**STRETCHED BOLT-ON TANK COVER KITS**

- Get the look of a custom stretched tank at a fraction of the cost
- Easy installation, no modifications or gluing needed
- Constructed of injection-molded polyurethane; requires minimal prep before painting
- Reuses the stock Dresser dash
- Covers measure approx. 24" long
- Designed to accept the OEM seats that came with the model bike; aftermarket seats may not fit the tank opening properly
- Detailed instructions included
- Manufactured by Bagster LLC
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL	PART #	DESCRIPTION	SUG. RETAIL
0701-0819	For 08-17 FLHX/FLHXS/FLTRX/FLTRXS	\$349.95	0701-0821	For 98-07 FLHT/FLHTC/FLHTCU/FLTR	\$349.95

**FRISCO STYLE GAS TANK LIFT KIT**

- Kit raises the front of the tank several inches, providing the Frisco look but without the cost of a new tank or paint job
- Bracket will lift the front of the tank approx. 3.5" center-to-center on the mounting holes
- Made from heavy-gauge steel with a machined spacer; welded and powder-coated for durability
- Install by removing your tank's front mount hardware, sliding the bracket in and using your stock hardware and the additional hardware included, then bolting the tank back on
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0704-0018	For 86-03 Sportster models	\$49.95

**WELD-ON GAS/OIL TANK TABS**

- Laser-cut 1/4" steel tabs are a great way to mount a custom gas or oil tank
- Kit includes two steel tabs and four rubber grommets
- Each tab measures 5.9" L x 1.18" W; two .83" holes are spaced 4.58" center-to-center; 1/4" thick
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0704-0009	Weld-on gas/oil tank mount kit	\$24.95

**CUSTOM MOUNTING KIT FOR FLATSIDE TANKS**

- Kit includes mount brackets, rubber mounts, hose protector, chrome-plated beveled washers and mounting screws
- Can be used to update the stock mounting hardware or for new constructions

PART #	DESCRIPTION	SUG. RETAIL
DS-391301	For 84 FXST and all 85-99 models w/ split tanks	\$61.95

**CUSTOM ONE-PIECE GAS TANK MOUNTING KIT**

- Kit includes front and rear tank mounts, rubber grommets and hardware

PART #	DESCRIPTION	SUG. RETAIL
DS-391648	For most aftermarket FXST, FLST one-piece tanks on 84-99 models	\$54.95

All part numbers in **BLUE** are new for 2017.

REPLACEMENT FUEL GAUGE CAPS WITH LED FUEL LIGHT

- Snap-in cap to replace the left side OEM fuel gauge
- Designed to match to RSD gas caps
- CNC-machined from billet aluminum
- Left-side cap features a built-in low-fuel LED warning light; push-in installation and wiring harness included
- User-programmable to light the LED at any pre-set fuel level
- Fits all bikes with a left-side analog gas gauge
- Interchangeable RSD logo badge (black and brass) (except Vintage style)
- Available in chrome, Contrast Cut™, Black Ops™ and Machine Ops™ finishes
- Made in the U.S.A.

GENERAL**FLIP-UP GAS CAPS**

- Cap portion is CNC-machined from solid 6061-T6 aluminum
- High-quality aircraft-grade stainless steel (no rust) components for trouble-free operation
- Easy installation and easy to use – no more rotating a screw-type cap risking paint damage every time you fill your tank
- Precise machining makes for smooth and positive latch operation and fuel seal, in comparison to “cast” parts found in other units
- Unique and simple mounting enables you to tighten the unit onto the stock tank, loosen three screws, then rotate the body into the correct position, then tighten with the use of a small Allen wrench (included)
- Just push the rear lever and you’re filling your tank, with no messing around with a removed cap
- Not for use with tank consoles
- Made in the U.S.A.

