

IMPORTANT INFORMATION:

EMISSIONS AND NOISE REGULATIONS

NOTE: The California Air Resources Board (“CARB”) and/or the Environmental Protection Agency (“EPA”) do not permit the use of aftermarket emissions-related part(s) that alter the performance of OEM emissions-related devices unless CARB has issued an Executive Order, other than on racing vehicles on closed courses. Check your local laws and manufacturer’s information. More California exhaust information is available at www.arb.ca.gov/.

NOTE: Aftermarket products, including but not limited to exhausts, catalytic converters, oxygen sensors, fuel/air controller modules, air filter kits, camshafts, O₂ eliminators, and carburetors and jet kits which alter, modify, or replace emission control devices or systems of an originally compliant highway motorcycle, are not legal for sale or street use in California unless they have been issued a CARB Executive Order. Aftermarket emissions-related products which have not been issued an Executive Order or which are not aftermarket Replacement Parts, as defined in Title 13, California Code of Regulations, Section 1900(b)(2), are authorized for closed circuit race use only. Products shown may be designed, manufactured, intended and sold for closed circuit race use only, and use of the same on public roads or lands may be a violation of local, state and/or federal laws. See manufacturer’s information and state and local laws to determine what is authorized for your use on your vehicle.

The following emissions-related defined terms are used in this catalog **(PARTS WITH THE FOLLOWING DESIGNATIONS IN THIS CATALOG ARE NOT ILLEGAL FOR SALE IN CALIFORNIA UNDER CARB REGULATIONS):**

- **“CARB E.O.”** means the specified Executive Order issued by CARB. An Executive Order constitutes an exemption by CARB from CA Vehicle Code 27156 and 38391, for sale of the part number for the make/model/year fitment(s) specified in the Executive Order.
- **“Replacement Part”** means any aftermarket part intended to replace an original equipment emissions-related part and which is functionally identical to the original equipment part in all respects which in any way affect emissions (including durability), or a consolidated part.
- **“Qualified Manufacturer Declared Replacement Part”** means any aftermarket part intended to replace an original equipment emissions-related part and which is functionally identical to the original equipment part in all respects which in any way affect emissions (including durability), or a consolidated part that has been evaluated and declared by the manufacturer to meet this definition and carry this categorization and designation label. This manufacturer has declared in writing that it has documentation, based upon sound engineering judgment, indicating the replacement part does not reduce the effectiveness of any required emission control device and it does not cause the modified vehicle/engine/equipment to exceed applicable emissions standards for that make/model/year fitment(s) advertised.

NOTE: Products shown may not conform to federal, state or local emissions and/or noise regulations.

WARRANTY

There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e., cam timing, carburetor, etc., and is not caused by defective manufacturing. See the Chemicals and Lubes section for products that will help prevent or remove blueing.

Check your applicable laws and manufacturer’s publication(s) and/or website(s) for manufacturer’s warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

SPEEDSTER SHORT SWEEP EXHAUST SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2.5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Shortened version of Cobra's successful Sweep Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility
- Made in the U.S.A.

FUSION
EXHAUST SYSTEMS

- Not tame or mild, these pipes will definitely draw attention to your ride
- Sound is not obnoxious, but a deep, strong rumble
- Mufflers feature hexagon-shape exhaust tips with robotic welds
- Heat shields are stamped steel with edgy designs
- Exhaust tips are curved to direct heat away from the saddlebags
- Will work with saddlebag extensions and passenger footpegs
- Not designed for use with the OEM air cleaner; aftermarket air cleaner and performance fuel management module are highly recommended
- Include O₂ sensor ports and necessary plugs for all year applications
- Made in the U.S.A.

ROCKSTAR 2-INTO-1 SYSTEMS

- Set yourself apart from the crowd in Rockstar style
- 2-into-1 performance meets the ultimate in custom style and performance gains you will feel
- The Rockstar features MagnaFlow's exclusive non-blueing, Magna-Black coated, stainless steel, 1 $\frac{3}{4}$ " headpipes
- The 2 $\frac{1}{2}$ " heat shields and precision laser-cut junction cover add major style points to this head-turning one-of-a-kind system, the Hi-Flow louver core muffler delivers dynamic horsepower gains over stock
- The Rockstar delivers untamed, deep, aggressive sound quality from idle to full throttle
- The perfect choice for tuned or stock engines looking for improved output
- The rotating 3" scallop cut tip allows you to customize your Rockstar style
- 12mm and 18mm O₂ sensor ports allow for maximum tuning options; sensor plugs included for non-sensor applications
- Made in the U.S.A.

¹ Non-sensor applications will require O₂ sensor port plug kit PART #1861-0464 (sold separately).

STAINLESS HI-OUTPUT 2-INTO-1

- Engineered for high output engine modifications
- Dyno developed and tested to increase volumetric efficiency critical to extracting maximum horsepower from high output engine modifications
- 1 3/4" to 2" tapered headpipes with 2 1/2" inlet to megaphone and 4" to 4 1/2" stepped muffler body
- 2 1/2" to 3 1/4" baffle with anti-reversion cone
- All stainless steel construction with TIG welding and race-inspired brushed stainless "Works" finish
- Contoured laser-cut heat shields
- Flat plane 12mm and quick access 18mm oxygen sensor ports for wideband tuning capability
- Made in the U.S.A.

NOTE: Stainless steel systems will naturally discolor; this is expected and considered normal. High performance engine tuning utilizing a dynamometer will likely result in severe discoloration.

PRO DUAL HEADERS

- Revolutionary style, performance and engineering come together in one innovative design
- Pro-Duals feature MagnaFlow's exclusive non-blueing, Magna-Black coated, stainless steel, 1 $\frac{3}{4}$ " headpipes that reduce heat on the rider's leg
- Pro-Duals offer tuned-length headpipes for improved and better balanced exhaust flow that helps generate power to the ground with an enhanced feel on the throttle
- Ideal for tuned engines requiring increased flow or stock engines looking for improved output
- Bold 2 $\frac{1}{2}$ " full coverage heat shields provide a dynamic stance on your bike
- 12mm and 18mm O₂ sensor ports allow for maximum tuning options
- Tri-fit adapter is constructed of stainless steel and is magna-black coated to match the headpipes
- Tri-fit adapter fits Pro-Duals as well as any 1 $\frac{3}{4}$ " aftermarket headpipe
- Choose your MagnaFlow Dresser mufflers to complete your performance upgrade package or use any 95-16 OEM-style Dresser mufflers
- Made in the U.S.A.

2 INTO 2 DUAL
HEADER SYSTEMS

KHROME WERKS

- Reduce heat transmission to the rider and passenger by routing the exhaust under the frame instead of under the seat
- Lighter system that offers more flow and makes more top-end power than the factory system
- Feature 1 $\frac{3}{4}$ " 16-gauge mandrel bent, interconnected headers and 220° full-coverage heat shields
- Front pipe crosses over to the left side and is securely mounted to the transmission oil pan
- Crossover pipe is formed from the 1 $\frac{7}{8}$ " tubing for increased ground clearance and no cross-sectional area loss
- Hidden interconnect for maximum top-end horsepower, improved low-end torque and sound dampening
- Headers systems are available in a high-gloss chrome finish and full-coverage heat shields are finished in black Jet-Hot® high-performance coating with chrome-plated headers
- PART #s 1802-0121 and 1802-0252 include two 18mm O₂ sensor ports, plugs and all mounting hardware
- PART #s 1802-0122 and 1802-0253 include two 18mm sensor ports with plugs and two 12mm sensor ports with plugs
- Header systems accept any 95-16 OEM-style dresser mufflers (sold separately)
- O₂ sensor ports and plugs, gaskets and all mounting hardware included
- Use any Khrome Werks™ or other bagger muffler set
- Made in the U.S.A.

