating developed in racing and fine-tuned for street use with less noise and dust
- Unmatched feel and control at the lever
- Excellent for stainless steel or cast iron rotors
- Excellent choice for use with aftermarket calipers; perfect for chrome and aftermarket wheels
- Unified Composite Technology for a high-performance carbon compound pad
- NUCAP bonding ensures the highest possible performance and quality

Carbon Tech

STREETEXCEL SINTERED METAL BRAKE PADS THE RIGHT CHOICE FOR LATE-MODEL H-D AND V-TWIN

- Excellent for Touring models and those wanting high-performance pads
- Class-leading HH friction rating developed in racing, then tuned for the street
- OE replacement choice when replacing sintered pads
- Compound is formulated for low wear and high performance
- Front HHS and rear HLS compounds for the correct brake balance
- Leading noise-reducing technology for the lowest risk of noise

BRAKE PAD SHIMS

- Brake pad shims give better brake feel; help protect brake pistons and reduce vibration and noise
- Rubber-fiberglass shims are self-adhesive and fit any brake pad
- Four shims per package; sold each

PART #	DESCRIPTION	SUG. RETAIL
1702-0033	Brake pad shims	\$7.95

All part numbers in **BLUE** are new for 2017.

EBC

BRAKES

Organic Pads

Double-H sintered pads

Semi-Sintered (V) pads

Extreme Performance sintered pads

GPFA pads

Chrome VLD LTD semi-sintered pads

BRAKE PADS

ORGANIC PADS

- Organic brake pads feature aramid fibers; these are man-made high-performance fibers used widely for their light weight, high strength, abrasion resistance and thermal stability
- Aramid fibers have high strength-to-weight, thermal stability and abrasion resistance to provide advantages over cheaper steel fiber-based products
- Provide excellent stopping power without noise and rotor galling, even on polished rotors
- Fingertip control and strong, predictable brake response

DOUBLE-H SINTERED METAL PADS

- Feature the HH friction rating, the highest in the industry
- Provide maximum brake effect and last twice as long as organic pads

SEMI-SINTERED "V" PADS

- All-new semi-sintered construction containing 30% copper by weight within an organic matrix
- This design combines the long life of a sintered pad with the great feel and lack of rotor damage common with sintered pads
- Can be used to replace aramid fibers or sintered metal compound pads

LIMITED EDITION CHROMED SEMI-SINTERED "VLD" BRAKE PADS

- All-new limited edition semi-sintered pad compound bonded to a chrome-plated steel backing plate using the new NRS hook-bonding methods
- This pad compound combines the long life of a sintered pad with the great feel and lack of rotor damage common with sintered pads
- Can be used to replace aramid fibers or sintered metal compound pads

EXTREME PERFORMANCE SINTERED METAL

- The newest sintered metal brake pad fusion technology
- Has the highest friction rating available in a pad - 0.6 - for strong, fade-free stopping power
- No lead, iron or steel additives; no more rotor outline etching or rotor stiction
- Super-fast bed-in; full friction after 10 to 15 race stop uses
- Great heat cycle ability; pads cool after extreme use and perform just as strong the next day

GPFA BRAKE PADS

- For racetrack use ONLY
- Extreme grip pad compound pads designed for use on race bikes with slick tires and the latest high-performance brake calipers
- Fade-free stopping power with fingertip control

NOTE: Brake pads include abutment shims where required.

GENERAL**BRAKE PADS****GOLD+ BRAKE PADS**

- 20% more stopping power than stock pads
- The Gold+ delivers 30% more stopping power than a sintered pad, and is half the weight
- Zero dust or noise
- Works great on composite rotors
- Runs cooler, with no noise or dust
- Sold in pairs; order two pairs for dual-disc applications
- Made in the U.S.A.

X-TREME PERFORMANCE BRAKE PADS

- Utilize the latest technology in high-performance aramids by DuPont®
- The first organic pads to achieve an H/H friction level
- X-treme Performance Brake Pads deliver predictable, repeatable performance in the most-demanding riding environments, mountains, canyons, even track days
- Ideal for high-performance motorcycles and/or heavy-duty touring
- High-torque stopping power
- Rotor friendly, won't scratch your disc
- Zero dust, zero noise
- 15,000 service miles
- Fit composite or steel rotors
- Work well hot or cold, wet or dry
- Made in the U.S.A.