**GAS CAPS**

- A great replacement for your hard-to-remove stock gas cap
- Made with finger serrations or a knurled design for a much easier removal over the stock smooth-sided gas cap
- Super-clean and low-profile design features all CNC-machined billet aluminum construction throughout
- After being tightened down, serrated caps can rotate to any position to align design pattern
- Hard black anodized, chrome-plated or clear anodized finish
- High-quality gas cap base has right-hand threads and is vented
- Serrated caps are 3" diameter, 1/4" thick at the edge, and 9/16" thick in the center; knurled caps are 3" diameter, 1/4" thick at the edge, and 1/2" thick in the center
- Made in the U.S.A.

POWER-FLO™ FUEL VALVES

- Valves feature a brass body with show-quality chrome-plating, black chrome-plating or Old School Brass finish
- Substantially higher fuel flow compared to OEM or aftermarket fuel valve
- Necessary for adequate fuel delivery even on stock motorcycles and a must for high performance
- Available with 3/8" NPT or 22mm external threads
- Adapter nut included on 22mm threaded valves
- Made in the U.S.A.

NOTE: All descriptions are made from a seated position on the motorcycle with a reference from outlet position to the on, reserve and off position of the fuel valve lever.

NOTE: Not legal for street use in CA for all make/model year applications.

*Pass More Gas®***HIGH-FLOW FUEL VALVE WITH CUSTOM ROUND KNOB**

- Custom knob features a detent for positive "on" position with ball-milled grooves that give the valve a nice grip and a custom look
- Substantially higher fuel flow than OEM or aftermarket fuel valves
- Very universal; will work in any tank location
- Valve features a brass body with show-quality chrome plating
- Easy-to-read on, off and reserve positions
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0705-0033	22mm round; 180° outlet facing inward	\$152.95

**CHOPPER VALVE**

- Designed for use on bikes with custom fuel tanks that are raised high in front, which doesn't allow proper fuel pickup with a standard reserve fuel valve
- Keeps the bottom of the tank clean from fuel lines, giving universal options for mounting the fuel valve with mounting holes on the back of the valve
- Smooth, clean lines with a compact design that measures 2" L x 1 1/2" H x 1 3/8" D
- Easy-to-operate position selector knob with a ball detent for positive on/off/reserve locating
- Two 5/16" hose inlets with one 5/16" hose outlet
- Requires two hoses to be routed from the tank: one for on and one for reserve
- Provides exceptional fuel flow to feed the thirstiest big-inch motors
- CNC-machined from billet brass, polished and chromed
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0705-0042	Chopper valve	\$228.95

*Pass More Gas®***VACUUM FUEL VALVES**

- Have the highest fuel flow of any vacuum-style fuel valve on the market
- The same feature as OEM vacuum fuel valves – when valve is left in the "on" position with the motor off, fuel flow is shut off automatically
- High-quality, lustrous chrome finish is the same as Pingel's Power-Flo line of fuel valves
- Fits all 94-06 stock applications with 22mm external thread
- Will also fit 84-93 models if a vacuum source is tapped
- Outlet is a single 5/16" hose barb and will accept the stock vacuum line
- Made in the U.S.A.

NOTE: All descriptions are made from a seated position on the motorcycle with a reference from outlet position to the reserve position of the fuel valve lever.

PART #	DESCRIPTION	SUG. RETAIL
HEX STYLE

**POWER-FLO FUEL VALVE WITH 1/4" NPT INLET**

- Hex design with a polished aluminum finish
- Universal configuration – can be used in almost any tank location
- Can be installed with the hose barb pointing in any direction that leaves the on/res/off lever accessible
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0705-0098	1/4" NPT, 180° outlet facing inward	\$100.95

*Pass More Gas®***POWER-FLO™****FUEL VALVE REBUILD KIT**

- Designed to rebuild Pingel 3/8" NPT and 22mm single-outlet valves
- PART #DS-390225 includes all the special tools necessary, photos, instructions and enough components to rebuild three fuel valves
- PART #DS-390226 includes enough components to rebuild five fuel valves; does not include any of the tools
- A bench vise or press with a 6 1/2" or larger opening is necessary for installing a rebuild kit
- Made in the U.S.A.

NOTE: These kits are not designed for hose outlet down, dual or triple outlets, 1/4" NPT or race valves. Pingel recommends these valves be sent directly to them for rebuilding.