1802-0359	Dual bungs w/ Raven black heat shields	639.90

POWERPORT TRIKE DUAL HEADPIPES

- Display the clean look of a true-dual system, but pack the performance to back it up; because of the Cobra PowerPort crossover, this system performs like a 2-into-1 exhaust
- The PowerPort Dual headpipes fatten the low-end and mid-range torque curve, perfect for touring and highway use
- The headpipes arrive with the proper bends built in so there is no need to use adapters (all other aftermarket headpipes require "S" adapters to connect the headpipes to the mufflers - stock or aftermarket)
- The system consists of the headpipes, PowerPort section, heat shields and all of the mounting hardware needed to complete the installation
- 1.75" diameter
- Mufflers not included; accept OEM mufflers or 95-16 OEM-style mufflers
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1802-0298	For 10-16 H-D FL Trike models	\$519.95

1802-0282

1802-0283

CRUSHER**TRUE DUAL HEADPIPES**

- Allows each cylinder to breathe through its own headpipe and muffler for improved exhaust flow and performance
- 95-08 left side headpipe tucks in close to the bike's side for passenger comfort
- 09-16 left side headpipe runs underneath the motorcycle away from the passenger's feet/legs
- Pipes are stainless steel; heat shields and mounting hardware included
- Accepts Crusher series mufflers or any 95-16 OEM-style Dresser mufflers

PART #	DESCRIPTION	SUG. RETAIL
FOR 09-16 FLHT/FLHR/FLTR/FLHX AND H-D FL TRIKE MODELS (EXCEPT 15-16 FLRT)		
1802-0282	Chrome	\$499.99

FOR 95-08 FLT/FLHT/FLHR/FLTR/FLHX MODELS		
1802-0281	Chrome	\$459.99

CRUSHER**POWER CELL CROSSOVER HEADPIPES**

- Header pipes use a unique integrated crossover for increased horsepower and torque
- Crossover header pipe section is hidden behind a clean-looking, stylized heat shield
- Left exhaust pipe is re-routed under the motorcycle; drastically reduces exhaust heat that reaches the passenger
- Headers include chrome heat shields, mounting hardware and are fitted with oxygen sensor ports
- 10 FLHX and 10 FLTRX require muffler bracket support to install the left-side muffler (sold separately)
- Accept Crusher series mufflers for a complete system or use any 95-16 OEM-style Dresser mufflers (mufflers available separately, see page 454)

PART #	DESCRIPTION	SUG. RETAIL
1802-0284	For 09-16 FLHT/FLHR/FLTR/FLHX	\$549.99

DISCLAIMER: NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON ANY POLLUTION CONTROLLED MOTOR VEHICLES.

All part numbers in **BLUE** are new for 2017.

FOR DRESSER/TOURING

TRU POWER TRUE DUAL EXHAUST HEADERS

- Header pipes are dyno-designed to maximize torque and performance
- 2 1/8" diameter heat shields maximize style and the look
- Work with O₂ sensors on all years; include plugs for models not utilizing O₂ sensors
- Provide balance and symmetry, giving your bike a tight, tough look
- Beautiful triple chrome-plated hand-polished finish
- For maximum performance gains use with our Tru Power slip-on mufflers (sold separately) or with any 95-16 OEM-style mufflers
- Stainless steel mounting hardware and installation instructions included
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL

POWER DUALS HEADER SYSTEMS

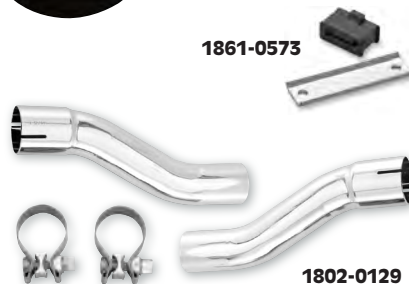

- Power Duals is the ticket to style, quality and performance
- More than just individual head pipes, Power Duals integrates an exclusive Vance & Hines Power Chamber™ hidden behind a contoured heat shield that generates more horsepower and torque than stock
- Systems include 220° full-coverage header pipe heat shields
- This new right side design eliminates the heat issues on the left side for the passenger, routing hot exhaust gases below the footpeg and protecting vital engine components and side covers from heat damage
- Allow the use of any 09-16 OEM style mufflers
- Conversion kit includes grommet and mounting rail required to convert 10 FLTRX/FLHX models with factory 2-into-1 exhaust to Big Shot Duals, Dresser Duals or Power Duals
- Adapter kit extends Power Duals head pipes to allow installation on H-D FL Trike models
- All CVO models require floorboard extension kit PART #1621-0640 (sold separately); see FOOTRESTS section
- Made in the U.S.A.

NOTE: C.A.R.B. E.O. #K-006-1 – see page 451 for needed mufflers for C.A.R.B. E.O. set.

KHROME WERKS

FOR DRESSER/TOURING

1801-0912

1801-0913

1801-0916

**4" HIGH-PERFORMANCE MUFFLERS WITH BILLET TIPS**

- Rich deep tones without the high-frequency whine that plagues other systems
- Exhaust travels through a high-flow baffle assembly and exits through a series of radially punched holes
- 16-gauge absorptive mufflers with 1.75" inlets and billet tips
- Eclipse features a proprietary, high-temperature black electroplated finish
- See the SEATS & SISSY BARS, HANDLEBARS, CONTROLS & MIRRORS and FRAMES & SUSPENSION sections for products with a matching Eclipse finish
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL

1801-0916	Eclipse	\$910.95

3.5" HP-PLUS® TOURING LITE MUFFLERS

- 3.5" diameter Touring Lite slash down mufflers provide great performance and quality sound
- Features include 16-gauge one-piece shells, upgraded baffle design, bolt and nut baffle installation, and upgraded acoustical wrap materials
- One-piece Jet-Hot® black-coated shell eliminates possibility of leaks and transition screws loosening or stripping
- Baffle is machine-wrapped with a laminated muffler packing consisting of a thin layer of stainless steel under high-temperature basalt wool installed with 1/4"-20 bolts and nuts – an improvement over the #10 screws
- Stainless steel packing ensures long life for high-frequency absorptive basalt wool
- Dual-layer packing covers the complete length of the baffle, minimizing muffler body discoloration and absorbing the annoying higher frequencies
- Fit models equipped with OEM crossover or aftermarket "True Duals" systems
- Utilize factory mounting hardware and clamps
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1801-0598	For 95-16 FLT/FLHT/FLHX/FLTR/FLHR and H-D FL Trike models (except 10 FLTRX/FLHX, 15-16 FLRT)	\$499.95

1801-0414

1801-0416

**3.50" HP-PLUS® TOURING MUFFLERS**

- Chrome mufflers increase horsepower and torque with a distinctive deep, throaty, but quieter sound
- All new HP-Plus® patented dual-chamber absorptive baffles – large, short front absorptive chamber mutes deceleration popping
- Long, rear absorptive chamber features HP-Plus resonator – both chambers are wrapped with a laminated muffler packing consisting of a thin layer of stainless steel under an ultra-high-temperature basalt wool
- Stainless steel packing ensures long life for the high-frequency absorptive basalt wool
- Dual-layer packing covers the complete length of the baffle to minimize body discoloration and to absorb the annoying higher frequencies
- Low-speed torque is improved over our 3.00" mufflers; overall decibel level is reduced while still retaining high-quality, deep Khrome Werks signature sound
- Fit models equipped with OEM crossover or aftermarket "True Duals" systems
- Utilize factory mounting hardware and clamps
- Sold in pairs
- Made in the U.S.A.
- U.S. patent 5,173,576

NOTE: ECM unit may need to be recalibrated if used with free-flowing air cleaners and/or modified engines. Muffler shells may discolor if ECM units are not calibrated correctly.