**1720-0065****1720-0063****1720-0461****1720-0048****Z+ BRAKE PADS**

- A matrix of carbon/Kevlar® and non-ferrous metal similar to L.R.B. Gold Plus Pads in stopping performance, but softened slightly to provide longer service life in the lower temperature ranges found in common street use
- Dust-free, quiet and the best protection for polished rotors
- 30% cooler and 50% lighter than sintered pads
- Ultra-long service life
- Use only on steel rotors
- Made in the U.S.A.

EXTENDED LENGTH STAINLESS STEEL BRAKE LINE KITS

- Features clear-coated stainless steel or black vinyl-coated braided extended lines with chrome steel fittings
- Meet DOT specifications
- Rear lines come with chrome steel switch junction block and uses standard brake light switch
- Made in the U.S.A.

NOTE: For matching lower and mid lines on ABS models, see standard length charts.

NOTE: All measurements are approximate.

DESIGNER SERIES ABS-SPECIFIC FRONT BRAKE LINE KITS

- Manufactured with an enhanced construction designed to be compatible with Harley-Davidson ABS requirements for stock and alternate length brake lines.
- Brake kits consist of a direct fit lower assembly used in conjunction with alternative length upper lines
- Kits to fit most Harley-Davidson Models – Touring, Softail, Dyna, and Sportster
- Choice of 35°, 90° or 180° upper brake line banjo angles ensure a great fit
- 3AN connections make for easy installations
- All fittings are highly polished and chrome or black chrome plated.
- The Industry's highest quality braid in three color choices to compliment your bike: STERLING CHROMITE® II, BLACK PEARL and POLISHED STAINLESS, the brightest "stainless" braid on the market
- Braid color and weave match all MAGNUM control cables and brake lines
- Crystal clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with Kevlar® reinforcement provides the ultimate in high performance by greatly reducing line expansion.
- Exceeds all DOT FMVSS-106 requirements
- Made in the U.S.A.

NOTE: Magnum Shielding brake lines are designed to follow the same routing path as OEM lines. Upper, lower, mid brake line and adapter banjo kits are sold separately to allow for a perfect fit.

Dyna, Softail and Sportster models use two kits – one upper and one lower.

Touring models use three kits – one upper, one lower and one mid-line. Lower kits for Softail models include an upper brake line adapter banjo. The adapter banjo can be purchased separately and be used with an upper brake line to complete the routing from the master cylinder to the ABS controller. A lower kit is optional.

A Designer mid-line is required for all Touring models with ABS. The mid-line connects to the upper brake line in the fairing or nacelle and completes the routing from the master cylinder to the ABS controller. A lower kit is optional.

Non-stock applications require taking a measurement for upper brake line length and banjo angle to ensure correct fitment (see How to Order).

Harley-Davidson motorcycles equipped with ABS (anti-lock brake system) require ABS specific upper and lower brake line kits. Failure to do so may result in compromised anti-lock braking ability. Magnum Shielding upper brake line kits manufactured specifically for these applications are identified with the letters "ABS" printed directly on the brake hose.

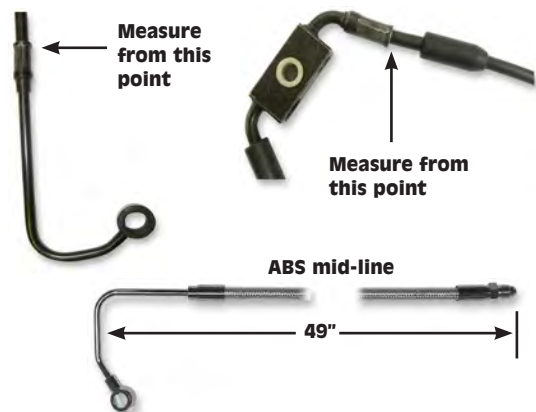

IMPORTANT – HOW TO ORDER:

Stock fitments: Use the stock fitment chart to determine the upper, lower and mid-line kits needed for your application. Lower and mid lines are model specific. Stock upper line length and banjo angle is listed for each application to help when choosing alternative length upper lines.

Alternative fitments: Due to handlebar changes, fitment options are accommodated with the UPPER line only. You may prefer to use a different length or banjo angle based on your specific routing. See the alternative length chart for available lengths and banjo angles.

Upper line length for Softail, Dyna, and Sportster models is determined by using your stock OE master cylinder brake line as a guide. Pull the rubber boot back and measure from the point at which the soft, flexible line enters the crimp collar on the lower portion. Follow the brake line routing up to your master cylinder. (see diagrams at right)

Upper line length for Touring models is measured using the 49 inch mid-line as a reference to determine additional line length needed to complete the routing from the ABS controller to the master cylinder. That measurement will be your upper line length. (see diagram at right).