THE GUZZLER® FUEL VALVES

- This is a serious fuel valve for serious riders
- Hardcoat anodized billet aluminum and stainless steel construction
- Spring-loaded detents for positive on-off positioning; no reserve available
- Flows up to 211 ounces of fuel per minute
- Available with 3/8" NPT or 22mm inlets
- Some styles available highly polished for that custom look
- Made in the U.S.A.

NOTE: Not legal for street use in CA for all make/model year applications.

**PETCOCK**

- Constructed from triple-show-chrome-plated brass
- Features an adjustable 360° swivel outlet and clicking detent that allows for accurate and universal positioning
- Significantly outflows stock and modified petcocks

NOTE: Not for fuel-injected models.

PART #	DESCRIPTION	SUG. RETAIL
0705-0081	For stock and custom tanks w/ a 22mm outlet	\$85.95

**HIGH-FLOW FUEL VALVE WITH SWIVEL SPIGOT**

- Chrome fuel valve from Accel is designed to replace all right, left and rear spigot applications
- Unique design that incorporates a banjo-type spigot with a 180° swivel onto a high-flow fuel valve with a 22mm nut
- Fuel outlet nipple is 5/16"
- Features a 100 micron fuel screen

NOTE: Won't fit 3/8" NPT thread tanks.

PART #	DESCRIPTION	SUG. RETAIL
5106	High-flow fuel valve w/ swivel spigot	\$105.95

All part numbers in BLUE are new for 2017.

HIGH-FLOW CHROME PETCOCK

- Features on, off and reserve with an easy-to-use knob, 3/16" barbed fuel outlet and a fine wire-mesh screen
- Valve has 3/8" NPT threads and comes with the 3/8" NPT to 22mm adapter nut
- Fits all fuel tanks with 22mm outlet
- Features a 100 micron fuel screen

PART #	DESCRIPTION	SUG. RETAIL
5105	Accel high-flow petcock w/ nut	\$84.97

FUEL VALVES

- Features 1/4" NPT pipe thread on one end and a 1/4" barb on the other
- Available with straight or with 90° outlet
- Rugged steel construction with zinc plating
- Viton O-ring stands up to most commonly used fuels

PART #	DESCRIPTION	SUG. RETAIL
0705-0126	Straight outlet	\$14.99
0705-0128	90° outlet	19.99

"CLICK-SLICK" PETCOCKS

- Manufactured from 360 brass and stainless steel ball-bearings and components; available in either a chrome, black or raw brass finish
- Features detents for quick, effortless switching from "On" to "Reserve" to "Off"
- 90° movement between each detent ensures positive transition when riding
- Stainless steel internal ball bearings provide virtually friction-free petcock handle motion
- Valve position firmly held in place and unaffected by vibration
- Can be modified to fit custom tanks and/or be set to determine amount of reserve gas available with any custom gas tank
- Made in the U.S.A.

GAS IT FUEL INJECTION KIT

- Allows the use of custom fuel tanks on 01-05 fuel-injected Delphi models
- Relocates stock fuel pump, fuel pressure regulator, fuel filter and fuel level sending unit to underside of fuel tank (not included)
- Includes steel weld-in plate, 3.75" x 8" aluminum manifold, all hardware and instructions
- Tank bottom must be relatively flat to accommodate port installation
- Requires vented tank or vented gas cap
- Custom fabrication required
- Made in the U.S.A.

GENERAL**FUEL PUMP FOR
FUEL-INJECTED
CUSTOM BIKES**

- Pump can be mounted in nearly any tank
- Hollow mounting bolts secure the pump flange to the bottom of the tank and provide an outlet for wiring and pressurized fuel
- In-tank fiber filter prevents contaminants from damaging the pump or clogging fuel injectors
- Kit contains pump, in-tank filter, inlet hose, mounting hardware and instructions
- Pump specifications: 58 psi, 12.0 gal/hr, 5A draw
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
1009-0007	Fuel-injected fuel pump for custom applications	\$609.95