FOR DRESSER/TOURING

TRI-FLO SLIP-ON MUFFLERS

- Tri-oval-shaped muffler rear seamlessly transforms into 4" round front
- 5" wide, 4" tall thin-line aluminum tip
- 3" core for superior performance
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Feature proprietary materials with specific acoustical dampening and thermal insulation properties
- The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid frequencies, which helps to enhance the low frequency tones
- Sold in pairs
- New Raven black is slightly darker than the standard black finish
- Made in the U.S.A.

- 4.5" machined aluminum, thin-line tips
- 3" cores for superior performance
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Use proprietary materials with specific acoustical dampening and thermal insulation properties
- The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid frequencies, which helps to enhance the low frequency tones
- New Raven black is slightly darker than the standard black finish
- Sold in pairs
- Made in the U.S.A.

1801-0914

NH SERIES MUFFLERS

- For riders who think that too loud is just about right
- Four-inch bodies bell out to 4 1/2" at the rear, which features a smooth, rolled end
- Smooth, rolled end shape adds a megaphone enhancement to the sound
- Spiraled louvered core exits in a trumpet-bell shape that allows the V-Twin sound track to flow at full song
- New Raven black is slightly darker than the standard black finish
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
FOR 93-16 FLT/FLHT/FLHR/FLHX/FLTR AND H-D FL TRIKE MODELS		
1801-0914	Chrome	\$420.95

1860-1052	Optional baffle	39.95

CENTER-PRO SLIP-ON MUFFLER

- Industry first, center-port exhaust with superior performance
- Unique 2-into-1 design
- Both mufflers join at the rear beneath the fender for center port exhaust location
- Slips on as a single unit to the stock headpipes (or Cobra PowerPort Dual head pipes)
- Not designed to fit on motorcycles using extended bags
- Single, polished with black or chromed steel exhaust tip finished with a perfectly rolled edge
- Constant velocity baffles are not removable
- Made in the U.S.A.

1801-0641

PART #	DESCRIPTION	SUG. RETAIL
FOR 95-16 FLT/FLHT/FLHR/FLHX/FLTR MODELS		
1801-0641	Chrome	\$629.95
1801-0646	Black	679.95

TRI-OVAL II CHROME
SLIP-ON MUFFLERS

- Updated version of the ever-popular original Tri-oval slip-on mufflers
- Redesigned aluminum tip with machined flutes on the interior slopes
- Retain the distinctive dual-port outlet
- Graceful scallop edge forms the top line of the tip
- Louvered core design retains the deep sound with enhanced rasp that's familiar to Tri-Oval owners
- Reworked body begins as a 4" round shape at the front and slowly transforms into the classic Tri-Oval shape at the rear
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1801-0736	For 95-16 FLHT/FLHR/FLHX/FLTR AND H-D FL Trike models (except 15-16 FLRT)	\$689.95

TRI-OVAL SLIP-ON MUFFLERS

- Incredible deep resonance that passes existing sound guidelines
- Tri-Oval design with full-size, billet V-tip with dual exhaust ports
- Round front seamlessly morphs to tri-oval shape at the rear
- Nearly 5.5" wide and 3.5" high at the rear
- Increased performance gains over stock mufflers
- Available with black body and chromed tip
- Mufflers end at the rear of the bags
- Simple installation; mount to stock headpipes or to Cobra PowerPort headpipes
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1801-0408	For 95-16 FLHT/FLHR/FLHX/FLTR models	\$699.95

TRI GLIDER® MUFFLERS

- Designed specifically for Harley's big trikes
- 3.75" muffler bodies are capped off with machined 3" radial slash-cut aluminum tips that step up to the bodies via a mild, yet graceful bevel
- This configuration allows the Cobra tips to have the ground clearance equal to or in some cases greater than the stock system
- Internal construction of the muffler bodies consists of a 2.5" perforated constant-velocity core wrapped in woven fiberglass that is protected by a fiberglass wrap, providing outstanding performance with a deep thundering bass note
- Available in chrome with chromed aluminum tips
- Sold in pairs
- Made in the U.S.A.

FOR DRESSER/TOURING

1801-0666

**4.5" RACE-PRO SLIP-ON MUFFLERS**

- Bodies taper to 4" round at the front
- 4.5" machined aluminum thin line black tips are held in place with seven stainless steel, 12-point bolts
- Features satin black laser-cut steel straps that tightly encircle the mufflers with built-in mounting straps
- 3" cores for superior performance
- The frequency and location of the perforation patterns in the cores creates significant sound scattering in the mid frequencies, which helps to enhance the low frequency tones
- Acoustical engineering developments allow an incredibly deep sound because of intense, class-leading resonance absorption and prevention
- Use proprietary materials with specific acoustical dampening and thermal insulation properties
- Sold in pairs
- Cobra's new Raven black is slightly darker than the previous coating, providing the best finish possible
- Made in the U.S.A.

MONSTER SLIP-ON MUFFLERS

- 5 1/2" Monster Ovals crush the old saying that more power requires more noise
- The ovalized mufflers give Monster Ovals twice the internal volume of other slip-on mufflers for better flow and more power
- 4" Monster Squared offer the same perfection in and performances as the Monster Ovals
- 6 1/4" Monster Squared also feature a high-volume muffler design with striking angled billet end caps
- Stereo-friendly, Monster Mufflers yield a deep rich tone that's perfect for those cross-country tours
- Encased in full-coverage one-piece formed heat shields with machined end caps, riders will be proud to show off their pipes wherever the road takes them
- Sold in pairs
- Made in the U.S.A.

TWIN SLASH SLIP-ON MUFFLERS

- This series of slip-on mufflers for touring models incorporates the best of Vance & Hines and redefines performance, looks and price with a distinctive style and unmistakable sound that is only available here
- Rounds offer a large 4-inch diameter muffler body with an all-mechanical straight through louvered baffle
- Ovals are available in either a 4 1/2" version with an all-mechanical straight-through louvered baffle for generating power gains with an aggressive exhaust note or 5 1/2" "Monster" version which has won over touring riders across the country with their power gains and perfect sound
- 2-into-1 version was designed specifically to work with the new 2-into-1s on 10 Road Glide and Street Glide; features a large 4-inch, stepped to 4 1/2", muffler body that uses an all new maintenance-free baffle that also minimizes heat discoloration and provides the perfect blend of sound and power gains
- All feature the new signature Twin Slash end treatment
- Sold in pairs unless noted
- Made in the U.S.A.

EPA COMPLIANT TWIN SLASH SLIP-ON MUFFLERS

- Distinguished by their EPA compliance stamping on the top side of the muffler, the EPA Compliant Twin Slash Slip-on mufflers are 50-state compliant when used on stock 96-cubic-inch displacement 09 and later Harley-Davidson Touring models equipped with stock 2-1-2 dual exhaust headers
- Specially developed for compliance with Federal EPA noise regulations
- Feature full-coverage heat shields for blue-proof protection and sport the signature Vance & Hines Twin Slash, 5.5" wide, oval tips
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1801-0422	For 09-11 FLHT/FLHX/FLHR/FLTR (except CVO models w/ drop skirt saddlebags and 10 FLHX/FLTRX)	\$699.99

MONSTER ROUNDS CATALYTIC SLIP-ON MUFFLERS

- 4" Monster Rounds Catalytic slip-on mufflers house three-way catalytic converters that have been tested with Vance & Hines Power Duals or Dresser Duals to demonstrate that they meet emissions standards applicable in California
- The real benefit of combining Vance & Hines Power Duals Black or Dresser Dual with the new Monster Round Catalytic slip-ons lies in the movement of the catalytic converter from the rear portion of the header system (as it is in the original equipment exhaust) to the muffler bodies, which yields a significant reduction in heat felt by the rider
- Make just as much power as standard Monster Round slip-ons, along with the same deep and mellow tone riders have come to love
- Include finely sculpted full coverage heat shields
- Sold in pairs
- Made in the U.S.A.

NOTE: CARB Executive Order (E.O.) No. K-006-1.