MAGNUM STERLING CHROMITE® II BLACK PEARL POLISHED STAINLESS

Sterling Chromite II

Black Pearl

Polished Stainless

Clear Jacket

Kevlar® reinforcement

Braiding

PTFE Tubing

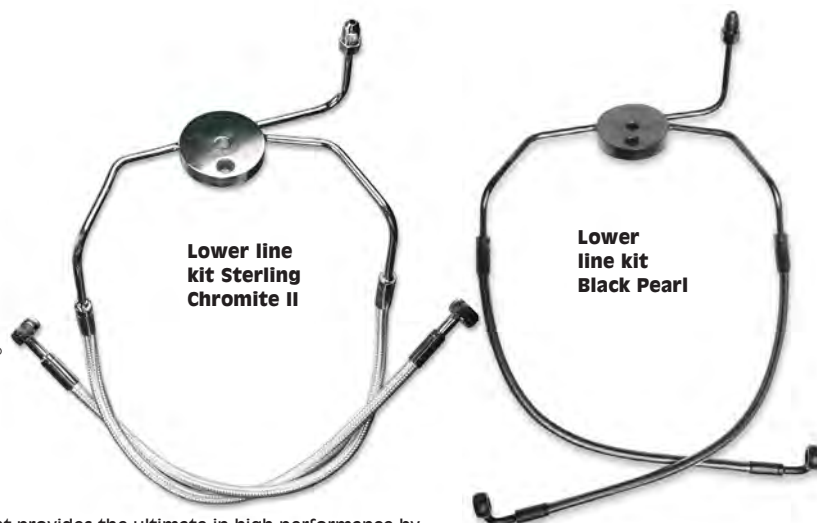

Upper Line

DESIGNER SERIES BRAIDED NON-ABS FRONT BRAKE LINE KITS

- Brake kits utilize a superior two-piece design consisting of a direct fit lower assembly used in conjunction with alternative length upper lines
- All brazed manifold construction eliminates leaks, alignment problems, and unattractive threaded connections for a sleek appearance
- Choice of 35°, 90° or 180° upper brake line banjo angles ensure a great fit
- 3AN connections for easy installations
- All fittings are highly polished and chrome or black chrome plated
- The Industry's highest quality braid in three color choices to compliment your bike: Sterling Chromite® II, Black Pearl and Polished Stainless, the brightest "stainless" braid on the market
- Braid color and weave match on all Magnum control cables and brake lines
- Crystal clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with Kevlar® reinforcement provides the ultimate in high performance by greatly reducing line expansion
- Exceeds all DOT FMVSS-106 Specifications
- Made in the U.S.A.

NOTE: Upper and lower brake line kits are sold separately to allow for a perfect fitment.

NOTE: Non-stock applications require taking a measurement for the upper brake line length and banjo angle to ensure correct fitment (see How to Order).

IMPORTANT - HOW TO ORDER

Stock fitments: Use the stock fitment chart to determine the upper and lower kits needed for your application. The stock upper line length and banjo angle is also listed for each application. This information may be helpful when choosing alternative length lines.

Lower lines are model specific. Use the stock fitment chart to determine which kit is required.

Alternative fitments: Due to handlebar changes, fitment options are accommodated with the UPPER line only. You may prefer to use a different length or banjo angle based your specific routing. See the alternative length chart for available lengths and banjo angles.

Upper line length is determined by measuring the routing path from the top of the lower triple tree to the master cylinder. The upper and lower connection is made at this point.

GENERAL**XR STAINLESS EXTREME RESPONSE FRONT BRAKELINE KITS**

- Manufactured with an enhanced construction for extreme braking response and durability
- Designed to be compatible with Harley-Davidson® ABS requirements for stock and alternate length brake lines
- Inner PTFE tubing braided with XR Stainless Steel reinforcement embedded in a tough Nylon outer jacket offers exceptional protection for paint or chrome
- Available in stock and plus lengths with clear or black coated XR Stainless brake line
- All fittings are highly polished and chrome plated
- All brazed manifold construction eliminates leaks, alignment problems, and unattractive threaded connections for a sleek appearance
- 3AN connections for easy installations
- Exceeds all DOT FMVSS-106 Specifications
- Made in the U.S.A.

