BRAIDED SPARK PLUG WIRES

- The industry's best braid is available in Sterling Chromite®, polished stainless, metallic red, metallic blue and black pearl
- Braid perfectly matches all other Magnum cables and brake lines
- High-voltage, high temperature 8mm silicone ignition wire with an OE style high-performance suppression conductor core for guaranteed compatibility with all H-D ignition systems
- Heavy-walled extreme duty crystal clear FEP Fluoropolymer outer insulation eliminates the need for grounding wires and ensures no interference with late model computer modules
- Posi-lock spring clip terminals and silicone boots ensure maximum performance and clean spark delivery
- OE direct fits for ease of installation
- Made in the U.S.A.

8MM CUSTOM-COLORED PLUG WIRES

- Designer plug wire sets come in distinctive, highly visible colors
- Precut and have the plug/coil boots and terminals already installed
- Boots and wires are made from extra-high-temperature silicone, which gives protection up to 600°F
- Spiro-Pro core provides up to 10 times the conductivity of a standard carbon-core wire
- Low resistance means they run cooler and last three to four times longer than carbon-core wires
- Designed for electronic ignitions, but also work great on point types
- Available in prefitted styles
- Universal wire kits feature 24" wire leads (not for Twin Cam)
- Sold in pairs
- Made in the U.S.A.

THUNDERSPORT UNIVERSAL 5MM IGNITION WIRE KIT

- Half the diameter of stock wires, and flexible
- Run through cylinder heads, rocker covers and frame tubes for a completely hidden, clean look
- 150 ohms per foot: 5mm silicone jacket is rated for over 550° F
- Available in black
- Kit includes two 5' leads with 90° spark plug ends

NOTE: Not for Twin Cam or 04-17 XL applications.

PART #	DESCRIPTION	SUG. RETAIL
2104-0046	Black	\$53.23

CLOTH SPARK PLUG WIRE SETS

- These plug wires are cotton-braided and lacquered, but have a modern stranded copper conductor with PVC insulation for top performance
- Each set consists of a full 48" of 7mm plug wire with the Rajah clips for your spark plugs, a pair of rubber boots and a pair of high-tension terminals for the ends of the wires
- Simply clip the wire to the needed length, put the boots and terminals on the end and install on your coil or magneto
- Because these are not suppressor core wire, you could have radio interference on bikes that are running electronic ignitions
- Made in the U.S.A.

SPARK PLUG TERMINAL NUTS AND RING TERMINALS

- These brass spark plug terminal nuts will fit any modern spark plug with a removable top nut (Drag Specialties, NGK, Champion and any other major brand)
- Also included are nickel-plated Rajah ring terminals
- Add some vintage flair to your stock bike or your custom bobber or chopper
- These are a screw-on style; strip the end of your plug wire, insert and screw the terminal on
- The ring terminal is held in place firmly with the brass spark plug nut
- Includes two brass nuts and two Rajah ring terminals
- Made in the U.S.A.

PERFORMANCE SPARK PLUGS

- Conventional style spark plugs, available in OEM heat ranges
- Plugs have a unique look with a black ceramic body and bold red logo/script
- Insulator is made of 95% pure alumina, features strong resistance to heat shock and superior insulation
- Multi-rib design of the insulator eliminates flashback
- Nickel-plated housing prevents oxidation and corrosion
- Multi-layer gaskets and heat crimping process ensure a leak-free, gas-tight seal
- Copper core electrode prevents oxidation and corrosion, has good electrical and heat conductivity and creates long spark plug service life
- Sold in pairs in blister pack

IRIDIUM SPARK PLUGS

- The ultimate in spark plug technology and performance
- Iridium electrode is smaller than a standard electrode; requires less voltage
- Hotter spark and extended spark plug service life compared to conventional plugs
- Has the distinctive black ceramic with red lettering and gold-colored corrosion-protected coating on the metal shell
- Exceed OEM specifications for plug service life
- Sold in pairs in convenient blister pack

E3 RESISTOR SPARK PLUGS

- Unique electrode shape maximizes the power created by the spark plug - Diamond Fire technology
- Electrode is a combination of performance and technology that results in an improved flame kernel shape
- This flame front ignites the bulk air/fuel mixture faster, moves heat into the combustion chamber faster and creates a more localized pressure front for faster pressure rise during the cylinder power stroke
- The result is more complete combustion and an improvement in engine performance
- A truly premium performance plug
- Sold each

GENERAL**SPARK PLUGS**

- Superior construction for serious power
- NGK makes plugs for almost every application and riding style
- Versatile plugs with wide operating heat ranges prevent fouling from running too cool and preignition from running too hot
- Feature high alumina ceramics for improved heat dissipation and electrical insulation, deep-seated copper core for a wider heat range and a nickel alloy tip for longer life

**DENSO****IRIDIUM SPARK PLUGS**

- Six times harder than platinum, iridium doesn't melt in temperatures up to 4,000°F (2,204°C)
- Because the plug's iridium electrode can shrink to only 0.4mm, voltage requirements decrease while firing performance improves
- 360° laser welding of electrode provides a seal that resists wear even in the worst conditions
- Ground electrode features a tapered cut and U-groove that form a large volume area for the flame's center
- Use NGK reference chart to order and stock these plugs
- Sold each

SINGLE-FIRE COILS FOR MOST AFTERMARKET IGNITIONS		
2102-0370	3 ohm, 85-99 Evo Big Twin (3.25" L x 2.75" W x 3.25" H)	89.95
2102-0371	0.6 ohm, 99-06 Twin Cam carbureted models (3.25" L x 2.90" W x 3.125" H); repl. OEM #31655-99	89.95

2102-0374

FAST EFI PERFORMANCE COILS

- Greater spark energy than stock coil
- Bolts directly to stock mount
- Ion sense feedback compatible
- Works with stock Harley EFI ECU
- Overmolded poly case is epoxy sealed

PART #	DESCRIPTION	SUG. RETAIL
2102-0372	For 12-17 FLS/FLSS, 01-06 Big Twin EFI models (3.25" L x 3.125" W x 3.15 H); repl. OEM #31743-01	\$98.95
2102-0373	For 07-17 Twin Cam (except FXS/FLS/FLSS and 14-16 FXSB) (3.25" L x 2.60" W x 3.10" H); repl. OEM #31696-07A	102.95
2102-0374	For 07-17 Sportster (3.25" L x 1.75" W x 3.00" H); repl. OEM #31656-07	102.95

2102-0079

Daytona Twin Tec**SINGLE-FIRE MINI IGNITION COIL KIT**

- Miniature coil intended for custom motorcycles where space is at a premium and a single-fire coil is required for maximum performance
- 3-ohm primary is compatible with Twin Tec ignitions and most newer aftermarket single-fire ignitions
- Kit includes two coils, universal spark plug wire set, 90° and 135° spark plug boots and all required electrical terminals
- Coils also available separately (two coils required per application)
- Coil measures 2.4" L x 2.3" H x 1.6" W; weight is 7 oz. (198.45 g)

NOTE: CA exempt A.R.B. E.O. D-641-2.

2102-0080

PART #	DESCRIPTION	SUG. RETAIL
FOR 84-99 EVOLUTION BIG TWIN SINGLE-FIRE APPLICATIONS		
2102-0079	Mini-coil kit	\$130.00
2102-0080	Mini-coil (ea.)	65.00

**Daytona Twin Tec****SINGLE-FIRE COIL**

- High-output single-fire coil
- 3-ohm primary coil is compatible with all Twin Tec and most aftermarket single-fire ignitions
- 2.5" o.c. mounting holes

NOTE: Not for Twin Cam applications.

PART #	DESCRIPTION	SUG. RETAIL
2102-0078	For Twin Tec and other aftermarket applications	\$107.00

Daytona Twin Tec**HIGH-OUTPUT IGNITION COILS**

- OEM single-fire design; 45,000V
- Designed for aftermarket and OEM ignitions

7805-3031

PART #	DESCRIPTION	SUG. RETAIL
7805-3031	For 99-06 Twin Cam carbureted models and 04-06 XL models (except 99-01 FLHT); repl. OEM #31655-99	\$104.00
2102-0224	For 12-17 FLS/FLSS, 01-06 Twin Cam Delphi EFI models; repl. OEM #31743-01	110.00

IEMIGO**IGNITION COIL**

- 12V dual lead spark plug leads with solid core wires
- Chrome body
- 3.9 ohms

PART #	DESCRIPTION	SUG. RETAIL
2102-0303	For custom applications	\$49.95

2102-0287

2102-0284

2102-0312

**STEALTH SUPERCOIL KITS**

- Patent pending design eliminates the need for ignition wires by mounting coils directly to the spark plugs
- Cast aluminum cover holds the coil in place and acts as a functional heat sink to pull heat away from the cylinder head
- All wiring is hidden in the fins of the head for a clean, custom and wireless appearance
- Kits available in black w/ polished fins, stealth or natural finish

PART #	DESCRIPTION	SUG. RETAIL
FOR 09-16 FLHT/FLHR/FLHX/FLTR, 01-17 SOFTAIL, 06-17 DYNA W/ DELPHI EFI		
2102-0286	Black kit	\$235.95

2102-0282

2102-0281

**EFI "SUPER COILS"**

- Faster rise times, higher voltage, and maximum spark energy to the plug
- .5 ohm single-fire 12 volt coil
- Delivers up to 20% more voltage than OEM coils
- Designed to fit in stock location and under most coil covers
- Available in black

PART #	DESCRIPTION	SUG. RETAIL
2102-0282	For 08-16 FLHT/FLHR/FLHX/FLTR; repl. OEM #31772-07, 31696-07A	\$143.95
2102-0282	For 08-17 FLST (except FLS, FLSS, FXCW/C, 14-16 FXSB/SE, FXS); repl. OEM #31696-07A	143.95
2102-0282	For 12-17 FXD/FXDWG; repl. OEM #31696-07A	143.95
2102-0281	For 07-17 XL; repl. OEM #31656-07	143.95

2102-0132

7805-1041

2102-0107

**HEI "SUPER COILS"**

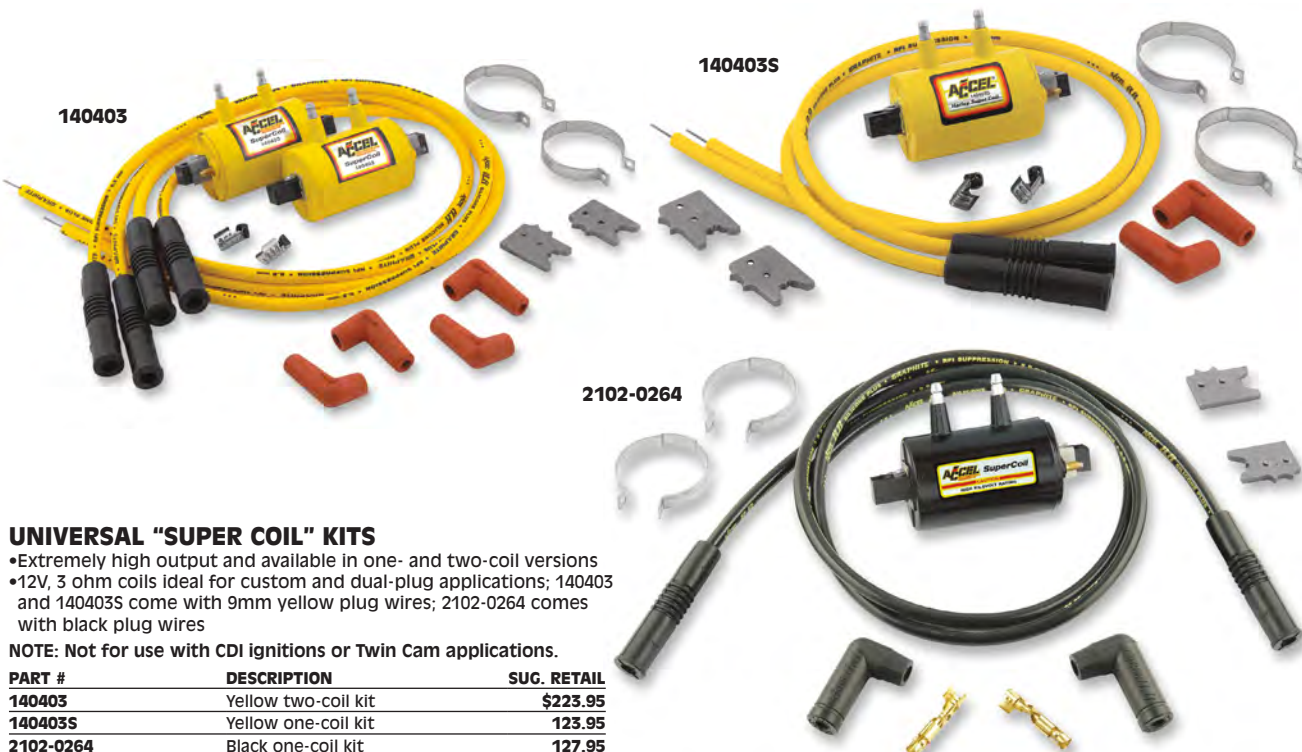

- 12V "Super Coils" feature a unique look to match their high-tech performance and state-of-the-art reliability
- Eye-catching chrome, bright yellow and black colors
- Available for electronic ignitions
- Will not fit F.I. models or Twin Cam applications

PART #	COLOR	DESCRIPTION	SUG. RETAIL
2102-0132	Chrome	Dual-fire w/ electronic ignition (2.3 ohm)	\$133.95
2102-0133	Chrome	Single-fire w/ electronic ignition (3.0 ohm), except XL, 1200S	153.95
7805-1041	Yellow	Single-fire w/ electronic ignition (3.0 ohm), except XL, 1200S	143.95
140407	Yellow	Dual-fire w/ electronic ignition (2.3 ohm)	123.95
2102-0106	Black	Dual-fire w/ electronic ignition (2.3 ohm)	123.95
2102-0107	Black	Single-fire w/ electronic ignition (3.0 ohm), except XL, 1200S	143.95

"POWER PULSE" 3 OHM COIL

- Offers higher voltage, faster rise time and longer spark duration
- Features vibration- and heat-resistant construction

PART #	DESCRIPTION	SUG. RETAIL
2102-0261	For 84-98 Big Twins and 84-03 Sportster w/ electronic ignitions (except 1200S, FI or Twin Cam)	\$128.95

**UNIVERSAL "SUPER COIL" KITS**

- Extremely high output and available in one- and two-coil versions
- 12V, 3 ohm coils ideal for custom and dual-plug applications; 140403 and 140403S come with 9mm yellow plug wires; 2102-0264 comes with black plug wires

NOTE: Not for use with CDI ignitions or Twin Cam applications.