NOTE: Requires use of Vance & Hines Power Duals or Dresser Duals, page 423, headers to be a CARB EO exempt set.

FOR SOFTAIL

1800-1753

1800-1754

SOFTAIL DUAL EXHAUST SYSTEMS

- Provides a classic dual-exit look while increasing performance
- 1³/₄" exhaust tubing provides improved exhaust flow; rear head pipe is not flattened to clear the coil bracket
- Removable louvered baffles increase back pressure and torque
- New coil-mounting bracket increases clearance for the tightly curved rear headpipe on 07-newer models
- 2¹/₂" heat shield gives the classic straight pipe look
- Available with 2¹/₂" billet tips or a classic chromed steel fishtail-style tip
- Billet-tip style lines up with the rear fender
- Fishtail-style tip sticks out 6" further than the standard billet tip for a more custom look
- 07-17 styles accept 12mm and 18mm O₂ sensors
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
FOR 12-17 FLS/FLST/FXS MODELS

FOR SOFTAIL

1800-1486

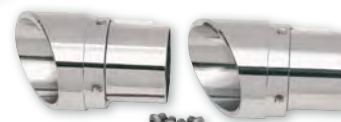

SOFTAIL DUALS

- Give your Softail the nostalgic look of true duals
- 2 1/8" 220° full-coverage headpipe heat shields and 2 1/2" slip-on heat shields make the system virtually blue-proof
- The Slip-ons give the performance and sound you would expect with standard louver core baffles
- Enhance the nostalgic look of a Springer Softail or any other Softail model
- Feature matched straight-cut billet tips
- Flat plane mounting panel for the 12mm oxygen sensors now featured across the 12-17 Softail model lines; mounting panel positions sensor deeper into exhaust stream, providing enhanced data feedback to the ECM
- Made in the U.S.A.

NOTE: Pre-07 applications will require O₂ sensor port plug kit PART #1861-0464.

PART #	DESCRIPTION	SUG. RETAIL	PART #	DESCRIPTION	SUG. RETAIL

TRUE DUALS

- Headpipes are covered with 220° heat shield to mask any discoloration; weigh less and sound better than double-wall pipes with the same shielding results
- 2 1/4" muffler bodies with integrated, removable, fuel-injection-friendly baffles
- Unique removable longtails, which are 2" longer on the bottom than standard fishtails
- Mounting brackets and hardware included
- Made in the U.S.A.

NOTE: Muffler bodies are measured from the bottom of the Longtail to the beginning of the muffler body, excluding the inlet.

LEGACY GEN-X 2-INTO-2 SYSTEMS

- Ultimate Big Twin, true crossover performance is now yours
- The Legacy Gen-X system is engineered to increase horsepower with equalized exhaust flow and back pressure to put the power to the ground
- Durable Magna-Black coated, stainless steel, 1 $\frac{3}{4}$ " headpipes will not rust, fade or blue
- Legacy Gen-X systems feature 2 $\frac{1}{2}$ " heat shields and a laser-cut X junction cover that make a bold statement on your bike
- Hi-Flow stainless steel, louver core baffles help generate superior horsepower and torque gains over stock
- Amazing deep, bold sound quality is the signature of the Legacy Gen-X full system
- Ideal for tuned engines requiring increased flow or stock engines looking for improved output
- 12mm and 18mm O₂ sensor ports allow for maximum tuning options; sensor plugs included for non-sensor applications
- Precision-channelled, rotatable gloss black end caps allow for a personalized custom look
- Made in the U.S.A.

1800-1381

SPEEDSTER SWEEP/SHORT SWEEP EXHAUST SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2.5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- The Short Sweep system is a shortened version of Cobra's successful Sweep Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility
- Made in the U.S.A.

NOTE: Sweep exhaust requires the removal of the right-side passenger footpeg on select models; optional relocation bracket curves up from under the pipe to relocate the peg in the proper position.

Power Chamber

V16917

1861-0072

1861-0477

**BIG SHOTS
STAGGERED AND LONG**

- Feature the revolutionary Power Chamber™ design; a unique cross-over system that increases horsepower and torque
- Armed with full-coverage 2¹/₂" heat shields that are essentially blue-proof for long-lasting style
- Like all Vance & Hines systems, these feature a superior fit and an unrivaled finish
- Flat plane mounting panel for the 12mm oxygen sensors now featured across the 12-16 Softail model lines; mounting panel positions sensor deeper into exhaust stream, providing enhanced data feedback to the ECM
- Meticulously finished billet end caps
- Removable baffles and all mounting hardware included
- Made in the U.S.A.

NOTE: Will not fit models with kickstarts.

SUPER RADIUS

- Super Radius blends premium features and outstanding performance with Power Chamber technology and the looks of a custom exhaust
- 1.75" headers flow into an oversized Power Chamber for sound control and performance, then into 2.5" muffler bodies
- Incorporates a new, revolutionary "Super Bung" dual mounting O₂ sensor port allowing oxygen sensors mounting for 12mm and 18mm installation in a single V&H exhaust system; 18mm O₂ plugs and washers are included for 86-06 Softail models
- Deep, mellow tone, with removable sound inserts included for adjustability
- Full coverage heat shields
- Systems are SAE J2825 compliant on stock 103" H-D motors
- Made in the U.S.A.

NOTE: 86-97 models will require removal of passenger footpegs. Will not fit models with saddlebags that attach to passenger footpegs.

LEGEND SERIES EXHAUST SYSTEMS

- Legendary style and function that could only come from Samson
- Boost horsepower and torque by up to 20% while also improving fuel efficiency
- Stepped headpipes run from 1³/₄" to 2¹/₄" improving the exhaust flow
- Available with either show-quality Quad Chrome finish or Sinister high-temp black ceramic coating; Sinister black retains heat inside the pipe to maximize power while the outer surface remains cooler than chrome pipes
- 2¹/₂" full coverage heat shields
- Removable baffles ensure tuning requirements of today's fuel-injected motors while emitting a deep, guttural tone
- O₂ sensor ports accept OEM and aftermarket sensors
- Made in the U.S.A.

NOTE: 86-06 FXST, FLST applications will require the separate purchase of O₂ sensor port plugs; see page 599.**FOR 12-17 FXS/FLS/FLST MODELS (EXCEPT FXSB/SE)**

firebrand
ANYTHING BUT NEUTRAL
FIFTY TWO52 2-INTO-1 SYSTEMS

- Named after the rpm point at which an engine's horsepower curve equals its torque, these systems were engineered with one priority: performance
- 4" x 12" long muffler bodies with 20° upsweep
- Proprietary Powercurve, True-Merge Collector, 1³/₄" matched ratio head pipes maximize horsepower and torque
- Race inspired, 2.5" stainless steel, high-performance baffle delivers a deep race tone
- Compatible with 12mm, 18mm and 18mm wideband oxygen sensors
- Include full coverage head pipe heatshields
- Baffles are removable and repackable
- Made in the U.S.A.

NOTE: Requires removal of passenger footpeg for proper installation.

AKRAPOVIČ FOR SOFTAIL

1801-0535

SLIP-ON MUFFLERS

- Unmatched European craftsmanship, outstanding performance, design, and of course the unmistakable deep resonant sound of Akrapovic; here with an Optional Sound Valve System that can even be adjusted on-the-fly
- Highest quality materials are used throughout, including Austenitic ("surgical grade") stainless steel along with show-quality chrome plating and Silicone-based black powder coating as listed
- Optional Sound Valve Systems are available separately; see page 590
- Dresser muffler bodies with end cap measure 20" L (29" overall length with subheader pipe installed) and are 4 1/2" W x 3 1/2" T at polygonal exit that tapers to 3 1/2" round inlet end
- Includes mufflers, subheaders with heat shields, clamps and complete installation instructions
- Sold in pairs

**3 1/2" MIKUNI P.A.T. CORE SLIP-ON MUFFLERS**

- Mikuni's Joe Minton designed these hot slip-on mufflers that provide maximum performance when used with the Mikuni P.A.T. System
- Muffler contains a special straight-through core for the least-restrictive exhaust flow that produces more power and a blood-churning sound
- Core is wrapped with Silent Sport™ packing for superior sound and greater durability than ordinary fiberglass
- Mufflers do not include end caps; end caps are available separately; see page 509
- Sold in pairs
- Made in the U.S.A.