NOTE: Some upper and lower ABS brake line kits are sold separately.

Chromite® II****Black Pearl****E-Z Align fitting
rotate 360°****Sterling
Chromite® II****E-Z ALIGN BRAIDED SINGLE DISC NON-ABS FRONT BRAKE LINES**

- E-Z Align rotating caliper banjo feature for perfect no-kink fits
- Choice of 35°, 90° or 180° upper brake line banjo angles
- Brake lines are available with either a 7/16" or 10mm master cylinder banjo fitting
- All fittings are polished and chrome or black chrome plated
- The industry's highest quality braid available in three color choices to complement your bike:
- Sterling Chromite® II, Black Pearl and Polished Stainless, the brightest "stainless" braid on the market
- Braid color and weave match on all Magnum control cables and brake lines
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with Kevlar® reinforcement provides the ultimate in high performance by greatly reducing line expansion
- Exceeds all DOT FMVSS-106 Specifications
- Made in the U.S.A.

POLISHED STAINLESS

**BRAIDED REAR BRAKE LINE KITS**

- The industry's highest quality braid available in two color choices to complement your bike; Sterling Chromite® II and Polished Stainless
- Braid color and weave match all other Magnum control cables and brake lines
- All fittings are polished and chrome plated
- Kits use OE-style manifolds or universal T-blocks for a complete installation
- Crystal clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Inner PTFE tubing braided with Kevlar® provides the ultimate in high performance and is compatible with all hydraulic fluids
- Exceed all DOT FMVSS-106 specifications
- Made in the U.S.A.

GENERAL**BRAIDED BRAKE LINE KITS**

- Braided brake lines exceed OEM pressure specifications, reduce brake line expansion and look good
- Available in stainless and black Renegade styles
- Feature PTFE inner liner and stainless steel outer braid for smooth fluid transfer and high strength
- Factory-assembled for correct fit and reliability

NOTE: All measurements are approximate.

NOTE: Russell reference numbers ending in DS, SS and B are clear coated, meet DOT MVSS-571.106 specifications and are 50-state legal.

NOTE: Numbers ending in S are for off-road or show use only.

Black

**PRO SWIVEL™ BRAKE HOSES**

- Available in clear-coated stainless steel with chrome fittings or black coating stainless steel outer band with black fittings
- Features Russell's exclusive 360° swivel banjo system (patent pending)
- The banjo is incorporated at the caliper end of the hose assembly
- Makes the rotation alignment hassle free
- Engineered using two O-rings for a positive seal
- Supported by 305 stainless steel retention pin for permanent attachment
- Using all stock mounting locations and hardware, simply route your hose and attach the banjo at the master cylinder
- All lines have a 3/8" 90° banjo at the caliper end
- Meet or exceeds DOT FMVSS-571-106 standards

All part numbers in **BLUE** are new for 2017.

**ABS SINGLE UPPER FRONT BRAKE LINE KITS**

- OEM-style kits meet DOT/TÜV FMVSS106 specifications, allowing on-road usage worldwide
- Upper lines run from the ABS controller to the master cylinder
- Kits include stainless steel braided hose and chrome hardware
- Hose features clear PVC coating, PTFE inner liner and premium stainless steel braided armor
- PVC hose coating adds great looks, abrasion protection to expensive parts, and resistance to damaging UV rays
- PTFE liner is an inert material, compatible with all hydraulic and brake fluids; has a heat range of -158°F to 500°F and shields brake systems from moisture, unlike other materials like nylon
- Stainless steel braid is superior in pressure rating, flame resistance and volumetric expansion to all other material, including Kevlar®, resulting in unmatched stopping power
- Come in attractive clamshell packaging with bolts and washers

GENERAL**DRAG**
Specialties**UNIVERSAL BRAKE LINE AND FITTINGS**

- Universal, black $\frac{3}{16}$ " o.d. nylon brake lines; ideal for custom fabrication
- Semi-rigid nylon construction offers unparalleled flexibility, allowing the builder ultimate control
- Compression-type chrome fittings with unique concave design
- Line and fittings also work great for custom hydraulic clutch applications
- For off-road and show use only; not DOT compliant
- Fittings made from steel, not brass
- Line and fittings sold separately
- Made in the U.S.A.

NOTE: 04-17 XL models use metric 10mm x 1.25" and 12mm x 1.50" banjo bolts, washers and fittings.