**BUELL FUEL
VALVE ADAPTER**

- Allows the mounting of any 22mm Pingel® fuel valve on Buell models
- Bolts in place of the stock fuel valve
- A must for modified motors that need a higher-flow-rate fuel valve
- Fuel valve must be purchased separately
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0705-0027	For all 95-02 Buell models, except fuel-injected models	\$48.95

0705-0055

0705-0030

**TANK FITTING KIT
FOR FUEL-INJECTION
TO CARBURETOR
CONVERSION**

- Use when converting from OEM fuel-injection systems to use a carburetor in order to deliver adequate fuel for large-displacement engines
- Kit replaces the factory tank fittings, allowing the use of a high-quality, high-flow Pingel fuel valve to feed the carburetor
- Made of stainless steel
- Kits include adapter and plug or adapter only with O-rings or gaskets
- See Pingel fuel valves on pages 1448-1450
- Made in the U.S.A.

NOTE: Due to tight tolerances in the tank fittings, a Pingel fuel valve is the only one that will fit.

PART #	DESCRIPTION	SUG. RETAIL
0705-0031	For 01-03 models w/ Delphi EFI (adapter and plug); for use w/ any Pingel 22mm valve	\$58.95

0705-0054	Fuel tank outlet plug	\$14.95

**FRISCO
STYLE STEEL
PETCOCK
BUNGS**

- These weld-on, extra-long, Frisco Style steel bungs allow you to set up a tank Frisco Style with the petcock mounted at the far rear of the tank for the maximum amount of miles out of that skinny chopper tank
- Long enough to cut at an angle or shorten if you desire
- Available with 22mm H-D style threads or 3/8" NPT internal threads
- Sold each
- Made in the U.S.A.

0502-0481

0502-0482

PART #	DESCRIPTION	SUG. RETAIL
0502-0481	22mm threads (2" L w/ 1 1/2" non-threaded area, 7/8" OD., 9/16" ID)	\$14.95

Where the action is!

**WELDLESS TANK BUNG**

- Use when an alternative fuel source is needed, like when installing a nitrous oxide "wet" kit on fuel-injected motorcycles or as a fitting for an oil tank
- Requires a 9/16" hole for mounting; will work with any tank up to 5/8" wall thickness
- 1/8" NPT internal thread size for hose barb
- CNC-machined from billet aluminum; includes a high-quality Viton® O-ring for a positive seal, a stainless steel nut and washer and an 80 micron filter
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0705-0043	Weldless tank bung	\$52.95

PINGEL
Since 1967

Pass More Gas®

IN-LINE FUEL FILTERS

- Pingel® high-flow custom fuel filters are available in aluminum machined satin or chrome finish
- Filters have a high-quality O-ring for a leak-proof seal
- Cleanable, reusable 40 micron filter element
- 1 3/16" body length; 1 1/8" o.d.
- Works great with Pingel's high-volume fuel valves
- Made in the U.S.A.

INTERNAL FUEL LINE

- Internal fuel line for pump to fuel filter on fuel-injected models
- Sold each

PART #	DESCRIPTION	SUG. RETAIL
0706-0229	For 02-07 Softail, 00-07 FLHT/FLHR models; repl. OEM #62357-00	\$9.95

**FUEL CHECK VALVE REBUILD KIT**

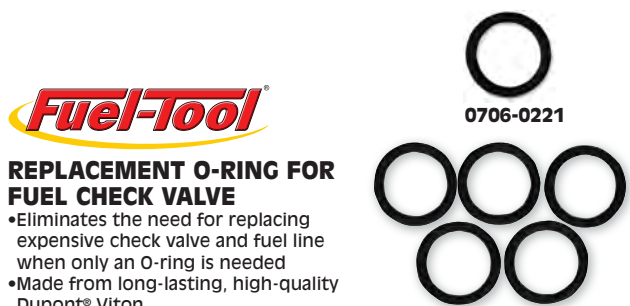

- The industry's first and only rebuild kit
- Eliminates the need for replacing expensive check valve and fuel line when only a rebuild is needed
- Made from long-lasting, high-quality Dupont® Viton O-rings, solid brass nickel-plated check valve and stainless steel springs
- Check valve rebuild kit installation tool PART #3850-0215 also available
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0706-0223	For 01-17 H-D models with Delphi fuel injection	\$11.95