**VANCE
& HINES**
SWITCHBACK DUALS WITH SLIP-ON MUFFLERS

- Designed exclusively for the new Dyna Switchback, Vance & Hines introduces complete exhaust systems that bring the classic look of true duals to the Switchback, paired with either Twin Slash Round or Monster Round slip-on mufflers
- Feature beautifully crafted chrome-plated mounting brackets for the mufflers that look great on the Switchback even when riding without the saddlebags
- All Switchback Duals feature full-coverage heat shields over the head pipes
- 4" Round Twin Slash slip-on mufflers are marked by the signature V&H twin slash end treatment and put out a nice aggressive rumble that can be toned down with optional sound inserts PART #1861-0593 (sold separately)
- 4" Monster Round slip-on mufflers with CNC-machined billet end caps pulse with the same deep rich tone as Monster Rounds on Touring models
- Include flat plane mounting panel for the 12mm oxygen sensors utilized on the Dyna Switchback, which positions the sensor deeper into the exhaust stream, providing enhanced data feedback to the ECM

FOR DYNA GLIDE

SPEEDSTER EXHAUSTS (WITH POWERPORT) AND RACEPRO TIPS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Available in short style with RacePro Tips
- Large 2.5", 222", full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility
- Made in the U.S.A.

FOR DYNA GLIDE

1800-2095

909 2-INTO-2 EXHAUST SYSTEMS

- Unique blend of performance, sound, style and price
- Class leading power
- Expanded end and rolled tips
- Bodies expand from 3" at the front to 3 1/2" at the rear
- 2" constant velocity cores for exceptional sound and performance
- Bonded e-glass and stainless steel mesh baffles
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
FOR 12-17 FXD/FXDWG		
1800-2095	Chrome	\$399.95
1800-2096	Black	419.95

1800-2097	Chrome	\$399.95
1800-2098	Black	419.95

SPEEDSTER LONG EXHAUST

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2.5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Show-chrome heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility
- Made in the U.S.A.

PART #
1800-1829

DESCRIPTION	SUG. RETAIL
For all 06-11 Dyna models	\$659.95

SPEEDSTER SHORT EXHAUST

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2.5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility
- Made in the U.S.A.

FOR DYNA GLIDE

OPEN LINE 2-INTO-2 SYSTEMS

- Unmatched European craftsmanship, outstanding performance, design, and of course the unmistakable deep resonant sound of Akrapovic all come together here in these 2-into-2 systems
- Highest quality materials are used throughout, including Austenitic ("surgical grade") stainless steel along with show-quality chrome plating or Silicone-based black powder coating
- Systems feature Akrapovic's in-house designed and tested, high-performance removable silencer insert design for incredible power and famous sound – not old-school baffling
- Systems include header pipes, muffler bodies, heat shields, mounting hardware, O₂ sensor bung plugs for non-sensor applications and complete installation instructions

STRAIGHTSHOTS ORIGINAL

- All Straightshots feature full-length, chrome 220° coverage heat shields that are each plasma-arc cut from a full piece of tubing that matches the bodies exactly for a perfect, non-blueing, fat pipe look
- Feature 1 $\frac{3}{4}$ " headpipes with 2 $\frac{1}{4}$ " bodies
- Customize Straightshots with one of the unique, optional, plasma-arc cut Hot Tips that can be mounted and rotated in two different angles for different looks; or run Straightshots straight
- Hot Tips are available separately and sold in pairs
- Removable baffles provide powerful sound but tone down the bark of normal straight pipes
- Systems include all necessary mounting hardware and instructions for a hassle-free, perfect fit every time
- Made in the U.S.A.

SERIES
BY
SAMSON

LEGEND SERIES EXHAUST SYSTEMS

- Legendary style and function that could only come from Samson
- Boost horsepower and torque by up to 20% while also improving fuel efficiency
- Stepped headpipes run from 1³/₄" to 2¹/₄" improving the exhaust flow
- Available with either show-quality Quad Chrome finish or Sinister high-temp black ceramic coating; Sinister black retains heat inside the pipe to maximize power while the outer surface remains cooler than chrome pipes
- 2¹/₂" full coverage heat shields
- Removable baffles ensure tuning requirements of today's fuel-injected motors while emitting a deep, guttural tone
- O₂ sensor ports accept OEM and aftermarket sensors
- Made in the U.S.A.

ROAD RAGE 2-INTO-1 SYSTEMS

- Stepped headers merge into a true reverse-cone megaphone muffler
- $1\frac{3}{4}$ " headpipe steps up to $1\frac{7}{8}$ " into the collector to increase flow and improve performance
- 4" muffler body with billet end cap
- Removable spiral-core louvered baffle included
- Include mounting hardware
- Available in long (24") and short (12") muffler lengths with chrome or black finish unless noted
- Heat shields included
- Made in the U.S.A.

FOR DYNA GLIDE

**ROAD RACE II MEGA POWER 2-INTO-1 SYSTEMS**

- Designed specifically to address the needs of tuned motors built for high-horsepower applications
- Features equal-length 1 $\frac{3}{4}$ "-1 $\frac{7}{8}$ " stepped headpipes
- Tapered megaphone-style muffler body with 4" black billet end cap with contrasting machined flutes
- Include full-coverage heat shields
- Oxygen sensor ports and plugs (12mm and 18mm)
- Include removable baffle
- Optional Pseudo left-side megaphone mufflers available for Bagger models for that twin-muffler look; include matching non-functioning (no baffle) muffler with black billet end cap and contrasting flutes
- PART #s 1800-1282 and 1800-1283 are stepped 3x (1 $\frac{3}{4}$ "-1 $\frac{7}{8}$ "-2") and are for 125+ horsepower applications

**ROAD RAGE III EXHAUST SYSTEM**

- 2-into-1 stepped equal-length headers – 1³/₄" to 1⁷/₈" designed for maximum performance
- Utilizes an advanced inner collector for maximum performance
- Stainless steel 304 construction
- 18mm O₂ ports with 12mm adapters and plugs
- Better ground clearance and fitment
- Brushed billet end cap included
- Fits mid-control models only
- Upper rear heat shield included
- Hand TIG welded
- Removable baffle
- Made in the U.S.A.

NOTE: Designed to fit with stock OEM cam cover only

NOTE: Qualified Manufacturer Declared Replacement Part for 1991-1994 FXD, 2006-2007 FXD

RIOT 2-INTO-1 SYSTEMS

- Aggressive design and 2-into-1 performance collide in the ultimate upgrade system with attitude
- The innovative 4 $\frac{1}{2}$ " tapered end cap with precision-channelled profile and competition body style defines the bold look of the Riot
- MagnaFlow's signature Hi-Flow, louver core puts the power to ground with increased dynamic performance over stock
- Durable Magna-Black coated, stainless steel stepped headpipes will not rust, fade or blue
- Bold 2 $\frac{1}{2}$ " heat shields and laser-cut junction cover add major style points
- The Riot will turn heads with its one-of-a-kind custom look and throaty, rumbling sound statement
- The Riot is the ideal choice for tuned engines
- 12mm and 18mm O₂ sensor ports allow for maximum tuning options; sensor plugs included for non-sensor applications
- All feature gloss black end caps
- Made in the U.S.A.