All Big Twin (except 08-17 Dressers) and pre-04 XL models use standard $\frac{3}{8}$ " and $\frac{7}{16}$ " banjo bolts, washers and fittings. Fittings and washers listed as $\frac{3}{8}$ "/10mm can be used in either application.

UNIVERSAL BRAKE LINES AND CHROME STEEL FITTINGS

- Top-quality clear-coated stainless steel-braided or black vinyl-coated stainless steel/braided brake lines, banjo bolts, brake line fittings and crush washers provide consistent, reliable performance
- Lines are available in 9" through 80" lengths
- Feature chrome-plated AN-3 ends
- Meet DOT MVSS-106 specifications
- Banjo bolts and fittings are chrome-plated steel and sold separately
- Made in the U.S.A.

NOTE: 04-17 XL models use metric 10mm x 1.25" and 12mm x 1.50" banjo bolts, washers and fittings. BYO® BUILD-YOUR-OWN DOT BRAKE LINE BUILDER KITS

- Assemble lines in only 5 minutes with side cutters and a 7/16" wrench for a perfect fit and alignment every time
- Three different kits are available in two colors to solve your brake line assembly challenges
- Basic Builder Single Disc Kits contain 7/16" and 10mm banjos and fittings to build multiple front single disc brake lines
- Deluxe Builder Kits contain banjos and fittings to build multiple front single disc brake lines, hydraulic clutch lines and most rear brake lines
- Master Builder Kits include everything in the Deluxe Kits, plus additional banjos along with four brazed and plated manifolds to build most dual front disc brake lines
- All kits are organized in a labeled, compartmental carrying case and include 25' of non-yellowing clear or black coated braided stainless steel hose, chrome or black chrome plated banjos, polished stainless hardware, copper crush washers plus a set of durable Aluminum BYO® Vise Jaws. Kit contents are listed below
- Brake hose and fittings are compliance labeled, pressure tested and 100% inspected
- Patented design meets all FMV55-106 standards once assembled per the included instructions for safe and reliable on-road use
- NOT for use with Anti-lock Brake Systems
- Replacement banjo multi-packs available – see pages 1404-1405

NOTE: BYO® brand brake hose and components have been specifically designed to work ONLY in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will NOT pass FMVSS-106 criteria and will void all warranty, performance, and liability claims.

NOTE: Black and Basic BYO® single disc builder kits do NOT contain rear brake line T-blocks or inverted flare Fittings.

NOTE: Black and Basic BYO® Single Disc Builder Kits Hydraulic Clutch Fittings are a natural stainless steel finish.

BYO® BUILD-YOUR-OWN UNIVERSAL BRAKE LINES

- Patented design meets all FMVSS-106 Standards once assembled per included instructions, for safe and reliable on-road use (see compatibility note below)
- Assembles in 5 minutes with only side cutters and 7/16" wrench
- All components and hoses are available separately to build your own DOT brake line – choose banjo fittings, and then cut bulk line to the exact length needed to eliminate ordering guesswork for a perfect fit every time
- Brake hose is 100% pressure tested and fittings are 100% inspected
- 3 bulk stainless brake line is fully labeled and sold in multiple lengths (includes one vise wrench for assembly)
- 3 braided stainless brake line is coated with a non-yellowing clear outer jacket – banjos and inverted flare fittings are polished and chrome plated with polished stainless steel fittings
- 3 braided black stainless brake line is coated with an opaque black outer jacket – banjos are black chrome plated and include black heat shrink to cover the stainless fittings once assembled
- Aluminum BYO® Vise Jaws are available separately and made specifically to assemble BYO® fittings

NOTE: Compatible Magnum Shielding BYO® brand brake hose and BYO components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance, liability and DOT FMVSS-106 compliance claims.

NOTE: All BYO® brand brake lines are intended for non-ABS applications ONLY.

NOTE: Please see pages 1404-1405 for compatible Drag Specialties and Magnum banjo bolts and crush washers.