PART #	DESCRIPTION	SUG. RETAIL
140403	Yellow two-coil kit	\$223.95
140403S	Yellow one-coil kit	123.95
2102-0264	Black one-coil kit	127.95

GENERAL**DYNATEK**
dync performance electronics**TWIN FIRE II COIL**

- Single fire just got easier
- High-technology materials now make it possible to put two coils in the same space as the stock coil with greater output
- No exposed laminations to rust and degrade performance
- High voltage and primary terminals machined from brass
- High-impact thermoplastic housing is ultrasonically welded and sealed against moisture
- Compact size fits easily under stock covers
- Peak gap current in excess of 50mA
- Over 40,000V per output
- Rated at 3 ohms; accepts 7 to 8mm wires
- Made in the U.S.A.

NOTE: Not for Twin Cam applications.

NOTE: Not for use with DS6-2 ignition system.

PART #	DESCRIPTION	SUG. RETAIL
DC6-5	Twin Fire II Miniature, dual output towers	\$158.95

TWIN FIRE COIL

- Design incorporates two individual performance ignition coils into a single, easy-to-mount package that is only slightly larger than the stock coil and uses the stock mounting bracket
- Delivers spark voltage in excess of 30,000V with fast rise times and high energy
- For all single-fire, dual-plug head applications
- Can be used with any electronic advance ignition system that incorporates dwell control, but cannot be used with the DS6-2 Dyna S or similar ignitions
- All coils are rated at 3 ohms
- Made in the U.S.A.

NOTE: Not for Twin Cam applications.

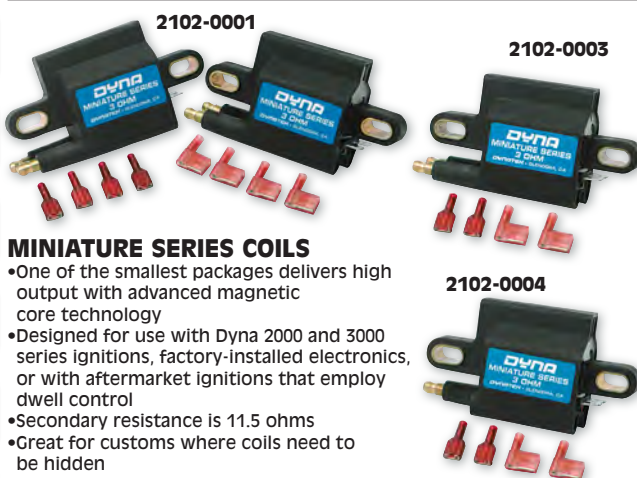

PART #	DESCRIPTION	SUG. RETAIL
DC6-4	Twin Fire, four output towers	\$166.95

**0.5 OHMS
MINIATURE COILS**

- Designed for use with the Dyna TC88 series ignitions or factory-installed electronic ignitions that use low-resistance coils

NOTE: Must not be used with ignitions not specifically designed to use low-resistance coils.

PART #	DESCRIPTION	SUG. RETAIL
FOR CARBURETED 99-06 TWIN CAM, 04-06 XL MODELS		
2102-0023	Dual output (pr.)	\$171.95
2102-0024	Dual output (ea.)	106.95
2102-0025	Single output (pr.)	171.95
2102-0026	Single output (ea.)	106.95

**MINIATURE SERIES COILS**

- One of the smallest packages delivers high output with advanced magnetic core technology
- Designed for use with Dyna 2000 and 3000 series ignitions, factory-installed electronics, or with aftermarket ignitions that employ dwell control
- Secondary resistance is 11.5 ohms
- Great for customs where coils need to be hidden

NOTE: Not for Twin Cam applications.

NOTE: Not for use with the Dyna "S," DYNA III or earlier generation ignitions.

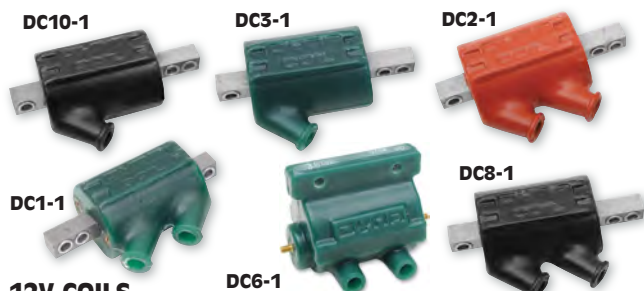

PART #	DESCRIPTION	SUG. RETAIL
2102-0001	3 ohm, dual tower coil, single fire, dual plug (pr.)	\$171.95
2102-0003	3 ohm, dual tower coil, dual fire, single plug (ea.)	106.95
2102-0002	3 ohm, single tower coil, single fire, single plug (pr.)	171.95
2102-0004	3 ohm, single tower coil, single fire, single plug (ea.)	106.95

All part numbers in **BLUE** are new for 2017.**DUAL-OUTPUT
COILS**

- Designed for aftermarket and OEM ignitions
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2102-0283	For 07-17 Twin Cam (except 14-16 FXS/FXSB/FLS/FLSS); .4 ohm; repl. OEM #31696-07A	\$158.95
2102-0141	For 12-17 FLS/FLSS, 99-06 Twin Cam carbureted models and 04-06 XL models (except Dresser models); .5 ohm, repl. OEM #31655-99	158.95
2102-0246	For 01-06 Big Twin Delphi EFI; .4 ohm; repl. OEM #31743-01	158.95
2102-0307	For 07-17 XL	158.95

**12V COILS**

- The "industry standard" with 35,000V spark energies second to none
- Designed to work with any Dyna ignition system
- Can be used for single- or dual-plug applications
- Made in the U.S.A.

NOTE: Not for Twin Cam applications.

PART #	DESCRIPTION	SUG. RETAIL
DC10-1	5 ohm (black), angled single output street application (pr.)	\$162.95
DC3-1	3 ohm (green), angled single output, for use with DS-62 single-fire ignition only race application (pr.)	162.95
DC2-1	1.5 ohm (brown), angled dual output (pr.)	162.95
DC1-1	3 ohm (green), angled dual output (pr.)	162.95
DC6-1	3 ohm (green), straight dual output, Std. H-D style (85-up electronic ignition) (ea.)	86.95
DC8-1	5.0 ohm (black), angled dual output (points) (pr.)	162.95

0.5 OHM HIGH-OUTPUT SINGLE-FIRE IGNITION COIL

- High-output 0.5 ohm single-fire coil for S&S IST® ignition, Delphi®-style VFI modules and custom applications requiring a 0.5 ohm coil
- Made in the U.S.A.

NOTE: Not for S&S Super Stock® ignition.

PART #	DESCRIPTION	SUG. RETAIL
2102-0211	0.5 ohm single-fire coil	\$125.95

3 OHM HIGH-OUTPUT SINGLE-FIRE IGNITION COIL

- This single-fire coil is actually two separate coils in a single package
- Works well with any single-fire ignition system
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2102-0021	3 ohm single-fire coil w/ electronic ignition	\$149.95

SUPERVOLT 12V IGNITION COILS

- The original Andrews ignition coil adds great performance with a classic look
- Replacement coils deliver 30,000+ volts
- 2.8 ohm coil fits electronic ignition/dual-fire
- 4.8 ohm coil fits points ignition/dual-fire
- Produce more voltage than a stock coil
- Sold each
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2102-0204	4.8 ohm coil, black	\$68.95
2102-0205	2.8 ohm coil, red	68.95

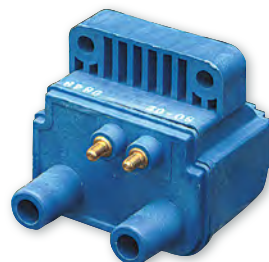

BLUE STREAK® IGNITION COIL

- Feature 45,000V+ capacity for superior spark
- Heavy-duty construction for long life
- Super-fast rise time for better response
- Bolts directly to stock coil bracket
- Not for single-fire ignitions
- Made in the U.S.A.

NOTE: Not for Twin Cam applications.

PART #	DESCRIPTION	SUG. RETAIL
DS-325479	2.7-ohm coil for models w/ electronic ignition (except models w/ single-fire ignitions)	\$110.95

DUAL-FIRE DUAL-TOWER COMPACT IGNITION COIL

- Three-ohm 12V coil features a closed-core design for greater efficiency
- Produces far greater energy in a small package than other popular high-performance coils
- Can be used with any Compu-Fire ignition system or any ignition that calls for a 3-ohm coil (except Dyna S and points-type ignitions)
- Sold each
- Made in the U.S.A.

NOTE: Not for Twin Cam applications.

PART #	DESCRIPTION	SUG. RETAIL
DS-325689	Dual-fire compact ignition coil	\$71.95

COIL COVER BRACKET

- Repositions the stock coil cover when mounting a Dyna Twin Fire Coil
- Stamped steel with a cadmium-plated finish
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1406001	For 84-06 Softail models	\$11.95

IGNITION COIL RE-LOCATOR KIT

- Moves the location of coil and ignition switch from under the neck of your Sportster to between the V of your motor and removes the plastic wire caddy to expose the frame of your bike above the front cylinder
- Direct replacement for stock mount
- Polished stainless steel construction
- Billet coil bracket included with coil relocation motor mount
- Spark plug wires required for use of motor mount with coil relocation (PART #7806-1556)
- All chrome mounting hardware included
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0933-0067	For 07-13 XL w/ 3.3 gallon tank	\$219.95

CHROME COIL MOUNT BRACKET

- Chrome-plated steel bracket; simple bolt-on assembly
- Includes ignition switch mount
- Replaces OEM #s 31740-04, 31755-04

PART #	DESCRIPTION	SUG. RETAIL
2102-0077	For 04-06 XL	\$33.95

DISCLAIMER: NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON ANY POLLUTION CONTROLLED MOTOR VEHICLES.

DYNATEK
dyna performance electronics

DYNA 2000TC PROGRAMMABLE DIGITAL PERFORMANCE IGNITION MODULE

- Single-fire, fully programmable performance ignition
- Sixteen programmable advance curves in three groups: stock to slightly modified motors, heavily modified motors and insanely modified motors
- Eight rev limiter settings in 250 rpm steps from 5750-7250 rpm
- All functions offer full digital accuracy
- Compatible with stock and performance coils – less than 1 ohm resistance
- Coil current constantly monitored to provide constant full-spark energy
- Uses all stock sensors and connectors
- Built-in reverse battery and spike protection
- Data recording includes total engine hours, time wide-open throttle, longest time operating at wide-open throttle, max rpm, seconds near rev limit and number of engine starts
- PC programmability makes possible an eight-point, fully definable, wide-open throttle curve and a fully definable part-throttle curve, programmable rev limit in 50 rpm steps, 0-5 programmable dead-cranking revs, total of +/- 10° rear cylinder offset, programmable rev limiter, and security lock out (pin # activated)
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2101-0033	For carbureted 99-03 Twin Cam models	\$265.95
2101-0022	Programming kit	99.95
2101-0055	Repl. computer-to-module cable for kit PART #2101-0022	59.95

2101-0063

DYNATEK
dyna performance electronics

DYNA 2000TC-3 DIGITAL PERFORMANCE IGNITION MODULE

- Module has a single connector
- Loaded with 16 different advance curves, giving engine builder a wide range of curves to work with
- Adjustable rev limiter allows the user to select a rev limit ranging from 5750 to 7500 rpm in 250 rpm steps
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2101-0063	For carbureted 04-06 Twin Cam models	\$265.95
2101-0071	For 04-06 XL	265.95

Daytona Twin Tec

PLUG-IN IGNITION MODULES

- Features two advance curve families that are adjustable to accommodate stock and modified engines
- Selectable multi-spark mode for quick starting and smooth cruising
- Five rotary switches for mode select, timing adjustments, advance slope and rpm limit (in 100 rpm steps)
- Coil outputs protected against short circuits
- Requires OEM coils with less than 1 ohm primary resistance and low-resistance spiral-core or carbon-core suppression-type plug wires
- 12V power adapters are used to power up the modules when removed from the bike (sold separately)
- Optional USB interface PART #2101-0075 and software required for programming (programs available on web site www.daytona-twintec.com/index.html) custom curves
- Easy-to-follow instructions included
- Made in the U.S.A.

NOTE: Will not work on fuel-injected models.

NOTE: California A.R.B. E.O. No. D-641-1.

PART #	DESCRIPTION	SUG. RETAIL
STANDARD PLUG-IN IGNITION MODULES		
2101-0034	For 04-06 Twin Cam and Sportster carbureted models w/ a single 12-pin connector	\$331.00

GENERAL**IGNITION MODULE ADAPTERS**

- Adapters allow the use of a seven-pin module (91-93) going to an eight-pin Deutsch (94-99) wiring harness or an eight-pin module going to a seven-pin harness
- Made in the U.S.A.