NESS-COMP® 2-INTO-1 SYSTEMS

- The Ness-Comp is designed to enhance the overall performance of your bike through the power band
- The Ness-Comp features non-blueing, Magna-Black coated, stainless steel 1 $\frac{3}{4}$ " stepped headpipes
- The 4 $\frac{1}{2}$ " accent cut, gloss black end cap offers contrast style to this performance 2-into-1 system
- 2 $\frac{1}{2}$ " full-coverage heat shields and precision laser-cut junction cover gives your bike a dramatic sleek look
- The Ness-Comp features 12mm and 18mm O₂ sensor ports for maximum tuning options; sensor plugs included for non-sensor applications
- The ideal choice for tuned engines that demand improved flow or stock engines looking for more output; the Pro-Flow, three-step, perforated core maximizes power over stock while delivering deep, rich unmatched sound quality
- Made in the U.S.A.

F-BOMB® 2-INTO-1 SYSTEMS

- The aggressive custom-look F-Bomb is engineered to increase power with an attitude
- Discover ground-pounding performance with unmistakable style and sound
- The F-Bomb features durable Magna-Black coated, stainless steel 1 $\frac{3}{4}$ " stepped headpipes that will not rust, fade or blue
- The innovative 4 $\frac{1}{2}$ " inverted gloss black end cap sets inside a competition-style body for a mean and nasty look on your bike
- The 2 $\frac{1}{2}$ " full-coverage heat shields and precision laser-cut junction cover add style points to this upgrade system
- 12mm and 18mm O₂ sensor ports allow for maximum tuning options; sensor plugs included for non-sensor applications
- The dyno-tuned perforated core of the F-Bomb delivers a deep, dominant roar through the power band
- Made in the U.S.A.

GENERAL**POWERPRO HP
2-INTO-1 RPT EXHAUST**

- This updated 2-into-1 exhaust system provides real-world performance gains matched by the deep throaty rumble you expect
- The 4" muffler body produces a deep rumble, and is capped off with a machined aluminum, powder-coated matte black RacePro Tip (RPT)
- 222° heat shields and Cobra's unique collector give your bike an aggressive appearance
- Internally, the muffler uses the same sound-control technology as Cobra's Bagger slip-on mufflers, providing one of the deepest tones available
- Muffler body is constructed to prevent blueing
- Made in the U.S.A.

NOTE: Does not work with passenger foot pegs.

**FIFTY TWO52 2-INTO-1 SYSTEMS**

- Named after the rpm point at which an engine's horsepower curve equals its torque, these systems were engineered with one priority: performance
- 4" x 12" long muffler bodies with 20° upsweep
- Proprietary Powercurve, True-Merge Collector, 1³/₄" matched ratio head pipes maximize horsepower and torque
- Race inspired, 2.5" stainless core, high-performance baffle delivers a deep race tone
- Compatible with 12mm, 18mm and 18mm wideband oxygen sensors
- Include full coverage head pipe heatshields
- Baffles are removable and repackable
- Made in the U.S.A.

NOTE: Requires removal of passenger footpeg for proper installation.

COMPETITION SERIES 2-INTO-1 EXHAUST

- Available in brushed stainless steel or black ceramic powder-coated stainless steel to provide significant weight savings over stock
- Stepped headpipes and full merge collector for maximum performance
- Tuned length megaphone
- Slip fit collector joints with two dual swivel end retention springs
- Racepack EGT fittings in both headpipes
- Includes O₂ sensor port plugs for non-sensor applications
- Flat plane 12mm and quick access 18mm oxygen sensor ports for wideband tuning capability
- Designed and made in the U.S.A.

NOTE: Stainless steel systems will naturally discolor, this is expected and considered normal. High performance engine tuning utilizing a dynamometer will likely result in severe discoloration.

NOTE: Not for models with saddlebags.

BIG RADIUS 2-INTO-1

- Traditionally viewed as the kind of pipe merely designed for performance, Big Radius 2-into-1 breaks the mold, delivering white-knuckle performance with the style that has won over the motorcycle public
- Incorporating blue-proof technology across the entire length of the pipe, Big Radius 2-into-1 will keep its showroom finish whether at the dragstrip or on the boulevard
- Includes mounts for factory O₂ sensors as required
- Made in the U.S.A.

NOTE: Will fit FXD/FXDC/FXDL/FXDWF models if passenger pegs are removed.

Back view of collector

PRO-PIPE HS

- 2-into-1 Pro-Pipe is the system Byron Hines developed when Vance & Hines decided they wanted to make the absolute best-performing pipe on the market for Harley motors
- Meticulous engineering; a hand-made race collector and specifically designed head pipes produce maximum scavenging of spent exhaust gases, then a special baffle system provides just the right sound
- Collector design is blue-proof
- Superior fit when compared to other 2-into-1 systems
- Chrome finish; true full-length 220° wrap heat shields
- Removable baffle and all mounting hardware included
- Made in the U.S.A.

NOTE: For 03-05 Dyna applications you must use exhaust flanges OEM #65328-83.

SPEEDSTER SHORT SWEEP EXHAUST SYSTEMS

- PowerPort crossover makes for a significant power increase from just off idle to redline, which leads to a deep and aggressive exhaust tone
- PowerPort increases power and overall performance by providing superior scavenging of exhaust gases over most standard exhaust systems; similar to what you might expect from a 2-into-1 system
- Large 2.5", 222°, full-length heat shields fit from the exhaust ports to the billet tips for a seamless look and no blueing
- System is a shortened version of Cobra's successful Sweep Speedster line of exhausts, but in a shorter, more radical design
- Show-chrome or black finished heat shields with beautifully machined chrome billet end caps for a truly custom finish
- Includes mounting hardware and removable baffles for simple installation
- Power with social responsibility
- Made in the U.S.A.

NOTE: Requires removal of passenger footpegs.

FUSION

FUSION EXHAUST SYSTEMS

- Not tame or mild, these pipes will definitely draw attention to your ride
- Sound is not obnoxious, but a deep, strong rumble
- Mufflers feature hexagon-shape exhaust tips with robotic welds
- Heat shields are stamped steel with edgy designs
- Exhaust tips are curved to direct heat away from the saddlebags
- Will work with saddlebag extensions and passenger footpegs
- Not designed for use with the OEM air cleaner; aftermarket air cleaner and performance fuel management module are highly recommended
- Include O₂ sensor ports and necessary plugs for all year applications
- Made in the U.S.A.

WIDOW XR 2-1-2 SYSTEM

- There's no better way to squeeze out the full potential of the XR's high-output motor than with the Vance & Hines Widow XR
- Employs performance tuned headers with a Power Chamber crossover and twin 3 1/2" high-flow mufflers
- Yields solid power gains and adds a menacing growl that'll make riders feel like they're at the grand nationals
- Race-quality black ceramic finish
- Optional quiet baffle lowers sound 2-4 db
- Made in the U.S.A.

**MEAN MOTHERS™
DRAG PIPES**

- SuperTrapp's Mean Mothers are now meaner and more powerful
- True 2 1/2" stepped-performance pipes that post impressive performance gains on stock or built engines
- A host of features: pre-installed, easy-to-remove baffles, sturdy and simple bracket system with fewer hardware pieces and pre-installed heat shields with OEM fasteners
- OEM fasteners on heat shields can be "broken" to replace just the heat shield, if necessary
- Standard end caps included
- Choose from optional slash-cut and turnout end caps; both are infinitely adjustable
- Made in the U.S.A.

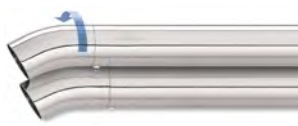

NOTE: O₂ sensor plugs included for 04-06 XL applications.

