**XL FORWARD CONTROL CONVERSION KITS**

- Late-model XL models with forward controls no longer allow the fitting of standard rider footpegs; these kits let you mount standard footpegs on the late model XL's with forward controls
- Also works as replacement footpeg mounts on select OEM and Drag Specialties forward control kits for 04-16 XL models
- Kits includes a left and right footpeg mount in either chrome or anodized black finish complete with mounting hardware
- Available in standard length or +2" extended length

NOTE: If converting standard forward controls to extended, a longer shifter linkage rod (10 1/4" long) is also required, available separately. We suggest using the 2" extension, PART #1601-0003 along with the original linkage rod.

PASSENGER FLOORBOARD TALL COMFORT KIT

- Utilizes your stock floorboards
- Choose from six "comfort" positions of height and tilt
- Provides up to 2 1/2" of additional leg room and widens the floorboards 1 1/2" to help ease hip stress
- Relieves calf stress by tilting the rear of the floorboards
- Relaxes your knees to reduce joint stress
- Install and adjust in minutes
- Made in the U.S.A.

PART #
1622-0243

DESCRIPTION
For 93-09 FLT/FLHT/FLHR/FLTR models

SUG. RETAIL
\$69.95

1621-0351

1621-0245

PASSENGER FLOORBOARD SHORT COMFORT KITS

- Provides two additional floorboard positions with blocks and three positions for the floorboards, five positions total both up and down
- Approximately 1 1/4" to 2" higher than the highest stock setting
- The tilted position places the floorboards at an ergonomic plane relieving stress in the legs and calves
- This tilted position also allows the passenger to push into the boards when cornering, which provides a more secure feeling
- Provides two additional spacing widths to add additional comfort by placing the floorboards wider apart
- The wider position allows passengers to relax their lower body, which takes pressure off of the inner thighs, knees and lower back
- Made in the U.S.A.

PART # **DESCRIPTION**
1621-0351 For 10-17 FLT/FLHT/FLHR/FLTR models

"RAIL" FOOT AND SHIFTER PEGS

- Another unique design from Drag and Arlen Ness
- Protective rubber rails run completely around diameter for great looks no matter how pegs rotate or pivot
- Each is precisely die-cast, chrome-plated aluminum
- End cap is super-clean and uses a grade 8 countersunk flat-head socket screw
- Very tight tolerances ensure a great-quality, superstrong footpeg assembly
- Carbon-steel pivot ends are stronger than other die-cast pivots
- Peg diameter is 1.5" (between a standard large-size driver and the smaller passenger-style pegs); length is 4" without pivot end
- Shifter peg matches footpegs
- Sold in pairs with pivot ends installed

NOTE: Will not fit 13-17 FXSB/SE, 11-13 FXS, 08-11 FXCW/C, 13-17 XL1200V/XL200X/XL1200C/XL1200CX models.

GENERAL**ADJUSTABLE SERRATED BILLET FOOTPEGS AND SHIFTER PEGS**

- Give your bike a unique design twist with these all-billet aluminum adjustable serrated footpegs
- Fully CNC-machined from solid 6061 T-6 bar
- Superstrong, yet lightweight two-piece construction
- The comfortable serrated foot surface area provides a good "bite" onto the bottom of your shoe
- Footpegs available in original or heel style with Joker's exclusive pitch adjustment screw that enables you to adjust the pegs to a "level" riding position (if necessary) so the pegs don't appear to "lay down" with time, vibration, etc.
- Feature full 360° footpeg rotation making them perfect for any application
- Serrated shift pegs have serrations on the top surface only, and the bottom side is smooth to provide non-shoe-damaging up-shifts – installs easily to most stock H-D shift arms with a threaded 5/16"-24 mounting hole
- New ribbed shift peg is our round version of the serrated peg – smooth round surface won't scuff the surface or heel of the boot when shifting the bike
- Available in your choice of natural clear anodized or our hard black anodized finish
- Male-mount footpegs are available in three different lengths and fit most models with standard Harley female footpeg mounts
- Footpegs sold in pairs; shifter pegs sold each
- Made in the U.S.A.

FOR ALL MODELS WITH STANDARD FEMALE FOOTPEG MOUNTS (EXCEPT 13-17 FXSB/SE, 11-13 FXS, 08-11 FXCW/C, 13-17 XL1200V/XL1200X/XL1200C/XL1200CX MODELS)

ROAD RACING FOOTPEGS AND SHIFTER PEGS

- Footrests feature an intricately CNC-machined tread pattern in the top surface for optimal footing
- Much lighter than stock and have an angled design for better road clearance when cornering
- Replace stock rubber or cast iron units
- Machined from solid blocks of 6061 T-6 billet aluminum
- Full 360° footpeg rotation makes these footpegs perfect for any application
- Male-mount footpegs have Joker's exclusive pitch adjustment screw to maintain the proper upward angle of the peg
- Dimensions 3¹/₄" L x 1¹/₄" W
- Shifter peg is fully CNC-machined from 6061-T6 aluminum
- Super strong, yet lightweight one-piece construction
- Installs easily to most stock H-D shift arms with a threaded 5/16"-24 mounting hole (replaces the stock rubber unit)
- Both footpegs and shifter peg are available in hard black or clear anodized finish
- Made in the U.S.A.

NOTE: Will not fit driver's position on 13-17 FXSB/SE, 11-13 FXS, 08-11 FXCW/C, 13-17 XL1200V/XL200X/XL1200C/XL1200CX models.

CRUISE ARM MARK III PEG MOUNTS

- One of Kuryakyn's most popular accessories
- Offers a wide range of adjustment for comfort on the road
- Adjustment range is limited when engine guards are installed
- Entire assembly mounts to the floorboard; reinforcing plate adds stiffness to the floorboards to keep flex to a minimum
- Installation requires drilling mounting holes in the steel floorboard base for the adjustable mount and floorboard reinforcing plate – stock rubber floorboard pads are not affected
- Sold in pairs

NOTE: Touring models require PART #1610-0227 for proper installation.