BYO® BUILD-YOUR-OWN® DOT BRAKE LINE KITS

- Patented design meets all FMVSS-106 standards once assembled per the included instructions, for safe and reliable on-road use (see compatibility note below)
- Assembles in 5 minutes with only side cutters and 7/16" wrench
- Brake hose and fittings are DOT labeled, pressure tested and 100% inspected
- Single disc kits contain 6' of non-yellowing clear-coated braided stainless or black-coated stainless line, chrome or black chrome-plated banjos, polished stainless hardware, copper crush washers and vice wrench
- Dual disc kits contain 7' of non-yellowing clear-coated braided stainless or black-coated stainless line, chrome or black chrome-plated banjos, dual disc manifold, polished stainless hardware, copper crush washers and vice wrench
- Kits contain all components needed to build one complete stock or custom brake line
- Select by model and year or by banjo size and angle for custom applications

NOTE: Compatible Magnum Shielding BYO® brand brake hose and BYO® components have been specifically designed to only work in conjunction with each other. Use with any other Magnum brake line products or other manufacturer's brands will void any warranty, performance, liability, or DOT FMVSS-106 compliance claims.

NOTE: All BYO® brand brake lines are intended for non-ABS applications ONLY.

NOTE: 04-17 XL models use 10mm x 1.25 and 12mm x 1.50 banjo bolts. All Big Twin (except 08-17 Dresser models) and pre-04 XL use 3/8" and 7/16" banjo bolts. 08-17 Dressers use 10mm x 1.00 banjo bolts.

BRAIDED UNIVERSAL BRAKE LINES AND FITTINGS

- The industry's highest quality braid in three color choices to complement your bike; Sterling Chromite® II, Black Pearl and Polished Stainless, the brightest "stainless" braid on the market
- Braid color and weave match on all MAGNUM control cables and brake lines
- Inner PTFE tubing braided with Kevlar® reinforcement greatly reduces line expansion to provide the ultimate in high performance
- Crystal-clear outer jacket offers exceptional protection against scuffing paint or chrome and will never discolor
- Universal -3 AN fittings, banjos, and manifolds are chrome or black-chrome plated
- Banjos are offered in most popular sizes and bend angles
- -3 AN Male Mini Tee with bracket and Rear Brake Switch block are available to complete custom builds
- Exceeds all DOT FMVSS-106 Specifications
- Made in the U.S.A.

NOTE: For banjo bolts and crush washers, see pages 1404-1405.

PRO SYSTEM I LINES AND FITTINGS

- Allow custom fabrication of brake lines without the requirements of secondary adapters
- Unique extruded cover eliminates the age-old problem of abrasion to painted surfaces
- Hose end design ensures positive seal due to the separation of the sealing function from the hose end retention feature
- Lightweight, high-pressure assembly not only enhances appearance, but delivers the ultimate in pressure performance
- Replacement olives allow reuse of existing fittings
- Bulk line is available with clear coating or smoke-tint coating
- Smoke tint matches Barnett clear coating on cables
- -3 straight hose end for brake line connections
- Designed to ensure a positive seal
- Use with Pro System I braided hose only
- Perfect for master cylinder, junction block and caliper connections
- Easy assembly
- Made in the U.S.A.

NOTE: For show and off-road use only.

NOTE: 04-17 XL models use metric 10mm x 1.25 and 12mm x 1.50 banjo bolts, washers and fittings. All Big Twin (except 08-17 Dressers) and pre-04 XL models use standard 3/8" and 7/16" banjo bolts, washers and fittings. Fittings and washers listed as 3/8"/10mm will work in either application.

GENERAL**RUSSELL****RENEGADE UNIVERSAL BRAKE LINES AND FITTINGS**

- Preassembled with Russell high-performance #3 stainless steel braided hose that features a rugged PTFE inner liner and crimp-on female swivel hose ends
- Ready for adapter fittings, these build-it-yourself brake lines are the newest innovation from Russell
- Feature Twilight Black finish; abrasion-resistant against painted surfaces
- Black hose appearance is perfect for retros and late-model customs
- Provide superior braking performance with braided Powerflex
- Minimize line expansion
- Work with all brake fluids as well as stock, custom and racing applications
- Matching Renegade reusable adapter fittings feature a Twilight Black finish and are sold separately
- Meet DOT MVSS-106 guidelines
- Made in the U.S.A.

NOTE: 04-17 XL models use metric 10mm x 1.25 and 12mm x 1.50 banjo bolts, washers and fittings. All Big Twin (except 08-17 Dressers) and pre-04 XL models use standard $\frac{3}{8}$ " and $\frac{7}{16}$ " banjo bolts, washers and fittings. Fittings and washers listed as $\frac{3}{8}$ "/10mm can be used in either application.

Brake lines

**STREET LEGAL™ UNIVERSAL BRAKE LINES AND FITTINGS**

- Street Legal brake lines are clear-coated with chrome steel ends
- Program-designed #3 size for easy brake line hookups on almost any application
- Chrome banjo bolts and fittings are available separately for multiple applications
- Street Legal brake lines are DOT standard MVSS-106 approved
- Made in the U.S.A.

