49-0681	Right/Bottom	FLT 1993-2013	White

49-0535

Stretched Saddlebag Bottom Set

- Includes right and left side with black unfinished surface.
- This saddlebag set is a perfect fit with all mounting holes that match stock locations, may re-use stock hardware for a true bolt-on experience. All mount holes are pre-drilled in stock location and pre-fit for the ease of installation.
- The bottoms are 2" deeper in the front than stock and 3" deeper in the rear, which gives these the stretched look.
- Designed for models with dual exhaust.
- Complete hinge, latch, and hardware kit is available separately for Road King riders looking to keep stock bags complete or for converting from leather covered bags. Order lids separately.

49-1135

VT No.	Item	Fits
49-1135	Black Stretched Bottoms	FLT 2014-up

49-3506

49-3507

3" Stretched Saddlebag Kit.

- Includes bags, lids, face plates, locks and mounting hardware.
- Bags are injection molded and have a smooth inside and outside surface. Bottoms are 2" deeper in the front, 3" deeper in the rear and have cutouts on both bags for dual exhaust.

VT No.	Fits
49-3506	1993-2013 FLT
49-3507	2014-up FLT

50-1135

50-1136

Saddlebag Filler Panels

- These kits fill in the gaps between the fender and the rear of the saddlebags, hiding the saddlebag mounting brackets.
- Available in chrome or gloss black finishes and smooth for bikes without a saddlebag guard or slotted for bikes with saddlebag guards.

Chrome	Black	Fits/Years	Type
50-1135	50-1136	1993-08	Smooth

51-0417	13¾"	Dark Tint

51-0426

51-0425

12" Wind Splitter Windshield

• A great look for all Touring models and is shaped for the perfect combination of effective air flow management and style. The sweeping design complements the shape of the fairing and the inner dash panel and adds height over a traditional low-profile wind-deflector in the center where it counts. The shape decreases wind noise and improves the ability to hear the motorcycle's sound system.

VT No.	Fits
51-0425	2015-up FLTR

51-0402

51-0403

The typical airflow pattern of the wake from most windscreens is called a van Karman vortex. At speeds of 50-90 mph, the air swirls off the windscreen in an approximate 90-degree segment of rotation, hits the bottom of the rider's neck on the way up, and curves off the shoulder at approximately 45 degrees.

The patented "V" shape is so quiet because it pushes this vortex out and away from the side of the rider's head. The rider's helmet then resides in still air, and the passenger's environment is greatly improved as well.

Reduced wind noise... less turbulence... superior strength... perfect style. The VStream revolution is here!

Narrow Profile Outer Primary Cover

- 1" narrower than the stock outer primary that will allow easier reach to the ground and is shaped to slim the bike profile on the left side. Stock replacement for all 2015-up FLT models but can be used on all 2007-14 FLT models, but requires the purchase of narrow type 2015-up derby cover and primary gasket service gasket kit.

Chrome	Black	Fits 1999-2006 FLT.

51-1601

51-1602

The Touring Torque Linkage System

- No modifications are necessary to install this unit. After the unit is installed it will eliminate the lateral movement while still allowing the Iso mounted factory design of the "floating" drive train to move vertically as designed through connecting the rear of the transmission case to the frame. The kit utilizes an isolation link with a urethane plunger so there is no contact between the frame and engine transmission assembly, therefore reducing vibration.
- 51-1602 includes outer mount bracket in chrome.

VT No.	Finish	Fits
51-1607	Chrome	FLT 1993-2008
51-1609	Black	FLT 1991-2008

51-1602	Chrome	FLT 1993-2008
51-1608	Black	FLT 2009-up

Note: Installation on 1993-2001 models require 27-1235 foot peg spacer set as shown. Purchase 27-1235 separately.

Touring Wide Swingarm Kit

- This new wide swingarm kit come complete with all bolt-on parts necessary to install without modification.
- Kits include new wide rear swingarm with a 1" axle, custom 14 gauge rear OE style fender, saddle bag support kit, drive components, billet primary spacers and all brackets and hardware necessary.
- Allows use of OE stock tail lamp, saddle bags and exhaust.
- Accepts 16" x 5.5" x 17" x 5.5" x 18" x 5.5" rear wheels and most tires up to 200mm wide.
- Requires a 20mm rear belt and pulley.
- Models with 18" rear tire, use OE brake caliper, models with 16" rear tire require a smaller custom brake caliper.
- Installation of a tour pak or backrest will require OEM detachable docking hardware.
- Fits 2002-06 FLHT, FLHR and FLTR touring models.