NOTE: Will not work for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
DS-243068	7-pin adapter to 8-pin module	\$42.95
DS-243069	8-pin adapter to 7-pin module	43.95

**2101-0079****INTELLIGENT SPARK TECHNOLOGY (IST) IGNITION SYSTEM**

- The S&S system makes use of crank position sensor, cam position sensor if present, MAP sensor, cylinder head temperature sensor and an exclusive knock sensor that detects detonation or knock while the engine runs
- Knock sensor allows the ECU to automatically adjust ignition timing to eliminate knock whenever it occurs
- Optimizes power and fuel economy
- The Intelligent Spark Technology Ignition Module requires an installation kit that must be purchased separately
- Optional high-output coil also available: designed for the S&S Variable Fuel Injection System, the single-fire coil is actually two separate coils in a single package; coil impedance 3 ohm per coil (sold separately)
- Made in the U.S.A.

NOTE: Not for fuel-injected models.**NOTE:** Not recommended for kick start applications unless a cam position sensor is used. Engines using crankshaft position sensors will be difficult to kick start.**NOTE:** S&S IST ignition modules manufactured after 10-1-03 (serial number begins with "E" or higher letter) already contain software to support the Guardian Diagnostic System. These modules will work in all applications except 2004-05. Modules manufactured after 10-1-05 (serial number begins with "G" or higher letter) are compatible with 04-05 models in addition to the other specified applications.

PART #	DESCRIPTION	SUG. RETAIL	PART #	DESCRIPTION	SUG. RETAIL
MODULE			REPLACEMENT PARTS FOR INSTALLATION KITS		
2101-0079	S&S Intelligent Technology Ignition Module	\$349.95	55-1014	Cylinder head temp. sensor for Twin Cam and Super Sidewinder Plus (OEM 32446-99)	\$92.95

**GUARDIAN DIAGNOSTIC SYSTEM™**

- Offers engine builders and tuners some powerful tools to use with the S&S IST ignition module
- Contains a software CD for PCs, a translator unit, and two cables that connect the translator to the COM port of your PC and to the data link on the motorcycle wiring harness
- Once connection between the computer and IST module is made, the software allows access to new functions and diagnostic data
- These functions allow you to, among other things: turn on the break-in "Rev" limit function to protect a new or rebuilt engine from over-revving during break-in; adjust the final rev limit; look at diagnostic test codes; look at live data for both cylinders while the engine is running (e.g., rpm, manifold absolute pressure, engine temperature, battery voltage, spark timing, etc.); look at a wide range of history information; and calibrate the speedometer in 04-06 models
- Includes software, translator unit and cables
- Made in the U.S.A.

DYNATEK
dyna performance electronics
DYNA2000

2101-0045

2101-0043

2000-HDE PC-PROGRAMMABLE DIGITAL IGNITION MODULES

- A plug-in upgrade to the electronic advance ignition found on late model Harleys, these ignitions are micro-computer controlled, generating extremely accurate control over the entire ignition process
- Allow riders to tailor the advance curve and rev limiter to the specific needs of their particular engine; four built-in advance curves cover the needs of stock to highly modified engines over a variety of operating conditions; four independent rev limiter choices from 6000 to 7500 rpm set the exact protection level needed
- PC programmability allows you to define a wide-open and part-throttle curve, rev limits, dead-cranking revs and rear cylinder offset
- PART #2101-0045 comes with 8-pin connectors; operates in single-fire or dual-fire modes
- PART #2101-0046 comes with 8-pin connectors; operates in dual-fire mode only
- PART #2101-0045 and 2101-0046 offer a quick curve which simulates a mechanical advancer for hot rod motors; option to use vacuum advance compensation via a VVES switch and retard mode, which allows selection of ignition retard of 5°, 7° or 10° upon activation of a retard input
- PART #2101-0044 is for use with a dual-fire ignition only; it simply plugs right into your 7-pin stock harness and mounts right in the original ignition mounting area
- PART #2101-0043 comes with a 7-pin connector; can be used with either one ignition coil firing both cylinders (dual fire), or with two ignition coils, one firing each cylinder (single-fire); no other ignition offers this flexibility
- A separate tach output wire allows clean tach operation during rev limiting and when in single-fire mode
- A diagnostic LED indicator is included on the back of the control module to assist trouble shooting and static timing
- Made in the U.S.A.

IMPORTANT NOTE: On any electronic advance ignition such as the Dyna 2000-HD1 or the stock Harley ignition, you must use carbon fiber-type suppression spark plug wires to reduce radio frequency interference. Use of copper wires may cause malfunction of the ignition due to severe electrical noise generated at the spark plugs. The original wire supplied by Harley-Davidson should be okay.

NOTE: Not for fuel-injected models.

NOTE: HDE systems are not compatible with Dyna "S" systems. Use HD1/HD2 systems only.

PART #	DESCRIPTION	SUG. RETAIL
2101-0045	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG and 94-97 XL single- or dual-fire system (w/ 8-pin)	\$265.95
2101-0046	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG and 94-97 XL dual-fire system (w/ 8-pin)	216.95
2101-0043	For 91-E94 FLT/FLHT, 91-95 FXST/FLST, 91-95 FXD/FXDWG and 90-93 XL single- or dual-fire digital system (w/ 7-pin)	265.95
2101-0044	For 91-E94 FLT/FLHT, 91-95 FXST/FLST, 91-95 FXD/FXDWG and 90-93 XL dual-fire digital system (w/ 7-pin)	216.95

2101-0211

2101-0075

Daytona Twin Tec

EXTERNAL PLUG-IN IGNITION MODULES

- Features two advance curve families that are adjustable to accommodate stock and modified engines
- Selectable multi-spark mode for quick starting and smooth cruising
- Unit has four rotary switches for timing adjustments, single/dual ignition mode and rpm limit (100 rpm steps)
- Coil outputs protected against short circuits
- Requires coils with a minimum of 3 ohms resistance and low resistance spiral-core-type plug wires
- Uses the tachometer wire for the PC-link and come with a connector
- Optional USB interface and software available for programming custom curves (programs available on web site www.daytona-twintec.com)
- 12V power adapter is used to power up the ignition system when removed from the bike and for installing new maps (sold separately)
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

NOTE: California A.R.B. E.O. No. D-641-1.

GENERAL**DYNATEK**
dyna performance electronics**PC-PROGRAMMABLE
SINGLE-FIRE IGNITION
AND COIL KITS**

- Kit includes Dyna 2000 ignition module and Dyna Twin Fire coils
- PC programmability allows you to define a wide-open and part-throttle curve, rev limits, dead cranking revs and rear cylinder offset
- Makes stocking and buying easy by combining parts matched to a specific bike
- Dyna 2000 Ignition has expanded advance curve functionality, a special retard mode for turbo-charged and nitrous bikes, selection between four advance curves, a quick curve which simulates a mechanical advancer for hot rod engines and four independent rev limiter choices from 6000 to 7500 rpm
- Dyna Twin Fire coils incorporate two performance coils into a single package that is only slightly larger than the stock coil and mounts easily to the stock mounting bracket; delivers spark voltage in excess of 30,000V with fast rise times and high energy
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

GENERAL**TWIN CAM STAND-ALONE IGNITION SYSTEM**

- Designed for use in custom applications where a Twin Cam motor and crank sensor are used
- Complete ignition system includes module, coil, wires, Smart Link software, communication cable and instructions (no Harley factory harness required)
- Consolidates ignition components into a small, easy-to-mount package
- Integrated high-output single-fire operation
- Fully programmable spark timing and rev-limit setting
- Real-time diagnostic features aid in troubleshooting and tuning
- Uses factory crank trigger for improved starting and performance
- Rugged billet aluminum housing is weather- and vibration-resistant
- Custom mounting with 1/4"-20 bolts, 2" apart

PART #	DESCRIPTION	SUG. RETAIL
2101-0070	For carbureted 01-06 Twin Cam models	\$313.95

Daytona Twin Tec

2101-0214

EXTERNAL MODULE IGNITION KITS

- Kit includes ignition module, single-fire coil, 8.5mm spark plug wires and instructions
- Two advance curve families with adjustable advance curves to accommodate stock to wild engine modifications
- Unit has four rotary switches for adjusting timing, single/dual fire, rpm limit and two LED indicator lights
- Digitally set rpm limit (in 100 rpm steps); selectable single- or dual-fire mode
- Selectable multi-spark mode for quick starting and smooth cruising
- Coil outputs protected against short circuits
- Optional USB interface and software available (programs available on web site <http://www.daytona-twintec.com/index.html>) for programming custom curves
- Kit uses the tachometer wire for the PC-link and comes with a connector
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

NOTE: California C.A.R.B. E.O. #D-641-1.

PART #	DESCRIPTION	SUG. RETAIL
2101-0214	For L94-98 FLT/FLHT, 96-99 FXST/FLST, 96-98 FXD/FXDWG and 94-97 XL models w/ 8-pin Deutsch plug	\$439.00
2101-0213	For 91-E94 FLT/FLHT, 91-95 FXST/FLST, 91-95 FXD/FXDWG and 90-93 XL models w/ 7-pin Cannon plug	439.00

2000I PC PROGRAMMABLE ELECTRONIC IGNITION KITS
DYNATEK
dyne performance electronics

- Completely self-contained so entire unit hides under the cam cover for a clean look on custom bikes
- Single-fire operation down to zero rpm for easier cranking and kicking
- Will operate in all combinations of single-fire or dual-fire with single-plug or dual-plug heads
- Ten advance curves cover a broad range of engine builds and riding styles
- Engine over-rev protection, adjustable from 6000 to 7500 rpm
- Adjustable timing retard for nitrous and turbo applications
- VOES indicator lets you monitor VOES switch at a glance
- Built-in tach driver can be used to activate shift lights, auto-shifters and other accessories
- Easy static timing with built-in timing indicator
- Intelligent over-current/short-circuit protection
- Active dwell control
- Over-voltage protected against momentary spikes
- Data recording includes total engine hours, time wide-open throttle, longest time operating at wide-open throttle, max rpm, seconds near rev limit and number of engine starts
- PC programmability makes possible an eight-point, fully definable, wide-open throttle curve and a fully definable part throttle curve, rev limit programmable in 50 rpm steps, programmable dead-cranking revs 0-5, rear cylinder offset, total of +/- 10°, programmable rev limiter, security lock out (pin # activated), single or dual fire
- Programming and downloading data and graphs from module requires proper programming kit (includes CD, cables and instructions)
- Pigtail connector enables the user to connect the ignition to a PC to either download recorded info from the ignition or program their own power curves, rev limits, dead revs or rear cylinder off-set timing; connector remains on bike
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

NOTE: Programming kit is not necessary to use all selectable functions of the current ignition.

GENERAL**HI-4N IGNITION KIT**

- Updated version of the popular Crane HI-4 ignition
- More power than the stock ignition
- Single-fire and dual-fire function built into a single module
- All-metal housing provides improved heat dissipation
- Ignition advance and timing degree markings are on the metal flange
- Convenient cable notch in the housing makes installation easier and prevents damage to the cable
- Sensor and magnet housings are built into the all-metal back plate to protect the sensors from damage during installation
- Sensor housings contain advanced flux concentrators with high-temperature-resistant samarium/cobalt magnets for accurate, reliable ignition triggering
- Electronics are fully enclosed to resist vibration, moisture and dirt
- All electronics are mounted directly to the metal housing, which acts as a heat sink
- Four rotary switches for ignition mode selection, advance rate, and rev limit
- Switches provide accurate, repeatable settings
- Includes single-fire coil and 8.8mm plug wires
- Ignition rotor includes bolt and lock washer
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
2101-0346	For 84-99 Big Twin	\$438.95

2101-0242**INTERNAL IGNITION KIT**

- Kit includes ignition system, 8.5mm spark plug wires, single-fire coil and instructions
- Ignition system has two advance curve families with adjustable advance curves to accommodate stock to wild engine modifications
- Four rotary switches for adjusting timing and single/dual fire rpm limit
- Digitally set rpm limit (in 100 rpm steps), selectable single- or dual-fire mode
- Selectable multi-spark mode for quick starting and smooth cruising
- Coil outputs protected against short circuits
- Optional USB interface kit and software (programs available on web site <http://www.daytona-twintec.com>) available for programming custom curves
- Requires the use of an OEM timing rotor (OEM #32402-83 or PART #2101-0234)
- Uses the tachometer wire for the USB interface and comes with a connector
- Made in the U.S.A.

NOTE: Not for fuel-injected models.**NOTE: California A.R.B. E.O. No. D-641-1.****NOTE: CA kits contain C.A.R.B., E.O. exempt products.**

dync performance electronics
IGNITION AND COIL KITS

- Complete electronic ignition systems built with the latest state-of-the-art engineering
- The same ignition used by top drag and road racers to set records and bring home victories over the past decade
- The Dyna S is completely housed behind the ignition cover and uses a magnetic rotor with the original advance curve, so the factory advance curve is maintained
- Coils provide spark voltages in excess of 30,000V and spark energies second to none
- The DSK61 Dyna S and coil system includes a DC7-1 high energy coil
- The DSK62 Dyna S and coil system is designed for single-fire applications; includes two DC10-1 Dyna coils
- Made in the U.S.A.

NOTE: Not for fuel-injected models.**NOTE: Later models will require the use of a mechanical advance unit.**

PART #	DESCRIPTION	SUG. RETAIL
FOR 84-99 BIG TWIN, 86-03 XL (EXCEPT TWIN CAM, 1200S)		
DSK61	Dual-fire ignition kit	\$203.95
DSK62	Single-fire ignition kit	304.95

**SINGLE-FIRE "SUPER SYSTEM"**

- Kit features a programmable ignition module with adjustable rev limiter
- Single-fire coil (3.0 ohms)
- Accel U-groove spark plugs with black 8.8mm plug wires
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
7805-1039	For 84-99 Big Twin and 86-03 XL (except Twin Cam, 1200S); use w/ Original Equipment rotor #32402-83 (PART #2101-0025)	\$569.95

**2101-0238****SINGLE-FIRE IGNITION SYSTEMS**

- Easy way to convert stock ignition systems to single-fire system
- Kits feature Compu-fire ignition module, high-output single-fire Fire coil which mounts in the stock location and under the stock coil cover, and a set of silicone-jacketed spiral-core spark plug wires
- Ignition modules feature eight pre-programmed advance curves
- Tunable VOES adds 5 or 10 degrees vacuum advance
- Easy installation with LED static timing light
- Selectable rpm limiter from 6000 rpm to unlimited
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
FOR 84-99 EVOLUTION BIG TWIN AND 86-03 XL (EXCEPT FUEL-INJECTED MODELS XL 1200S)		
2101-0238	For electric start	\$373.95
2101-0239	For kick start	373.95

SINGLE-FIRE ELECTRONIC IGNITION SYSTEM

- All the features of the famous Dyna "S", plus the special feature of firing the front and rear cylinders independent of each other, allowing a much more accurate timing of each cylinder
- The stock ignition system fires both cylinders at the same time, which works fine for the front cylinder but the rear receives the "wasted" spark when the cylinder has started its intake stroke; this can result in harder starting, increased engine vibration, backfire and raw fuel being spit back into the carb, all creating a power loss
- Dyno and top-speed testing have shown a dramatic improvement in power in all areas; bikes with hotter cams show the greatest improvement
- If you truly want to get the most out of your stock, slightly modified or all-out customized Harley-Davidson, you need a Dyna "S" single-fire ignition system
- Made in the U.S.A.