NOTE: 04-17 XL models use metric 10mm x 1.25 and 12mm x 1.50 banjo bolts, washers and fittings.

All Big Twin (except 08-17 Dressers) and pre-04 XL models use standard 3/8" and 7/16" banjo bolts, washers and fittings. Fittings and washers listed as 3/8"/10mm will work in either application.

SNIPER II BRAKE LINES AND FITTINGS

- Innovative brake lines and fittings are perfect for custom motorcycles
- Easy to assemble without specialty tools
- Perfect to route through concealed areas
- The microbore hose features clear or black PVC coating, PTFE inner liner, stainless steel braided armor, and polished stainless steel or black zinc-plated mild-steel hardware
- Micro-sized hose O.D. allows an unmatched bend radius, making it perfect for routing through forks, frames, and bars
- PVC hose coating adds great looks, abrasion protection to expensive parts, and resistance to damaging UV rays
- PTFE liner is an inert material, compatible with all hydraulic and brake fluids, has a heat range of -158°F to 500°F, and shields brake systems from moisture, unlike other materials like nylon
- Stainless steel armor braid is superior in pressure rating, flame resistance, and volumetric expansion to all other materials, including Kevlar®, resulting in unmatched stopping power
- This durably designed product range holds pressure to in excess of 10,000 psi, making Sniper II perfect for usage on all motorcycles

DELUXE PROFESSIONAL BRAKE LINE BUILDER KIT

- Build custom or service stock brake lines with professional results
- Each kit contains high-quality stainless steel braided hose, chromed banjos, bolts and other fittings
- Comes with enough brake line and hardware to build several complete front and rear brake lines
- Kit contains all items listed below in chart; number of pieces for each component is listed in kit quantity column
- Replacement parts can be purchased separately according to PART # in chart; quantity is listed in replacement parts quantity column

NOTE: 04-14 XL models use metric 10mm x 1.25 and 12mm x 1.50 banjo bolts, washers and fittings. All Big Twin except 08-14 Dressers and pre-04 XL models use standard 3/8\" and 7/16\" banjo bolts, washers and fittings. Fittings and washers listed as 3/8\"/10mm will fit either application.

All part numbers in **BLUE** are new for 2017.

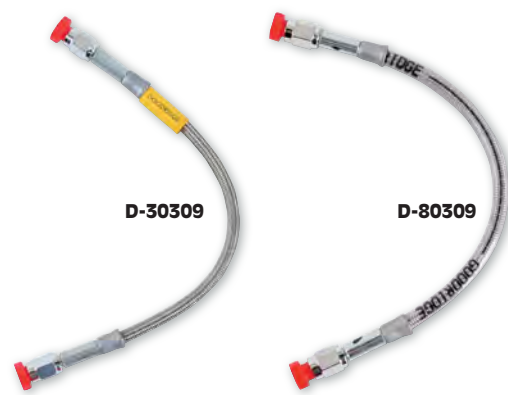

UNIVERSAL DOT BRAKE LINES

- Available in stainless steel and clear-coated stainless steel lines
- The combination of the PTFE inner and stainless steel outer braid eliminates the spongy feeling under heavy braking conditions
- Great looks combined with reliability and safety
- DOT and TÜV approved
- Assembled in the U.S.A.

NOTE: Recommended to be used with Goodridge fittings.

UNIVERSAL BRAKE LINES

- Choice of platinum, clear-coated or ebony series stainless braided hoses
- Stainless steel braid is superior in pressure rating, flame resistance and volumetric expansion to all other materials, including Kevlar®, resulting in unmatched stopping power
- All feature PTFE inner liners and mild steel fittings with a 96-hour salt spray rating
- PVC hose coating adds great looks, abrasion protection to expensive parts and resistance to damaging UV rays
- PTFE liner is an inert material, compatible with all hydraulic and brake fluids and has a heat range of -158°F to 500°F
- Platinum lines feature a copper-woven coating, with a protective PTFE cover and beautifully chromed fittings
- Clear-coated lines feature PVC coating and beautifully chromed fittings
- Ebony lines feature PVC coating and matte-black zinc-plated fittings

NOTE: Recommended to be used with Goodridge fittings.