**CHECK VALVE REPLACEMENT COLLAR KIT**

- Nickel-plated solid brass construction
- Makes rusty and weather-beaten check valves look new
- Installs in minutes; no special tools needed
- Saves money and days of bike down time by not having to replace the entire check valve
- Finger grip
- Unique design for easy use

PART #	DESCRIPTION	SUG. RETAIL
0706-0326	For all 00-17 H-D models w/ fuel injection	\$14.95

**REPLACEMENT O-RING FOR FUEL CHECK VALVE**

- Eliminates the need for replacing expensive check valve and fuel line when only an O-ring is needed
- Made from long-lasting, high-quality Dupont® Viton
- Sold to consumer as single, or 5-pack
- Made in the U.S.A.

14" UNIVERSAL FUEL CROSSOVER LINES WITH QUICK DISCONNECT

- Fuel crossover with quick disconnect features a steel or black textile braided hose with high-quality quick disconnect valve and attractive hose finishers for simple attachment to hose barbs
- Braided hose is compatible with gasoline, coolants and ethanol
- Chrome-plated quick disconnect features durable Viton O-rings to prevent leakage
- Stainless shut-off valves eliminate fuel loss during tank removal, and QD assembly is rated at 250 psi
- Universal design fits most models with split tanks

PART #	DESCRIPTION	SUG. RETAIL
0706-0188	Steel	\$106.95
0706-0219	Black textile	109.95

GOODRIDGE
FLUID TRANSFER SYSTEMS

IN-LINE FUEL QUICK DISCONNECT COUPLINGS

- Durable die-cast body constructed from chrome-plated brass
- Feature stainless springs, pin, latch, Viton® O-rings and acetal shutoff valves
- Barbed hose ends provide simple attachment to common 3/16", 1/4" and 5/16" hoses
- Double shutoff valves prevent fuel leakage during disassembly
- Perfect for fuel crossover or fuel line usage
- Couplings work up to 250 psi
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0706-0198	3/16" quick disconnect coupling	\$68.95
0706-0199	1/4" quick disconnect coupling	70.95
0706-0200	5/16" quick disconnect coupling	88.95

REUSABLE BUILD YOUR OWN OIL LINES AND -6 COMPONENTS

- Easy-to-assemble high-quality oil lines and fittings
- Feature stainless steel braided hose with PTFE inner liner or black textile braided hose
- PTFE liner is an inert material, compatible with all oils and hydraulic fluids, has a heat range of -106°C to 260°C (-158°F to 500°F) and shields oil systems from moisture, unlike other materials like nylon
- Fittings meet 96-hour salt spray testing and ship complete with sealing ferrule

PART #	DESCRIPTION	SUG. RETAIL
0711-0081	For 00-10 FXST/FLST models	\$56.95

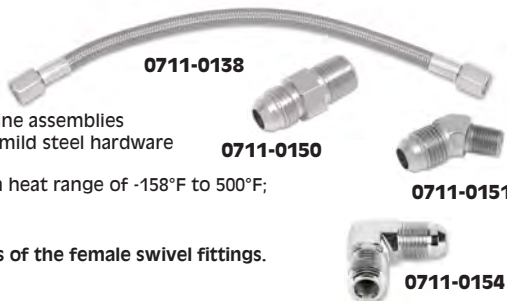

UNIVERSAL OIL LINES AND FITTINGS

- Stainless steel braid is superior in pressure rating, flame resistance, and volumetric expansion to all other materials, including rubber, resulting in unmatched durability
- Available in common lengths and match with female fittings to form complete oil line assemblies
- Feature stainless steel braided hose with PTFE inner liner and beautifully chromed mild steel hardware
- All hardware meets 96-hour salt spray testing
- PTFE liner is an inert material, compatible with all oils and hydraulic fluids and has a heat range of -158°F to 500°F; shields oil systems from moisture, unlike other materials like nylon
- Made in the U.S.A.