NOTE: Not recommended for use with OEM coils.

NOTE: On 84-up Harley-Davidsons, an advance weight mechanism is required.

NOTE: This unit must be used with special Dyna coils; see coil chart for correct coils.

NOTE: Tach adapter is required when using an electric tach.

NOTE: Not for use on Twin Cam models.

DS6-2

PART #	DESCRIPTION	SUG. RETAIL
DS6-2	For 84-99 Big Twin/XL using a mechanical advance unit	\$159.95
D-101	Tach adapter	21.95

ELECTRONIC IGNITION SYSTEM

- Perfect ignition timing once and for all
- Self-contained ignition system features Hall Effect magnetic sensors, which are not sensitive to rpm changes or affected by dirt and oil
- Improves overall performance by changing the timing less than three degrees, extends plug life, eliminates the use of points and condensers; can be easily installed
- Used and endorsed by many championship racers
- Made in the U.S.A.

NOTE: On 84-up Harley-Davidsons, an advance weight mechanism is required.

NOTE: Not for Twin Cam.

NOTE: Not recommended for use with OEM coils.

PART #	DESCRIPTION	SUG. RETAIL
DS6-1	For 94-99 Big Twin and 86-03 XL models using a mechanical advance unit	\$134.95

DC2-1

DC10-1

DC3-1

APPLICATION CHART FOR DYNA COILS WHEN USING DYNA "S" IGNITION SYSTEMS

FITMENT	APPLICATION	PART #	SUG. RETAIL
DUAL-FIRE IGNITIONS (SEE DS6-1)			
W/ single plug heads	Race only, 3 ohm (green)	DC6-1	\$86.95 (ea.)
W/ dual plug heads	Race/Street, 1.5 ohm (brown)	DC2-1	162.95 (pr.)
SINGLE-FIRE IGNITIONS (SEE DS6-2)			
W/ single plug heads	Street, 5 ohm (black)	DC10-1	162.95 (pr.)
W/ single plug heads	Race only, 3 ohm (green)	DC3-1	162.95 (pr.)
W/ dual plug heads	Race only, 3 ohm (green)	DC1-1	162.95 (pr.)
W/ dual plug heads	Street, 5 ohm (black)	DC8-1	162.95 (pr.)
W/ dual plug heads	Race only, requires two coils, 3 ohm (green)	DC6-1	86.95 (ea.)

Daytona Twin Tec

INTERNAL IGNITION SYSTEMS

- Features two advance curve families that are adjustable to accommodate stock and modified engines
- Selectable multi-spark mode for quick starting and smooth cruising
- Four rotary switches for timing adjustments, single/dual ignition mode and rpm limit (100-rpm steps)
- Coil outputs protected against short circuits
- Requires coils with a minimum of 3 ohms resistance and low resistance spiral-core-type plug wires
- Require timing rotor OEM #32402-83 or PART #2101-0234
- Uses the tachometer wire for the PC link and comes with a connector
- Optional USB interface and software available for programming custom curves (programs available on web site www.daytona-twintec.com)
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

NOTE: California A.R.B. E.O. No. D-641-1.

PART #	DESCRIPTION	SUG. RETAIL
STANDARD INTERNAL IGNITION SYSTEMS		
2101-0241	For 84-99 Evolution Big Twin, 86-87 XL 1100 and 86-93 XL 883 (mode switch position 9 can be used to set kickstart, single-fire race advance curves w/o using the USB interface)	\$300.00
2101-0209	For 84-99 Evolution Big Twin and 86-97 XL (two-stage rev limiter)	310.00
DS242373	For 98-03 XL (except 1200S)	331.00

GENERAL**HI-4N IGNITION MODULE**

- Single-fire and dual-fire function built into a single module
- All-metal housing provides improved heat dissipation
- Ignition advance and timing degree markings are on the metal flange
- Sensor housings contain advanced flux concentrators with high-temperature-resistant samarium/cobalt magnets for accurate, reliable ignition triggering
- Electronics are fully enclosed to resist vibration, moisture and dirt
- Four rotary switches for ignition mode selection, advance rate, and rev limit
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
2101-0345	For 84-99 Big Twin and 86-90 XL	\$317.95

Daytona Twin Tec**V-TWIN ELECTRONIC IGNITION SYSTEM**

- Dual-fire electronic ignition system features fully encapsulated construction
- Includes special trigger rotor for use with traditional mechanical advance mechanism
- Precise digitally set rpm limiter (200 rpm steps from 5200 to 7000 rpm)
- Status LED for easy static timing
- Electronic dwell control for maximum ignition energy at high rpm and reduced current draw at low rpm
- Compatible with most OE and aftermarket dual-fire ignition coils
- Hall effect sensor detects teeth on trigger rotor and provides stable spark timing
- Operates down to below 6 volts
- Easy installation; two wire hookup to coil
- Waterproof and highly resistant to vibration and shock
- Over-temperature protection; rated to operate at 260°F (125°C)

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
2101-0267	For 84-99 Big Twin carb models and 86-97 XL models	\$147.00

DS-242325**DS-242324****DS-242332****ORIGINAL COMPU-FIRE IGNITION MODULES**

- Built-in Accu-Ray timing light, correct dwell times and no external ignition module because electronics mount entirely inside ignition housing
- Rev limiter eliminated
- Must use tach adapter PART #DS-242332 with single-fire modules
- Made in the U.S.A.

NOTE: Not for fuel-injected models.**NOTE: Requires the use of a mechanical advance unit.****FOR 84-99 EVOLUTION BIG TWIN AND 86-03 XL MODELS**

DS-242324	Ignition module kit; dual-fire; two plug	\$122.95
DS-242325	Ignition module kit; single-fire; two plug	144.95
TACH ADAPTER		
DS-242332	Tachometer adapter for single-fire Compu-Fire Ignitions	35.95

DISCLAIMER: NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON ANY POLLUTION CONTROLLED MOTOR VEHICLES.
SEE PAGE 399 FOR IMPORTANT EMISSION DEFINITIONS AND REGULATORY COMPLIANCE AND WARRANTY INFORMATION.

All part numbers in **BLUE** are new for 2017.**SINGLE- OR DUAL-FIRE IGNITION MODULE**

- For use in single- or dual-fire applications with proper coil
- Features adjustable rev limiter and 15% advance curves
- Requires graphite plug wires and resistor spark plugs
- Uses stock rotor cup OEM #32402-83 or equivalent
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
7805-1040	For 84-99 Big Twin, 86-03 XL (exc. Twin Cam, 1200s models)	\$387.95

**DS-242319****ELITE 1 IGNITION MODULES**

- All electronics mounted in the nose cone (timing cover)
- Feature selectable advance curves (eight advance curves in either dual- or single-fire operation)
- Adjustable rpm limiter (eight rpm limits)
- Dual-range VOES operation
- Accu-Ray light for easy installation and check system
- Must use tach adapter PART #DS-242332 with single-fire systems
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
FOR 84-99 BIG TWIN, 86-03 XL (EXCEPT TWIN CAM)		
DS-242319	For stock or slightly modified engines (works w/ VOES)	\$287.95

IGNITION SENSOR ASSEMBLIES

- Each assembly includes a pickup, mounting plate and wires with connectors

PART #	DESCRIPTION	SUG. RETAIL
0807-3017	For 84-93 FLT, 84-95 FXST/FLST, 84-94 FXR and 86-94 XL; repl. OEM #32400-80A	\$43.95
0807-3018	For 91-95 FXD; repl. OEM #32404-90	43.95
0807-3019	For 94-95 FLT, 95-97 XL and 98-03 XL1200S; repl. OEM #32400-94	43.95

TWO-STAGE REV LIMITER FOR EFI

- Precisely controls over-revving and launch rpm
- Designed for the odd firing angle of Harley V-Twins
- Over-rev limit guarantees against damage due to missed shifts or drivetrain breakage; adjustable from 5500 to 9250 rpm
- Launch limit gives maximum off-the-line performance; adjusts between 2500 and 6250 rpm in 250 rpm increments
- Spares unnecessary poundings of expensive engine components
- Made in the U.S.A.

NOTE: Not for Twin Cam.

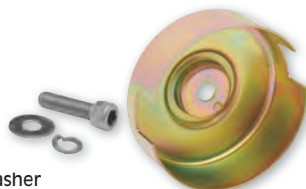

PART #	DESCRIPTION	SUG. RETAIL
DRL400HD	For all except Twin Cam models	\$240.95
2101-0299	For 07-12 Twin Cam models	240.95

TIMING ROTOR

- Includes mounting screw and washer

PART #	DESCRIPTION	SUG. RETAIL
2101-0234	Timing rotor; repl. OEM #32402-83	\$8.00

REPLACEMENT TIMING BOLT

- Replacement advance unit timing bolt

PART #	DESCRIPTION	SUG. RETAIL
DS-196035	For all 84-99 Big Twin, 86-03 XL models; repl. OEM #3570	\$1.95

IGNITION COVER TIMER STUD KIT

- Reproduction of original ignition timer cover studs
- Zinc-plated
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2401-0464	For 84-99 Big Twins; repl. OEM #s 32606-82 and 32601-80	\$13.95

IGNITION CIRCUIT BREAKER STUDS

- Replacement studs with screws and washers
- Sold in a 10-pack

PART #	DESCRIPTION	SUG. RETAIL
2130-0047	For 84-99 FX, FL (except Twin Cam); repl. OEM #s 32601-80, 32606-82	\$1.45 (set)

DISCLAIMER: NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON ANY POLLUTION CONTROLLED MOTOR VEHICLES.
SEE PAGE 399 FOR IMPORTANT EMISSION DEFINITIONS AND REGULATORY COMPLIANCE AND WARRANTY INFORMATION.

All part numbers in **BLUE** are new for 2017.

0807-0117

IGNITION SENSOR ASSEMBLIES

- Assemblies include pickup, mounting plate and wires with connectors

PART #	DESCRIPTION	SUG. RETAIL
0807-0116	For 84-93 FLT, 84-95 FXST/FLST, 84-94 FXR and 86-94 XL; repl. OEM #32400-80A	\$46.95
0807-0117	For 91-95 FXD; repl. OEM #32404-90	46.95
0807-0118	For 94-95 FLT, 95-97 XL and 98-03 XL1200S; repl. OEM #32400-94	46.95

ADVANCE UNIT ASSEMBLY

- Includes all the items shown; breaker plate assembly and the advance unit with bolt can be purchased separately

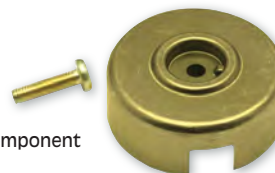

PART #	DESCRIPTION	SUG. RETAIL
FOR 84-99 BIG TWIN AND 86-03 XL MODELS W/ POINTS IGNITION CONVERSION (EXCEPT SINGLE FIRE IGNITION)		
DS-242299	Advance unit assembly, complete	\$42.95
DS-242298	Advance unit and bolt only	36.95
DS-242301	Breaker plate assembly w/ points, condenser	10.95

IGNITION ROTOR

- High-quality OEM replacement component
- Comes with bolt and washer

PART #	DESCRIPTION	SUG. RETAIL
2101-0332	Ignition rotor; repl. OEM #32402-83	\$13.95

HIGH-PERFORMANCE IGNITION ADVANCE UNIT

- Advance mechanism is smoother, more accurate and more reliable than any OEM unit
- Stainless steel shaft, plate and washers
- Heat-treated advance weights coated with high-tech, low-friction polymers
- Hardened-steel pins hold the weights in place, which are in turn spring loaded, using high-quality phosphate-coated spring wire
- Springs wound to exacting specifications, and cadmium-plated to resist corrosion
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2105-0051	For 84-99 80" Big Twin and 86-03 XL that utilize a mechanical advance	\$57.95

STAINLESS STEEL SENSOR PLATE SCREWS

- Made from 17-4 stainless steel
- Strongest screws on the market today
- The body is .700" long
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
DS242294	For 84-99 Big Twin; repl. OEM #s 32606-82 and 32601-80 (pr.)	\$17.95

HIGH-PERFORMANCE STARTER MOTORS

- 100% new – not remanufactured!
- Special pinion shaft threads and extended jackshaft bolt allow for a wider range of applications
- Starters feature oversize clutch rollers, cold headed steel idler gears and armature hairpins that are resistance-fused to the armature
- All 90-06 starters are supplied with 10/32 threaded output shafts
- 1.4kW is a new replacement unit for stock and slightly modified engines; generates more power than the OEM stock starter
- 1.7kW is a new replacement unit for highly modified engines in touring bikes, featuring a permanent magnet motor coupled to the OEM-style offset gear reduction case making a drop-in solution to hard-starting touring bikes (due to the high in rush current of a permanent-magnet motor a minimum 300 CCA battery is recommended with 4-gauge battery cables)
- Available in black or chrome finish

NOTE: OEM Hitachi starters for pre-89 Big Twin measure 5 1/4". OEM Prestolite starters for pre-89 Big Twin measure 6".