ADAPTERS AND FITTINGS FOR GOODRIDGE UNIVERSAL BRAKE LINES

NOTE: 04-17 XL models use metric 10mm x 1.25 and 12mm x 1.50 banjo bolts, washers and fittings. All Big Twin except 08-17 Dressers and pre-04 XL models use standard 3/8" and 7/16" banjo bolts, washers and fittings. Fittings and washers listed as 3/8"/10mm can be used in either application.

GENERAL**BANJO ADAPTER WASHER**

- Designed for bikes that already have 7/16" banjos
- Enables the use of a 3/8" banjo bolt through a 7/16" banjo fitting (often the black rubber hose types found on late-model OEM controls) without having to remove the existing hoses
- Sold each
- Made in the U.S.A.

NOTE: JX Master cylinders are set up for the use of the more common 3/8" banjo fittings that bolt onto 3/8"-24 threads in the body.

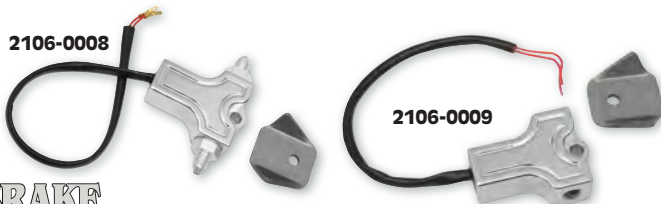

PART #	DESCRIPTION	SUG. RETAIL
1742-0112	Banjo adapter washer	\$7.95

2106-0008

**JAYBRAKE****BRAKE LINE JUNCTION BOX WITH BUILT-IN PRESSURE SWITCH**

- CNC-machined and chrome-plated for style and quality
- Pressure switch is internal; no unsightly external switch needed
- Can be bolted on virtually anywhere (1/4" mounting hole) or welded on with included tab
- Measures 1 3/4" wide x 2 1/2" tall (excluding fittings)
- Made in the U.S.A. with domestic materials

PART #	DESCRIPTION	SUG. RETAIL
2106-0008	W/ AN-3 fittings	\$159.95
2106-0009	W/ 1/8" NPT holes	159.95

BRAKE LINE TEES

- Available in a bubble style and a flat style
- Durable chrome-plated billet aluminum
- Banjo bolt (3/8"-24) design reduces the possibility of overtightening
- Prevent brake lines from rubbing on the front fender; 5 1/8" wide
- Require the use of a double-shoulder 3/8"-24 banjo bolt and a 3/8"-24 single-shoulder banjo bolt; sold separately
- Designed for dual-disc brake system
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
DS-097024	Flat brake tee	\$34.95
DS-097023	Bubble brake tee	34.95

BRAKE LINE T-JUNCTIONS

- Chromed front/rear brake line T-junctions fit Drag Specialties' "make-your-own" lines
- Replace non-chrome stock junctions
- T's available individually; plugs sold in packs of 10

PART #	DESCRIPTION	SUG. RETAIL
DS-097030	Front T-junction with two side inverted flares and center inverted flare (repl. OEM #44310-77)	\$12.95
DS-097031	Front T-junction with two side inverted flares and center 1/8" NPT (repl. OEM #43308-78)	12.95
DS-097032	Front T-junction with two side inverted flares and center inverted flare (repl. OEM #44311-80)	12.95
DS-097035	Front/rear T-junction with two side inverted flares and center 1/8" NPT, rear on 85-86 FXWG; 84-87 FXST, FLST (repl. OEM #42318-51)	12.95

BRAKE LINE SANDWICHES

- Two-piece design
- Used to mount stainless steel brake line under bottom triple tree
- .375" machined groove holds brake line in place
- Can also be used as universal cable clamp
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
DS096610	Chrome	\$27.95

**DRAG**
Specialties**BANJO BOLT SEALING WASHERS**

- Washers feature a rubber seal that provides superior sealing around the banjo bolt
- Sold in 10-pack

EXTENDED BRAKE PEDALS KURYAKYN

- Moves the brake pedal location forward and down while flattening the angle of the pad
- Eliminates your foot being "under" the brake pedal, for a more natural feel when moving your foot from the floorboard to the brake pedal
- Bronze bushing with grease fitting for long life
- For use with floorboard-equipped bikes
- Compatible with engine-guard mounted cruise pegs and Kuryakyn's Cruise Arm Mark III (adjustment range of Cruise Arm Mark III may be slightly reduced)

NOTE: On 02-07 models, extended brake pedal is only slightly longer and flatter than the stock brake pedal.