NOTE: Oil line lengths are determined by measuring the distance between the flares of the female swivel fittings.

GENERAL**UNIVERSAL BRAIDED HOSE AND FITTINGS**

- Your choice of black fabric braid or traditional stainless steel braided
- Pro flex hose features traditional stainless steel braided outer jacket with Russell's race proven CPE synthetic rubber inner liner
- Superior construction enhances bend radius, yet will not collapse under extreme heat
- Ideal for street use or full competition
- Pro classic hose utilizes a black nylon fabric outer braid over Russell's proven SPE synthetic rubber inner liner
- Lightweight and easy to work with
- Simplifies routing, cutting and assembly
- Has a great bend radius with a max pressure rating of 350 psi
- Engineered to work with Russell full-flow hose aluminum hose ends in straight 45° and 90° in AN -6 or -8 sizes
- Aluminum adapter fittings are available in wide combination angles and pipe thread sizes
- Hose ends and adapter fittings are available in two finishes, black anodized and Endura; Endura simulates the appearance of stainless steel

0712-0313

OIL FILTER MOUNTING BRACKET KITS

- Billet oil filter mounting bracket for Twin Cam engines was specially designed and created for the S&S 124" Twin Cam engines, but makes a great cosmetic and functional upgrade for engines built with stock Twin Cam crankcases as well
- No voids or other casting defects in the material to cause leaks
- Position of the filter has been shifted slightly to give additional clearance between the filter body and the crankcase for easier filter installation and removal
- Also machined to make it easy to install an oil cooler in the pressure-side of the system; if a cooler is not needed, simply install the pipe plugs in the threaded holes in the filter bracket, instead of the hose fittings
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
FOR 99-06 TWIN CAM (EXCEPT 06 DYNA) AND ALL S&S T-SERIES MOTORS

FILTROMAX UNIVERSAL REMOTE OIL FILTER MOUNTS AND BRACKETS

- The Lowbrow FiltrMax is the best solution yet for installing a high-volume aftermarket oil filter on your motorcycle
- Investment-cast aluminum body with a polished or black electroplate finish
- Threaded filter bung accepts standard replacement filters specific to your Big Twin
- Filter mount includes 1/8" NPT x 3/8" hose barbs and steel weld-on bracket for custom installation
- FiltrMax Big Twin Bracket (available separately) fits Big Twin and comparable S&S front motor mount bolt patterns and is designed to mount the Lowbrow FiltrMax Remote Oil Filter Mount between down tubes on custom motorcycles
- FiltrMax Big Twin Bracket is CNC-machined from 6061 T-6 billet aluminum
- FiltrMax Belt Drive Mounting Bracket lets you mount your FiltrMax Remote Oil Filter Mount to your Rivera Primo alternator cover on the open belt drive; oil filter and FiltrMax mount are tucked in out of the way; includes stainless Allen head mounting bolts
- Filter mounts and brackets sold separately
- Made in the U.S.A.

OIL FILTER MOUNTING KIT

- 6061 billet aluminum construction with a polished finish
- Optimized oil passages flow almost 30% more efficiently than others on the market, which means less oil pressure drop and cooler temps
- Designed to be used with any aftermarket oil cooler
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0712-0269	For 99-06 Twin Cam "A" motors (except 06 Dyna)	\$169.95

GENERAL**CUSTOM OIL FILTER MOUNT**

- Chrome filter mount features 1/4" NPT fittings and may be used with 3/8" stainless steel or rubber lines
- Accepts all Evolution style oil filters

PART #	DESCRIPTION	SUG. RETAIL
DS-275104	For 92-99 80" Evolution Big Twin models	\$39.95

**OIL HOSE COVER**

- Brighten an unfinished area on stock bikes
- Die-cast aluminum with a beautiful chrome finish
- Includes mounting hardware