NOTE: For optimum performance, use with Drag Specialties battery and battery cables.

PART #	DESCRIPTION	SUG. RETAIL
FOR 07-17 BIG TWIN AND 06 DYNA GLIDE (EXCEPT 17 DRESSERS)		
2110-0247	1.4kW black; repl. OEM #31618-06A	\$319.95
2110-0248	1.4kW chrome; repl. OEM #31621-06A	385.95

2110-0446	1.7kW chrome	423.95

PART #	DESCRIPTION	SUG. RETAIL
FOR PRE-89 BIG TWIN		
80-1005 ¹	1.4kW Hitachi black	\$247.95
80-1006 ¹	1.4kW Hitachi chrome	318.95
80-1007 ¹	1.4kW Prestolite black	247.95
80-1008 ¹	1.4kW Prestolite chrome	318.95
FOR 86-17 SPORTSTER		
80-1009	1.4kW black	297.95
80-1010	1.4kW chrome	407.95

¹ Starter motor design is more compact than the original and does not require the rear bracket. Because of the higher output, 4-gauge cables are recommended for this starter.

HIGH TORQUE STARTERS

- Starters feature 15% more power and torque than OEM units
- Manufactured using heavy-duty armature commutators, large drive-end bearings and needle bearings in the com-end caps

**GEN III STARTER MOTORS**

- The American-made and -designed Compu-Fire starter is so good, it's patented
- Powerhouse turns over a full 2kW, while only drawing 175A, and yet is encased in a short compact package
- Feature an extended jackshaft bolt, removable jackshaft coupler, ultra-powerful Neodymium magnets, an innovative high-torque clutch and a 6:1 planetary gear reduction that is sure to start your hard-cranking steed
- Starter body is polished with chrome end caps
- PART #2110-0197 is designed for fuel-injected Twin Cams with increased compression and displacement that require faster cranking speeds
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2110-0039	For 90-06 Big Twin (except 06 Dyna Glide)	\$606.95
2110-0197	For 99-06 fuel-injected Twin Cam (except 06 Dyna Glide) (high-speed starter)	606.95

2110-0244

1.6kW TWIN CAM STARTER

- 1.6kW output allows easy starting with stock battery cables
- Produces more cranking power for big-inch Twin Cam engines
- OEM size for easy installation, even on Softails
- Starter clears oil filler on Dynas and Touring models
- 11-tooth drive gear for faster cranking
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
FOR 06 DYNA, 07-17 BIG TWIN MODELS (EXCEPT 17 DRESSERS)		
2110-0244	Chrome	\$574.95
2110-0245	Black	574.95

**E-Z FIT STARTER**

- Permanent Magnet Gear Reduction (PMGR) Prestolite-style starter
- Mates to OEM starter gear case and output shaft
- Produces 2kW of cranking energy by using a modern permanent magnet field
- Lower planetary gear reduction ratio of 6:1
- Standard machined finish with chrome end caps

PART #	DESCRIPTION	SUG. RETAIL
2110-0364	For 85-88 Big Twins (Prestolite style)	\$386.95

SLUGGER 1.8kW HIGH-TORQUE STARTER MOTORS

- Starters are assembled in the U.S.A. with heavy-duty components and tested with state-of-the-art equipment
- Starter offers superior windings, high-tolerance heavy-duty clutch and a thicker commutator that resists flying shorts
- 1.8kW output has the torque to start any monster motor with the least amount of amperage drain
- Static balanced for smoother operation
- Low-profile design will clear the electronic speedometer sensor for easy installation
- Starters for late model 07-16 Big Twin and 06 Dyna Glide are longer than stock but require no modifications to bike for a perfect fit

NOTE: Starters on 90-06 FLT models will require use of spacer block PART #DS-196233. On FXST/FLST, Dyna and FXR models you must relocate oil lines and some wiring.

1.4 kW POLISHED STARTER

- Polished motor with a 6061 T-6 billet housing
- Features a built-in gearshaft housing and gear
- 1.4 kW starter is designed for motors up to 100"
- Direct replacement for 1.0 kW starters
- Comes with mounting hardware and gasket
- Uses existing starter shaft
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2013-1388	For 86-E88 Big Twin	\$450.95

STARTER MOTORS

- Nippondenso starters are assembled in the U.S.A. with heavy-duty components and tested with state-of-the-art equipment
- Solenoid plunger, return damper and springs are replaced with stronger components
- Clutch shaft and rollers are replaced with precision-ground and hardened parts for longer service life
- All components are assembled with a special lube for starter roller clutch applications
- CNC-machined billet mounting noses are held together with aerospace fasteners
- After assembly, all starters go to a dyno test including hi-low voltage, stall torque, solenoid engagement, amperage draw, load test, maximum rpm and motor impulse wave form
- Starters have a 4.4:1 gear reduction and produce 46% more cranking torque than the stock starter
- Starters available in four kilowatt ratings (1.2, 1.4, 1.6 and 2.0)
- The 1.6 kW starter is designed for 96" or bigger motors with limited size batteries such as FXR, FXST and FXD models
- The 1.2/1.4/1.5 kW starters are designed for OEM applications; use Terry battery cables and a battery with 300+ cranking amps like the Drag Specialties battery for best results
- The 2.0 kW starter will start any monster motor (for best results, use with Terry battery cables and a battery with 300+ cold cranking amps like the Drag Specialties battery)
- Choose from two finishes: black wrinkle or polished/chrome
- Made in the U.S.A.

NOTE: 1.6 and 2.0 starters will require spacer block PART #DS-196233 when used on 90-06 FLT models. On Softail, Dyna and FXR models, you must relocate oil lines and some wiring.

NOTE: PART #DS-196182 has a raw finish starter nose.

GENERAL**REPLACEMENT STARTER ARMATURE**

- High quality replacement starter armature for starters
- Comes complete with bearings

PART #	DESCRIPTION	SUG. RETAIL
2110-0560	Fits High Torque 90-07 1.4 kW Nippondenso starter motors	\$125.95

**STARTER JACKSHAFT KITS**

- Complete assembly includes shaft extension, pinion gear, coupler, spring and clips

PART #	DESCRIPTION	SUG. RETAIL
2110-0147	For 89-93 Big Twin (9 tooth)	\$95.95
2110-0148	For 94-06 Big Twin (10 tooth) (except 06 Dyna)	95.95

**STARTER JACKSHAFT ASSEMBLY KIT**

- Kit includes starter shaft bolt, spring, snap rings, thrust washer, lock tab washer, couplings, shaft extension and pinion gear
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2110-0242	For 94-06 Big Twin models (except 06 Dyna) w/ 102-tooth ring gear (10-tooth)	\$112.95
DS-360214	For 89-93 Big Twin models (9-tooth)	112.95

All part numbers in **BLUE** are new for 2017.

**STARTER JACKSHAFT KITS**

- One-piece design jackshaft assembly delivers more torque to the primary and is more tolerant of misalignment problems, all for less money than stock jackshaft assemblies
- Replaces the existing shaft, couplings and pinion gear
- Includes jackshaft, starter shaft bolt, spring, washer and snap ring

PART #	DESCRIPTION	SUG. RETAIL
2110-0073	For 94-06 Big Twin (except 06 Dyna Glide) (10-tooth)	\$85.95
2110-0169	For 94-06 Big Twin (except 06 Dyna Glide) w/ 66-tooth conversion gear installed on clutch basket (9-tooth)	85.95
2110-0072	For 89-93 Big Twin (9-tooth)	85.95

**GRIND-FREE STARTER JACKSHAFT**

- The amazing jackshaft fixes the grind associated with BDL 3" open belt drive systems that utilize a one-piece starter jackshaft
- The jackshaft is a three-piece design with ramped teeth and enough flex to integrate seamlessly with the belt drive ring gear
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2110-0440	Grind-free jackshaft, 9-tooth	\$106.95

**STARTER JACKSHAFT REPAIR KITS**

- Repair kit includes thrust washer, lock plate, spring, screw and retaining rings

PART #	DESCRIPTION	SUG. RETAIL
2110-0084	For 94-06 jackshaft kit (10-32)	\$9.95
2110-0085	For 89-93 jackshaft kit (1/4")	9.95

GENERAL**STARTER DRIVE CLUTCHES**

- High-quality components to repair common failures of OEM Harley starters
- Clutches with bearings and spring are available for most models; PART #2110-0319 includes bearing and pinion gear

PART #	DESCRIPTION	SUG. RETAIL
2110-0319	For 06 Dyna, 07-17 Big Twin (except 17 Dressers); repl. OEM #s 31632-06, 31633-07	\$85.95
79-2101	For 91-06 Big Twin (except 06 Dyna), 91-94 XL 1200, 95-17 XL 883/1200; repl. OEM #31663-90	60.95
79-2103	For 89-90 Big Twin; repl. OEM #31544-90	75.95
2110-0010	For 86-90 XL 883/1100/1200, 91-94 XL 883; repl. OEM #31567-81	108.95

**STARTER DRIVE CLUTCHES**

- Come complete with bearing and drive clutch
- Direct OEM replacement
- Sold each
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2110-0591	For 91-06 Big Twin (except 06 Dyna), 91-94 XL 1200, 95-17 XL 883/1200; repl. OEM #31663-90	\$81.95
2110-0010	For 86-90 XL; repl. OEM #31567-81	108.95

STARTER DRIVE CLUTCHES

- Direct OEM replacement
- Includes bearing and drive clutch
- Sold each
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2110-0590	For 91-06 Big Twin (except 06 Dyna), 91-94 XL 1200, 95-17 XL 883/1200; repl. OEM #31663-90	\$90.95
2110-0367	For 86-90 XL models; repl. OEM #31567-81	113.95

2110-0558

**STARTER DRIVE CLUTCH**

- Comes complete with bearings and drive clutch
- Available for high-performance or OEM starters
- Sold each

2110-0227

**KURYAKYN****STARTER SOLENOID COVER**

- Covers the starter solenoid and related wiring with beautiful chrome
- Works with stock starter end cover

PART #	DESCRIPTION	SUG. RETAIL
2110-0228	For 07-16 FLHT/FLHR/FLTR/FLHX	\$79.99
2110-0227	For 99-06 FLHT/FLHR/FLTR	79.99
2110-0568	For 10-17 XL	49.99
2110-0535	For 04-09 XL	49.99

**KURYAKYN****CHROME SOLENOID END COVER**

- Features the Blood Groove design that matches many other Kuryakyn accessories
- Replaces the stock OEM cover
- Comes complete with chrome hardware; reuses stock gasket

PART #	DESCRIPTION	SUG. RETAIL
DS-376596	For all 91-17 Twin Cam, 91-17 XL models	\$19.99

**SOLENOID END COVER**

- Chrome-plated steel
- Includes mounting hardware

PART #	DESCRIPTION	SUG. RETAIL
DS-373598	For 91-17 Twin Cam and 91-17 XL	\$15.95

2110-0565

**STARTER SOLENOID COVERS**

- Constructed from chrome-plated steel

PART #	DESCRIPTION	SUG. RETAIL
2110-0565	Fits 91-17 Twin Cam and 91-16 XL 1.2, 1.4 kW aftermarket starters	\$15.95
2110-0566	Fits 1.0 kW early O.E. and monster 2.0 kW aftermarket starters	17.95

DS-272215

**SOLENOID END COVER/STARTER BUTTONS**

- Billet aluminum construction available with a chrome or black finish
- Replaces the solenoid end cover and includes mounting screws
- Fits most 91-17 OEM and aftermarket starter motors (except Compu-Fire, 2.0/2.4 Terry starters)
- Made in the U.S.A.

NOTE: On some models the exhaust system may not allow access to the starter button.

Daytona Twin Tec

IGNITION POWER RELAY KIT

- Kit is designed to correct starting problems in motorcycles with high compression ratios or large displacement engines that use Twin Tec PART #s DS-242373 and 2101-0241 single-fire installations
- The combined draw of the starter motor, single-fire coil and the long length of wire between the battery, engine stop-run switch and the coil may leave too little energy at the coil to provide enough spark to fire the engine – the power relay kit solves the problem by supplying full battery voltage to the coil
- Kit includes a high-quality relay, wire and all required terminals
- Made in the U.S.A.