**RIOT 2-INTO-1 SYSTEMS**

- Aggressive design and 2-into-1 performance collide in the ultimate upgrade system with attitude
- The innovative 4 1/2" tapered end cap with precision-channeled profile and competition body style defines the bold look of the Riot
- MagnaFlow's signature Hi-Flow, louver core puts the power to ground with increased dynamic performance over stock
- Durable Magna-Black coated, stainless steel stepped headpipes will not rust, fade or blue
- Bold 2 1/2" heat shields and laser-cut junction cover add major style points
- The Riot will turn heads with its one-of-a-kind custom look and throaty, rumbling sound statement
- The Riot is the ideal choice for tuned engines
- 12mm and 18mm O₂ sensor ports allow for maximum tuning options; sensor plugs included for non-sensor applications
- All feature gloss black end caps
- Made in the U.S.A.

SPORTSTER 2-INTO-1 EXHAUST

- Class-leading performance mated to new styling
- 1.75" headpipes covered with 2.25" heat shields
- Front headpipe is tucked considerably inboard and upward, providing ample foot room
- Collector mates the front headpipe to the rear, merging behind the footpeg
- Muffler is a Race Pro style expanding from 3.5" to reach 4" at the tip
- 2.5" perforated stepped core is wrapped in proprietary resonance absorption and prevention materials giving the system a deep rumble
- Satin black aluminum tip uses seven 12-point zinc plated bolts to hold it in place
- Requires removal of passenger footpegs
- Made in the U.S.A.

FIFTY TWO52 2-INTO-1 SYSTEMS

- Named after the rpm point at which an engine's horsepower curve equals its torque, these systems were engineered with one priority: performance
- 4" x 12" long muffler bodies with 20° upsweep
- Proprietary Powercurve, True-Merge Collector, 1 $\frac{3}{4}$ " matched ratio head pipes maximize horsepower and torque
- Race inspired, 2.5" stainless core, high-performance baffle delivers a deep race tone
- Compatible with 12mm, 18mm and 18mm wideband oxygen sensors
- Include full coverage head pipe heatshields
- Baffles are removable and repackable
- Made in the U.S.A.

NOTE: Requires removal of passenger footpeg for proper installation.

1800-1939 ¹	Chrome	\$749.95
1800-1940 ¹	Black ceramic	799.95

¹ 04-06 models require O₂ sensor plugs available separately.COMPETITION
SERIES

2-INTO-1 EXHAUST

- Available in brushed stainless steel or black ceramic powder-coated stainless steel to provide significant weight savings over stock
- Stepped headpipes and full merge collector for maximum performance
- Tuned length megaphone
- Slip fit collector joints with two dual swivel end retention springs
- Racepack EGT fittings in both headpipes
- Includes O₂ sensor port plugs for non-sensor applications
- Flat plane 12mm and quick access 18mm oxygen sensor ports for wideband tuning capability
- Designed and made in the U.S.A.

NOTE: Stainless steel systems will naturally discolor, this is expected and considered normal. High performance engine tuning utilizing a dynometer will likely result in severe discoloration.

NOTE: Not for models with saddlebags.

**COMPETITION SERIES 2-INTO-1 EXHAUST**

- Available in brushed stainless steel or black ceramic powder-coated stainless steel to provide significant weight savings over stock
- Stepped headpipes and full merge collector for maximum performance
- Tuned length megaphone
- Slip fit collector joints with two dual swivel end retention springs
- Racepack EGT fittings in both headpipes
- Includes O₂ sensor port plugs for non-sensor applications
- Flat plane 12mm and quick access 18mm oxygen sensor ports for wideband tuning capability
- Designed and made in the U.S.A.

NOTE: Stainless steel systems will naturally discolor, this is expected and considered normal. High performance engine tuning utilizing a dynamometer will likely result in severe discoloration.

NOTE: Not for models with saddlebags.

PART #	DESCRIPTION	SUG. RETAIL
BRUSHED STAINLESS STEEL		
1800-1494	For all 02-17 VRSC V-Rod models (except 06-08 VRSCR, 09-17 VRSCF)	\$799.99

**V-5 2-INTO-1 SLIP-ON 3/4 EXHAUST SYSTEM**

- The ultimate pipe for your V-Rod
- SuperTrapp's external disc technology is incorporated into the company's first 5" pipe for motorcycles
- Provides a significant horsepower increase and deep throaty exhaust note; mounts to the stock headpipe
- Weighs a whopping 21 lb. less than the stock system and tips the scales at a mere 12 lb.
- Tunable disc system gives the rider the flexibility to set up the pipe for a specific type of riding (includes 12 5" discs)
- By adding discs, exhaust sound and top-end power increase; by removing discs, low-end torque increases and exhaust note decreases
- Features triple-chrome-plated mid-pipe, heat shield and canister, stainless steel core and polished billet aluminum end cap
- Uses OEM headpipes
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1801-0295	For 07-08 VRSCX/AW/AWA models	\$1,148.95

OPTIONAL SOUND VALVE SYSTEMS FOR SLIP-ON MUFFLERS

- The perfect complement to Akrapovic's Slip-On Muffler line allows riders to easily adjust for the sound level they want without ever leaving the bike, or getting their hands dirty
- World Class design and function uses investment cast stainless steel housings and high-temperature graphite bearings throughout
- Valve systems are cable-actuated through a hand control that is mounted on-bike where owner can reach it
- At every setting there is still the unmistakable, deeply resonant sound of Akrapovic
- Sold in pairs
- Available with chrome or matte black heat shield as listed

SOUND REDUCTION KIT

- Easy, bolt-in sound reduction for 3" HP-Plus® mufflers
- Takes off 4dB at idle and improves low-end torque – minimal loss of top-end horsepower
- The machined discs with tapered bosses fit into each end of the patented resonator near the exit end of the mufflers and are retained by the supplied bolts and nuts
- This kit is designed to use with three-ball style resonators that are 6.50" long
- Will also fit most other mufflers (four-ball style resonators) if 1/4"-20 x 11.00" threaded rods are substituted for the supplied bolts
- Installation requires removal of the mufflers
- Kit includes machined discs and two 7.50" 1/4"-20 bolts and two prevailing torque nuts
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1861-0806	Sound reduction kit	\$24.95

1861-0926

DUO, MUFFLER AND EXHAUST PIPE CLAMPS

- Muffler clamps provide a clean, custom solution for securing practically any slim-fit muffler or bolt-on exhaust accessory to the end of 1.75" OD exhaust pipes; the 6061 T-6 billet alloy clamps are specifically designed to finish the look of Biltwell mini mufflers on custom pipes, but will work with other muffler brands so long as the mounting flange OD doesn't exceed 1.90"
- Muffler clamps include a threaded stainless steel insert inside the clamp that accepts 5/16"-18 mounting hardware (two Allen cap bolts included); long Allen cap bolt with Nyloc® nut screws through the alloy body to provide an additional location for fastening a custom hanger or mounting bracket
- Pipe clamps only fit around 1.75" OD straight pipes; they will not fit over the slip joint on a Biltwell or any similar aftermarket muffler
- Sold each

HEADER WRAP KIT

- Kit features laser-cut Vance & Hines wrap clamps, black header wrap tape and locking stainless steel ties
- Black, fiberglass composite wrap tape helps lock in the heat and reduces the radiant heat a realistic 50%
- Kit includes 25' roll of black wrap tape, 2 Vance & Hines Wrap Clamps and 6 locking stainless steel ties, enough to wrap two motorcycle headers thoroughly
- Made in the U.S.A.

VANCE
HINES

IMPORTANT NOTICE: Use of this Vance & Hines Header Wrap Kit (PART #1861-0622) may void all warranties of the exhaust system that this Kit is applied to. Header Wrap functions to insulate heat generated by exhaust gases flowing through the head pipe, thereby raising the head pipe temperature beyond its intended operating temperature. Using heat wrap may compromise the integrity of the head pipe material, and may ultimately lead to cracks in the head pipe and will not be covered under warranty. Use of header wrap on an exhaust system is a modification to, and not a normal use of, an exhaust system. This notice is intended to inform the buyer to consider this possibility before using this product.