PART #	DESCRIPTION	SUG. RETAIL
0940-0439	For 99-06 FLHT/FLHR/FLTR; repl. OEM #37946-99	\$39.95

KURYAKYN**DELUXE OIL LINE NACELLE COVER**

- Blankets the area between the cam cover and the transmission
- Covers the oil lines and the exposed clutch cable where it enters the transmission cover
- Easily installed

PART #	DESCRIPTION	SUG. RETAIL
0711-0155	For 07-17 FXST/FLST	\$79.99

KURYAKYN**OIL LINE COVER**

- Chrome cover hides that plain rubber oil line beneath the right side of your oil tank

PART #	DESCRIPTION	SUG. RETAIL
0711-0200	For 00-17 FXS/FXST/FLS/FLST (except FXSB/SE, FXCW/C)	\$39.99

OIL FILTER MAGNETS

- Easy to install – just attach to base of standard oil filter
- Standard oil filters only trap particles down to 20 microns, leaving the most harmful 5 to 20 micron particles to circulate through your engine
- Powerful six-point magnet traps harmful, abrasive hard metal particles down to one micron that regular filters don't
- Must-have item during engine break-in
- Invented by Dave Ashley and Dan Smith, winners of 17 Baja Off-road Championships, to help their race engines last through the extreme abuse of Baja racing
- Reduces wear and significantly increases engine life
- Available in sizes to fit most spin-on or cartridge oil filters
- Reusable for up to five oil filter changes
- Sold each

**OIL FILTERS**

- Sturdy steel canister houses the finest filtering media and internal components available
- Canister is slightly smaller in diameter than stock filters to make them easier to remove and install
- Designed with a direct bypass valve that routes bypass oil directly to the filter exit, which minimizes the amount of contaminants carried to the engine in the unfiltered bypass oil
- The nominal particle capture size is smaller than that of stock filters while the resistance to oil flow is nearly the same
- Sold individually or in packs of 12
- Available in black or chrome finish
- Made in the U.S.A.

PERFORMANCE OIL FILTERS

- K&N delivers a premium oil filter which is built with a synthetic media specifically designed to withstand the high concentrates of synthetic racing oils
- A large filter media provides high-flow rates and outstanding oil filtration to keep your motor running clean and smooth
- Uniform pleated synthetic filter media provides high capacity and outstanding filtration
- Synthetic Media allows for the higher-flow rates associated with synthetic and synthetic blended oils
- Protected by a heavy-duty canister and base plate, with a double-rolled seal
- Check-valve/anti-drain back valve prevents drain-back and dry starts (where applicable)
- Pre-lubed base gasket
- 17mm hex nut (pre-drilled for safety wire security) allows easy-on, wrench-off removal (where applicable)

OIL FILTERS

- The original Hiflofiltro factory was founded in 1955 and has been manufacturing filters for the OEM motor industry since 1963
- With the experience of more than five decades, constant research and development and featuring a completely modern production facility Hiflofiltro offers some of the best quality filters in the world
- TÜV approved and production monitored to ensure OEM or better quality
- Racing model features a 17mm nut for easy installation and a lock wire hole for safety wire
- Constructed using the best materials available
- One of the broadest ranges of aftermarket coverage
- Racing filters include a heavy-duty steel casing, a welded hex nut for easier removal and installation; filters are race track ready and pre-drilled for securing with safety wire, and include high-performance tri-fiber filter media for optimum filtration and consistent oil flow along with a premium rubber relief valve for 100% seal and are compatible with all oil types.

FLO STAINLESS STEEL, REUSABLE "SPIN ON" OIL FILTER

- Made from laser-cut, medical-grade, 304 stainless steel micronic filter cloth, this filter provides 200% more filter area in many cases
- Stainless filter catches items down to 35 microns, which is about three times better than most good paper or brass filters
- Unlike glued paper filters, the FLO Oil Filter pleat seam is welded and able to withstand up to 600 degrees
- Filters maintain consistent flow under all conditions including extreme heat, the presence of water, and cold start-ups where paper filters can flow so poorly that they often cause the bypass valve to open and allow unfiltered oil to enter your engine
- Anti-drain-back valves are not required for this filter
- Features black or polished billet aluminum housing
- Should be the last filter an owner ever needs; this high tech filter technology is widely used in all types of auto racing including NASCAR, Indy type cars, Formula 1 and in the Aerospace industry where filtration is of the utmost importance
- Clean the element, spring and housing with solvent, kerosene, contact/brake cleaner or any degreasing agent, even common dish soap and water; see HARDWARE, COVERS & GENERAL section for options (do not clean with gasoline)