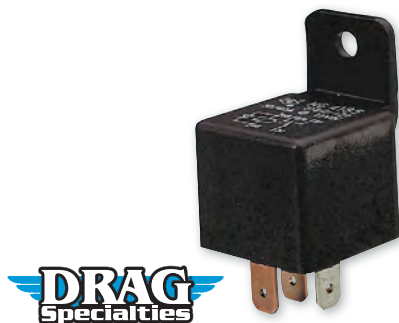

PART #	DESCRIPTION	SUG. RETAIL
2101-0078	For single-fire ignition power conversions	\$20.50

UNIVERSAL STARTER RELAY

- Features a 12V solenoid
- Includes starter relay, two metal brackets, three extra sets of terminal wires, three extra 30 amp blade-type fuses and five wires with terminals

PART #	DESCRIPTION	SUG. RETAIL
2110-0325	Universal starter relay	\$42.95

RELAY

- For the starter, brake light and fuel pump

PART #	DESCRIPTION	SUG. RETAIL
DS-325866	For 91-07 models (w/ a diode); repl. OEM #31504-91A	\$9.95

RELAY

- For use with starter, fuel pump and brake light

PART #	DESCRIPTION	SUG. RETAIL
2110-0374	For 91-07 models w/ a diode; repl. OEM #31504-91A	\$10.95

STARTER RELAY

- 30A starter relay easily handles high-current draw
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2110-0504	Starter relay; repl. OEM #31504-91A)	\$8.95

UNIVERSAL WIRING AND RELAY KIT

- Recommended for use with halogen Silver Bullets when they are used as additional running/driving lights
- Relay lets you wire the lights separately to avoid overloading the headlight circuit
- Kit provides switch, relay, universal wiring harness and general instructions for installation
- For custom applications

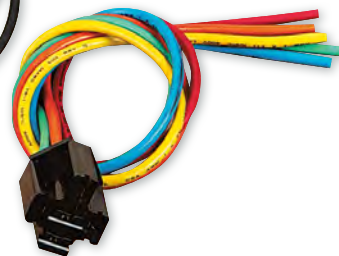

KURYAKYN

**MICRO RELAY**

- OEM replacement
- Sold each

PART #	DESCRIPTION	SUG. RETAIL
FOR 00-11 TWIN CAM MODELS		
2110-0365	Micro relay w/ diode; repl. OEM #31511-01A (system)	\$9.95
2110-0373	Micro relay w/ diode; repl. OEM #31522-00B (starter)	7.95

**FAST START BOOST RELAY**

- Provides full battery voltage to single fire coil during cranking
- Eliminates hard starting due to voltage drop
- 30 amp sealed relay with complete installation hardware
- High-temperature rated sealed housing
- Measures 1.5" x 1" x 1" with mounting flange hole

PART #	DESCRIPTION	SUG. RETAIL
2110-0830	For single-fire ignition applications	\$10.95

**STARTER RELAY SOCKET AND TERMINAL KIT**

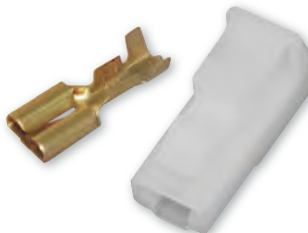

- Five-wire relay socket
- Replaces OEM # 72046-79 and 9937
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0682	Starter relay socket and terminal kit	\$3.95

**STARTER SOLENOID CONNECTOR**

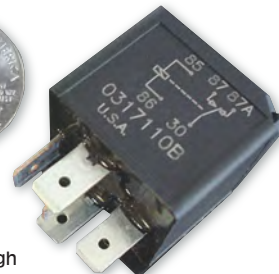

- Female one-position connector
- Connects wire to starter solenoid
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0603	Starter solenoid connectors	\$5.95

**WATERPROOF 30 AMP ELECTRIC RELAY**

- Protects light-duty OEM wiring and switches (horn button) from damage when adding accessories that draw high amounts of current
- Strongly recommended for use with all dual electrical horn systems
- Also works well with driving lights; waterproof and vibration-proof

PART #	DESCRIPTION	SUG. RETAIL
2050-0094	Waterproof 30A electric relay	\$14.95

¹ Will not fit with low-mount oil cooler.**CYCLE ELECTRIC ALTERNATOR KITS**

- Kits include stator, rotor, black rectifying voltage regulator and mounting hardware
- Made in the U.S.A.

NOTE: Adding electrical accessories increases amperage usage. When doing so, it is important to consider amperage ratings of switches and wires. If you draw too many amps through a switch or wire, it will heat up and may burn. Fuses and breakers are sized to protect wiring and switches. DO NOT CHANGE 30A MAIN BREAKER TO A 50A BREAKER. THE SWITCHES AND WIRING WILL NOT BE PROTECTED.

PART #	DESCRIPTION	SUG. RETAIL
ALTERNATOR KITS

40A 3-PHASE CHARGING SYSTEMS

- Provide 25A at idle and 40A continuously above 2800 rpm
- Unique narrow rotor and stator fit into Softail/Dyna/FLT primary cases as used by most custom builders and the voltage regulator bolts on the stock location without any frame modifications
- Precision-balanced vented rotor keeps the stator cooler in closed primary systems to maintain maximum output under all high-current draw conditions
- Custom-designed flanged seal spacer provides maximum support for the rotor
- Voltage regulator output is calibrated to 14.25V from idle on up
- Ideal for fuel-injected engines and bikes with overdrive-type transmissions
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
CHARGING SYSTEMS		
2112-0097	For 84-99 Evo Big Twin w/ enclosed primary drive (includes vented rotor)	\$418.95
2112-0099	For 84-99 Evo Big Twin w/ open primary drive (includes non-vented rotor)	418.95
2112-0098	For 03-06 Twin Cam (except 06 Dyna/FLT) w/ enclosed primary drive (includes vented rotor)	418.95
2112-0153	For 99-02 Twin Cam w/ enclosed primary drive (includes vented rotor)	418.95
2112-0152	For 99-02 Twin Cam w/ open primary drive (includes non-vented rotor)	418.95

32A CHARGING SYSTEM KIT

- Kit includes stator, rotor and a black series-type regulator
- Series-type regulator reduces load on stator and decreases engine drag
- Made in the U.S.A.

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
DS-195201	For 84-99 FXST, FLST, 91-98 Dyna, 84-98 FLT, FLHT, 84-94/99 FXR models (narrow rotor design)	\$261.95
DS-195202	Repl. stator for 89-99 Big Twin (except Twin Cam); repl. OEM #29970-88	93.95
DS-195203	Repl. rotor for all 84-99 Big Twin; repl. OEM #29957-81B (narrow)	112.95

HEAVY-DUTY 32A CHARGING KIT

- Kit includes an encapsulated magnetic rotor, precision-wound stator and an 89-99 32A chrome voltage regulator
- Features a thick .476" center rotor as compared to a .222" center OEM rotor

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
DS-195210	For 90-96 FLT, L84-99 FXST/FLST, 91-98 FXD, 84-94/99 FXR w/ 32A system	\$279.95

CHARGING SYSTEM KITS

- Heavy-duty rotors feature a super thick hub and splines that eliminate cracks
- Precision-wound stator
- Includes a chrome regulator with OEM-style connectors

PART #	DESCRIPTION	SUG. RETAIL
FOR 91-99 BIG TWIN EVOLUTION MODELS (EXCEPT EFI)		
2112-0232	32 amp; kit w/ encapsulated magnets	\$306.95
FOR 01-06 FXST/FLST		
2112-0233	3-phase 38 amp; kit w/o encapsulated magnets	369.95

DISCLAIMER: NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON ANY POLLUTION CONTROLLED MOTOR VEHICLES.
SEE PAGE 399 FOR IMPORTANT EMISSION DEFINITIONS AND REGULATORY COMPLIANCE AND WARRANTY INFORMATION.

All part numbers in **BLUE** are new for 2017.

THREE-PHASE CHARGING SYSTEM

- 32A narrow rotor design converts an original single-phase system to a three-phase system on Evolution or S&S Evolution motors
- Digitally calibrated for optimum charging level over a wide temperature range
- Rugged billet aluminum regulator housing is highly polished for a custom look
- Self-temperature compensated to control heat and extend service life; over-temperature protection prevents catastrophic heat failure under severe operating conditions
- Highly efficient power conversion means more current at lower speeds for easy starting and extended battery life; more current is also available for operating EFI and other electronic accessories
- System reaches full charge at 550 to 650 rpm; factory system reaches full charge at 1000 rpm
- Designed for custom applications

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
2112-0101	For most 84-99 Evolution-style Big Twin motors	\$378.95

CHARGING SYSTEM

- 38A system is great for new customs or stock replacement
- System includes stator (OEM #30017-01), rotor (OEM #29981-95) and regulator (OEM #74610-01)
- Regulator features a bright chrome finish
- Rotor, stator and regulator also available separately

PART #	DESCRIPTION	SUG. RETAIL
2112-0096	For 01-06 FXST/FLST	\$329.95

2112-0989

STATORS

•High-quality components meet or exceed OEM specs
•PART #2112-0989 is made with a higher temperature wire to provide longevity and combat the premature burning/failure issue
•A hole in the rotor allows more oil into it to cool the stator

PART #	DESCRIPTION	SUG. RETAIL
2112-0989 ¹	For 09-10 1125CR	\$229.95
2112-0990	For 08 1125CR	164.95

¹ Upgraded Buell rotor required. See Eric Buell Racing for more information.

PREMIUM VOLTAGE REGULATORS

- Two years of development and design went into producing a superior regulator
- Fully assembled in the U.S.A. with domestic made electrical boards
- Tested three different times during the assembly process to ensure the best possible product
- Superior internal heat management results in better, more reliable performance
- All aluminum die-cast housings available in chrome or black finish
- Made in the U.S.A.

SOLID-STATE REGULATORS

- High-reliability 12V voltage regulators feature rugged aluminum alloy construction and are available in chrome or black finish
- All provide accurately regulated voltage under all electrical loads, have no relay contacts to wear or become maladjusted and are environmentally sealed for protection against moisture and shock

DS-313058

SERIES-TYPE REPLACEMENT VOLTAGE REGULATORS

- New generation series regulators reduce load on stator and decrease engine drag
- When not charging, regulator goes to an open circuit, so there is no load on the stator or rotor
- Available in a chrome billet or black finned aluminum case
- Wire harness included
- Made in the U.S.A.

CYCLE ELECTRIC RECTIFYING REGULATORS

- Controls voltage on Harley-Davidson and Buell alternators, unlike other rectifiers or regulators that dump to ground and cause maximum stator current and higher temperatures
- Cycle Electric rectifying regulators block current to control voltage; this reduces stator current, resulting in low temperature and less drag on the motor, which means more efficient operation
- Low voltage style features reduced charging voltage to prevent overcharging the battery
- Made in the U.S.A.

YUASA BATTERY

YUASA BATTERIES

- The largest motorcycle battery manufacturer in the world
- Over 50 years of engineering expertise ensures high-quality construction for long and trouble-free service

GYZ-SERIES

- Heavy-duty terminals; patent pending
- Flush-mounted terminals with no spacers needed
- Extreme vibration resistance and improved charge recovery
- Features a higher capacity and longer life
- Factory-activated, spill-proof design

HIGH-PERFORMANCE AGM MAINTENANCE-FREE

- This new generation of maintenance-free batteries delivers higher cranking amps for vehicles that require extra starting power
- Additional cranking amps make these the most powerful batteries on the market

AGM MAINTENANCE-FREE

- Special-absorbed glass-mat battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid
- Acid Pak included
- Truly the world's finest "install it and forget it" motorcycle battery

2113-0358

2113-0102

2113-0109

2113-0246

FACTORY-ACTIVATED

- Packs more power, discharges less in storage and has a longer life than conventional batteries
- Spill-proof design and construction have passed vibration and pressure differential spill-proof tests

NOTE: Factory-activated batteries should be charged once a month when not in service.

CONVENTIONAL

- High-quality, low-cost alternative
- Shipped dry

YUMICRON

- The most powerful lead-acid battery of its size
- Appears as original equipment on more and more big bikes
- Shipped dry

YUMICRON CX

- Lead/calcium battery has 5% to 8% more cranking power than the high-output Yumicron
- Requires minimal servicing
- Shipped dry

POWER MAX MAINTENANCE-FREE BATTERY

- Completely sealed black case can be mounted in almost any position
- Advanced technology allows very high-power discharge
- Accepts a high rate of recharge without damage to the battery
- Can be recharged over 90% in less than one hour on a regulated charger
- Batteries MUST BE CHARGED in the same manner as any lead acid battery
- When not in service, batteries should be charged once a month
- PART #S DS-325024 and DS-325030 measure 6 7/8" L x 3 7/16" W x 6 1/8" H

NOTE: PART #DS-325757 will not fit 80-84 FLH models.

EVO POWER SYSTEMS

- A high-performance, lightweight, lithium-ion starter battery system that comes complete with everything you need to charge, maintain, and monitor your EVO3 battery
- EVO3 batteries are perfect for American V-twin owners that require more cranking amps to start modified big cubic inch motors
- Everything you need to charge, maintain, and monitor your EVO Battery
- Includes a state of the art Lithium Ferrous Phosphate (LiFePO4) EVO3 battery, EVO maintenance charger and EVO health monitor
- EVO3 battery up to 15lbs lighter than the stock battery
- EVO maintenance charger keeps the EVO Battery at the perfect voltage for maximum battery life, a must for modern American V-twins with high parasitic draw
- EVO health monitor gives "at a glance" indications of the battery's voltage and connects directly to the EVO maintenance charger

NOTE: For applications used in cold environments or with high-performance modifications, we recommend using EVO MAX POWER SYSTEMS. EVO MAX POWER SYSTEMS have EVO3 batteries with higher burst cranking amps.

NOTE: Charge before use, batteries are shipped at 30% state of capacity.

EVO3 LITHIUM-ION BATTERIES

- Most comprehensive line of Lithium-ion batteries on the market with 30 different case sizes, terminal locations and power output options to ensure you have the lightest, most powerful starter battery available, no matter what you ride
- State-of-the-art Lithium Ferrous Phosphate (LiFePO4) technology
- Perfect for high performance bikes with big cubic inch motors
- Up to 15lbs. lighter than the stock battery
- Exceptional static self-discharge rate of less than 10% over a one year period
- Extensively tested by professional race teams
- Designed, developed and assembled in the U.S.A.

NOTE: For applications used in cold environments or with high-performance modifications, we recommend using the EVO3 MAX POWER. EVO3 MAX POWER are dimensionally the same, but have a higher burst cranking amps.

NOTE: Charge before use, batteries are shipped at 30% state of capacity.

NOTE: Operating environment: 0°F (-18°C) to 140°F (60°C)

PARTS UNLIMITED BATTERIES**HIGH-PERFORMANCE AGM MAINTENANCE-FREE BATTERIES**

- Parts Unlimited is proud to offer a premium-quality, maintenance-free battery at a great low price
- Special absorbed-glass mat battery eliminates water loss, permitting the battery to be permanently sealed once it is filled with acid
- Acid pack included
- Battery seals to prevent water loss
- Hold charge three times longer than conventional batteries
- PART #2113-0107 features a convenient, one-piece foldable handle for easy installation

HIGH-PERFORMANCE FACTORY-ACTIVATED BATTERY

- Packs more power, discharges less in storage and has a longer life than conventional batteries
- Spill-proof design and construction have passed vibration and pressure differential spill-proof tests
- Arrives ready to be put to work
- PART #2113-0094 features a convenient, one-piece foldable handle for easy installation

NOTE: Factory-activated batteries should be charged once a month when not in service.