PART #	DESCRIPTION	SUG. RETAIL
1861-0622	Black exhaust wrap kit	\$89.99

DISCLAIMER: NOT LEGAL FOR SALE OR USE IN CALIFORNIA ON ANY POLLUTION CONTROLLED MOTOR VEHICLES.

**MATRIX HEAT SHIELD™
EXHAUST WRAPS**

- 1" and 2" W rolls offer better heat resistance and a custom look you will not find with any other exhaust wrap
- Made from crushed volcanic rock; 25% stronger than a typical fiberglass wrap
- Weather and chemical resistant

**HIGH-TEMPERATURE
EXHAUST WRAP KITS**

- Wraps will increase power and reduce radiated exhaust heat
- Kits include 25' L, 2" W or 50' L, 1" W top-quality high-temperature wrap and four stainless-steel tie wraps for that finishing touch
- Wraps can withstand up to 1,200° continuous and 2,000° intermittent
- Available in black, tan or Matrix, which features a carbon-fiber look
- Replacement 4-pack exhaust wrap clamps are also available

1861-0672

STAINLESS STEEL WORM CLAMPS

- Feature a narrow design with a low-profile head
- Secure exhaust heat wraps or can be used any place extra clamping is needed in extreme temps or conditions
- Come in two sizes
- Sold in packs of four
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1861-0672	1.25"-2.25" diameter	\$15.95
1861-0673	2.25"-3.25" diameter	15.95

1861-0671

STAINLESS STEEL CABLE TIES

- Great for high-temperature areas
- Ball bearing and barb fastening assembly
- Locks tightly and will not slip
- Secure any place an extra strength tie is needed
- Comes in 8" or 14" lengths
- Sold in pack of five
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1861-0671	8"	\$11.95

**O₂ SENSOR BUNG ADAPTER KIT**

- Reduces 18mm bungs to 12mm for 10-15 model sensors
- Includes extension wire to allow the front sensor to reach the new installation location
- Kit includes two adapters, extension wire, wire connectors and instructions

PART #	DESCRIPTION	SUG. RETAIL
1861-0594	O ₂ sensor bung adapter kit	\$24.95

**O₂ SENSOR HARNESS EXTENSION**

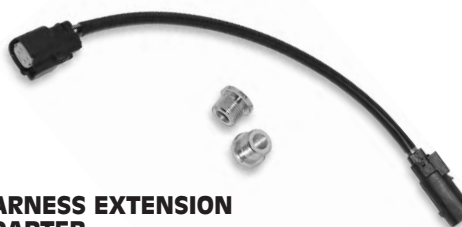

- 6" extension harness with easy fit connectors
- Provides added slack to the rear 18mm O₂ sensor harness to allow easy hook-up; ideal for use on 10-13 XL models when using a competition series 2-into-1 exhaust
- No cutting or splicing required
- Sold each
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1861-0827	O ₂ sensor harness extension	\$29.99

**O₂ SENSOR HARNESS EXTENSION AND BUNG ADAPTER**

- Now you can use 09 Dresser exhaust pipes on 10-16 Dresser models
- Reduce the 18mm O₂ bungs on 09 models to 12mm O₂ bungs found on 10-16 models
- Uses Namz simple Plug-N-Play wiring harness technology; no cutting or splicing required
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1861-0608	O ₂ extension harness	\$31.95

**O₂ SENSOR HARNESS EXTENSION AND BUNG ADAPTER**

- Allows the use of exhaust systems with 18mm O₂ sensor bungs to be used with late model bikes with 12mm O₂ sensors
- Reduces the 18mm O₂ bungs to 12mm O₂ bungs found on select 10-17 models
- Wiring harness comes pre-assembled with connector pins
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1861-0789	O ₂ extension harness	\$24.95

All part numbers in **BLUE** are new for 2017.

1861-0496

**O₂ SENSOR PLUG**

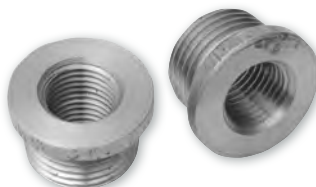

- Works with any O₂ sensor port fitting
- Two sizes available: 18 x 1.5mm or 12 x 1.25mm
- Sold each
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1861-0496	18 x 1.5mm	\$4.95
1861-0562	12 x 1.25mm	4.95

**O₂ PORT BUSHING ADAPTERS**

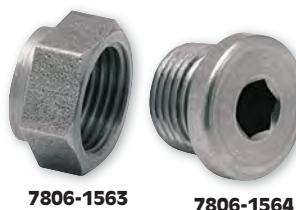

- Threaded outer and inner adapters reduce O₂ sensor port from 18mm to 12mm allowing riders to use our exhaust pipes on select, newer-model motorcycles
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1861-0784	O ₂ port bushing adaptors	\$11.95

**Daytona Twin Tec****O₂ SENSOR WELD-IN BUNGS AND PLUGS**

- Allows for easy installation of oxygen sensors
- Weld in sensor bungs and threaded plugs available in steel or stainless steel
- Sold each
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
WELD IN SENSOR BUNGS		
7806-1563	18mm x 1.5 steel	\$8.00
1861-0831	18mm x 1.5 stainless steel	12.00
SOCKET PLUGS

1861-0833	18mm x 1.5 stainless steel	12.00
1861-0832	12mm x 1.25 steel	8.00

**O₂ SENSOR PORT PLUGS**

- Allow non-sensor HD models to run newer-style exhaust systems equipped with O₂ sensor ports
- Simply screw into non-essential sensor ports
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1861-0790	18mm x 1.5	\$11.95
1861-0791	12mm x 1.25	11.95

1861-0790

1861-0560

1861-0694

O₂ WELD-IN SENSOR BUNGS

- Used to install O₂ sensors in exhaust systems
- Weld-in style
- Available in 12 x 1.25mm or 18 x 1.5mm styles
- Available in a standard straight style, or machined at a 45° angle
- Sold in pairs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
STRAIGHT		
1861-0560	18mm x 1.5	\$14.95
1861-0561	12mm x 1.25	14.95
45° ANGLE		
1861-0694	18mm x 1.5	24.95
1861-0695	12mm x 1.25	24.95

**O₂ SENSOR PORT PLUG KIT**

- Plugs SuperTrapp O₂ sensor ports when using exhaust on earlier H-D models that don't require an O₂ sensor
- Kit includes two 18 x 1.5mm plugs
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1860-0144	For all SuperTrapp exhaust w/ O ₂ sensor ports	\$51.95

**O₂ SENSOR PORT PLUG KIT**

- Kit allows select pre-closed-loop H-D models to run newer style exhaust systems equipped with O₂ sensor ports
- Includes two zinc-plated plugs with sealing washers
- Simply screw into nonessential sensor ports

PART #	DESCRIPTION	SUG. RETAIL
1861-0464	Sensor port plug kit, 18mm x 1.5	\$19.99

1861-0464

1861-0607

PART #	DESCRIPTION	SUG. RETAIL
1861-0607	Sensor port plug kit, 12mm x 1.25	\$19.99

**WELD-ON EGT BUNG**

- Allows installation of exhaust gas temperature meter
- Sold each

PART #	DESCRIPTION	SUG. RETAIL
1861-0525	EGT bushing	\$21.95

**O₂ SENSOR BUNG, PLUG AND WASHER**

- Available as a kit or individually
- Weld-in O₂ sensor bung allows installation of O₂ sensors in most exhaust systems; 18mm x 1.5
- O₂ sensor bung plug works with 18mm O₂ sensor bungs; 18mm x 1.5
- Aluminum bung plug washer fits any 18mm O₂ sensor bung plug

PART #	DESCRIPTION	SUG. RETAIL
1861-0728	O ₂ sensor bung, plug and washer kit	\$18.95
1861-0523	Weld-in O ₂ sensor bung	9.95
1861-0522	O ₂ sensor bung plug	8.95
1860-0545	Aluminum washer for O ₂ sensor plug	2.45

1861-0728