**FORCEFLOW CYLINDER
HEAD COOLERS**

- The perfect solution for those hot running Twin Cam Touring bikes
- The only cooling system made for Twin Cam Touring bikes that consistently reduces operating temperatures up to 100 degrees
- High-tech, waterproof cooling fan pushes air around cylinders and cylinder heads
- Included temperature switch automatically turns the Force Flow on at 140 degrees
- At higher speeds air is directed in through side scoop and around cylinder head and cylinder
- Includes built-in quality OEM-type replacement horn
- Easy plug and play installation with no drilling
- Includes Force Flow assembly with high-powered fan, horn, temperature switch, manual override switch, wiring, hardware and complete instructions
- 110° motors require optional adapter mount (available separately)
- Made in the U.S.A.

NOTE: Not for "Twin Cooled" models with liquid cooled heads

**VERTICAL FRAME-MOUNT
FAN-ASSISTED KIT**

- Features the Jagg high-performance 10-row oil cooler kit with an integrated fan
- Designed to perform as well at low vehicle speeds and stop-and-go traffic as on the open highway
- Kit includes cooler, sealed-motor fan, oil hose, mounting hardware, automatic thermal fan switch wiring harness and Jagg offset oil filter adapter
- Fan turns on automatically at approximately 205°F
- Fan pulls a full 150 cfm of air across cooler
- HyperFlow technology ensures unsurpassed flow and heat rejection
- Made in the U.S.A.

PART #	DESCRIPTION	SUG. RETAIL
0713-0123	For 84-13 Dresser, 84-17 Softail, 91-17 Dyna and 86-17 XL (except Dresser models w/ ABS)	\$549.95

OIL COOLERS**Installation time measured in minutes****Extra riding time measured in years**

- Cooler oil makes engines last longer – simple as that!
- Jagg oil coolers feature cutting-edge technology to keep your engine cool under the most punishing conditions
- And because they're designed to look as good as they perform, they'll perfectly complement your bike's style
- All kits are supplied with all components for easy installation on models listed

Engineered to perform

- Multipass oil flow configuration ensures the oil's utilization of the entire oil cooler
- Specially designed turbulators in each oil passageway gently stir oil, exposing it to more critical heat dissipation surface area for superior cooling with minimal oil pressure restriction
- Highly concentrated mini-louvered air fins allow maximum heat transfer
- Made in the U.S.A.

GENERAL**OIL COOLER KITS**

- CNC-machined from billet aluminum with a chrome-plated or black finish
- Kits mount to frame tubes with supplied clamps and reducers
- Available with or without a temperature gauge
- Come with AN #6 fittings (use with -6 lines found in most speed shops)
- If using standard 3/8" hose, use breather fittings PART #DS-245263 (sold separately)
- Measure 12" L x 2.25" diameter
- Replacement clamps available separately

NOTE: Twin Cam models require an oil filter adapter or offset mount w/ oil line fittings.

**LP (LOW PERMEATION) FUEL LINES**

- Patented five-layer Greenshield™ barrier technology keeps fuel out of the environment, while delivering peak fuel efficiency
- Heat-, oil-, ozone- and abrasion-resistant cover
- Non-submersible fuel line types meet EPA 40 CFR 1051.110 and CARB E.O. #Q-09-019 requirements for low-permeation fuel lines
- DO NOT use fuel injection or carburetor fuel line for applications that require the fuel line be submersed in gasoline
- Fuel-injection fuel line is recommended for all fuel-injection applications
- Carburetor fuel line is not for use with pressurized fuel line applications, fuel-injection systems or cooling system applications
- Fuel injection and carburetor fuel line sold in 25' rolls and 2' lengths