BATTERY CABLE KITS

- 4-gauge cable manufactured with pure electrolytic-grade, 36-gauge tinned copper strands for maximum current transfer and superior flexibility
- Increase starter performance by supplying maximum battery current to the starter motor
- Contain all battery cables to replace OEM cables
- Available in clear or black
- Made in the U.S.A.

NOTE: Cables do not have auxiliary wires.

PART #	DESCRIPTION	SUG. RETAIL
CLEAR		
79-3009	For 93-08 FLHT, FLT; cable lengths 8", 13" and 13"	\$39.95
79-3008	For 89-92 FLHT, FLT; cable lengths 33" and 33"	39.95
79-3001	For 84-88 FXST, FLST; cable lengths 8", 15" and 17"	39.95
79-3002	For 89-08 FXST, FLST; cable lengths 10" and 12"	27.95
79-3003	For 84-88 FXR; cable lengths 12", 16" and 16"	39.95
2113-0299	For 94-09 FXD; cable lengths 9", 14" and 15"	47.95
79-3005	For 91-03 FXD; cable lengths 8", 8" and 15"	39.95
2113-0301	For 04-09 XL; cable lengths 13" and 13"	32.95
79-3010	For 86-03 XL; cable lengths 11" and 16"	27.95

CUSTOM CABLE KITS

- Build custom-length cables for an exact fit
- Each kit contains the following:
25' cable (1), 1/4" terminals (20),
3/8" terminals (8), 5/16" terminals (12), black
heat shrink (40) and red heat shrink (12)
- Using 12" cables as an example, this 25' custom
cable kit will make 27 cables (a 12" cable uses 11" of
cable and two terminal ends), for a substantial savings over precut lengths
- Available in clear or black
- Made in the U.S.A.

2113-0040	25' solid black bulk cable	93.95

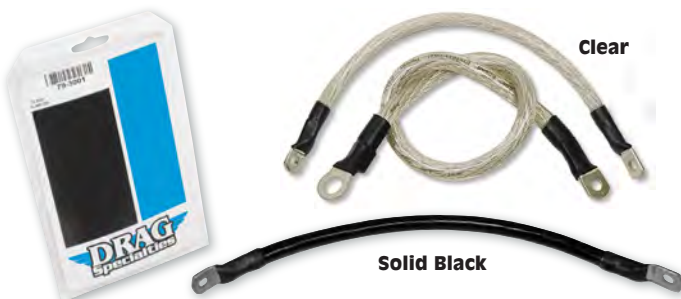

BATTERY CABLES

- Increase starter performance by supplying maximum battery current to the starter motor
- 4-gauge cable manufactured with pure electrolytic-grade, 36-gauge (.13mm) tinned copper strands for maximum current transfer and flexibility
- Specially rated 125°C, oil- and grease-resistant, ultra-flexible jacket guarantees excellent performance (available in clear or black)
- All cables manufactured with 1/4" terminal and 5/16" terminal
- Sold each
- Made in the U.S.A.

NOTE: Cables do not have auxiliary wires.

BATTERY CABLES

- Manufactured from 4-gauge, 1,650-strand tinned copper wire with a super flexible silicone jacket
- Unique lug design (99.9% pure electrolytic copper) provides a positive connection with greater conductivity and dependable service
- These cables will deliver more cranking power with less voltage drop than any cable on the market today
- Available in black
- Cables are available in kits or individually
- Kits include cables for required stock applications
- Individual cables can be used for universal/custom positive or negative applications
- Made in the U.S.A.

NOTE: Cables do not have auxiliary wire unless noted.

BATTERY CABLE WITH AUXILIARY WIRE

- The perfect choice when doing custom wiring
- Positive battery cable with auxiliary wire eliminates stacking cables on the battery
- Perfect for wiring directly to the terminal block, regulator or any accessory
- Positive cable is 18K gold-plated and tinned copper 1666 strand Mega Cable
- Auxiliary wire is 12-gauge tinned copper 259 strand Mega Cable
- Negative battery cable is the perfect solution for the ground wire on custom bikes
- Eliminates poor electrical ground
- Install the 4-gauge wire to the transmission and the 12-gauge wire to any accessory for the ground
- Auxiliary wire measures 12" L on both positive and negative battery cable wires

**EXTREME DUTY FOUR-GAUGE BATTERY CABLES**

- Transfer more cranking power with the least amount of amperage drop
- Over 1,000 bare strands of copper covered with a special vinyl insulation that is covered by a synthetic thermo-rubber jacket
- Sealed and insulated black heat tubing is moisture-proof
- Made in the U.S.A.

**"EXTREME" DUTY BATTERY CABLES**

- Flexible #2 gauge, 2,000-strand copper wire
- 180A rating
- Black rubber-coated cables feature copper-coated tin lugs with glued heat-shrink sleeves to prevent corrosion
- Made in the U.S.A.

GENERAL**OEM-STYLE BATTERY CUSHION**

- Rubber battery cushion is acid-, oil- and heat-resistant
- Sold each

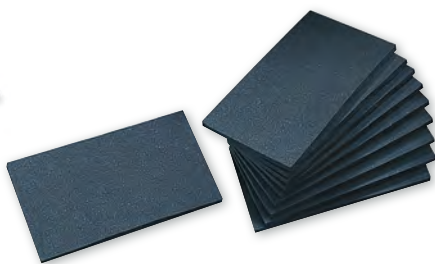

PART #	DESCRIPTION	SUG. RETAIL
DS-310480	For 85-94 and L95-96 FXST, FLST; repl. OEM #66210-85B	\$10.95

BATTERY PAD

- 1/8" low-density neoprene with pressure sensitive, removable liner on one side that exposes the adhesive for contact
- Pad is oversized so it can be trimmed into a top or bottom pad to fit all applications
- Can be cut into irregular shapes for anti-vibration padding, seat bottoms, dash panels, etc.
- Sold in 5-pk.
- Measures 5" x 8"

PART #	DESCRIPTION	SUG. RETAIL
2113-0077	Battery pad	\$2.95 (ea.)

**BATTERY PADS**

- Top-quality pads absorb vibration and retain their shape
- Available in bottom style
- Made in the U.S.A.
- Sold in 10-pack

PART #	DESCRIPTION	SUG. RETAIL
DS-174935	For 84-E85 FX, FXWG, FXST; 84 FXR; 86-96 XL (6.5" L x 3.875" W); repl. OEM #66103-74A	\$3.95 (ea.)

KURYAKYN**LED BATTERY GAUGE**

- Lets you know if your motorcycle's charging system is working with just a glance
- Green LED indicates normal operating range of 12.5 to 14.5V
- Amber LED warns the bike is not charging
- If reading drops below 10V or exceeds 15V, flashing red LED alerts the rider
- Simple two-wire connection
- Gauge measures approximately 2" L x 3/4" W x 3/16" H; daylight sensor automatically adjusts LED brightness

PART #	DESCRIPTION	SUG. RETAIL
2212-0029	Black	\$44.99

PART #	DESCRIPTION	SUG. RETAIL
2212-0030	Chrome	\$44.99

**VOLTAGE MONITOR**

- Allows the user to track battery voltage
- Primary use is determining when to recharge a battery in a total loss application; commonly found in drag racing
- When the green light is on, the battery is fully charged; when the amber light is on, there is still sufficient voltage to operate the ignition and other accessories; when the red light is on, the battery should be charged as soon as possible
- Measures 1 5/8" L x 1 1/8" W x 1/2" H
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
DVM-1	Dyna voltage monitor	\$54.95

**VOLTAGE MONITOR**

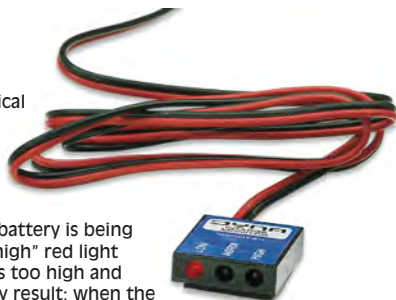

- Built-in micro processor monitors output with a simple two-wire installation
- Multi-color LEDs indicator (red/green/amber)
- Monitor whether voltage is normal or abnormal; also notifies you of serious fault conditions by an attention-getting flash of the LED
- Voltage range is 6-17 VDC; accuracy within 200 millivolts
- Auto-dimming LED reduces night-time glare while riding
- Can be mounted virtually anywhere with included double-sided tape
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2130-0116	Voltage monitor	\$29.95

**CHARGE MONITOR**

- Allows user to track electrical system voltage on any vehicle with a normal 12V charging system
- When the "normal" green light is on, the system voltage is normal and the battery is being charged correctly; if the "high" red light is on, the system voltage is too high and damage to the battery may result; when the "low" red light is on, the system voltage is too low and the battery is being discharged
- The above indications are only valid with the engine running
- Measures 1 5/8" L x 1" W x 1/2" H
- Made in the U.S.A.

**BATTERY ELIMINATOR**

- Boosts spark voltage at cranking; eliminates flickering lights at low engine speed
- Designed for use on generator models only, this kit comes complete with a shock-resistant mounting clamp and attachment hardware
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
151308	Battery eliminator	\$44.87

MINI-BEAST AIR HORNS

- Mount in place of stock horn
- Mini-Beast I and V series are made from ABS plastic
- Heavy gauge metal brackets
- Plug-and-play wiring harness for easy installation
- Available with chrome, carbon fiber, gloss black, black skull or wrinkle finish black powder-coated steel covers
- Features a super-loud 136 db blast from the twin trumpets
- 3-wire installation (works with all electrical systems)
- Comes complete with fuse and relay
- Made in the U.S.A.

NOTE: Fit all Big Twins (except Sportster and V-Rod models).

¹ Features lightweight ABS plastic cover.

AIR HORNS

- Waterproof dual-trumpet air horns replace stock horn and give a loud warning blast of 128 dB
- Trumpets, mounts and brackets are triple-plated chrome or black powder-coated
- Include horn assembly, air compressor, relay, simple wiring, cone-shaped dust/bug covers and complete installation instructions
- Air compressor creates instant air pressure to the horns and mounts either under the seat, behind right side cover or down tube of frame (mounting position varies per model)
- Will fit with Harley-Davidson® lowers
- Use the stock horn button; bolt-on, plug-in installation
- Made in the U.S.A.

**MAGNUM ELECTRIC HORN SET AND HARDWARE KIT**

- Featuring an output of 118 dB, these are the loudest electric horns you can buy
- Direct replacement for most 12V electric horns
- Horn set includes two chrome-finish horns (one high and one low tone), mounting brackets and installation instructions
- Horns measure 3" x 3" x 3" each
- Uses the stock horn button; bolt-on, plug-in installation
- Available in chrome or black
- Hardware kits include 30 amp relay and fuse, all model-specific pre-cut 14-gauge wiring, mounting hardware and detailed instructions (sold separately from Horn Set)

NOTE: The use of a 30A relay is recommended with Horn Set (not included with the horn set, but included in each wiring/mounting kit) is recommended to achieve maximum volume and protect the stock electrical system.

PART #	DESCRIPTION	SUG. RETAIL
2107-0067	Horn set, chrome	\$79.95
2107-0219	Horn set, black	59.95

- CNC-machined from T-6061 aluminum including a Klock Werks logo, then chrome-plated for a show-shine finish
- A custom detail for riders using a smooth tank or doing a custom build
- Reuses stock ignition switch and key; ignition switch mount replaces the obtrusive horn mount and requires horn relocation
- Easy-to-install, allows switch to use factory wiring
- Necessary mounting hardware included
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL

GENERAL**THROTTLE BY WIRE HARNESS**

- Replacement electrical harness for H-D models that use the Throttle by Wire system
- Used when installing taller or wider handlebars
- Lower connector body is not installed, to facilitate routing the harness through the handlebar during installation
- All wires are finished with the proper terminals, just plug into connector after harness is installed in handlebar; no soldering or crimping is necessary
- Complete instructions included with harness
- Harness length is 46"
- Excess length can be hidden inside handlebar, or behind a body panel if necessary

PART #	DESCRIPTION	SUG. RETAIL
2120-0872	For 14-15 FLHT/FLHR/FLHX/FLTRX models; repl. OEM #69200338	\$49.99
2120-0871	For 08-13 FLHT/FLHR/FLHX/FLTR models; repl. OEM #70415-08A	49.99

All part numbers in **BLUE** are new for 2017.