VT No.	Item
51-1252	Kit
51-1251	Replacement Swing Arm Only

1998-08 Frame for FLHR

Emissions and Noise Regulations

Important Information:

Disclaimer: The California Air Resources Board (CARB does not permit the use of aftermarket emission-related parts) that alter the performance of OEM emission-related devices unless CARB has issued an executive order, other than on racing vehicles on closed courses. Check your local laws and manufacturer's information.

Disclaimer: Emission related parts for OEM Non-emission control system equipped motorcycles as well as slip on mufflers that mount downstream of and which do not alter the performance of OEM emission-related devices, are considered legal replacement parts by CARB. More California exhaust information is available a www.arb.ca.gov.

Disclaimer: Aftermarket products, including but not limited to exhausts, fuel, air controllers, air filter kits, camshafts and carburetors and jet kits which alter, modify, or replace emission control devices or systems of an originally compliant highway motorcycle, are not legal for sale or street use in California unless they have been issued a CARB Executive Order. Aftermarket emissions related products which have not been issued an Executive Order or which are not aftermarket Replacement Parts, as defined in Title 13, California Code of Regulations, Section 1900 (b)(2). are authorized for closed circuit race use only. Products shown may be designed, manufactured, intended and sold for closed circuit race use only and use of the same on public roads or lands may be a violation of local, state and/or federal laws. See manufacturer's information and state and local laws to determine what is authorized for your use on your vehicle.

Disclaimer: Products shown may not conform to federal, state or local noise regulations.

Warranty

Disclaimer: There is no warranty on exhaust pipes and mufflers with regard to any discoloration. Discoloration (blueing) is caused by tuning characteristics, i.e. cam timing, carburetor, etc. and is not caused by defective manufacturing.

Disclaimer: Check your applicable laws and manufacturer's publication(s) and/or website(s) for manufacturer's warranty, maintenance, safety, mounting and any regulatory compliance/non-compliance information.

32-1965

Automatic Tune Kit for all HD PC-V Power Commanders plugs directly into the PC-V with a single cable. It includes power connector that plugs into a bike's harness. Rider can specify what air/fuel ratio to make each RPM and throttle position combination. Base settings are included and fully adjustable. Fits 1996-99 FLT.

VT No. 32-1965

EFI POWER COMMANDER V features 2 position map switching function, gear and analog input. Power Commander V also allows each cylinder to be mapped individually and for each gear. This has 10 throttle position columns, and enhanced accel pump utility. Unit has a -100/+250 percent fuel change range and is compatible with 2009 and newer models. Fits 2014-16

VT No. 32-1089

DynoJet Power Vision Flash Tuner offers the latest flash tuning technology and data logging. Includes a full color touch screen flash device, vehicle interface cable, and winPV. Types of tunes that are deliverable to your bike are pre-configured, which are loaded on the device from DynoJet. When using the pre-configured tunes, this device will identify the ECM strategy, stock calibration, and sort the tune files. Custom tunes option can be loaded or emailed to you by a custom tuner, or a copy of your stock tune can be used. The tuner holds any combination of the three types, but up to six tunes. Fits 2002-13 FLT.

VT No. 32-1056

Vance & Hines Fuel Pak is a throttle position sensor based system that simplifies the process of fuel injection tuning. It enables you to fine tune the fuel mixture throughout the entire RPM range. No computer or software is required. Simply punch in the values supplied with the fuel pak. Requires use of high performance air cleaner. Order parts for Softail.

VT No. Fits

32-0292 2002-07 FLT, FLHT, FLHR

32-0294 2008-up FLT, FLHT, FLHR

32-0295 2011-2016 FLT, FLHT, FLHR

Power Commander III USB Engine Management Systems are for fuel injected models and allow for both fuel and ignition adjustments. Each unit includes a specific map, designed to improve performance over stock. The Power Commander includes IBM compatible link cable and software package which allows you to fully map the fuel ignition curves on IBM compatible computers. If a computer is not available, the fuel curves can be adjusted by using three touch buttons on the face plate.