TURN SIGNAL RELOCATION/EXTENSION KIT

- The perfect solution for relocating your handlebar mounted turn signals
- Allows you to relocate your turn signal lamps without running wires inside your handlebars
- Wires are color coded the same as factory, so moving your turn signals is a breeze

PART #	DESCRIPTION	SUG. RETAIL
2120-0885	For 16-17 models (all)	\$45.95

FRONT TURN SIGNAL EXTENSION HARNESS KITS

- A must when installing taller handlebars
- Intended for front turn signals mounted on handlebar switch housings on most 96-13 models
- No crimping necessary
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
FOR 16-17 SOFTAIL MODELS		
2120-0851	+4"	\$34.95
2120-0852	+8"	35.95

2120-0851

2120-0344

FRONT TURN SIGNAL RELOCATION HARNESS

- 36" extensions allow relocation of handlebar switch-mounted turn signals on models with CANbus electrical systems
- After cutting and disconnecting the wires at the switch housings, extensions are soldered in; OEM-style plugs connect into the two 3-position multiblock connectors under the fuel tank that is still installed on CANbus models but not used with handlebar switch-mounted signals
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0785	For 12-16 Dyna models	\$39.95

FRONT TURN SIGNAL EXTENSIONS

- 36" extensions allow relocation of handlebar switch-mounted turn signals on models with CAN-bus electrical systems
- After cutting and disconnecting the wires at the switch housings, extensions are soldered in; OEM-style plugs connect into the 6-position multiblock connector under the fuel tank that is still installed on CAN-bus models but not used with handlebar switch-mounted signals
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0629	For 11-15 FXST/FLST	\$39.95

UNIVERSAL HANDLEBAR SWITCH WIRE EXTENSIONS

- Designed for those that would rather stagger-cut and solder in order to lengthen their wiring for taller bars
- Wires are pre-stripped with the slug left in place to prevent fraying and the other end has machine crimped terminals that can easily be re-installed into the factory connector
- All kits come 100% complete with OEM color matching wire and all of the heat-shrink tubing needed to do the job right
- 24" universal handlebar switch wire extensions; fits up to 20" Apes
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0494	For 07-13 models (except FLT/FLHT 11-13 Softail, 12-13 Dyna)	\$41.95
2120-0495	For 07-13 FLHT/FLHR/FLHX/H-D FL Trike (all wires except electronic throttle control extensions)	56.95
2120-0496	For 96-06 models (except FLT/FLHT)	41.95
2120-0497	For 96-06 FLT/FLHT models	51.95

2120-0495

2120-0496

HANDLEBAR EXTENSION HARNESS

- 100% "Plug-n-Play" harness replaces the stock harness, allowing installation of up to 18" tall handlebars
- The simplest and easiest harness to fish through your handlebars
- Designed to work with new smaller sized 4-position handlebar switch connections
- No cutting, splicing or extensions needed

PART #	DESCRIPTION	SUG. RETAIL
2120-0783	For 14-17 FLHT/FLHR/FLHX/FLTR and H-D FL Trike	\$59.95

READY-TO-INSTALL HANDLEBAR WIRE EXTENSION HARNESSES

- All the items needed to successfully extend the wiring to a set of OEM H-D handlebar switches
- Harnesses include both male and female Molex terminals crimped on each end
- Kits for all except FLHT and FLT models include wire heat shrink, a length of 3/8" heat shrink and color-matching wire
- Kits for FLHT and FLT models include wire heat shrink, a length of 1/2" heat shrink and color-matching wire
- Made in the U.S.A.

CAN-BUS CONTROLLERS

- A CAN-bus controller is an absolute necessity when changing handlebars and switches on any 11-16 model because of the factory CAN-bus handlebar switch assemblies that make changing these handlebars next to impossible
- So simple to use; just plug the unit into the factory harness under the fuel tank and wire up any pre-CAN-bus handlebar switch assemblies of your choice
- Made in the U.S.A.

PDM60 CAN-BUS POWER MODULE

- Built with components selected for superior power management capability and extended service life
- Makes adding or removing aftermarket electrical devices/electronics to your CAN-bus-equipped vehicle a breeze
- Simple to install, simple to use
- Connects directly to your vehicle battery
- Offers six power circuits to handle your favorite gadgets and accessories
- Super bright LED indicators keep the rider informed of the status of each circuit
- Eliminates the need to install relays to power high-amperage applications
- Fully encapsulated to protect against rain, dust, humidity and other elements
- Made in the U.S.A.

**REPLACEMENT CANBUS ELECTRICAL CONNECTION**

- OEM replacement electrical power connection
- For navigation, audio, tachometers, oil pressure gauges and heated grips

GENERAL**TOUR-PAK®
QUICK DISCONNECT
WIRING HARNESS**

- Add power to your Tour-Pak® with quick-disconnect convenience
- Plugs into rear fender harness and connects into your Tour-Pak®
- Connector is exposed behind seat for easy removal
- Made in the U.S.A.

2120-0596

NAMS Custom Cycle Products

2130-0138

Y POWER TAP HARNESS

- Gives you two available ports to tap for 12V switched power; works great for testing, using the OBDP and keeping your optional accessory plug in at the same time
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0820	For 14-17 FLHT models	\$43.95
2120-0596	For 96-13 FLHT models	43.95
2120-0598	For 10-13 FLHX/FLTRX models	43.95
2120-0600	For 09-13 FLHTC/USE models	43.95

PART #	DESCRIPTION	SUG. RETAIL
2130-0138	For 94-11 Touring models	\$21.95
2120-0810	For 11-13 Softail, 12-13 Dyna, and all 14-17 models	23.95

REAR FENDER POWER TAP

- Get power to the back of the bike without splicing into the existing wiring harness
- Uses OEM connectors and provides 4" of ground and 12V switched power
- Power is supplied using the accessory circuit from the factory harness
- Universal applications

2120-0677

2120-0678

PART #	DESCRIPTION	SUG. RETAIL
2120-0677	For 96-16 H-D models (except XL models)	\$29.95
2120-0678	For 96-16 XL models	29.95

REAR FENDER PIGTAIL

- Ideal, plug-n-play solution for adding additional turn signals to saddlebags
- Uses OEM connectors and provides a right and left detachable turn signal pigtail that can be routed anywhere
- Factory colors, no other modifications necessary
- Universal applications

NOTE: Not for use with LED lights.

PART #	DESCRIPTION	SUG. RETAIL

HOT BOX WIRING HARNESSES

REAR LIGHTING HARNESS

- Consists of a replacement rear lighting harness with Namz "Plug-n-Play" technology
- Features two separate detachable pigtail harnesses for each saddlebag with a ground or single output wire with RUN and TURN SIGNAL only or RUN, BRAKE and TURN SIGNAL functions
- Perfect for adding custom lighting to saddlebags
- Works just like the factory model except it has two extra wires (right and left turn signal output) to allow for a more custom lighting design
- Best suited for custom rear fenders or more extreme or custom-built Baggers

PART #	DESCRIPTION	SUG. RETAIL
FOR 96-16 H-D MODELS (EXCEPT 10-166 FLHX/FLTRX, 11-16 SOFTAILS, 12-16 DYNA AND 14-16 XL)		
2120-0254	Rear lighting harness (run, brake and turn functions)	\$179.95
2120-0255	Rear lighting subharness	179.95
2120-0680	Rear lighting harness w/ saddlebag pigtails (run and turn functions only)	149.95

HOT BOX WIRING HARNESS FOR AMERICAN IRONHORSE

- Namz "Plug-n-Play" technology for American Ironhorse models
- Easy installation after removal of OEM Smart Flash and PCM modules
- Includes replacement Hot Box module, mating Deutsch Plug ready for installation, full size starter relay, ATO fuses and holders

NOTE: Professional installation is recommended but not required.

PART #	DESCRIPTION	SUG. RETAIL
2120-0356	For 02-05 Ironhorse	\$199.95

2120-0254

2120-0255

2120-0532

REAR LIGHTING SUBHARNESS

- Less aggressive but still features Namz "Plug-n-Play" technology
- Designed for the rider that wants to keep it simple; just disconnect the rear lighting harness and plug unit in between
- Subharness does not replace the rear lighting harness
- Best suited for near stock Baggers
- Features two separate detachable pigtail harnesses for each saddlebag with a ground and single output wire with RUN, BRAKE and TURN SIGNAL functions

2120-0647

LED HEADLAMP ADAPTER HARNESS

- Required when replacing the stock dual-halogen headlamps with a LED headlamp or any other H4 based headlamp
- Sold each

PART #	DESCRIPTION	SUG. RETAIL
2120-0647	For 14-17 FLHT/FLHR/FLHX and H-D FL Trike models	\$19.95
2001-1264	H4 adapter for 14-17 FLHR	19.95

LED HEADLAMP ADAPTER HARNESSES

- Use when installing Daymaker LED headlamps
- Sold each
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0655	For 14-17 Touring models and HD FL Trike (except FLHR/FLTRX); repl. OEM #69200897	\$21.95
2120-0654	For 04-13 FLTR; repl. OEM #69200533	28.95

2001-0901

KURYAKYN HEADLAMP ADAPTER HARNESS

- Allows LED headlights with H4-style plugs to be installed on 14-17 H-D models
- Sold each

PART #	DESCRIPTION	SUG. RETAIL
2001-0901	For 14-17 FLHT/FLHX/FLTRX and FLHTCUTG	\$19.99

2120-0869

PASSING LAMP CONTROL HARNESSES

- Allow passing lamps to remain on when headlamp is switched to high beam
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0869	For 98-13 FLT/FLHT and H-D Trike models w/ passing lamps	\$19.95
2120-0870	For 97-13 FLHR and 96-16 FXST/FLST models w/ passing lamps	19.95

AUXILIARY LAMP WIRING HARNESS

- Allows mounting of late-style 4 1/2" auxiliary lamps equipped with spade connectors on pre-05 models
- Sold each
- Requires two harnesses
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0604	Auxiliary lamp wiring harness; repl. OEM #68355-05	\$9.95

KURYAKYN

PASSING LAMP ADAPTER HARNESS

- Allows installation of 05-17 style passing lamps on 04-earlier models
- Sold in pairs

PART #	DESCRIPTION	SUG. RETAIL
2050-0162	Plug-and-play passing lamp adapter	\$16.99

PASSING LAMP ADAPTER HARNESS

- Passing lamp adapters for 84-04 H-D models
- Sold in pairs

PART #	DESCRIPTION	SUG. RETAIL
2001-1266	For 84-04 H-D models (pr.)	\$19.95

DISCLAIMER: NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON ANY POLLUTION CONTROLLED MOTOR VEHICLES.

GENERAL**COMPLETE BIKE HARNESS**

- The perfect start for any project bike or OEM model re-wire
- Complete bike harness w/ starter relay, 3-circuits, self-canceling and run, brake and turn signal module
- Works with any stand alone, Evo or Twin Cam ignition system
- Designed to operate with a two-position key switch
- Key start switches can be used with a simple wiring modification (ignition system and key switch are not included with this harness)
- OEM color-matching harness with 11-second self-canceling turn signal module
- Fuse block holds a full size, commonly available and replaceable starter relay and three (3) ATO fuses
- A 30-Amp circuit breaker is installed and is ready for any regulator/charging system
- Harness provides running light and turn signal functions to the front turn signals, run, brake and turn signal functions for the rear turn signals
- Oil, neutral, high beam and turn signal indicator wiring
- Color-matching handlebar switch wiring, as found on most 96-13 models (except Dresser models)
- Headlight wiring with headlight socket and terminals
- Front turn signal connectors and terminals
- Rear fender harness with connectors and terminals
- Key switch wiring with ring terminals
- Coil wire with ring terminals, tachometer, horn, oil sending unit, brake switch and neutral switch wiring with terminals
- Sections of 3/16", 1/4", 3/8" and 1/2" ID heat shrink included
- Heavy-gauge, 12 (+) power and (-) ground wires with terminals for battery connection
- Made in the U.S.A.

**PART #****DESCRIPTION****SUG. RETAIL****2120-0769**

Wiring harness

\$299.95**ELECTRONIC HARNESS CONTROLLER**

- Compact design makes it easy to hide on a custom motorcycle
- Performs all fuse, relay and signal-canceling functions in one simple package
- Allows a dual-filament bulb to be used in three ways: tail, brake and turn signal (excluding the need for a center brake light); includes ribbon cable for integrating generic indicator lights
- Weather-resistant connections for trouble-free use in extreme environments
- Trim-to-fit harnesses allow installation on most custom bikes

**PART #****DESCRIPTION****SUG. RETAIL****2120-0675**

"D" model electronic controller w/ ribbon cable for indicator lights

\$334.95**MICRO HARNESS CONTROLLERS**

- Billet 6061 T-6 aluminum housing and 7" trim-to-fit wiring design is compact and easily hidden on custom motorcycles
- Performs all fuse, relay (includes starter relay) and signal-canceling functions in one simple package
- Provides multiple flasher combinations (signal canceling, hazard lights, running lights and turn signal) from one dual-filament bulb
- Utilizes relays to distribute all power functions, thus eliminating the need to run large wires to all the switches
- Can be used with micro switches
- PART # 2120-0086 includes brake light module for separate brake light output
- Optional push-button momentary switch converter available separately (PART #2120-0085)
- Weather-resistant connections for trouble-free use in extreme environments
- Designed for U.S. and European applications
- Weighs 2.3 lb.

**CUSTOM CHOPPER WIRE HARNESS**

- Makes wiring your custom motorcycle a snap
- Includes just the essentials: keyed on-off start switch, three-way toggle switch, in-line fuses (15 and 30 amp), wire ends, shrink tube and wiring diagram
- For custom applications only
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2120-0018	Custom wire harness	\$179.95

**WIRING HARNESS CONTROLLER**

- Replaces complete wiring harness and relays (except fuel-injection and ignition wiring)
- Enables use of low-voltage momentary switches and micro-wires
- Simple installation; comes with complete installation instructions
- Compact design 3" L x 2" W x 1" D enables easy concealment in frame
- Fits all custom builds

PART #	DESCRIPTION	SUG. RETAIL
2120-0613	Wiring harness controller	\$499.95

**CENTER BRAKE LIGHT MODULE**

- Allows installation of a center brake light on custom bikes when used with Thunder Heart's Micro Harness Controller PART #2120-0023
- Compatible with LED and incandescent bulbs
- Solid-state construction, fully circuit-protected and has no relays to wear out
- Compact size of 2" x 0.6" x 0.5" lets you mount it just about anywhere
- 12V, 3A max current capacity
- Simple four-wire hookup; wiring diagram included

PART #	DESCRIPTION	SUG. RETAIL
2120-0084	Center brake light module	\$40.95

**PUSH-BUTTON CONVERTER**

- Convenient way to wire up push-button hand control switches
- Takes momentary signal from a push-button hand control switch and converts it to a standard "latching" signal
- Design is fully circuit-protected and has no relays to wear out
- Compact size, measures just 2" x 0.6" x 0.5"
- Simple six-wire hookup, wiring diagram included
- Designed for use with 12V electrical systems such as Thunder Heart's Micro Harness Controller; 1 amp maximum load

PART #	DESCRIPTION	SUG. RETAIL
2120-0085	Push-button converter	\$40.95

**WRAP-AROUNDS™ WIRE CONVERTER**

- Converts 2-wire Custom Dynamics Wrap-Arounds™ to 3-wire
- Converts wire function to run as both running and turn instead of just turn
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
2050-0251	Wrap-Arounds™ wire converter	\$24.95
